## PREFACE

All features of previous issues of the Condensed Preliminary Trade Report are continued in the present number. It consists, as before, of two main sections—A Review of Canada's Foreign Trade during the fiscal year just closed (1933-34), and a series of statistical tables ("Condensed Statistical Record of Canadian Trade"), partly summary and historical, but mainly a presentation of the main items of the trade of Canada with the more important countries of the world.

In the first section, the external trade of Canada is examined from several angles and the outstanding features of the year explained in both text and tabular form. This section also contains historical summary of Canada's import and export trade by decades from 1890 to 1930 and the year 1934, distinguishing imports and exports for principal countries and commodities.

All the tables have been revised and expanded to meet altered conditions of trade. Commercial exchange with eighty-six different countries is dealt with in leading commodities.

Throughout the report, figures for the fiscal year ended March 31, 1934, are unrevised; those for earlier years are final.

The "Review of Canada's Foreign Trade for 1933-34," was written by Mr. W. A. Warne, B.A., Chief of the External Trade Branch of the Dominion Bureau of Statistics, while the "Condensed Statistical Record" was compiled by Mr. A. L. Neal, B.A., B.Sc. (econ.), Statistician of the Branch.

R. H. COATS,  
*Dominion Statistician*

DOMINION BUREAU OF STATISTICS,  
OTTAWA, June 16, 1934.

## REVIEW OF CANADA'S FOREIGN TRADE, 1933-34

The fiscal year 1933-34 marked an upward trend in Canada's foreign commerce. The steady decrease in the Dominion's external trade, both import and export, which had its inception in the fall of 1929, was definitely checked in the early months of the fiscal year 1933-34, and for the last nine months (July-March) Canada's trade shows a very marked recovery. This recovery was also noticeable in the trade of many of the chief trading countries of the world.

Canada's trade for the past ten years may be divided into three distinct periods:—(1) 1925-1930, of expanding trade; (2) 1930-1933, of trade depression; and (3) 1934, of improvement. The decline in Canada's import trade, 1930 to 1933, was much greater than in her export trade. The statistics in the following table give the percentages of increase or decrease in Canada's total trade, imports and exports, on a value and volume basis, for the fiscal years 1930-1934. It will be noted that Canada's total trade for 1934 compared with 1933 shows an increase of 15.1 per cent on a value basis, and 12.0 per cent on a volume basis; imports, an increase of 6.7 per cent on a value basis, and 5.9 per cent on a volume basis, while the Dominion's domestic exports show an increase of 22.3 per cent on a value basis, and 17.2 per cent on a volume basis.

### PERCENTAGE OF INCREASE (+) OR DECREASE (—) IN CANADA'S TRADE

**Upward Trend in Canada's Trade with the World, 1934:**—The upward trend in Canada's total trade which began in May 1933, continued during each month from June 1933, to the end of March, 1934. The Dominion's total trade for the period April-March, 1933-34, amounted to \$1,019,452,000, compared with \$887,097,000 for a similar period in 1932-33, representing an increase 1933-34 compared with 1932-33 of \$132,354,000 or 14.9 per cent. For the month of April,

1933, the decrease amounted to 28.7 per cent; in May to 7.7 per cent; in June to only 2.7 per cent; in July, however, Canada's total trade compared with a similar month in 1932 shows an increase of 11.2 per cent; in August, 7.0 per cent; in September, 25.7 per cent; in October 8.3 per cent; in November, 24.0 per cent; in December, 20.7 per cent; in January, 1934, 40.9 per cent; in February, 43.0 per cent; and in March, 1934, compared with March, 1933, an increase of 51.0 per cent. For the period April-March, 1933-34, Canada's total imports amounted to \$433,798,000, compared with \$406,383,000 for the same period in 1932-33, indicating an increase, 1933-34 compared with 1932-33 of \$27,414,000 or 6.7 per cent. From April to June, 1933, the decrease in Canada's imports varied from 17.5 to 31.3 per cent; in July, 1933, however, compared with July of the previous year, the decrease was only 0.04 per cent; but the imports for August show an increase of 6.1 per cent; in September, an increase of 12.2 per cent; in October 10.7 per cent; in November, 15.7 per cent; in December, 22.1 per cent; in January, 1934, 32.5 per cent; in February, 42.9 per cent; and for March, 1934, compared with March, 1933, the increase was 44.1 per cent. Canada's total domestic exports for the period April-March, 1933-34, amounted to \$579,343,000, compared with \$473,801,000 for the same period in 1932-33, representing an increase, 1933-34 compared with 1932-33 of \$105,542,000 or 22.3 per cent. For the month of April, 1933, compared with 1932 the decrease in imports amounted to 25.7 per cent. In May, 1933, however, compared with May, 1932, the increase was 12.6 per cent; in June, 12.5 per cent; in July, 21.3 per cent; in August 8.3 per cent, in September, 37.0 per cent, in October, 6.8 per cent; in November, 31.4 per cent; in December, 19.5 per cent; in January, 1934, 47.8 per cent; in February, 43.4 per cent; and in March, 1934, compared with March, 1933, the increase amounted to 57.6 per cent.

**Upward Trend in Canada's Trade with the British Empire, 1934:**—Canada's trade with Empire countries indicates an upward trend beginning with the month of May, 1933, and continuing during each month of the fiscal year 1934. For the fiscal year 1934, Canada's total trade with the Empire amounted to \$419,450,000, compared with \$343,640,000 in 1933, and \$368,277,000 in 1932, the increase in 1934 compared with 1933 being 22.1 per cent, and with 1932, 13.9 per cent. Imports from Empire countries in 1934 amounted to \$140,404,000, compared with \$120,384,000 in 1933, and \$147,812,000 in 1932, the increase in 1934 compared with 1933 being 16.6 per cent, and compared with 1932 the decrease was 5.0 per cent; while domestic exports to Empire countries in 1934 amounted to \$278,025,000, compared with \$222,119,000 in 1933, and \$218,956,000 in 1932, the increase in 1934 over 1933 being 25.2 per cent, and over 1932, 27.0 per cent. There was a decrease in the total trade in April, 1934 compared with the same month of 1933, of to 9.0 per cent, but from May to the end of March there were increases each month. In May of the fiscal year, 1934, compared with the same month in the previous fiscal year the increase in the total trade was 18.4 per cent, in June, 34.2 per cent, in July, 22.1 per cent, in September, 19.7 per cent, in November, 36.8 per cent, in December, 18.4 per cent, in January, 39.2 per cent, in February, 38.7 per cent, and in March, 49.3 per cent; while for the fiscal year 1934 compared with the fiscal year 1932 the total trade shows decreases in the months of April and May, but increases during the other months of the year, varying from 2.3 per cent to 49.5 per cent. Canada's imports from Empire countries in the fiscal year 1934 compared with the previous fiscal year show increases in each month except for the month of May, the decrease for May being 11.2 per cent. In other months of the year there were notable increases. In June the increase in imports was 17.1 per cent, in August, 23.8 per cent, in September, 24.4 per cent, in October, 18.3 per cent, in November, 16.5 per cent, in December, 17.5 per cent, in January, 33.1 per cent, in February, 45.6 per cent, and in March, 18.1 per cent; while exports of domestic produce to Empire countries show decreases in only three months of the fiscal year 1934 compared with 1933, namely, in the months of April (decrease 16.0 per cent), August (decrease 11.6 per cent), and October (decrease 4.2 per cent); while there were increases in each of the other months. In May, the increase in domestic exports was 41.9 per cent, in June, 46.3 per cent, in July, 31.4 per cent, in September, 17.5 per cent, in November, 48.8 per cent, in December, 18.7 per cent, in January, 42.3 per cent, in February, 34.6 per cent, and in March, 69.4 per cent. For the fiscal year 1934 compared with 1932, there were decreases in the exports in only three months of the year, and increases in the other remaining months, the decreases ranging from 1.8 per cent to 13.5 per cent, while the increases ranged from 17.5 per cent to 106.1 per cent.

**Upward Trend in Canada's Trade with Foreign Countries, 1934:**—Canada's trade with foreign countries indicates an upward trend beginning with the month of July and continuing during each month of the fiscal year 1934. The increases, however, are not so marked as in the case of the British Empire. For the fiscal year 1934, Canada's total trade with foreign countries amounted to \$599,982,000, compared with \$543,457,000 in 1933, and \$797,793,000 in 1932, the increase in 1934 compared with 1933 being 10·4 per cent, but compared with 1932 the decrease was 24·8 per cent. Canada's imports from foreign countries in the fiscal year 1934 amounted to \$293,395,000, compared with \$285,999,000 in 1933, and \$430,692,000 in 1932. The increase in the fiscal year 1934 compared with 1933 amounted to 2·6 per cent, but compared with the fiscal year 1932 the decrease was 31·9 per cent; while domestic exports in the fiscal year 1934 amounted to \$301,318,000, compared with \$251,681,000 in 1933, and \$357,388,000 in 1932, the increase in 1934 compared with 1933 being 19·7 per cent, but compared with the fiscal year 1932 the decrease was 15·7 per cent. Canada's total trade with foreign countries shows a decrease for the months of April, May and June of the fiscal year 1934 compared with similar months in 1933, but there was an increase in each month from July to March in the fiscal year 1934 compared with similar months in the fiscal year 1933. In April the decrease was 36·3 per cent, in May, 20·0 per cent, and in June, 18·8 per cent; while the increase in the exports ranged from 4·4 per cent in July, 1933, to 52·2 per cent in March, 1934. Canada's imports from foreign countries show decreases for the first five months of the fiscal year 1934 compared with a similar period in 1933, while there were increases in the other months of the fiscal year 1934. Decreases in the imports, fiscal year 1934 compared with 1933, ranged from 1·6 per cent to 40·4 per cent, while increases ranged from 6·8 per cent in September, 1933 to 57·4 per cent in March, 1934; whereas decreases occurred in the exports in April, May and June of the fiscal year 1934 compared with similar months of the fiscal year 1933, and increases in subsequent months of the fiscal year 1934. Decreases in exports ranged from 5·1 to 30·9 per cent, while increases ranged from 12·9 per cent in July, 1933 to 47·1 per cent in March, 1934. In September, 1933, the increase amounted to 59·9 per cent, in January, to 53·0 per cent, and in February, to 51·5 per cent

**Value and Volume of Canada's Trade, 1934:**—A preliminary compilation has been made comparing the value and volume of Canada's trade for the fiscal year 1934 with that for 1933. The results are set forth in the following table. The declared values by main groups are shown for 1933 and 1934, together with the values obtained by revaluing the quantities of 1934 at the average import and export prices prevailing in 1933. This eliminates the element of price fluctuations and permits a comparison of the volume of trade in the two years. It will be noted that the declared value of imports increased from \$406,384,000 in 1933 to \$433,799,000 in 1934, an increase of \$27,415,000 or 6.7 per cent. If prices had not increased from the 1933 level, the value of imports in 1934 would have amounted to \$430,413,000, the increase in volume amounting to \$24,029,000 or 5.9 per cent. The declared value of exports increased from \$473,800,000 in 1933 to \$579,343,000 in 1934, representing an increase of \$105,543,000 or 22.3 per cent. If prices had remained as they were in 1933, the exports in 1934 would have been worth \$555,426,000, being an increase in volume of \$81,626,000, or 17.7 per cent.

The statistics in the following table show the percentages of increase or decrease in the value and volume of Canada's imports and exports by main groups for each of the fiscal years 1932, 1933 and 1934, as compared with the years 1931, 1932 and 1933, respectively. It will be observed that the declining tendency of recent years has been reversed in the case of both imports and exports, which show increases in both the value and volume for 1934 over 1933, as contrasted with decreases in the previous years. The increase in exports is largely due to expansion in the volume of exports. Imports, also, in 1934 compared with 1933, show an increase but on a smaller scale than the increase in exports. It will be noted that the increase in imports in 1934 compared with 1933 was largely, as in the case of exports, a matter of increase in volume.

## CANADA'S PERCENTAGES OF INCREASE OR DECREASE IN IMPORTS AND EXPORTS BY MAIN GROUPS ON A VALUE AND VOLUME BASIS

(Fiscal Year 1932 compared with 1931, 1933 with 1932 and 1934 with 1933)

**Comparison Canada, United Kingdom and United States Trade, 1934:**—In comparison with the trade of the United Kingdom and the United States for the fiscal year ended March 31, 1934, compared with similar period in 1933, Canada's trade during this interval has not made as great a recovery as that of the United Kingdom, or even of the United States, though in exports she has made a better recovery than the United States. In import trade, 1934 compared with 1933, Canada shows an increase of 6·7 per cent; the United Kingdom 27·3 per cent; and the United States 19·7 per cent; while Canada in domestic exports shows an increase of 22·3 per cent; the United Kingdom 25·0 per cent; and the United States 16·4 per cent. The statistics in the following table illustrate this:—

TRADE OF CANADA, THE UNITED KINGDOM, AND THE UNITED STATES  
(Years ended March 31, 1933 and 1934)

**Canada's Position in World Trade, 1933:**—In 1932 Canada, in world trade, occupied seventh (7) place in total trade, ninth (9) place in imports, and fifth (5) place in exports. In the calendar year 1933 there have been some notable changes in the relative position of certain chief trading countries of the world. The United Kingdom has moved from third (3) position in 1932 up to second (2) position in 1933 in the value of exports, displacing Germany, while Canada has moved from fifth (5) place in 1932 down to sixth (6) place in 1933, being displaced by Belgium. For the calendar year 1933 Belgian exports exceeded those for Canada by only \$10,000,000, while for the period July-December, 1933, the exports from Canada amounted to \$325,400,000 compared with a similar trade for Belgium of \$297,700,000, so that during this period Canada occupied fifth (5) position in export trade. In import trade Canada moved from ninth (9) place down to eleventh (11) place, yielding up ninth (9) place to Switzerland and tenth (10) place to British India; while in total trade she moved from seventh (7) place in 1932 down to ninth (9) place in 1933, Japan moving from eighth (8) place up to seventh (7), and Italy from ninth (9) place into eighth (8) place.

**Upward Trend in World Trade, 1933:**—The statistics in the following table showing "Net Imports and Domestic Exports of Thirty-Five Leading Countries of the World, Calendar Year 1933 Compared with 1932", indicate an upward trend in world trade in 1933. Of the thirty-five (35) principal countries mentioned in the table, twenty-five (25) show increases in imports, and thirty (30) in exports. It will be observed that Canada, in percentage of increase or decrease in her trade amongst the thirty-five (35) trading countries, occupied thirtieth (30) place in imports, and twenty-third (23) place in exports; while in percentage relation of her exports to imports with the thirty-five (35) countries, she occupied sixth (6) position in 1933 compared with eleventh (11) position in 1932. The five countries to have a higher percentage relation of export to imports than Canada in 1933 were: Australia, Chile, New Zealand, Peru and Union of South Africa; and in 1932 the ten (10) countries were: Argentina, Australia, Brazil, Chile, Finland, Germany, New Zealand, Peru, Union of South Africa, and the United States.

TABLE SHOWING NET IMPORTS AND DOMESTIC EXPORTS OF THIRTY-FIVE LEADING TRADING COUNTRIES OF THE WORLD, CALENDAR YEAR 1933 COMPARED WITH 1932, WITH PERCENTAGE OF INCREASE OR DECREASE, 1933 COMPARED WITH 1932, AND PERCENTAGE RELATION OF EXPORTS TO IMPORTS, 1932 AND 1933

### CANADA'S TRADE WITH THE WORLD, 1934

(a) **Analysis of Canada's Total Trade:**—The foreign trade of Canada during the year ended March 31, 1934 was valued at \$1,019,453,094, compared with a similar trade in 1933 amounting to \$887,097,541, and in 1932 to \$1,166,069,421, showing an increase in 1934 compared with 1933 of \$132,355,553 or 14.9 per cent, and with 1932 a decrease of \$146,616,327 or 12.6 per cent. Imports as well as exports show an increase in 1934 compared with the year 1933, the increase in imports amounting to \$27,414,881 or 6.7 per cent, and in exports to \$104,940,672 or 21.8 per cent. During 1934 imports amounted to \$433,798,625, compared with an import trade in 1933 valued at \$406,383,744, and in 1932 at \$578,503,904; the increase in imports in 1934 compared with 1933 amounting to \$27,414,881 or 6.7 per cent, and compared with 1932 the decrease

was \$144,705,279 or 25.0 per cent; while the exports (domestic and foreign combined) during the year 1934 were valued at \$585,654,469, compared with a similar trade in 1933 valued at \$480,713,797, and in 1932 at \$587,565,517, the increase in 1934 compared with 1933 amounting to \$104,940,672 or 21.8 per cent, and with 1932 the decrease was \$1,911,048 or 0.3 per cent. During the fiscal year 1934 Canada's domestic exports were valued at \$579,343,145; in 1933 at \$473,799,955; and in 1932 at \$576,344,302; the increase in 1934 over 1933 amounting to \$105,543,190 or 22.3 per cent, and over 1932 to \$2,998,843 or 0.5 per cent.

For the fiscal year ended March 31, 1934, Canada's trade balance was favourable to the extent of \$151,855,844, compared with a favourable balance in 1933 of \$74,330,053, and in 1932 of \$9,061,613. The improvement in Canada's trade balance in 1934 compared with 1933 amounted to \$77,525,791, and with 1932 to \$142,794,231. If the trade in merchandise and coin and bullion are added together the trade balance with the world in the fiscal year 1934 was favourable to the extent of \$218,720,388, compared with a favourable balance in 1933 of \$130,883,312, and in 1932 of \$75,101,389.

(b) **Analysis of Canada's Trade by Main Groups, 1934:**—The increase in the imports into Canada, 1934 compared with 1933 amounting to \$27,414,881 or 6.7 per cent, occurred in six (6) of the nine (9) main groups, while the increase in the Dominion's domestic exports amounting to \$105,543,190 or 22.3 per cent, occurred in each of the nine (9) main groups. The total value of each of the nine (9) main groups of imports, arranged in order of importance, with increase or decrease, 1934, compared with 1933, was:—(1) Agricultural and Vegetable Products, \$90,828,810, increase \$2,539,844 or 2.9 per cent; (2) Non-Metallic Minerals and Products, \$83,396,761, decrease \$4,261,244 or 4.9 per cent; (3) Fibres, Textiles and Textile Products, \$79,372,470, increase \$18,157,646 or 29.7 per cent; (4) Iron and Its Products, \$69,126,641, increase \$10,208,807 or 17.3 per cent; (5) Miscellaneous Commodities, \$26,119,404, decrease \$4,689,107 or 15.2 per cent; (6) Chemicals and Allied Products, \$25,583,675, increase \$128,243 or 0.5 per cent; (7) Non-Ferrous Metals and Products, \$20,171,000, increase \$2,075,596 or 11.5 per cent; (8) Animals and Animal Products, \$19,841,877, increase \$4,403,243 or 28.5 per cent; and (9) Wood, Wood Products and Paper, \$19,357,987, decrease \$1,148,147 or 5.6 per cent.

The total value of each of the nine (9) main groups of domestic exports, arranged in order of importance, with increase, 1934, compared with 1933, was:—(1) Agricultural and Vegetable Products, \$205,804,526, increase \$2,434,108 or 1.2 per cent; (2) Wood, Wood Products and Paper, \$143,142,398, increase \$22,255,602 or 18.4 per cent; (3) Non-Ferrous Metals and Products, \$81,764,208, increase \$39,121,890 or 91.7 per cent; (4) Animals and Animal Products, \$75,151,480, increase \$20,818,433 or 38.3 per cent; (5) Iron and Its Products, \$26,641,482, increase \$9,364,383 or 54.2 per cent; (6) Non-Metallic Minerals and Products, \$14,808,912, increase \$5,593,075 or 60.7 per cent; (7) Chemicals and Allied Products, \$13,843,829, increase \$2,744,015 or 24.7 per cent; (8) Miscellaneous Commodities, \$10,357,626, increase \$114,094 or 1.1 per cent; and (9) Fibres, Textiles and Textile Products, \$7,828,684, increase \$3,097,590 or 65.5 per cent.

For further details of Canada's commodity imports and exports, with increases or decreases, 1934 compared with 1933, see statistics in the following table:—

## CANADA'S PRINCIPAL IMPORTS FROM AND EXPORTS TO THE WORLD

(Year ended March 31, 1934 compared with 1933)

## GROUP 1—AGRICULTURAL AND VEGETABLE PRODUCTS

Commodity Imported	Imports 1934	Increase (+) Decrease (—)	Commodity Exported	Exports 1934	Increase (+) Decrease (—)

## CANADA'S TRADE WITH THE UNITED KINGDOM, 1934

(a) **Analysis of Canada's Total Trade with the United Kingdom:**—The total trade of Canada with the United Kingdom during the year ended March 31, 1934, was valued at \$333,-394,302, compared with a similar trade in 1933 valued at \$271,599,252, and in 1932 at \$281,-334,603, the increase in 1934 compared with 1933 amounting to \$61,795,050 or 22·8 per cent, and compared with 1932 the increase was \$52,059,699 or 18·5 per cent. Imports in 1934 show an increase of \$18,634,709 or 21·5 per cent compared with 1933, while exports show an increase of \$43,160,341 or 23·3 per cent. Imports from the United Kingdom in 1934 were valued at \$105,-100,764, in 1933 at \$86,466,055, and in 1932 at \$106,371,779, the increase in 1934 compared with 1933 amounting to \$18,634,709 or 21·5 per cent, and compared with 1932 the decrease amounted to \$1,271,015 or 1·2 per cent; while total exports from Canada to the United Kingdom in 1934 were valued at \$228,293,538, in 1933 at \$185,133,197, and in 1932 at \$174,962,824, the increase in 1934 compared with 1933 amounting to \$43,160,341 or 23·3 per cent, and compared with 1932 the increase was \$53,330,714 or 30·5 per cent. The domestic exports to the United Kingdom in 1934 amounted to \$227,592,838, in 1933 to \$184,361,019, and in 1932 to \$174,043,725, the increase in 1934 compared with 1933 amounting to \$43,231,819 or 23·5 per cent, and compared with 1932 to \$53,549,113 or 30·8 per cent.

For the fiscal year ended March 31, 1934, Canada's trade balance with the United Kingdom was favourable to the extent of \$123,192,774, compared with \$98,667,142 in 1933, and with \$68,591,045 in 1932; the improvement in Canada's trade balance with the United Kingdom in 1934 compared with 1933 amounting to \$24,525,632, and compared with 1932 to \$54,601,729. If the trade in merchandise and coin and bullion are combined, the favourable balance with the United Kingdom amounted to \$174,697,311 in 1934, compared with a favourable balance in 1933 of \$98,648,400, and in 1932 of \$68,578,550.

(b) **Discrepancy in Canada-United Kingdom Trade:**—Imports into Canada from the United Kingdom should ordinarily agree fairly well with the corresponding export figures from the United Kingdom to Canada, the value of merchandise imported into Canada from the United Kingdom being the fair market value or price thereof at the time when the same is exported directly to Canada, while the value of merchandise exported from the United Kingdom to Canada is the f.o.b. value. There is, however, a considerable discrepancy between the two sets of figures (the discrepancy being in favour of Canada) chiefly in the trade in distilled spirits. The Canadian value of distilled spirits imported from the United Kingdom is in excess of the United Kingdom export value to Canada, due to the fact that since about 1920 the Canadian value not only includes the United Kingdom declared export value but the British excise tax as well. From 1921 to 1933 (calendar years) the Canadian imports of distilled spirits from the United Kingdom and the exports from the United Kingdom to Canada, year by year, vary somewhat in the quantity and materially in the value. The variation in the quantity is probably due to the fact that the distilled spirits may not be taken out of the Customs warehouse by the importer for some time subsequent to importation. From 1920 to 1933 Canada's imports of distilled spirits from the United Kingdom amounted to 17,121,703 proof gallons, valued at \$326,228,283, while the United Kingdom exports to Canada totalled 17,314,420 proof gallons, valued at \$109,502,338, a slight discrepancy in the quantity but a very considerable discrepancy in the value over a period of years. For the year 1920 the total value of imports into Canada from the United Kingdom, as well as the imports of distilled spirits, agree fairly well with the total exports and exports of distilled spirits from the United Kingdom to Canada. The statistics in the following table illustrate this feature.

UNITED KINGDOM'S TOTAL EXPORTS AND EXPORTS OF DISTILLED SPIRITS TO CANADA CONTRASTED WITH CANADA'S TOTAL IMPORTS AND IMPORTS OF DISTILLED SPIRITS FROM THE UNITED KINGDOM

(Calendar Years, 1920 to 1933)

Calendar Years	Total Exports from United Kingdom to Canada	Total Imports into Canada from United Kingdom	Exports of Distilled Spirits from United Kingdom to Canada		Imports of Distilled Spirits into Canada from United Kingdom

(a) Domestic exports only.

NOTE.—Value of Exports from the United Kingdom to Canada converted into Canadian currency at par of exchange (\$4.8666).

There is a very marked discrepancy, however, between Canada's exports to the United Kingdom and the United Kingdom imports from Canada, though the discrepancies for 1931 and especially for 1932 and 1933 were not so pronounced as in former years, due no doubt to a much smaller quantity of products, especially wheat, being shipped to the United Kingdom via the United States in these years. (For the fiscal year 1934 these shipments amounted to \$30,674,215, compared with \$217,590,205 in 1929).

EXPORTS FROM CANADA TO THE UNITED KINGDOM CONTRASTED WITH UNITED KINGDOM IMPORTS FROM CANADA

	Years ended December 31—

Exports from Canada to United Kingdom.....	\$ 291,831,471	\$ 236,527,017	\$ 172,597,542	\$ 179,094,627	\$ 211,306,037
Imports into United Kingdom from Canada.....	224,353,697	185,644,236	153,976,090	170,973,643	210,859,790

Canada's declared exports to the United Kingdom do not represent the actual amount of Canadian products received by the United Kingdom from Canada, the British imports being much less than the Canadian exports prior to 1933. The discrepancy is due in large measure to diversion of Canadian grain, especially wheat, from its original destination, the United Kingdom, to other destinations, chiefly continental Europe. This diversion takes place, principally in the movement of Canadian products to the United Kingdom via the United States. If an adjustment is made for this diversion, the revised exports to the United Kingdom would be less and those to continental Europe greater than the declared exports.

In the following table the more important statistics bearing on the imports of wheat into the United Kingdom from principal exporting countries, and especially from Empire countries are assembled.

In the first section of this table are shown total imports of wheat into the United Kingdom for the calendar years 1924 to 1933, with imports from the British Empire and foreign countries respectively, based on the United Kingdom trade returns. The imports from Canada are also shown for the reason that their accuracy has been questioned owing to the possibility of confusion between Canadian and United States wheat in the recording of imports into United Kingdom from North America. The imports of wheat from other principal countries are also shown in this section.

In remaining sections of the table certain figures bearing on the wheat problem are quoted. First, imports of wheat into the United Kingdom from the United States (taken from British trade returns) are shown in juxtaposition to the exports of wheat from the United States to the United Kingdom (taken from the trade returns of the United States). The excess of the former of these figures over the latter represents a possible error in the United Kingdom import figures, the United Kingdom crediting the United States with certain wheat of Canadian origin which is shipped via United States.

In the third section of the table, the exports of United States wheat via Canada are shown as indicating the extent of a possible over-statement in the United Kingdom returns of imports from Canada. Inasmuch, however, as Canadian records show for the years 1929 to 1931 that on an average about 15 per cent of United States wheat shipped via Canada to overseas countries is destined to the United Kingdom, estimated figures on this basis are inserted for the years 1924 to 1928, those for 1929 to 1933 being the actual record.

In the final section of the table a recalculated or adjusted figure of imports of wheat into United Kingdom, segregated on the above basis, is shown, indicating the approximate amount received from the British Empire, foreign countries and Canada, 1924 to 1933, and the percentage which these consist of total imports of wheat into the United Kingdom.

On the basis of adjusted imports of wheat into the United Kingdom, based on United Kingdom records it will be noted that the average percentage of wheat imported into the United Kingdom from the British Empire of the total imports of wheat for the ten years, 1924 to 1933, was 57.86 compared with 52.70 for British imports. Inasmuch as for the year 1929 and part of 1930 and 1931, the Canadian exports of wheat, due to restricted marketing policy and the depressed condition of the wheat market, were somewhat curtailed in these years, the average percentage from the British Empire for the years 1924 to 1928, and the years 1932 and 1933, would probably be a fairer indication of the amount of wheat imported into the United Kingdom from the British Empire, the average percentage for these years being 63.12, compared with 55.41 for British imports. This adjusted average percentage is a minimum one as there is a possibility that some of the wheat exported from the United States to the United Kingdom may have been diverted on the high seas to other destinations, thereby augmenting the percentage from Canada and the Empire.

(a) Excess United States exports of wheat over United Kingdom imports.

NOTE.—The adjusted figures of wheat imports into United Kingdom from Empire and foreign countries and from Canada, 1924 to 1933, have been computed by adding the difference between the excess of United Kingdom imports of wheat from United States, and United States exports to United Kingdom (Canadian wheat) and the amount of United States wheat shipped to United Kingdom via Canada, to the United Kingdom imports from Empire countries and Canada, and deducting the same amount from United Kingdom imports from foreign countries. That the difference between United Kingdom wheat imports from the United States and United States wheat exports to the United Kingdom represents Canadian wheat is borne out by a special compilation made by the United Kingdom showing imports of wheat into the United Kingdom: (1) by Country of Origin; (2) Country of Purchase; and (3) Country of Consignment, for the year 1931. In this year, the only year for which statistics are available on this basis, the difference between imports of wheat from Canada based on (1) Origin, and (2) Consignment (6,246,000 bushels) approximately agrees with the difference between United Kingdom wheat imports from the United States and United States wheat exports to the United Kingdom (6,983,000 bushels).

(c) **Canada's Monthly Trade Trends with the United Kingdom:**—Canada's trade with the United Kingdom, shows an upward trend for nine months of the fiscal year 1934 compared with the same months in 1933. For the fiscal year 1934 compared with 1933 the total trade with the United Kingdom increased from \$271,599,000 to \$333,381,000 or 22·8 per cent; imports from, from \$86,466,000 to \$105,101,000 or 21·5 per cent; while domestic exports to the United Kingdom increased from \$184,361,000 to \$227,601,000, or 23·5 per cent. In total trade the months to show decreases for the fiscal year 1934 compared with 1933, were:—April (decrease 8·9 per cent); August (decrease 2·2 per cent); and October (decrease 0·7 per cent); while there were marked increases for the other months of the fiscal year 1934, for June, 39·9 per cent; July, 28·1 per cent; November, 38·6 per cent; January, 39·3 per cent; February, 35·0 per cent; and for March, 54·0 per cent. In imports, however, from the United Kingdom, there was a decrease only in one month of the fiscal year 1934 compared with the fiscal year 1933, namely for May (decrease 7·0 per cent); while there were remarkable increases for each of the other months of the fiscal year 1934, the increase for August amounting to 33·8 per cent; September, 25·5 per cent; October, 25·8 per cent; January, 38·6 per cent; February, 41·1 per cent; and March, 39·0 per cent; while in exports to the United Kingdom there were decreases registered in 1934 compared with 1933 for the months of April (decrease 17·9 per cent); August (decrease 17·5 per cent); and October (decrease 8·8 per cent); whereas there were large increases in the other months of the year, viz.: in May, 46·9 per cent; June, 58·1 per cent; July, 33·0 per cent; November, 50·1 per cent; January, 39·7 per cent; February, 31·3 per cent; and March, 61·5 per cent.

(d) **Analysis of Canada's Commodity Trade with the United Kingdom:**—The increase in the imports from the United Kingdom, fiscal year 1934 compared with 1933, amounting to \$18,634,709 or 21.5 per cent, occurred in six (6) of the nine (9) main groups. Imports under the main groups of Wood, Wood Products and Paper, Non-Ferrous Metals and Their Products and Miscellaneous Commodities, show decreases; whereas the increase in the domestic exports amounting to \$43,231,819 or 23.4 per cent, 1934 compared with 1933, occurred in six (6) of the nine (9) main groups. The main groups of Agricultural and Vegetable Products, Iron and Its Products, and Miscellaneous Commodities, show decreases. The total value of each of the nine (9) main groups of imports from the United Kingdom, arranged in order of importance, with increase or decrease, 1934 compared with 1933, was:—(1) Fibres, Textiles and Textile Products, \$35,123,319, increase \$9,543,124 or 37.3 per cent; (2) Agricultural and Vegetable Products, \$20,341,396, increase \$2,953,464 or 17.0 per cent; (3) Iron and Its Products, \$16,711,935, increase \$4,715,393 or 39.3 per cent; (4) Non-Metallic Minerals and Their Products, \$13,229,645, increase \$647,480 or 5.1 per cent; (5) Chemicals and Allied Products, \$5,662,584, increase \$1,079,240 or 23.5 per cent; (6) Miscellaneous Commodities, \$4,717,973, decrease \$499,119 or 9.6 per cent; (7) Wood, Wood Products and Paper, \$3,243,905, decrease \$154,325 or 4.5 per cent; (8) Animals and Animal Products, \$3,102,972, increase \$696,965 or 29.0 per cent; and (9) Non-Ferrous Metals and Their Products, \$2,967,035, decrease \$347,513 or 10.5 per cent.

The total value of each of the nine main groups of domestic exports to the United Kingdom, arranged in order of importance, with increase or decrease, 1934 compared with 1933, was:—(1) Agricultural and Vegetable Products, \$112,497,846, decrease \$1,703,406 or 1.5 per cent; (2) Animals and Animal Products, \$44,707,074, increase \$14,754,426 or 49.3 per cent; (3) Non-Ferrous Metals and Their Products, \$35,827,707 increase \$21,229,056 or 145.4 per cent; (4) Wood, Wood Products and Paper, \$20,401,784, increase \$9,099,988 or 80.5 per cent; (5) Iron and Its Products, \$5,237,085, decrease \$337,810 or 6.1 per cent; (6) Chemicals and Allied Products \$3,130,678, increase \$237,104 or 8.2 per cent; (7) Fibres, Textiles and Textile Products, \$1,949,624, increase \$655,645 or 50.7 per cent; (8) Miscellaneous Commodities, \$1,943,355, decrease \$1,310,814 or 40.3 per cent; and (9) Non-Metallic Minerals and Their Products, \$1,897,685, increase \$607,630 or 47.1 per cent.

For further details respecting Canada's commodity imports from and exports to the United Kingdom, with increase or decrease, 1934 compared with 1933, see statistics in the following table:—

## TRADE OF CANADA WITH THE UNITED STATES, 1934

(a) **Analysis of Canada's Total Trade with the United States:**—Canada's total trade with the United States for the fiscal year 1934 was valued at \$437,545,769, compared with a similar trade in 1933 valued at \$381,077,886, and in 1932 at \$596,037,639, the increase in 1934 compared with 1933 amounting to \$56,467,883 or 14.8 per cent, but compared with 1932 the decrease amounted to \$158,491,870 or 26.6 per cent. Imports in 1934 compared with 1933 show an increase of \$5,639,626 or 2.4 per cent, and exports an increase of \$50,828,257 or 34.2 per cent. Imports from the United States in 1934 were valued at \$238,187,681, in 1933 at \$232,548,055, and in 1932 at \$351,686,775, the increase in 1934 compared with 1933 amounting to \$5,639,626 or 2.4 per cent, but compared with 1932 the decrease was \$113,499,094 or 32.3 per cent; while the total exports to the United States in 1934 amounted to \$199,358,088, in 1933 to \$148,529,831, and in 1932 to \$244,350,864, the increase in 1934 compared with 1933 amounting to \$50,828,257 or 34.2 per cent, and compared with 1932 the decrease was \$44,992,776 or 18.4 per cent. The domestic exports to the United States in 1934 amounted to \$194,450,295, in 1933 to \$143,160,400, and in 1932 to \$235,186,674, the increase in 1934 compared with 1933 amounting to \$51,289,895 or 35.8 per cent, but compared with 1932 the decrease was \$40,736,379 or 17.3 per cent. The trade balance with the United States has been unfavourable to Canada each year since 1882. For the year ended March 31, 1934, Canada's unfavourable trade balance with the United States totalled \$38,829,593, being less than for any fiscal year since 1901 (when it was \$36,971,065). In 1929 the unfavourable trade balance with the United States amounted to \$346,745,142, in 1930 to \$310,753,856, in 1931 to \$220,483,994, in 1932 to \$107,335,911 and in 1933 to \$84,018,224. The improvement in Canada's unfavourable trade balance with the United States in 1934 compared with 1933 was \$45,188,631, and compared with the year 1932 it was \$68,506,318. If, however, the trade in merchandise and coin and bullion are combined, the trade balance with the United States was unfavourable in 1934 to the extent of \$23,461,548, compared with an unfavourable balance in 1933 of \$27,443,575, and in 1932 of \$43,314,645.

(b) **Discrepancy in Canada-United States Trade Figures:**—In considering the discrepancy between Canada's trade with the United States and the United States trade with Canada, many factors must be noted in arriving at a satisfactory explanation. In the United States, Alaska, Hawaii and Puerto Rico are considered as United States territory for trade and other purposes, while in Canada they are considered as separate entities, and consequently, adjustments must be made in the trade statistics of the two countries to bring them to a common basis. In the United States, also, raw gold, silver ore and silver bullion are not included in the general trade figures, whereas in Canada these non-ferrous metals are included, consequently an adjustment must be made in respect to these metals. When these adjustments are made in the exports from Canada to the United States, there is still a discrepancy in the movement of products from Canada to the United States, as recorded in the trade figures of the two countries amounting to less than 2 per cent in 1928 and 1929, about 3.7 per cent in 1930, and 6 per cent in 1931, 1932 and 1933, as indicated in the following table:—

## MOVEMENT OF GOODS FROM CANADA TO THE UNITED STATES

(Calendar Years, 1928 to 1933)

Calendar Years	Imports into United States from Canada	Exports from Canada to United States (c)	Discrepancy: In favour of Canada (a) In favour of United States (b)
	\$	\$	\$
1928.....	489,300,000	497,200,000	(a) 7,900,000
1929.....	504,300,000	512,100,000	(a) 7,800,000
1930.....	402,300,000	386,600,000	(b) 15,700,000
1931.....	266,300,000	248,500,000	(b) 17,800,000
1932.....	174,100,000	164,000,000	(b) 10,100,000
1933.....	185,100,000	171,300,000	(b) 13,800,000

(c) Canadian figures adjusted by adding to the exports to United States, exports to Alaska, Hawaii and Puerto Rico, and deducting exports of raw gold, silver ore and silver bullion.

With reference to the above discrepancy, it may be of interest to point out (1) that in the years 1928 to 1930 Canada exported large quantities of alcoholic beverages to the United States, while the United States in these years, recorded no imports of alcoholic beverages from Canada; and (2) that from 1928 to 1933 the United States wheat imports from Canada were much in excess of Canada's wheat exports to the United States, due to the fact that large quantities of wheat shipped to overseas countries via the United States were diverted to the United States, this diverted wheat being credited to Canada in United States trade statistics, though Canada had no export record of such diversions. If these differences in the years 1930, 1931, 1932 and 1933 are taken into account, it will be found that the discrepancy in the foregoing table in favour of the United States, in 1930 would be reduced by about \$4,000,000; in 1931 by \$7,000,000; in 1932 by about \$5,000,000; and in 1933 by about \$5,700,000.

There is, however, a considerable discrepancy between the Canadian imports from the United States and United States exports to Canada, even when adjustments are made in Canada's imports. This is largely due to United States recording in their exports to Canada, grains, mainly wheat, which are only in transit via Canada to overseas countries. The United States Department of Commerce is aware that a large percentage of the exports shown as shipped to Canada are really only in transit to overseas countries via Canada. On pages 31 and 32 of Trade Information Bulletin No. 602 re "Foreign Trade of the United States, 1928" the Bulletin states that "the figures of trade by continents as originally published are somewhat misleading in the case of exports to North America and to Europe. This is due to the fact that especially during recent years, large quantities of grain have been shipped through Canada to foreign countries almost exclusively to Europe, which, because the exporter at the time of shipment does not know the final destination, are credited to Canada". Such shipments do not appear in the import or export trade of Canada, being considered as in transit trade. The amount of these grain shipments to Canada has varied in recent years, in 1928 amounting to \$82,800,000, and in 1933 to \$2,300,000. It will appear from the statistics in the following table that when these grain shipments are eliminated from the United States exports to Canada, the revised United States exports to Canada and Canada's adjusted imports from the United States agree fairly well, except for the year 1932. In fact, the discrepancy between the two sets of figures is less than 4 per cent, except for the year 1932.

MOVEMENT OF GOODS FROM THE UNITED STATES TO CANADA  
(Calendar Years, 1928 to 1933)

Calendar Years	Total Unrevised Exports from United States to Canada	Less United States Exports of Grains to Canada	Total Revised Exports from United States to Canada	Canada's Adjusted Imports from United States (c)	Discrepancy: In favour of Canada (a) In favour of United States (b)
	\$	\$	\$	\$	\$
1928.....	914,700,000	82,800,000	831,900,000	825,100,000	(b) 6,800,000
1929.....	948,500,000	49,400,000	899,100,000	893,200,000	(b) 5,900,000
1930.....	659,100,000	15,100,000	644,000,000	653,500,000	(a) 9,500,000
1931.....	396,300,000	10,600,000	385,700,000	393,700,000	(a) 8,000,000
1932.....	241,400,000	4,000,000	237,400,000	263,100,000	(a) 25,700,000
1933.....	210,600,000	2,300,000	208,300,000	216,800,000	(a) 8,500,000

(c) Canadian figures adjusted by adding to the imports from United States, imports from Alaska, Hawaii and Puerto Rico and deducting imports of silver bullion.

(c) **Canada's Monthly Trade Trends with the United States:**—The upward trend in Canada's trade with the United States, which began in July, 1933, continued during each of the subsequent months of the fiscal year 1933-34. For the fiscal year 1934 compared with 1933, the total trade with the United States increased from \$381,077,000 to \$437,546,000 or 14.8 per cent. Imports from the United States increased from \$232,548,000 to \$238,188,000 or 2.4 per cent, while domestic exports to the United States increased from \$143,160,000 to \$194,450,000 or 35.8 per cent. In total trade the only months to show decreases for the fiscal year 1934 compared with 1933 were:—April (decrease 36.6 per cent); May (decrease 19.4 per cent); June (decrease 15.5 per cent); while there were marked increases for the other months of the fiscal year 1934, notably for September (increase 24.8 per cent); December (increase 39.2 per cent); January (increase 51.2 per cent); February (increase 51.1 per cent); and March (increase 69.7 per cent). In imports, however, from the United States there were decreases for six months of the fiscal year 1934 compared with similar months in 1933, and six months which show increases. The notable

decreases occurred in the months of April (decrease 40·3 per cent); May (decrease 28·5 per cent); and June (decrease 21·7 per cent); while notable increases occurred in the months of December (increase 21·2 per cent); January (increase 30·6 per cent); February (increase 41·9 per cent); and March (increase 57·0 per cent); while in domestic exports to the United States there were decreases in the first three months of the fiscal year 1934 compared with similar months in the fiscal year 1933. The most notable decrease was in the month of April (decrease 30·6 per cent); while there were notable increases in each month of the fiscal year 1934, beginning with July. Some of the most notable increases were:—July, 39·0 per cent; August, 45·0 per cent; September, 67·3 per cent; October, 36·3 per cent; December, 68·0 per cent; January, 83·0 per cent; February, 66·9 per cent; and March, 94·6 per cent.

CANADA'S MONTHLY TRADE TRENDS WITH THE UNITED STATES, APRIL-MARCH, 1931-32, 1932-33 AND 1933-34

(d) **Analysis of Canada's Commodity Trade with the United States:**—The increase in the imports from the United States for the fiscal year 1934 compared with 1933 amounting to \$5,639,626 or 2·4 per cent, occurred in five (5) of the nine (9) main groups, while the increase in the exports of domestic merchandise amounting to \$51,289,895 or 35·8 per cent, occurred in each of the nine main groups. The total value of each of the nine (9) main groups of imports, arranged in order of importance, with increase or decrease, 1934 compared with 1933, was:—(1) Non-Metallic Minerals and Their Products, \$58,923,311, decrease \$3,998,675 or 6·4 per cent; (2) Iron and Its Products, \$49,098,932, increase \$5,164,822 or 11·8 per cent; (3) Agricultural and Vegetable Products, \$30,987,789, increase \$775,505 or 2·6 per cent; (4) Fibres, Textiles and Textile Products, \$28,553,731, increase \$6,074,709 or 27·0 per cent; (5) Miscellaneous Commodities, \$16,982,841, decrease \$3,932,454 or 18·8 per cent; (6) Wood, Wood Products and Paper,

\$14,547,027, decrease \$557,575 or 3.7 per cent; (7) Chemicals and Allied Products, \$14,492,071, decrease \$973,349 or 6.3 per cent; (8) Non-Ferrous Metals and Their Products, \$14,142,239, increase \$1,201,377 or 9.3 per cent; and (9) Animals and Animal Products, \$10,459,740, increase \$1,885,266 or 22.0 per cent.

The total value of each of the nine (9) main groups of domestic exports, arranged in order of importance, with increase, 1934 compared with 1933, was:—(1) Wood, Wood Products and Paper, \$102,156,637, increase \$8,242,282 or 8.8 per cent; (2) Non-Ferrous Metals and Their Products, \$22,406,711, increase \$8,599,130 or 62.3 per cent; (3) Agricultural and Vegetable Products, \$22,312,739, increase \$18,406,926 or 471.2 per cent; (4) Animals and Animal Products, \$18,435,329, increase \$4,486,637 or 32.2 per cent; (5) Non-Metallic Minerals and Their Products, \$9,217,668, increase \$4,280,542 or 86.7 per cent; (6) Miscellaneous Commodities, \$6,612,125, increase \$1,459,599 or 28.3 per cent; (7) Chemicals and Allied Products, \$6,429,888, increase \$1,761,628 or 37.7 per cent; (8) Iron and Its Products, \$4,348,230, increase \$2,389,811 or 122.0 per cent; and (9) Fibres, Textiles and Textile Products, \$2,530,968, increase \$1,663,340 or 191.7 per cent.

For further details respecting Canada's commodity imports from and exports to the United States, with increase or decrease, 1934 compared with 1933, see statistics in the following table.

## CANADA'S PRINCIPAL IMPORTS FROM AND EXPORTS TO UNITED STATES

(Year ended March 31, 1934, compared with 1933)

## GROUP 1—AGRICULTURAL AND VEGETABLE PRODUCTS

(e) **Decrease in Canada-United States Trade:**—Imports from the United States in 1922 were less than for the year 1921, but from then on there was an upward trend (except for the year 1925) until by the year 1929 imports amounted to \$868,000,000, which in 1930 declined to \$847,000,000, this figure being only \$9,000,000 less than for the year 1921. In 1930 and subsequent years the duties on imports under the General Tariff were raised, and from 1930 to 1934 the imports from the United States decreased from \$847,000,000 to only \$238,188,000. Of course the decrease in the purchasing power of Canada, due to the depression, which was world-wide, as well as the fall in prices, also had a marked effect on the drop in imports. Canada's imports from the United States for the years ended March 31, 1921 to 1934, were as under:—

Fiscal Years	\$	Fiscal Years	\$	Fiscal Years	\$
1921.....	856,177,000	1925.....	509,780,000	1930.....	847,442,000
1922.....	515,958,000	1926.....	608,619,000	1931.....	584,407,000
1923.....	540,990,000	1927.....	687,023,000	1932.....	351,687,000
1924.....	601,256,000	1928.....	718,896,000	1933.....	232,548,000
		1929.....	868,012,000	1934.....	238,188,000

The exports to the United States for the year 1922 show a marked decline compared with 1921, but from then on they show an upward trend, until by the year 1930 they amounted to \$515,000,000, this figure being only \$27,000,000 less than for the year 1921. Total domestic exports to the United States for the years ended March 31, 1921 to 1934 were as under:—

Fiscal Years	\$	Fiscal Years	\$	Fiscal Years	\$
1921.....	542,323,000	1925.....	417,417,000	1930.....	515,050,000
1922.....	292,589,000	1926.....	474,987,000	1931.....	349,661,000
1923.....	369,080,000	1927.....	466,423,000	1932.....	235,187,000
1924.....	430,708,000	1928.....	478,145,000	1933.....	143,160,000
		1929.....	499,612,000	1934.....	194,450,000

An analysis of Canada's exports of wood products (chiefly raw and semi-manufactured), paper (largely newsprint), and non-ferrous metals (principally raw and semi-manufactured) to the United States, indicates that the increase in the exports of these products from 1921 to 1930 offsets the decrease in farm products to the United States during this period. From 1921 to 1930 the decrease in the exports of farm products amounted to \$98,000,000, while the exports of wood products, paper, and non-ferrous metals increased \$93,000,000. From 1921 to 1934 the exports of domestic wood products, paper, and non-ferrous metals, and farm products to the United States, were as follows:—

Years ended March 31—	(1) Wood Products	(2) Paper	(3) Non-Ferrous Metals	Totals 1, 2 and 3	(4) Farm Products
	\$	\$	\$	\$	\$
1921.....	143,283,000	72,170,000	30,030,000	245,483,000	190,790,000

1933.....	28,619,000	64,998,000	13,808,000	107,425,000	6,948,000
1934.....	39,987,000	61,871,000	22,400,000	124,258,000	28,655,000

Canada, under the Underwood Tariff which was in force in the United States from October 3, 1913 to May 27, 1921, increased her domestic exports to the United States from 1913 to 1921 from \$139,725,000 to \$542,323,000, while the exports of farm products in 1921 totalled \$190,790,000. Under the Underwood Tariff 88.4 per cent of Canada's exports to the United States in 1920 was allowed free entry; thus, insofar as Canada was concerned the Underwood Tariff was practically a free trade tariff. Under the Emergency Tariff, which was in force from May 27, 1921, to September 21, 1922, and the Fordney-McCumber Tariff, from September 21, 1922, to June 18, 1930, Canada's exports of farm products (chiefly raw materials) from 1921 to 1930, decreased from \$190,790,000 to \$92,134,000, and under the Hawley-Smoot Tariff, which came into force on June 18, 1930, and which was practically a prohibitive tariff in respect to farm products, Canada's exports of farm products to the United States from 1930 to 1933 declined from \$92,134,000 to \$6,948,000, but in 1934 the exports of farm products to the United States amounted to \$28,655,000. The United States under the Fordney-McCumber and the Hawley-Smoot Tariffs placed a heavy duty on fish which seriously affected the market in the United States for Canadian fish, and in June, 1932, a heavy duty was placed on softwood lumber and copper. The exports of lumber and copper from Canada to the United States for the period March 31, 1932 to March 31, 1934 decreased as follows:—Lumber from 597,712 M ft. to 329,090 M ft.; and copper from 178,641,700 pounds to 33,961,300 pounds.

The statistics in the following table showing Canada's exports of certain farm, fish, copper and lumber products, to the United States, 1921 to 1934, indicate the extent to which the exports of these products to the United States were affected by changes in the United States Tariff Acts of 1921, 1922, 1930 and 1932.

CANADA'S EXPORTS OF CERTAIN FARM, FISH, LUMBER AND COPPER PRODUCTS TO THE UNITED STATES, 1921 TO 1934, AFFECTED BY UNITED STATES TARIFF ACTS OF 1921, 1922, 1930 AND 1932

**Canada's Trade With Other Countries, 1934:**—The British Preferential Tariff enacted in 1897, which granted a trade preference to the products and manufactures of the United Kingdom and reciprocating Dominions and Possessions of 12½ per cent from April 23, 1897, which was increased to 25 per cent from June 30, 1898, and to 33½ per cent from June 30, 1900, and the New Customs Tariff Act, 1907, which continued the preferential policy; as well as trade treaties and agreements, negotiated with British and Foreign Countries, have had the effect of stimulating Canada's external trade. When the British preference became effective in 1897 Canada's total imports from the United Kingdom in that year amounted to only \$29,401,000, compared with an import in 1887 valued at \$44,741,000 and in 1873 at \$67,997,000, the decrease in 1897 compared with 1887, amounting to \$15,340,000 and with 1873 to \$38,596,000. From 1873 to 1897 imports from the United Kingdom decreased \$38,596,000 or 56·7 per cent, while from 1897 to 1930 they increased \$159,779,000 or 543·4 per cent; since 1930 imports from Britain declined materially, until for the year 1934 they show an increase over the year 1897 of \$75,700,000 or 254·7

per cent. The British Preferential Tariff was no doubt largely responsible for the increase in imports from the United Kingdom as well as from other parts of the Empire. By reference to the statistics in the following table giving "Trade of Canada with the British Empire and Foreign Countries" it will be noted that in the fiscal year 1896, imports from "Other British Empire", i.e., British Empire, except the United Kingdom, amounted to \$2,389,000, in 1906 to \$14,606,000, in 1916 to \$27,826,000, in 1926 to \$45,089,000, and in 1930 to \$63,495,000, but by 1934 they had decreased to \$35,303,000; while domestic exports to the "Other British Empire" in 1896 were valued at \$4,048,000, in 1906 at \$10,965,000, in 1916 at \$30,677,000, in 1926 at \$90,330,000, and in 1930 at \$97,825,000, but by 1934 they were valued at \$50,425,000. During the same years the imports from "Other Foreign Countries", i.e., Foreign Countries, except the United States, were: in 1896, \$16,619,000, in 1906, \$30,694,000, in 1916, \$32,091,000, in 1926, \$109,890,000, and in 1930, \$148,175,000, but in 1934 they were \$55,207,000, while domestic exports to "Other Foreign Countries" were: in 1896, \$5,152,000, in 1906, \$13,516,000, in 1916, \$57,974,000, in 1926, \$241,800,000, and in 1930, \$225,637,000, but in 1934 they were \$106,875,000.

From 1911 to 1930 imports from "Other British Empire" increased from \$19,533,000 to \$63,495,000 or 225.1 per cent, and from "Other Foreign Countries" from \$47,433,000 to \$148,157,000 or 212.4 per cent; while domestic exports to "Other British Empire" increased from \$16,811,000 to \$97,825,000 or 481.9 per cent, and to "Other Foreign Countries" from \$21,233,000 to \$225,637,000 or 962.7 per cent. Imports from "Other British Empire" in 1934 totalled \$35,303,000, and from "Other Foreign Countries" \$55,207,000; while domestic exports to "Other British Empire" amounted to \$50,425,000, and to "Other Foreign Countries" to \$106,875,000; the increase over 1911 being:—Imports "Other British Empire" 80.7 per cent; "Other Foreign Countries" 16.4 per cent; Domestic Exports:—"Other British Empire" 200.0 per cent; "Other Foreign Countries" 406.3 per cent. The decrease in the value of imports and exports in 1934 compared with the past three or four years was practically due to a serious decline in commodity prices, which was world-wide. On a quantity basis, the decrease was not so marked, indicating that it was largely a price and not a quantity decline.

The tendency of Canada's trade during the past three or four years has been towards a greater exchange of commodities with Empire countries. The statistics in the following table giving percentages of Canada's trade with Empire and foreign countries for a series of years indicate that the proportion of Canada's imports from Empire countries from 1930 to 1934 increased from 20.3 to 32.4 per cent, and exports to from 34.0 to 48.0 per cent; while the proportion of imports from foreign countries decreased from 79.7 to 67.6 per cent, and exports to from 66.0 to 52.0 per cent. During the same period the proportion of Canada's imports from the United Kingdom increased from 15.2 to 24.2 per cent, and exports to from 25.2 to 39.3 per cent; while imports from the United States decreased from 67.9 to 54.9 per cent, and exports to from 46.0 to 33.6 per cent.

With further reference to the trade of Canada with countries other than the United Kingdom and the United States, attention is directed to Tables Nos. 10 to 37, pages 153 to 187, giving the trade of Canada in leading commodities with 84 British and Foreign Countries for the fiscal years 1933 and 1934.

## TRADE OF CANADA WITH THE BRITISH EMPIRE AND FOREIGN COUNTRIES

(Fiscal Years 1886, 1891, 1896, 1901, 1906, 1911, 1916, 1921 and 1926 to 1934)

**The Canadian British Preference, 1934:**—Since the inauguration of the British preference in 1897 statistics giving the average ad valorem rate of duty on dutiable imports into Canada from the United Kingdom and the United States, respectively, have been frequently in use, the average rate of duty being lower as a rule on dutiable imports from the United States than from the United Kingdom. It must be remembered, however, in this connection that the dutiable imports from the United Kingdom consist very largely of highly manufactured commodities, and necessarily are subject to high rates of duty, whereas the dutiable imports from the United States consist, in a large measure, of semi-manufactured commodities for further processing in Canadian industries, and consequently are admitted at reasonably low rates of duty.

Another factor in Canada's imports from the United Kingdom, compared with those from the United States, which affects the rates of duty for the two countries and which is frequently ignored, is the trade of alcoholic liquors, which are imported in large volume from the United Kingdom, but in very small volume from the United States. Imports of tobacco should also be added, as in almost all countries alcoholic liquors and tobacco are subject to extraordinary high rates of duty, the principle of tariff makers in dealing with these commodities being not so much protection as the raising of revenue or the discouraging of consumption. In recent years the Canadian Government has considerably expanded the list of commodities which are admitted free under the preferential tariff, but which are dutiable under the intermediate and general tariffs. In 1934, the imports from the United Kingdom free under the preferential tariff were valued at \$39,593,250. The statistics in the following tables present (1) Imports without the adjustments of these items, and (2) Imports with the adjustments. It will be noted from statement No. 2 that the ad valorem rates of duty on dutiable imports from the United Kingdom, after adjustments have been made for the years 1922 to 1934, are lower than those for the United States, and that the average ad valorem rates of duty for the United Kingdom were: 1931, 15.65 per cent; 1932, 18.62 per cent; 1933, 14.52 per cent and 1934, 11.97 per cent; and for the United States: 1931, 24.73 per cent; 1932, 27.45 per cent; 1933, 28.06 per cent and 1934, 28.40 per cent; indicating an advantage to the United Kingdom under the preference of 9.08 per cent in 1931; 8.83 per cent in 1932; 13.54 per cent in 1933 and 16.43 per cent in 1934.

The statistics in the following table re "Imports into Canada from the United Kingdom, fiscal years 1925 to 1934", indicate a very marked increase in the imports of goods from the United Kingdom free under the Preferential Tariff. The proportion of imports subject to duty of total imports in 1925 was 82.5 per cent, and free goods 17.5 per cent; imports free, under the Preferential Tariff amounting to 0.6 per cent, and under the General Tariff to 16.9 per cent; in 1930 the proportion of dutiable imports of total imports was 78.6 per cent, and free goods 21.4 per cent, imports free under the Preferential Tariff amounting to 5.6 per cent, and under the General Tariff to 15.8 per cent; whereas in the year 1934 the proportion of dutiable imports of total imports was 54.3 per cent, and free imports 45.7 per cent, imports free under the Preferential Tariff amounting to 37.7 per cent, and under the General Tariff to 8.0 per cent.

**Relation Between Trade in Raw and Manufactured Products:**—Canada was not engaged to any great extent in manufacturing processes for some years after Confederation, and consequently her imports consisted very largely of manufactured goods and her exports of raw and semi-manufactured products. Since the opening of the twentieth century, a conspicuous change in the character of Canada's imports and exports has developed, a large percentage of the imports consisting of raw and semi-manufactured products for use in Canadian manufacturing industries, and the exports consisting to a considerable degree of products which have undergone some process of manufacture. Canada, during this period, has passed through much the same stages of development in her economic life as did the United States from 1870 to 1900. From 1870 to 1900 the imports of raw materials into the United States increased from 25.2 to 44.0 per cent of the total imports; and fully manufactured products decreased from 62.1 to 40.2 per cent; while exports of raw materials from the United States during the same interval decreased from 67.7 to 40.2 per cent of the total exports, and fully manufactured products increased from 28.6 to 48.6 per cent. Statistics for 1933 show a further improvement, though the percentage of imports of raw materials is less than for any year since 1921 and of manufactured products more than for any year since 1921. Compared with 1900 the 1933 statistics show that imports of raw materials into the United States increased from 44.0 to 44.1 per cent of the total imports, and exports decreased from 40.2 to 38.1 per cent of the total exports, whereas imports of fully manufactured products decreased from 40.2 to 39.1 per cent and exports increased from 48.6 to 48.7 per cent. Compared with 1930 the United States statistics for 1933 indicate a decline in the percentage of raw materials imported, but an increase in the percentage exported, a decrease in the percentage of semi-manufactured products imported and exported, while the imports of manufactured products in 1933 show an increase over 1930, and the exports a decrease.

Canada, industrially, has not made as great progress as the United States, and, consequently, she has not increased imports of raw materials for manufacturing purposes, expanded exports of manufactured and processed goods and curtailed imports of manufactured goods to the same extent as the United States, though she has made considerable progress in this respect. From 1914 to 1934 (fiscal years) the percentage of imports into Canada of raw materials of the total imports increased from 21.8 to 30.1 per cent, while exports of raw materials of the total domestic exports decreased from 63.2 to 36.5 per cent. In 1934 the percentage of imports of raw materials of the total imports was more than for the years 1900 to 1933, while the percentage of exports of raw materials of the total domestic exports was less than for any year from 1900 to 1933, except for the year 1920. Canada's imports of fully manufactured products from 1914 to 1934 decreased from \$426,300,000 to \$264,600,000, or 37.9 per cent, while the domestic exports of fully manufactured products during the same interval increased from \$115,300,000 to \$243,700,000 or 111.4 per cent. The percentage of imports of fully manufactured products from 1914 to 1934 decreased from 68.9 to 61.0 per cent, while the percentage of exports of fully manufactured products increased from 26.7 to 42.1 per cent. In 1934 the percentage of imports of fully manufactured products of the total imports was less than for any year from 1920 to 1933, except for the year 1924; while the percentage of exports of fully manufactured products of total domestic exports was less than for the years 1930 to 1933, but greater than for any year since 1921. The decrease in the percentage of exports of raw materials and of fully manufactured goods in recent years was attributable to the drastic decline in commodity prices, prices of raw materials falling much more rapidly than those for manufactured goods.

In Canada, grains (chiefly wheat) and in the United States, raw cotton, grains (principally wheat) and raw tobacco are the leading commodities which comprise the bulk of the exports of raw materials. It is of interest to note the results in Canada and the United States when certain staple raw materials, of farm origin, which are reproducible annually, are eliminated; such as grains, fresh fruits and vegetables, seeds and raw tobacco, for both countries, as also raw cotton for the United States. The results, for the years 1900 to 1934, are set forth in the following table:-

RAW MATERIALS EXPORTED FROM CANADA 1900 TO 1934 AND THE UNITED STATES, 1900 TO 1933  
(Values in Millions of Dollars)

Fiscal Years	Canada's Exports of Raw Materials				United States Exports of Raw Materials

1934.....	142.9	24.6	68.6	11.9						

According to the statistics in the above table Canadian and the United States exports of "Other raw materials", from 1900 to 1933 (i.e., total exports of raw materials less certain raw materials which are reproducible annually), increased or decreased as follows: Canada decreased from \$48,500,000 to \$47,000,000, or 3.1 per cent, while the United States increased from \$82,700,000 to \$91,100,000, or 10.1 per cent. In the case of Canada the percentage of the exports of "Other raw materials" of the total domestic exports, from 1900 to 1933, decreased from 28.8 to 9.9 per cent, and in the case of the United States increased from 6.0 to 6.5 per cent.

It will be observed from the statistics in the following table, showing "Canada's Imports and Exports by Leading Countries, according to Degree of Manufacture", fiscal year 1934, that Canada's imports from those countries with highly developed manufacturing industries consist of manufactured products, and her exports to those countries are made up largely of raw and semi-manufactured products; while on the other hand Canada's trade with countries whose industries are not so highly developed consist chiefly, in the case of imports, of raw and semi-manufactured products and in the case of exports, of manufactured products.

## CONDENSED PRELIMINARY TRADE REPORT

43

## CANADA'S IMPORTS AND EXPORTS BY LEADING COUNTRIES, ACCORDING TO DEGREE OF MANUFACTURE

(Year ended March 31, 1934)

A further analysis of the statistics in the foregoing table relative to Canada's imports and exports according to degree of manufacture indicates: (1) that 81·3 per cent of Canada's imports from Europe in the fiscal year 1934 consisted of fully manufactured goods, 11·9 per cent of raw materials, and 6·8 per cent of semi-manufactured products; while 53·7 per cent of her exports to Europe was made up of raw materials, 27·5 per cent of fully manufactured goods, and 18·8 per cent of semi-manufactured products; the proportion of trade with the United Kingdom being imports: fully manufactured goods 80·9 per cent, raw materials 12·3 per cent, and semi-manufactured products 6·8 per cent; and exports: raw materials 50·4 per cent, fully manufactured goods 31·0 per cent, and semi-manufactured products 18·6 per cent; (2) that 54·3 per cent of imports from North America consisted of fully manufactured goods, 38·2 per cent of raw materials, and 7·5 per cent of semi-manufactured products; while 55·5 per cent of exports to North America comprised fully manufactured goods, 24·6 per cent semi-manufactured products, and 19·9 per cent raw materials; the proportion of trade with the United States, being imports: fully manufactured goods 56·0 per cent, raw materials 37·9 per cent, and semi-manufactured products 6·1 per cent; and exports, fully manufactured goods 51·9 per cent, semi-manufactured products 27·1 per cent, and raw materials 21·0 per cent; (3) that 83·5 per cent of the imports from South America was made up of raw materials, 10·1 per cent of semi-manufactured products, and 6·4 per cent of fully manufactured goods; while 76·8 per cent of the exports to that continent consisted of fully manufactured goods, 11·9 per cent of raw materials, and 11·3 per cent of semi-manufactured products; (4) that 72·2 per cent of imports from Asia were fully manufactured goods, 19·8 per cent raw materials, and 8·0 per cent semi-manufactured products; while 41·0 per cent of exports to Asia consisted of semi-manufactured products, 40·5 per cent of manufactured goods, and 18·5 per cent of raw materials; (5) that the proportion of the trade with Oceania was: imports semi-manufactured goods, 42·6 per cent, raw materials 30·2 per cent, and fully manufactured goods 27·2 per cent; and exports: fully manufactured goods 83·9 per cent, semi-manufactured products 10·7 per cent, and raw materials 5·4 per cent; and (6) that the proportion of the imports from Africa was: semi-manufactured goods 59·6 per cent, raw materials 36·3 per cent, and fully manufactured goods 4·1 per cent; while the proportion of the exports to Africa was: fully manufactured goods 91·0 per cent, semi-manufactured goods 5·4 per cent, and raw materials 3·6 per cent.

The following table shows how Canada's imports and exports, analysed into three categories of raw materials, semi-manufactured products, and fully or chiefly manufactured goods, are distributed among the United Kingdom, other British Empire countries, the United States, and other foreign countries.

## DOMINION BUREAU OF STATISTICS

CANADA'S IMPORTS AND EXPORTS, ACCORDING TO DEGREE OF MANUFACTURE, 1929 TO 1934, DISTINGUISHING  
IMPORTS FROM AND EXPORTS TO THE BRITISH EMPIRE AND FOREIGN COUNTRIES

**Canada's Seasonal Fluctuations, 1934:**—The seasonal movement of Canada's external trade during the fiscal year 1933-34 presents no abnormal tendencies except a general decrease in each month compared with 1928-29 to 1931-32, and a general improvement in trade each month in 1933-34 over 1932-33, except for the months of April, May and June in imports, and April in exports, reflecting an improvement in Canadian trade. The table of "Canada's Monthly Imports and Exports" indicates that the imports for the summer and early fall months are usually greater than for the other months of the year, except the month of March. In 1933-34 the imports showed the usual seasonal trend, reaching the highest peak during the spring, summer and fall months, declining slightly in December, with an upward trend during the winter months. Exports, however, as a result of the influence of agricultural products, especially wheat, reach a low point during the summer months, rise to a peak during the autumn, gradually decline during the winter months, and with the opening of navigation on the St. Lawrence in the spring, show an upward tendency. The monthly variations, however, are not so marked as the lack of direct shipping facilities via the St. Lawrence in winter would indicate. The very large increase in recent years of the exports of pulp and paper and other manufactured products, the export of which is not seasonal but almost constant, has had the effect of reducing the proportionate seasonal fluctuations of Canada's total exports. The trade figures for March in each year are usually greater for imports than for any other month, while in the case of exports they are not, as a rule as large as those for the spring and fall months, when large quantities of grains, especially wheat, are being shipped. The totals for March are always greater than those for April. March figures must include all entries at all ports to the close of the fiscal year (March 31). In all other months the records are closed at Ottawa on the last day of the month. Late import and export entries (which in the case of the great, but distant, port of Vancouver, may cover a week or ten days' business at the end of each month) are regularly included in totals for the succeeding month. April totals include nothing for March, while they are short some amounts carried forward into May.

**Canada's Trade by Continents, 1934:**—During the year ended March 31, 1934, Canada sold more goods to Europe than to any other continent, her sales amounting to \$300,000,000 compared with \$217,600,000 to the continent of North America, while her purchases from the North American continent amounted to \$251,300,000, contrasted with purchases from Europe valued at \$139,100,000. During 1934 the continents of Europe and North America took 89.4 per cent of the Dominion's total domestic exports, compared with 86.9 per cent in 1929. The proportion of the products shipped to Europe in 1934 was 51.8 per cent, compared with 47.1 per cent in 1929, while the proportion sent to North America in 1934 was 37.6 per cent, compared with 39.8 per cent in 1929. From 1929 to 1934 the proportion of Canada's domestic exports to the United Kingdom increased from 31.5 to 39.3 per cent, and to other Europe decreased from 15.6 to 12.5 per cent, while the proportion exported to the United States decreased from 36.7 to 33.6 per cent, and to other North America increased from 3.1 to 4.0 per cent. The continents of North America and Europe in 1934 furnished Canada with 90.0 per cent of her total imports, compared with 93.3 per cent in 1929. The proportion of goods received from North America

in 1934 was 57.9 per cent, compared with 70.7 per cent in 1929, while the proportion received from Europe was 32.1 per cent in 1934, and 22.6 per cent in 1929. From 1929 to 1934 the proportion of Canada's imports furnished by the United States decreased from 68.6 to 54.9 per cent, and from other North America increased from 2.1 to 3.0 per cent, while the proportion furnished by the United Kingdom increased from 15.3 to 24.2 per cent, and from other Europe from 7.3 to 7.9 per cent. Canada's sales to every continent in the fiscal year 1934 were greater than for the year 1933, though less than for any year from 1929 to 1932, except to Europe and Oceania in 1932; while her purchases from every continent in 1934 were also greater than for the year 1933, except in the case of Africa, though less than for any year from 1929 to 1932, except from the continent of Africa in the years 1929 and 1930, and the continent of Oceania in 1932. From 1928 to 1934 Canada's imports from South America decreased from \$26,500,000 to \$11,600,000, from Asia from \$33,500,000 to \$16,200,000, from Oceania from \$22,500,000 to \$9,700,000; while imports from Africa increased from \$2,200,000 to \$5,900,000; whereas domestic exports to South America decreased from \$32,600,000 to \$7,900,000, to Asia from \$87,200,000 to \$26,300,000, to Oceania from \$37,600,000 to \$17,500,000, and to Africa from \$20,300,000 to \$10,000,000.

For further details respecting Canada's trade by continents, 1929 to 1934, see statistics in the following table.

**Canada's Imports from Principal Countries, 1934:**—Imports into Canada for the fiscal year 1934 compared with the fiscal year 1933 show increases in twenty-one (21) out of the thirty-five (35) leading countries, the increases for the twenty-one (21) countries amounting to \$34,913,555, while the decreases for the fourteen (14) countries amounted to \$7,833,413. Of the total increase in imports in 1934 amounting to \$27,414,881 or 6.7 per cent, the British Empire accounted for \$20,019,562 or 73.0 per cent of the total, and foreign countries for \$7,395,319 or 27.0 per cent.

The principal countries to show increases were: United Kingdom, \$18,634,709; United States, \$5,639,626; British India, \$1,847,662; New Zealand, \$1,605,454; Argentina, \$1,154,581; Peru, \$1,006,205; Germany, \$833,799; China, \$725,107; British Straits Settlements, \$615,454; Sweden, \$434,250; Switzerland, \$408,673; Cuba, \$357,415; Ceylon, \$328,937; Egypt, \$293,574; Barbados, \$270,022; Colombia, \$204,199; and British East Africa, \$203,565; while the following countries show decreases: British South Africa, \$1,265,803; British Guiana, \$910,631; France, \$814,147; Dutch West Indies, \$690,302; Fiji, \$571,027; Jamaica, \$554,078; Japan, \$549,224; Netherlands, \$474,329; Australia, \$496,005; Belgium, \$442,350; and Trinidad and Tobago, \$441,536.

The statistics in the following table re "Canada's Imports from Thirty-five Leading Countries, 1934," show that the United States and the United Kingdom furnished Canada with 79.1 per cent of her total imports. The United States, year by year, since 1882, has supplied the Dominion with the largest proportion of its imports, amounting to 54.9 per cent in 1934, compared with 57.2 per cent in 1933, and 60.8 per cent in 1932. The United Kingdom ranks next in order of importance by a very wide margin, supplying Canada with 24.2 per cent of her total imports in 1934, compared with 21.3 per cent in 1933, and 18.4 per cent in 1932. With reference to supplies from other countries, Germany occupied third position in 1933 and 1934, being in fourth position in 1932, and nineteenth in 1922; while France occupied fourth position in 1933 and 1934, and third position in 1922 and in 1932. In 1934 British India moved into fifth position, being in seventh position in 1933, eighth position in 1932, and ninth in 1922; while Australia moved down to sixth position in 1934, being in fifth position last year, in seventh position in 1932, and thirtieth position in 1922. British South Africa moved down to seventh position from sixth last year, being in thirteenth position in 1932, and forty-fourth position in 1922. Peru moved up to eighth position in 1934, being in fifteenth position in 1933, seventeenth in 1932, and seventh in 1922; while Colombia moved into ninth position in 1934 from eleventh in 1933, being in tenth position in 1932, and thirty-fifth position in 1922. Japan moved from eighth position in 1933 down to tenth position in 1934, being in fifth position in 1932, and sixth position in 1922; while the Netherlands moved from ninth position in 1933 into eleventh in 1934, being in sixth position in 1932, and eleventh in 1922. Belgium occupied twelfth position in 1934, being in tenth position in 1933, in ninth position in 1932, and twelfth position in 1922; while Barbados occupied thirteenth position in 1933 and 1934, but was in twentieth position in 1932, fourteenth position in 1922. Switzerland moved up from seventeenth position in 1933 to fourteenth in 1934, being in sixteenth position in 1932, and fifth in 1922; while Jamaica moved down from twelfth position in 1933 to fifteenth in 1934, occupying twelfth position in 1932 and thirty-sixth position in 1922. Italy moved down from fourteenth position in 1933 to sixteenth position in 1934, being in fourteenth position in 1932, and in twenty-eighth position in 1922; and New Zealand moved up from twenty-sixth position in 1933 to seventeenth position in 1934, being in twenty-ninth position in 1932, and twenty-first position in 1922.

In 1868, 89.9 per cent of Canada's imports was obtained from the United Kingdom and United States, proportions being: United Kingdom 56.1 per cent; United States 33.8 per cent. In 1900, 84.9 per cent of the Dominion's imports was furnished by the same two countries, the proportions being: United Kingdom 25.7 per cent; United States, 59.2 per cent; whereas in 1934, 79.1 per cent of Canada's total imports came from the United Kingdom and the United States, the proportion for each being: United Kingdom 24.2 per cent, United States 54.9 per cent. From 1868 to 1934 the proportion of the imports into Canada from the United Kingdom fell from 56.1 to 24.2 per cent of the total, while the proportion from the United States rose from 33.8 to 54.9 per cent. The proportionate loss in imports from the United Kingdom, 1868 to 1934, amounted to 31.9 per cent of the total, the United States absorbing 21.1 per cent and Other Countries 10.8 per cent of this amount. If the United Kingdom, from 1868 to 1934 had been able to hold her proportion of Canada's import trade, imports from the United Kingdom in 1934 would have been valued at \$243,361,000, compared with an import from the United States valued at \$146,624,000, and Other Countries at \$43,814,000. As Canada developed industrially she had to go afield for certain raw materials, such as cotton, rubber, fibres, etc., and semi-manufactured products, for her expanding manufacturing industries, which could not be obtained directly from the United Kingdom, and consequently, it was largely due to her industrial expansion that the proportion of Canada's imports from the United Kingdom fell off.

The proportion of imports from Other Countries in 1868 amounted to 10.1 per cent; in 1900 to 15.1 per cent; 1932 to 20.8 per cent, in 1933 to 21.5 per cent, and in 1934 to 20.9 per cent. The imports into Canada from the United Kingdom, the United States and Other Countries with proportions received from each during the years 1868, 1900, 1932, 1933 and 1934, were:—

Countries	1868		1900		1932		1933		1934	
	Value in Thousands of Dollars	Per cent of Total	Value in Thousands of Dollars	Per cent of Total	Value in Thousands of Dollars	Per cent of Total	Value in Thousands of Dollars	Per cent of Total	Value in Thousands of Dollars	Per cent of Total

**Canada's Exports to Principal Countries, 1934:**—The domestic exports from Canada during the fiscal year 1934 compared with similar export trade in 1933, show an increase of \$105,543,190 or 22.3 per cent. Increases occurred in twenty-seven (27) of the forty (40) leading countries, and decreases in thirteen (13). The increases in the twenty-seven (27) countries in 1934 compared with 1933 amounted to \$119,026,344, while the decreases for the thirteen (13) countries totalled \$13,299,542. The domestic exports to the British Empire from 1933 to 1934 increased \$55,899,051 or 53.0 per cent, while exports to foreign countries during the same interval increased \$49,644,139 or 47.0 per cent. The principal countries to show increases were: United States, \$51,289,895; United Kingdom, \$43,231,819; Australia, \$4,826,295; Japan, \$3,475,268; British South Africa, \$3,285,006; the Netherlands, \$3,197,361; Germany, \$2,531,345; British India, \$1,328,774; Irish Free State, \$1,267,623; New Zealand, \$871,719; Newfoundland, \$486,473; Mexico, \$369,530; Brazil, \$364,150; British Straits Settlements, \$293,244; and Argentina, \$284,216; while the leading countries to show decreases were: St. Pierre and Miquelon, \$3,246,278; China, \$2,273,258; Belgium, \$1,952,796; Sweden, \$1,195,370; France, \$822,748; French Oceania, \$817,866; Spain, \$659,091; Italy, \$583,047; and Denmark, \$533,745.

It will be noted by reference to the statistics in the following table re "Canada's Domestic Exports to Forty Leading Countries, 1934", that the United Kingdom and the United States took 72.8 per cent of the Dominion's exports, the proportion for each being: United Kingdom, 39.3 per cent, and the United States, 33.5 per cent. The United States occupied first place in Canadian export trade during the years 1927 to 1932, and the United Kingdom second place, although the United Kingdom was in first place in 1926, 1933 and 1934. Of the other leading markets for Canadian products the Netherlands occupied third position in 1933 and 1934, being in sixth position in 1932, and seventh position in 1922; while Japan moved up from sixth position in 1933 to fourth position in 1934, being in fourth position in 1922 and 1932. Belgium in 1934 occupied fifth position, being in fourth position in 1933, and fifth position in 1922 and 1932; Australia moved from tenth position in 1933 to sixth position in 1934, occupying twelfth position in 1932, and sixth position in 1922; while France in 1934 occupied seventh position, being in fifth position in 1933, in third position in 1932, and ninth position in 1922. Germany in 1934 occupied eighth position, in 1933 and 1932 seventh position, and twelfth position in 1922; while British South Africa moved from thirteenth position in 1933 up to ninth position in 1934, occupying ninth position in 1932, and sixteenth position in 1922. Newfoundland occupied tenth position in 1934, eleventh position in 1933, tenth position in 1932, and eighth position in 1922; while China moved down from eighth position in 1933 to eleventh position in 1934, occupying eleventh position in 1932, and twenty-third position in 1922.

In the fiscal year 1868 the exports to the United Kingdom and the United States combined represented 89.2 per cent of the total domestic exports, the proportions being: United Kingdom 36.9 per cent; United States 52.3 per cent. In 1900 similar exports to the United Kingdom and the United States were 91.3 per cent of the total domestic exports, the proportions being: United Kingdom 57.1 per cent; United States 34.2 per cent; while for the year 1934 the domestic exports from Canada to the same two countries represented 72.8 per cent, the proportions for each being: United Kingdom 39.3 per cent compared with 30.2 in 1932, and the United States 33.5 per cent compared with 40.8 per cent in 1932. From 1868 to 1900 Canada's domestic exports to the United Kingdom increased from 36.9 to 57.1 per cent of the total exports, while those to the United States decreased from 52.3 to 34.2 per cent; whereas from 1900 to 1934 domestic exports to the United Kingdom decreased from 57.1 to 39.3 per cent of the total exports and those to the United States decreased from 34.2 to 33.5 per cent. The proportions of the exports to "Other Countries" was as follows: 1868, 10.8 per cent; 1900, 8.7 per cent; 1932, 29.0 per cent; 1933, 30.9 per cent; and 1934, 27.2 per cent. The domestic exports of the United Kingdom, the United States and Other Countries with proportions for each during the years 1868, 1900, 1932, 1933 and 1934, were:—

Countries	1868		1900		1932		1933		1934	
	Value in Thou- sands of Dollars	Per cent of Total	Value in Thou- sands of Dollars	Per cent of Total	Value in Thou- sands of Dollars	Per cent of Total	Value in Thou- sands of Dollars	Per cent of Total	Value in Thou- sands of Dollars	Per cent of Total
United Kingdom.....	17,906	36.9	96,563	57.1	174,044	30.2	184,361	38.9	227,593	39.3

**Canada's Trade Balances, 1934:**—There have been marked changes in Canada's trade balances with the leading commercial countries of the world in recent years. In 1914, Canada had a favourable trade balance with Europe, Oceania, and Africa, but an unfavourable trade balance with North and South America, and with Asia, but in 1934 she had a favourable balance with the continents of Europe, Asia, Oceania and Africa, and an unfavourable trade balance with the continents of North and South America. Canada had a favourable trade balance with Europe in 1914 of \$65,032,000, which had increased to \$426,719,000 in 1926, but which declined to \$161,798,000 in 1934. This decline in Canada's favourable trade balance with Europe was largely brought about by a falling off in her exports of grain, principally wheat, and also to lower export prices. From 1914 to 1934 the number of countries with which Canada had a favourable trade balance had increased from 7 to 15. The only European countries of importance in 1934

with which the trade balance was unfavourable were Czechoslovakia and Switzerland. From 1914 to 1934 the Dominion's annual credit trade balance with the United Kingdom increased from \$90,252,000 to \$123,193,000; with Germany the debit balance of \$10,152,000 was changed into a favourable balance of \$738,000; with Belgium a credit balance of \$330,000 was increased to \$9,361,000; with Italy, a debit balance of \$1,435,000 was increased to a credit balance of \$970,000; with Greece, a debit balance of \$433,000 was increased to a credit balance of \$89,000; with the Netherlands, a credit balance of \$2,494,000 was increased to \$16,446,000; with Denmark, a credit balance of \$525,000 was increased to \$1,869,000, and with Sweden, a debit balance of \$426,000 was increased to a credit balance of \$308,000. In 1914, Canada had a debit balance with France, of \$10,466,000, which was changed to a credit balance of \$5,068,000 in 1934, while the debit balance with Switzerland decreased from \$4,268,000 to \$2,513,000, during the same period. These trade balances with European countries do not represent the true situation, as a very large quantity of grain, especially wheat, shown in Canadian export statistics as destined for the United Kingdom via the United States, is diverted from its original destination, the United Kingdom, to other destinations. As a result of this diversion, the credit balance with the United Kingdom would be materially reduced, and the balances with other European countries increased by a corresponding amount.

Canada's trade balance with the continent of North America has been unfavourable since 1882, the debit balance with the United States being responsible for this situation. If the trade of the United States is eliminated from North America, the trade balance with Other North America increased from a debit balance of \$2,385,000 to a credit balance of \$10,415,000 in 1934. In 1914 the debit balance with the continent of North America amounted to \$221,739,000, and in 1934 it had decreased to \$28,415,000, while the number of countries in North America with which Canada had a debit balance was reduced from 8 to 5. The Dominion's debit trade balance with the United States from 1914 to 1934 decreased from \$219,354,000 to \$38,830,000, being \$45,189,000 less than last year; with Newfoundland from a credit balance of \$2,900,000 to \$5,685,000; with St. Pierre and Miquelon, from a credit balance of \$117,000 to \$4,174,000; with Mexico, from a debit balance of \$1,419,000 to a credit balance of \$1,287,000; with Cuba from a debit balance of \$2,124,000 to \$70,000; with Bermuda, from a credit balance of \$397,000 to \$1,009,000; and with British West Indies, from a credit balance of \$143,000 to a debit balance of \$2,002,000.

With the continent of South America the debit balance of \$4,994,000 in 1914 amounted to \$3,692,000 in 1934. The debit balance of \$468,000 with Argentina in 1914 was changed to a credit balance of \$745,000 in 1934, while the debit balance with Colombia in 1914 of \$125,000 was increased to \$3,147,000 in 1934, and the debit balance with Peru of \$737,000 during the same interval was increased to \$2,649,000.

The most notable change in the trade balance with any continent from 1914 to 1934 occurred with the continent of Asia, the debit balance of \$8,118,000 being converted into a credit balance of \$10,230,000. The principal countries responsible for this change were Japan and China, the trade balance of the former increasing from a debit balance of \$1,015,000 to a credit balance of \$10,507,000; and of the latter from a debit balance of \$440,000 to a credit balance of \$3,135,000.

The credit balance with Oceania from 1914 to 1934 increased from \$2,603,000 to \$7,851,000, and with Africa, from \$3,459,000 to \$4,083,000. From 1914 to 1934 the trade balance with Australia increased from a credit balance of \$3,993,000 to \$6,740,000; while with British South Africa the credit balance increased from \$3,358,000 to \$4,048,000; and with New Zealand from a debit balance in 1914 of \$1,256,000 to a credit balance in 1934 of \$1,911,000.

**Canada's Principal Commodity Imports, 1934:**—The statistics in the following table showing "One Hundred Leading Commodities Imported into Canada, 1934", indicate that the total declared value of these commodities amounted to \$355,382,856, or 81.9 per cent of Canada's total imports. Last year similar imports were valued at \$328,914,571, so that the increase in the value of the one hundred (100) leading commodities amounted to \$26,468,285. Of the one hundred (100) commodities listed in 1934, sixty-three (63) show increases in value, and thirty-seven (37) decreases, compared with similar imports in 1933; while for the year 1933 compared with 1932, only four (4) commodities showed increases, and ninety-six (96) decreases. Of the fifty (50) commodities for which there were quantity statistics, 1934, thirty-five (35) show increases in both the quantity and value; one (1) only shows an increase in the quantity but a decrease in the value; eleven (11) show decreases in both the quantity and the value; and three (3) only show decreases in the quantity but increases in the value. Of the fifty (50) commodities for which there were no quantity statistics, (being entered at value only) twenty-five (25) show increases, and twenty-five (25) decreases. In the case of the fifty (50) commodities for which there were quantity statistics, twenty-seven (27) of these were imported at a higher average price per unit in 1934 than in 1933, and twenty-three (23) at a lower average import price. Those commodities imported at a higher average price per unit were valued at \$100,429,152, while those imported at a lower average price per unit were valued at \$103,990,690. The total value of the fifty (50) commodities for which there was no quantity statistics amounted to \$150,963,014; twenty-five (25) of these valued at \$77,621,027 show increases in 1934 compared with 1933, and twenty-five (25) valued at \$73,341,987 show decreases.

The twenty-seven (27) commodities imported in 1934 at a higher average price were:—Artificial silk yarn; band or hoop iron; bars and rails (iron); binder twine; corn; cotton (raw), cotton fabrics, unbleached; cotton fabrics, bleached; dress goods (wool) to be dyed; dyeing and tanning materials; fertilizers; fruits, dried; hides (raw); jute fabrics; manila, sisal, istle; noils, tops and waste wool; pigs and ingots (iron); plates and sheets (iron); rosin or resin; rubber (crude); structural iron and steel; sugar for refining; tea; tin in blocks; wool (raw); woollen yarn; and worsteds and serges (wool). The twenty-three (23) commodities imported at a lower average price per unit were:—Alumina, bauxite and cryolite; automobiles; carpets (wool); coal; cocoa and chocolate; coffee (raw); coke; cotton yarn; cotton, coloured; fruits, canned; gasoline; iron ore; lumber and timber; molasses and syrups; nuts, except cocoanuts; oils, petroleum, crude; oils vegetable; rice; silk (raw); soda and sodium compounds; sulphur (crude); tobacco (raw); and tweeds (wool).

**Imports for Canadian Industries, 1934:**—An analysis of the statistics in the following table giving "Imports of Sixty-two Leading Commodities for Canadian Industries, 1934", indicates that about one-third of Canada's total imports consists of commodities for use in the various industries of the Dominion. The total value of the sixty-two commodities imported for Canadian industries for the fiscal year 1934 amounted to \$162,880,633, compared with an importation for the fiscal year 1933 valued at \$132,405,850, representing an increase, 1934 over 1933, of \$30,474,783 or 23.0 per cent, while Canada's total increase in her import trade was \$27,414,881 or 6.8 per cent. In the fiscal year 1933 compared with 1932, however, the decrease in the imports of commodities for Canadian industries was about 21.6 per cent. If you eliminate from Canada's total imports in 1933 and 1934 the value of the Dominion's imports of the sixty-two commodities for Canadian industries, the imports of "Other Commodities" not for Canadian industries in 1933 were valued at \$273,977,894, and in 1934 at \$270,917,992, the decrease in the imports not for Canadian industries amounting to \$3,059,902 or 1.1 per cent. The imports, therefore, of commodities for use of Canadian industries from 1933 to 1934 increased 23.0 per cent, while the decrease in the imports not for Canadian industries amounted to 1.1 per cent. The proportion of Canada's imports listed as for Canadian industries classified according to degree of manufacture, with increase 1934 compared with 1933, was: Raw materials, \$85,352,632, increase \$14,656,251 or 20.7 per cent; semi-manufactured, \$31,659,619, increase \$4,267,377 or 15.6 per cent; and fully manufactured, \$45,868,382, increase \$11,551,155 or 33.6 per cent.

The statistics in the following summary fully amplify this point.

## IMPORTS FOR CANADIAN INDUSTRIES CLASSIFIED ACCORDING TO DEGREE OF MANUFACTURE

Degree of Manufacture	Imports, 1934		Increase, 1934 compared with 1933		
	Value	Per cent of Total	Value	Per cent of Total	Percentage of Increase
	\$	%	\$	%	%
Raw materials.....	85,352,632	52.4	14,656,251	48.1	20.7
Semi-manufactured.....	31,659,619	19.4	4,267,377	14.0	15.6
Fully manufactured.....	45,868,382	28.2	11,551,155	37.9	33.6
Total 62 Commodities.....	162,880,633	100.0	30,474,783	100.0	23.0

An increase in the imports of those products for use in Canadian industries, especially raw materials, naturally reflects a corresponding increase in the activities of those industries dependent on imported raw materials. From 1933 to 1934 the increase in the value of the sixty-two commodities listed as for Canadian industries amounted to 23.0 per cent, whereas the value of commodities other than the sixty-two (62) commodities listed as for Canadian industries shows a decrease of 1.1 per cent; indicating a marked increase in the imports of those commodities for Canadian industries and a slight decrease in those imported for other purposes.

A further analysis shows that forty-five (45) of the sixty-two (62) commodities imported for Canadian industries, 1934 compared with 1933, had increases, and that seventeen (17) had decreases; while thirty-three (33) of the forty-eight (48) commodities for which there were quantity statistics, had increases, and fifteen (15) had decreases. Of the forty-eight (48) commodities for which there were quantity statistics, thirty-one (31) had increases in both the quantity and value; two (2) increases in the quantity but decreases in the value; thirteen (13) had decreases in both the quantity and value; and two (2) had decreases in the quantity and increases in the value. Of the fourteen (14) commodities entered at value only, twelve (12) show increases and two (2) decreases.

Of the forty-eight (48) commodities imported for Canadian industries for which there were quantity statistics, an investigation shows that twenty-five (25) of these, valued at \$83,359,280, were imported at a higher average price per unit in 1934 than in 1933, and twenty-three, valued at \$53,531,859, at a lower average price per unit; while fourteen (14) commodities entered at value only, twelve (12) of which valued at \$24,884,248, show increases, and two (2) valued at \$1,105,246, show decreases. The twenty-five (25) commodities which entered Canada for Canadian industries at a higher average import price in 1934 than in 1933 were: Artificial silk yarn; automobile engines; bituminous coal; boiler plate; bristles; copper bars and rods; cotton seed oil (crude); cotton (raw); dress goods (wool) to be dyed; dyeing and tanning materials; grease for soap and leather; gums and resins; hides (raw); manila, sisal, istle, etc.; pigs, ingots and blooms (iron); rubber (raw); rubber (hard); sugar for refining; tin ingots; tin plate; wire rods; wool (raw); wool tops, noils and waste; woollen yarns; and zinc plates and sheets. The twenty-three (23) commodities which entered Canada at a lower average import price in 1934 than in 1933, were: Alumina, bauxite and cryolite; cocoa (raw); coffee (raw); compounds of tetraethyl lead; cotton yarn; hemp; iron ore; kapok; locomotive tires (rough); logs; lumber and timber; manganese, oxide of; oil for soap; ores of metals n.o.p.; peanut oil (crude); petroleum oil, (crude); sand, silica for industries; silk (raw); silk cloth to be dyed; skelp iron; sulphate of alumina; sulphur and tobacco (raw).

Canada in common with every manufacturing country of the world is dependent on imported raw materials for certain of her manufacturing industries, e.g., raw rubber, raw cotton, raw silk, sisal fibre, iron ore, bauxite, sulphur, manganese, oxide, crude cotton seed oil, crude peanut oil, raw cocoa, coconut oil, etc. A survey of the imports of raw materials into a country dependent on imported raw materials for its industries will indicate as a general rule whether such industries are in a flourishing or depressed condition. For instance an increase in the imports of raw materials for such industries will invariably reflect greater industrial activity in those industries, as well as an increase in the exports of those commodities manufactured from imported raw materials while a decrease in the imports of raw materials would indicate the very opposite results.

During the fiscal year 1934 compared with 1933 there were some notable increases in the quantities of certain leading commodities imported for Canadian industries. The following commodities during this period show remarkable increases, viz.: Petroleum oil, crude, 168,883,600 gallons; tin plate, 92,362,000 pounds; sulphur crude, 73,024,400 pounds; manganese, oxide of, 64,245,700 pounds; alumina, bauxite and cryolite, 49,615,400 pounds; peanut oil, crude, 40,291,300 pounds; raw cotton, 37,751,300 pounds; silica sand for industries, 27,220,400 pounds; skelp iron for pipe, 12,953,000 pounds; raw rubber, 10,070,600 pounds; ores of metals, n.o.p. 9,104,300 pounds; dyeing and tanning materials, 8,963,600 pounds; raw wool, 8,859,500 pounds; gums and resins, 7,509,600 pounds; raw cocoa, 6,364,100 pounds; sulphate of alumina, 5,068,800 pounds; raw hides, 4,512,700 pounds; wool tops, noils and waste, 4,061,800 pounds; and pigs, ingots and blooms (iron), 2,929,000 pounds.

**Canada's Principal Commodity Exports, 1934:**—The statistics in the following table giving "Seventy-Five Leading Domestic Exports from Canada, 1934", show that the total value of these commodities was \$540,881,184, or 93·3 per cent of the Dominion's total domestic exports. Fifty-nine (59) of the commodities listed show increases, 1934 compared with 1933, and sixteen (16) decreases. In 1933 compared with 1932 fifty-eight (58) of these same commodities exported showed decreases, and only seventeen (17) showed increases. Of the fifty-four (54) commodities for which there were quantity statistics, forty (40) show increases in both the quantity and value; one (1) only an increase in the quantity but a decrease in the value; eleven (11) decreases in both quantity and value; while two (2) only show decreases in the quantity but increases in the value. Of the twenty-one (21) commodities for which there were no quantity statistics (being entered at value only), seventeen (17) show increases, and four (4) decreases. An analysis also shows that of the fifty-four (54) commodities listed for which there were quantity statistics, twenty-eight (28) of these were exported at a higher average price per unit in 1934 than in 1933, and twenty-six (26) at a lower average price. The total value of the twenty-eight (28) commodities exported for which the average export price was higher in 1934 than in 1933, amounted to \$260,916,961, while the total value of the twenty-six (26) commodities for which the average export price was lower, amounted to \$214,039,008. The total value of the twenty-one (21) commodities for which there were no quantity statistics, was \$65,925,115, seventeen (17) of which of a value of \$56,213,823 show increases 1934 compared with 1933, and four (4) of a value of \$9,711,292, decreases. The twenty-eight (28) commodities exported from Canada at a higher average price were:—Acids; aluminium in bars, etc.; asbestos (raw); bran and shorts; butter; cheese; copper in ingots, etc., and other forms; copper in ore and blister; flax seed; gasoline; hides (raw); logs; malt; nickel; oatmeal and rolled oats; potatoes; rye; scrap iron or steel; silver in ore and bullion; sugar, refined; timber, square; turnips; vegetables, canned; wheat; wheat flour; whiskey; wool (raw); and zinc. The twenty-six (26) commodities exported at a lower average price were:—Abrasives, artificial, crude; apples, fresh; automobiles; barley; binder twine; cattle; coal; electrical energy; ferro-manganese and ferro-silicon; fertilizers; fish; footwear of rubber; fruits, canned; lead; milk, preserved; newsprint paper; oats; planks and boards; platinum concentrates; poles telegraph; pulp wood; rolling mill products; soda and sodium compounds; tires, rubber; tobacco (raw); and wood pulp.

**Fluctuation in Import and Export Values:**—In comparing trade for different periods, it is important to bear in mind that value is not necessarily a true measure of the quantity or volume of merchandise involved. Changes in the nominal values of imports and exports may be caused by variations in quantity, by fluctuations in price, or by a combination of these factors.

Tables I, II and III, below, set forth a preliminary comparison of the volume and value of Canada's trade in the fiscal years 1933 and 1934. The element of price fluctuations has been eliminated, and a relation between the volume of trade in the two periods established by revaluing the quantities of 1934 at the unit values prevailing in 1933.

It will be noted from Summary Table I that the declared value of imports in the fiscal year 1934 amounted to \$433,799,000, as compared with \$406,384,000 in 1933, an increase of \$27,415,000 or 6·7 per cent. After making allowance for price changes since last year a value of \$430,413,000 is arrived at for imports, indicating an increase in volume of 5·9 per cent. It is thus clear that the increase in imports this year is due principally to an increase in volume, the rise in the average level of unit values or prices being less than one per cent.

Exports showed greater increases than imports in both value and volume. On the basis of declared values exports amounted to \$579,343,000 in 1934 as compared with \$473,800,000 in 1933, an increase of 22·3 per cent, and on the basis of the revaluation to \$555,426,000, representing an increase in volume of 17·7 per cent. While, as was the case with imports, larger volume was the main factor in the increase in exports this year, the rise in the level of unit values was higher for exports than for imports, and amounted to a little over four per cent.

Of the nine main groups shown in imports, two (2) (Animals and Animal Products, and Fibres, Textiles and Textile Products) show increases in both prices and quantities; two (2) (Agricultural and Vegetable Products, and Miscellaneous Commodities) show increases in prices and a decline in quantities; four (4) (Iron and Its Products, Non-Ferrous Metals, Non-Metallic Minerals, and Chemicals and Allied Products) show declines in prices, and increases in quantities; and one (1) (Wood, Wood Products and Paper) shows a decline in both price and quantity.

In exports, four (4) of the nine (9) main groups. (Animals and Animal Products, Fibres, Textiles and Textile Products, Non-Ferrous Metals, and Miscellaneous Commodities), show increases in both prices and quantities; one (1) (Agricultural and Vegetable Products) shows an increase in price, and a decline in quantity; four (4) (Wood, Wood Products and Paper, Iron and Its Products, Non-Metallic Minerals, and Chemicals and Allied Products), show a decline in price, and an increase in quantity; and no group shows a decline in both quantity and price.

For more detailed information concerning the volume and value of Canada's trade, fiscal year 1934 compared with 1933, for Imports see Table II, and for Exports see Table III.

TABLE I.—SUMMARY COMPARISON OF VALUE AND VOLUME OF CANADA'S TRADE

(Year ended March 31, 1934 compared with 1933)

Main Groups	Fiscal Years		Quantities 1934 Valued at 1933 Prices	Index Number of Declared Values, 1934	Index Number of Unit Values (Prices) 1934	Index Number of Volume 1934
	Declared Value 1933	Declared Value 1934				
<i>Imports</i>						
	(Thousands of Dollars)				1933=100

**Canada's Trade via the United States, 1934:**—Canada's imports from overseas countries via the United States have steadily declined in recent years, especially those from the British Empire. This decrease has resulted from: (1) general propaganda to utilize Canadian sea and river ports; (2) additional concessions to goods imported under the British Preferential tariff if imported direct; and (3) provision in trade treaties and agreements negotiated with foreign countries that goods must be imported direct in order to obtain the full benefits of special rates of duty.

There was a decrease in imports from overseas countries via the United States during the fiscal year 1934 compared with similar imports in 1930, of \$6,223,172; the decrease in the imports from the British Empire amounting to \$1,983,515, and from foreign countries to \$4,239,657. The statistics in the following table provide an analysis of this feature of Canada's import trade for the last five fiscal years:—

IMPORTS INTO CANADA VIA THE UNITED STATES

Imports from—	Years ended March 31—				
	1930	1931	1932	1933	1934
United Kingdom via United States.....\$	1,042,164	169,820	202,454	222,373	94,220
Per cent of Total Imports from United Kingdom.....	0.55	0.12	0.19	0.26	0.09
Other British Empire via United States.....\$	1,221,720	807,078	659,924	133,282	186,149
Per cent of Total Imports from Other British Empire.....	1.92	1.45	1.59	0.39	0.53
Foreign Countries via United States.....\$	7,586,005	7,981,306	4,097,946	2,709,502	3,346,343
Per cent of Total Imports from Foreign Countries.....	5.12	6.81	5.19	5.07	6.06
Total Imports via United States.....\$	9,849,889	8,958,204	4,960,324	3,065,157	3,626,717
Per cent of Total Imports from Overseas Countries.....	2.46	2.78	2.19	1.76	1.85

The exports from Canada to overseas countries via the United States show a decided decrease during recent years, the proportions for the fiscal year, 1930 being about 33.90 per cent; 1931, 27.49 per cent; 1932, 18.72 per cent; 1933, 14.18 per cent and 1934, 14.41 per cent, of the total exports to overseas countries. From 1930 to 1934 the proportion of the Dominion's exports to the United Kingdom via the United States decreased from 40.22 to 13.48 per cent; to Other British Empire from 23.25 to 14.56 per cent; and to Foreign Countries from 30.62 to 16.32 per cent. When adjustments are made for the re-routing of Canadian barley, oats, rye and wheat from United States lake ports, via the St. Lawrence route for ocean shipment at Canadian sea or river ports, chiefly Montreal, it will be found that the proportions of Canada's exports to overseas countries via the United States will be considerably decreased and those via Canadian sea or river ports increased by a similar amount. The total value of commodities exported to overseas countries via the United States in 1934 was \$149,692,732 less than for the fiscal year 1930. Comparisons for the past five years were as follows:—

EXPORTS FROM CANADA VIA THE UNITED STATES

Exports to—	Years ended March 31—				
	1930	1931	1932	1933	1934
United Kingdom via United States.....\$	113,333,242	79,880,087	44,683,160	29,611,608	30,674,215
Per cent of Total Exports to United Kingdom.....	40.22	36.43	25.53	15.99	13.48
Other British Empire via United States.....\$	22,762,811	12,746,171	4,593,668	4,093,682	7,340,575
Per cent of Total Exports to Other British Empire.....	23.25	17.31	10.06	10.74	14.56
Foreign Countries via United States.....\$	69,067,677	31,108,810	14,963,964	13,382,820	17,456,208
Per cent of Total Exports to Foreign Countries.....	30.62	19.78	12.11	12.29	16.32
Total Exports via United States.....\$	205,163,730	123,735,068	64,240,792	47,088,110	55,470,998
Per cent of Total Exports to Overseas Countries.....	33.90	27.49	18.72	14.18	14.41

The statistics in the following table giving "Principal Commodities Exported from Canada to Overseas Countries via the United States and via Canadian Sea or River Ports, 1934," illustrate the details of this movement. The 43 commodities listed are representative of the Dominion's exports to overseas countries, as they comprise 84.4 per cent of the total exports to overseas countries; and they also represent 86.3 per cent of all goods shipped to overseas countries via the United States, and 84.1 per cent of those going via Canadian sea or river ports. During the past few years a considerable amount of Canadian grain exported from Fort William and Port Arthur to overseas countries via the United States has been re-routed from United States lake ports for shipment, chiefly at Montreal. The amount of Canadian grain re-routed for export at Montreal or other Canadian ports during the calendar years 1926 to 1933 was:—

Grains	1926	1927	1928	1929	1930	1931	1932	1933
	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels
Barley.....	361,000	2,533,000	3,085,000	1,035,000	1,114,000	1,593,000	1,594,000	21,000
Oats.....	697,000	597,000	394,000	213,000	65,000	153,000	19,000	—
Rye.....	370,000	2,052,000	2,589,000	193,000	399,000	1,575,000	1,178,000	715,000
Wheat.....	15,794,000	34,025,000	51,172,000	15,186,000	15,298,000	5,668,000	11,899,000	6,146,000
Total.....	17,222,000	39,207,000	57,240,000	16,627,000	16,876,000	8,989,000	14,690,000	6,882,000

This re-routed Canadian grain was not recorded as an export at Montreal or other Canadian ports because it had already been recorded as an export at Fort William or Port Arthur. It was recorded, however, as "intransit" grain from the United States via the Port of Montreal or other Canadian ports. In order to obtain the actual amount of barley, oats, rye and wheat shipped via Canadian sea or river ports, this re-routed Canadian grain should be added to the quantity already thus recorded and deducted from the quantity shown as exported via United States channels. When adjustments are made the actual quantities of barley, oats, rye and wheat exported to overseas countries via the United States (indirect) and via Canadian sea or river ports (direct) during the fiscal years 1930 to 1934 were:—

Grains	Years ended March 31—					Percentage of Total				
	1930	1931	1932	1933	1934	1930	1931	1932	1933	1934

**Canada's Position in International Trade, 1933:**—Canada during the calendar year 1933, has maintained a relatively high position amongst the principal commercial nations of the world. The statistics in the following table giving "Comparison of the Trade of Twenty Principal Countries of the World" indicate that from 1913 to 1933, only six countries show increases in imports, viz.: Denmark, Japan, Norway, Sweden, Switzerland and Union of South Africa; eight in exports, viz.: Australia, Canada, Denmark, Japan, New Zealand, Norway, Sweden and Union of South Africa; and seven in aggregate trade, viz.: Denmark, Japan, New Zealand, Norway, Sweden, Switzerland and Union of South Africa. The most notable decreases in foreign trade, 1913 to 1933, occurred in the following countries:—

Countries	Decreases, 1933 compared with 1913 in—					
	Total Trade	Per Cent	Total Imports	Per Cent	Total Exports	Per Cent

Canada in export trade moved from fifth place last year to sixth place this year (1933), being displaced by Belgium and, consequently, in 1933, was exceeded in value of exports, in order of importance, by the United States, the United Kingdom, Germany, France and Belgium; in import trade Canada moved down to eleventh position from ninth last year, being displaced by British India and Switzerland, and thus in 1933 Canada was exceeded in value of imports in order of importance by the United Kingdom, the United States, France, Germany, the Netherlands,

Belgium, Italy, Japan, Switzerland and British India; while in aggregate or total trade she occupied ninth place as compared with seventh place last year, being displaced by Italy and Japan, and consequently Canada, in value of total trade in 1933, in order of importance, was exceeded by the United Kingdom, the United States, Germany, France, Belgium, the Netherlands, Japan and Italy. In export trade Canada, in 1913 occupied tenth place amongst the leading commercial countries of the world, but in 1933 she moved up to sixth place; in import trade in 1913, Canada occupied eighth position but in 1933 she had moved down to eleventh position; while in aggregate, or total trade, Canada in 1913 occupied ninth place, as also ninth place in 1933. Canada, during the past twenty-one years, has occupied the following positions amongst the chief trading countries of the world in respect of her foreign trade:—

Calendar Years	Total Trade	Import Trade	Export Trade	Calendar Years	Total Trade	Import Trade	Export Trade
1913.....	9	8	10	1924.....	6	10	6
1914.....				1925.....	6	8	6
1915.....				1926.....	5	7	5
1916.....				1927.....	5	5	5
1917.....	(War Years)			1928.....	5	5	5
1918.....				1929.....	5	5	5
1919.....				1930.....	5	5	6
1920.....	4	5	4	1931.....	7	8	7
1921.....	5	8	4	1932.....	7	9	5
1922.....	5	7	5	1933.....	9	11	6
1923.....	5	6	6				

In trade per capita Canada has made a very creditable showing since 1913. In that year she occupied seventh place in exports per capita, but in 1933, she occupied sixth place, being exceeded in exports per capita by New Zealand, Denmark, Belgium, Australia and Switzerland. In 1928, however, Canada occupied second position in exports per capita, New Zealand being in first position. In imports per capita in 1913 Canada occupied fifth place, but in 1933 she moved down to tenth place, being exceeded in imports per capita by Switzerland, the Netherlands, Denmark, Belgium, the United Kingdom, New Zealand, Norway, Sweden and Australia. In 1928 the Dominion occupied fifth place in imports per capita. In aggregate or total trade per capita Canada, in 1933, occupied ninth position amongst the leading trading countries of the world, compared with sixth position in 1913, being exceeded in total trade per capita by Switzerland, New Zealand, Denmark, Belgium, the Netherlands, Australia, the United Kingdom, and Norway. In 1928 Canada was in second position in total trade per capita, New Zealand occupying first place. In 1933 the trade per capita of the nine leading countries, arranged in order of importance of total trade per capita, were:—Switzerland: Total trade, \$159.13, Imports \$103.68, Exports \$55.45; New Zealand: Total trade, \$158.11, Imports \$60.96, Exports \$97.15; Denmark: Total trade \$135.67, Imports \$69.68, Exports \$65.99; Belgium: Total trade \$135.32, Imports \$69.36, Exports \$65.96; the Netherlands: Total trade \$131.32, Imports \$82.07, Exports \$49.25; Australia: Total trade \$98.95, Imports \$37.28, Exports \$61.67; the United Kingdom: Total trade \$97.97, Imports \$61.76, Exports \$36.21; Norway: Total trade \$97.79, Imports \$53.18, Exports \$44.61; and Canada: Total trade \$86.79, Imports \$37.00, Exports \$49.79.

With reference to visible trade balance Canada in 1913 occupied seventeenth position amongst the leading commercial countries of the world, it being unfavourable in that year to the extent of \$222,900,000 or \$29.61 per capita, but in 1928 she was in third position, with a favourable trade balance of \$151,900,000 or \$15.72 per capita. In 1929 the Dominion's trade balance was unfavourable to the extent of \$90,600,000; 1930, \$103,000,000; 1931, \$10,800,000, but in 1932 it was favourable to the extent of \$49,200,000; and in 1933 to the extent of \$136,600,000 or \$12.79 per capita. In 1929 Canada occupied fourth place in amount of favourable trade balance, being exceeded by the United States, Germany and Australia. In 1933, as in 1913, the United States was in first place in amount of favourable trade balance. On December 31, 1933, Canada stood in fourth place (in 1932 seventh) amongst the principal commercial countries of the world with regard to the amount of her favourable trade balance, but in third place (in 1932 fifth) as respects her favourable trade balance per capita.

During the calendar year 1933 the favourable trade balances per capita of the British Dominions, namely, New Zealand (\$36.19), Australia (\$24.39), Canada (\$12.79) and the Union of South Africa (\$11.78), exceeded the trade balances per capita of any of the twenty principal trading countries of the world by a very wide margin, the next country in order of importance being Argentina with a favourable trade balance per capita of \$6.59. Germany comes next with a favourable trade balance per capita of \$3.31, while the United States follows with a favourable trade balance per capita of \$1.96.

For more detailed information relative to Canada's position in International trade in recent years, see statistics in the following tables indicating (a) Comparison of the Trade of Twenty Principal Countries of the World, 1913 and 1933; (b) Trade of Twenty Principal Trading Countries of the World, 1923 to 1933; (c) Per Capita Trade of Twenty Principal Countries of the World, 1923 to 1933; (d) Trade Balances of Twenty Principal Countries of the World, 1913, 1932 and 1933; and (e) Trade Balances per Capita of Twenty Principal Countries, 1913, and 1928 to 1933.

**Canada's Share in World Trade, 1932:**—Canada, since 1913, has made remarkable progress in the expansion of her trade in the world's principal markets, both in imports and exports. It will be noted from the statistics in the following tables, Nos. 1 and 2, showing "Canada's Share in the Imports and Exports of Principal Countries" that in 1913 the total trade of these countries (forty leading countries) amounted to \$34,868,143,000, imports amounting to \$18,257,000,000, and exports to \$16,611,143,000; but in 1932 the total trade of the identical countries was \$23,974,801,000, imports totalling \$12,658,863,000, and exports \$11,315,938,000, the decrease from 1913 to 1932 being: in total trade, \$10,893,342,000 or 31.2 per cent; in imports, \$5,598,137,000 or 30.6 per cent, and in exports, \$5,295,205,000 or 31.9 per cent. During the same years, viz.: 1913 and 1932, the trade of these same countries with Canada was: 1913, total trade, \$918,208,000; imports, \$355,222,000; and exports, \$562,986,000; in 1932, total trade, \$912,014,000; imports, \$512,993,000; and exports, \$399,021,000; the decrease in the trade with

Canada, 1913 to 1932, being: in total trade, \$6,194,000 or 0·7 per cent; in imports the increase was \$157,771,000 or 44·4 per cent; and in exports the decrease was \$163,965,000 or 28·9 per cent. From 1913 to 1932 the total trade of the forty leading countries listed in Tables Nos. 1 and 2, decreased 31·2 per cent, but with Canada the decrease was only 0·7 per cent; imports into the identical countries decreased 30·6 per cent, but from Canada the increase was 44·4 per cent; while the exports from the same countries decreased 31·9 per cent, but to Canada the decrease was 28·9 per cent. Canada's share in the trade of these countries was: imports, in 1913, 1·95 per cent; in 1932, 4·05 per cent; exports, in 1913, 3·39 per cent; in 1932, 3·53 per cent.

In 1932 Canada's stated imports from the forty countries listed amounted to \$444,977,000 but the reported exports from these countries to Canada were valued at \$399,021,000, a discrepancy in favour of Canada of \$45,956,000. A large proportion of this discrepancy (\$34,517,000) occurred in the exports from the specified European countries to Canada, these exports being domestic produce only, whereas the Canadian imports include domestic as well as foreign exports. Canada's imports from certain specified countries of North America agree fairly well with the recorded exports from these North American countries to Canada, any discrepancies being due to the fact that the exports from these areas comprise domestic exports only, while the Canadian imports comprise both domestic and foreign exports; while the discrepancies for the specified countries of South America (\$2,455,000); and Asia (\$2,738,000) were largely due to the fact that these South American and Asiatic countries credit goods destined for Canada, but shipped to Canada via the United States, to the United States and not to Canada.

With reference to the movement of goods from Canada in the calendar year 1932 to the various markets of the world, the declared exports to the forty leading countries amounted to \$479,637,000; while the recorded imports into the forty countries from Canada totalled \$512,993,000, a discrepancy between the two sets of figures of \$33,356,000 in favour of the forty countries. The discrepancy between the exports from Canada to the specified European countries in 1932 and their imports from Canada was no doubt due to the fact that the specified European countries credit grains of United States origin intransit via Canada to Canada, while such intransit grains do not appear in Canada's exports to the specified European countries. Then again, grain, especially wheat, shipped from Canada via the United States to the United Kingdom is diverted from the original destination to other destinations, chiefly on the continent of Europe. While this diversion accounts for large discrepancies between Canadian exports to and imports into certain European countries from Canada, it is very small with respect to Europe as a whole.

The discrepancy of \$27,197,000 between Canada's exports to specified North American countries and their imports from Canada is largely accounted for by the fact that the Canadian figure includes domestic exports only to the specified North American countries, while the imports into these North American countries include exports of foreign as well as domestic produce exported from Canada; and also probably due to the fact that goods intransit from other countries via Canada are credited to Canada in these North American countries and not to the countries of origin.

The particulars are set out in the following table, year 1932:—

Principal Countries of	Canada's Imports from	Recorded Exports to Canada	Canada's Exports to	Recorded Imports from Canada
	\$	\$	\$	\$
Europe.....	129,999,000	95,482,000	249,569,000	254,020,000
North America.....	276,215,000	269,953,000	185,283,000	212,480,000

## CANADA'S EXPORTS COMPARED WITH EXPORTS OF OTHER COUNTRIES

Canada, in the production and exportation of many staple products, ranks high amongst the leading nations of the world. In the production of printing paper, nickel and asbestos in 1933 she led the world; occupied second place in the production of gold; in output of copper and zinc she occupied third place; fourth place in the production of lead; fifth place in the production of automobiles; and eighth position in the production of wheat. In the production of wheat, Canada in 1933 was in eighth position with 269,729,000 bushels, being exceeded by Russia with 1,019,000,000 bushels (this figure appears high in the view of competent observers); China (production not available for 1933); the United States with 527,000,000 bushels; British India with 345,000,000 bushels; France with 338,663,000 bushels; Italy with 297,631,000 bushels; and Argentina with 283,000,000 bushels. In export trade, the Dominion led the world in 1933 in the exports of wheat, printing paper, nickel and asbestos, occupied second place in the exports of wheat flour, Australia being in first place, and the United States in third place; fourth place in the exports of automobiles and wood pulp, being exceeded in the exports of automobiles by the United States, the United Kingdom and France, and in the exports of wood pulp by Sweden, Norway and Finland; and sixth place in the exports of rubber tires, being exceeded by the United States, the United Kingdom, France, Belgium, and Italy. The exports of these staple products from Canada make up about fifty per cent of the Dominion's total domestic exports. Canada also ranks high in the world's exports of many other staple products such as lumber and timber, fish, copper, barley, cheese, raw furs, whiskey, meats, farm implements, pulp wood, cattle, raw gold, silver, rye, oats, rubber footwear, leather and hides.

**Automobile Statistics:**—The growth of the automobile industry is one of the most remarkable industrial developments of the twentieth century. Thirty years ago the automobile was emerging from the experimental stage and the world production consisted of a few thousand cars. In 1929 the estimated world output was 6,277,451 cars, though in 1933 the output has declined to 2,682,814 cars. Canada has made great progress in recent years in the production and exportation of automobiles. In production Canada, in 1933, occupied fifth place with 65,852 cars, made up of 53,849 passenger cars, and 12,003 motor trucks and busses, while in 1929 her production was 262,625 cars. The United States occupied first place in 1933 with an output of 1,927,256 cars, of which 1,586,338 were passenger cars, and 340,918 were motor trucks and busses; the United Kingdom occupied second place with an output of 280,526 cars; France, third place with 191,929 cars; and Germany fourth place with 105,832 cars. In 1917 Canada's production was 93,810 automobiles, though from 1904 to 1916 the total production was only 135,000 cars.

Canada's exports of automobiles for the fiscal year 1906, the first year for which export statistics of automobiles are available, were only 67 cars, valued at \$63,329; in the fiscal year 1911 the exports were 627 cars, valued at \$595,746; ten years later (fiscal year 1921) the exports had increased to 19,910 cars, valued at \$13,979,121, made up of passenger cars 15,620, of a value of \$11,376,268, and motor trucks 4,290, of a value of \$2,602,853, while for the fiscal year 1934 the exports were 28,401 cars, valued at \$11,454,088, consisting of passenger cars 21,360, of a value of \$8,934,250, and motor trucks 7,041, of a value of \$2,519,838. Five years ago (fiscal year 1929) Canada's exports of automobiles consisted of 103,566 cars, valued at \$43,059,733, the passenger cars amounting to 72,108, of a value of \$31,264,999, and motor trucks to 31,458 of a value of \$11,794,734.

From the statistics in the following table re "Exports of Automobiles from Principal Automobile Producing Countries of the World", it will be noted that Canada occupied fourth place in the exports of automobiles for the calendar year 1933, with 20,403 cars; the United States being in first place by a considerable margin, with 108,127 cars; the United Kingdom in second place with 51,751 cars; France in third place with 23,085 cars; Germany in fifth place with 13,563 cars; and Italy in sixth place with 7,372 cars.

5	5	6	6		Italy.....		20,735		10,686		6,191		579

NOTE.—In 1913, the total exports of motor cars were: United States 26,889 cars; United Kingdom 9,814 cars; and Canada 6,306 cars. No statistics available in 1913 as to number of motor cars exported from France, Germany and Italy.

**Newsprint Paper Production:**—Canada, according to statistics issued by the Canadian Pulp and Paper Association and from other sources, led the world as a producer of newsprint paper during the calendar year 1933, as also for the years 1926 to 1932. The statistics in the following table showing "Production of Newsprint Paper for Principal Paper-Producing Countries of the World" indicate that for 1933 Canada's production of newsprint paper amount to 4,034,000,000 pounds; the United States being second with 1,892,000,000 pounds; the United Kingdom, third with 1,660,000,000 pounds; and Germany, fourth with 824,000,000 pounds. The total production of newsprint paper for the world in 1933 was estimated at about 12,842,000,000 pounds, of which Canada, Newfoundland and the United States supplied 50·4 per cent, and Canada alone about 31·4 per cent. The estimated production of newsprint paper for eighteen of the leading paper-producing countries of the world was: 1926, 12,092,000,000 pounds; 1927, 12,706,000,000 pounds; 1928, 13,235,000,000 pounds; 1929, 14,641,000,000 pounds; in 1930, 14,230,000,000 pounds; in 1931, 13,244,000,000 pounds; in 1932, 12,550,000,000 pounds; and in 1933, 12,728,000,000 pounds.

**Newsprint Paper Exports:**—Canada, during the calendar year 1933, occupied first place by a very wide margin among the world's chief exporters of newsprint paper, her exports being over seven times as great as those for Finland, her next competitor. From the statistics in the following table giving "Exports of Newsprint Paper from Principal Paper-Producing Countries of the World", it will be observed, that even in 1913 Canada led the world as an exporter of newsprint paper, Norway being in second place, the United Kingdom in third, and Finland in fourth place. In 1933 the total quantity of newsprint paper exported by the thirteen leading paper-exporting countries was 5,950,764,000 pounds, compared with 6,220,947,000 pounds in 1927, 6,896,475,000 pounds in 1928, 7,811,572,000 pounds in 1929, 7,378,458,000 pounds in 1930, 6,568,577,000 pounds in 1931, and 6,052,077,000 pounds in 1932; of which amount Canada in 1927 contributed 3,763,731,000 pounds or 60·5 per cent; in 1928, 4,413,175,000 pounds or 63·9 per cent; in 1929, 5,030,990,000 pounds or 64·4 per cent; in 1930, 4,665,019,000 pounds or 63·2 per cent; in 1931, 4,016,482,000 pounds or 61·3 per cent; in 1932, 3,553,528,000 pounds or 58·7 per cent; and in 1933, 3,676,210,000 pounds or 61·7 per cent. Canada's exports of newsprint paper, therefore, exceeded the exports of the other twelve leading countries combined by 1,306,515,000 pounds in 1927; 1,929,875,000 pounds in 1928; 2,250,408,000 pounds in 1929; 1,951,580,000 pounds in 1930; 1,464,387,000 pounds in 1931; 1,054,979,000 pounds in 1932; and 1,401,656,000 pounds in 1933. Canada's exports of newsprint paper are greater than those of the rest of the world combined.

EXPORTS OF NEWSPRINT PAPER FROM PRINCIPAL PAPER-PRODUCING COUNTRIES  
OF THE WORLD

**Rubber Tire Exports:**—Canada's rapid advance as a rubber tire producer and exporter since the war has been based on the great development of the automobile industry. In the fiscal year 1917, the first year for which there are export statistics of rubber tires, the exports of rubber tires from Canada were valued at \$726,768; ten years later (fiscal year 1927) the exports had increased to \$18,565,909; in 1930 the exports were valued at \$18,153,225, but in 1931 the exports had dropped to \$11,764,948; in 1932 to \$5,147,205; in 1933 to \$3,205,138; and in 1934 to \$4,307,374, the decrease being due to the drastic decline in the price of raw rubber and other materials used in the tire industry. Export figures show that when there is a marked increase or decrease in the exports of automobiles, there is also a marked increase or decrease in the exports of rubber tires, thus indicating the close relation existing between the two industries. Thus, from 1917 to 1927 the increase in the exports of automobiles was \$27,146,353, and rubber tires \$17,839,141, but from 1930 to 1934 automobiles show a decrease of \$23,853,557, and rubber tires a decrease of \$13,845,851.

It will be observed by reference to the statistics in the following table re "Exports of Rubber Tires from the Principal Rubber Tire-Producing Countries of the World" that Canada occupied sixth position in the calendar year 1933 with an export valued at \$3,581,599, but in the years 1927 to 1929 she was in third position. The United Kingdom in 1933 occupied first place with an export valued at \$15,589,999. United States second place with an export valued at \$10,071,225; France third position with an export valued at \$9,193,826; Belgium in fourth place with an export valued at \$6,502,612; and Italy in fifth place with an export valued at \$5,352,405. In 1929 the United Kingdom was in second position and France in fourth position, but in 1927 and 1928 France occupied second place and the United Kingdom fourth place.

**Wheat Exports:**—The rapid increase in the production of wheat in the Prairie Provinces during the past decade and a half or so, and the practical elimination of Russia, Roumania and other wheat producing countries of Europe as leading factors in the grain trade up to four years ago, have had the effect of establishing Canada, up to that time, in second place as a wheat producing country, the first place being held by the United States. During the past three years, however, Russia has enormously increased her production of wheat, so that in 1928 and 1929 (according to latest information) she occupied second position in wheat production, while Canada during 1929, with the falling off in her wheat yield, moved down to fifth position in the world's wheat production. In 1933 Canada was in eighth position with 269,729,000 bushels; being exceeded by Russia, China, the United States, British India, France, Italy and Argentina.

With reference to exports of wheat for the calendar year 1933, Canada occupied first place, with an export of 192,275,000 bushels; Argentina second position with 144,072,000 bushels; Australia third place with 114,886,000 bushels; Russia in fourth place with 27,493,000 bushels; Hungary in fifth place with 16,544,000 bushels; and the United States in sixth place with 8,883,000 bushels. Canada's exports of wheat for the past nine years, as also for the year 1913, have exceeded those of the United States. The Dominion's exports of wheat for the fiscal year 1900 amounted to only 16,845,000 bushels; in 1910 they totalled 49,741,000 bushels; in 1920, 77,978,000 bushels; in 1931, 217,243,000 bushels; in 1932, 191,316,000 bushels; in 1933 they amounted to 239,373,000 bushels; and in 1934 to 175,534,000 bushels. It will be noted by reference to the statistics in the following table showing "Exports of Wheat from Principal Wheat-Producing Countries of the World" that in 1913 Canada occupied first place as a wheat-exporting country, with an export of 129,950,000 bushels; Russia being in second place with an export of 121,953,000 bushels; Argentina in third place with 103,300,000 bushels; and the United States in fourth place with 99,509,000 bushels. In 1933 the order had been changed considerably, Canada being in first place, Argentina in second, Australia in third place, Russia in fourth place, Hungary in fifth place, and the United States in sixth place. Canada having occupied first place in wheat exports for some years yielded first place to Argentina in 1929 but reverted to first position again in 1930. Wheat occupies first place among Canada's exports.

**Wheat Flour Exports:**—Canada, since the opening of the twentieth century, has made remarkable progress in the flour-milling industry. This expansion in her flour production is reflected in the increase in the Dominion's flour exports. Today Canada ranks second amongst the countries of the world as a wheat-flour exporting country, the first place being occupied by Australia, and third place by the United States. Canada's exports of wheat flour for the fiscal year 1900 amounted to 768,000 barrels; ten years later they totalled 3,064,000 barrels; in 1920 they amounted to 8,863,000 barrels; in 1932 to 5,414,000 barrels; in 1933 to 5,268,000 barrels, and in 1934 to 5,620,000 barrels compared with 11,267,000 barrels in the fiscal year 1929.

It will be noted from the statistics in the following table showing "Exports of Wheat Flour from Principal Flour-Producing Countries of the World" that in 1933 Canada was in second place with an export of 5,570,000 barrels; Australia being in first place with an export of 6,279,000 barrels; the United States in third place with 3,964,000 barrels; Japan in fourth place with 3,580,000 barrels; France in fifth place with 2,334,000 barrels; and the United Kingdom in sixth place with 1,773,000 barrels. The exports of wheat flour from the United States in 1933 were 8,314,000 barrels less than in 1913; from Canada 676,000 barrels greater, and from Australia 4,017,000 barrels greater. From 1929 to 1933 the wheat flour exports of the United States decreased from 13,663,000 to 3,964,000 barrels; from Canada, from 9,574,000 to 5,570,000 barrels; while the wheat flour exports from Australia during the same period increased from 5,557,000 to 6,279,000 barrels.

**Wood Pulp Exports:**—Canada's great advance as a newsprint paper producer and exporter since the opening of the present century, has been based on the great expansion of her wood pulp industry. Canada's exports of wood pulp during the fiscal year 1890 were valued at only \$168,000, and in 1900 at \$1,816,000. In the year 1910 the Dominion's exports of wood pulp amounted to 590,346,000 pounds, value \$5,205,000; in 1920, or ten years later, they amounted to 1,538,958,000 pounds value \$41,383,000; and in 1934 to 1,290,615,000 pounds, value \$25,102,000. The decrease in the exports of wood pulp from Canada from 1920 to 1934, is chiefly due to the fact that year by year larger quantities of wood pulp are used in the Canadian paper industry in the manufacture of newsprint and other forms of paper, and consequently the product is being exported in a manufactured form (paper) rather than in a semi-manufactured form (wood pulp). According to statistics in the following table giving "Exports of Wood Pulp from Principal Wood Pulp-Producing Countries of the World", Canada, during the calendar year 1933, occupied fourth position among the world's exporters of wood pulp, with an export of 1,217,019,000 pounds; the first place being held by Sweden, with an export of 4,913,823,000 pounds; Finland was in second place with an export of 2,876,913,000 pounds; while Norway was in third place with an export of 1,852,537,000 pounds. In exports of chemical pulp in 1933 Canada occupied third position, with an export of 941,659,000 pounds, the first place being held by Sweden, by a wide margin, with an export of 3,621,602,000 pounds; and second place by Finland with an export of 2,079,147,000. With regard to exports of mechanical pulp, Canada occupied fourth place in 1933 with an export of 275,360,000 pounds; the first, second and third places being held by Norway with 1,296,501,000 pounds; Sweden, 1,292,221,000 pounds; and Finland, 797,766,000 pounds. In 1913 Sweden occupied first place as an exporter of wood pulp, Norway second place, and Canada third.

#### HISTORICAL SUMMARY OF CANADA'S TRADE, BY DECADES, 1890 TO 1930, AND THE YEAR 1934

Canada's import and export trade has changed very materially since 1890, both as to its origin and destination as well as in its character. The statistics in the following Tables Nos. 1 and 2, relative to Canada's imports and exports, by countries, indicate that the Dominion's trade, both import and export, and especially export, with "Other Countries", i.e., countries, except the United Kingdom and the United States, made very little progress from 1890 to 1900 or even 1910, but that from 1910 on there was a marked improvement in this trade. This betterment in Canada's trade with "Other Countries" was no doubt due to the provision in the Customs Tariff Act, 1907, for the extension of benefits of the British Preferential Tariff, in whole or in part, to any British Country and the benefits of the Intermediate Tariff, in whole or in part, to any

British or foreign country that grants trade benefits to Canada satisfactory to the Governor in Council. Prior to 1907 Canada had no bargaining machinery of this kind. In 1890 Canada's imports from "Other Countries" amounted to \$17,040,000; in 1900 they totalled \$26,147,000; in 1910 they had increased to \$56,977,000; in 1920 to \$137,068,000; and in 1930 to \$211,652,000; but due to the world-wide depression and the fall in commodity prices the imports from "Other Countries" in 1931 had declined to \$172,699,000; in 1932 to \$120,466,000; in 1933 to \$87,370,000, and in 1934 they amounted to \$90,510,000, the imports in 1932, 1933 and 1934 being less than for the year 1920. The Dominion's domestic exports to "Other Countries" in 1890 were valued at \$7,546,000; in 1900 at \$14,413,000; in 1910 they were valued at only \$35,566,000; in 1920 at \$286,311,000; and by 1930 they amounted to \$323,463,000; but in 1931, owing to unstable trade conditions and decline in commodity prices, the exports to "Other Countries" declined to \$230,836,000; in 1932 to \$167,114,000; in 1933 to \$146,279,000; and in 1934 to \$157,300,000. Compared with 1930, Canada's imports in 1934 from "Other Countries" show a decrease of \$121,142,000, and exports to, a decrease of \$166,163,000, the decline in the trade, both import and export, being due to decreases in both the value and the volume. The decrease in the value was more pronounced than in the volume, due to drastic decline in commodity prices.

Further, from these Tables Nos. 1 and 2, it will be observed that the imports from the United States from 1890 to 1934 increased from \$53,366,000 to \$238,188,000 (1930, \$847,442,000); the United Kingdom from \$43,277,000 to \$105,101,000 (1930, \$189,180,000); Germany from \$3,779,000 to \$9,923,000 (1930, \$21,505,000); British West Indies, including Bermuda, from \$1,182,000 to \$9,274,000 (1930, \$13,755,000); British East Indies from \$183,000 to \$3,361,000 (1930, \$13,170,000); France from \$2,616,000 to \$6,894,000 (1930, \$25,158,000); Australia from \$205,000 to \$5,407,000 (1930, \$4,211,000); British Africa from \$113,000 to \$5,078,000 (1930, \$4,132,000); Peru from nil to \$3,580,000 (1930, \$7,492,000); Colombia from \$1,600 to \$3,570,000 (1930, \$7,253,000); Japan from \$1,258,000 to \$3,311,000 (1930, \$12,537,000); the Netherlands from \$422,000 to \$3,242,000 (1930, \$9,433,000); Belgium from \$721,000 to \$3,200,000 (1930, \$13,019,000); Switzerland from \$317,000 to \$2,808,000 (1930, \$7,315,000); Italy from \$163,000 to \$2,580,000 (1930, \$4,964,000); New Zealand from \$12 to \$2,575,000 (1930, \$16,283,000); China from \$842,000 to \$2,331,000 (1930, \$2,977,000); Argentina from \$25 to \$2,050,000 (1930, \$10,232,000); Norway and Sweden from \$19,000 to \$1,670,000 (1930, \$3,364,000); Fiji from nil to \$1,647,000 (1930, \$3,677,000); British Guiana from \$212,000 to \$1,389,000 (1930, \$3,982,000); and Spain from \$323,000 to \$1,129,000 (1930, \$2,784,000).

During the same interval, 1890 to 1934, Canada's domestic exports to the United Kingdom increased from \$41,499,000 to \$227,593,000 (1930, \$281,746,000); the United States from \$36,213,000 to \$194,450,000 (1930, \$515,050,000); the Netherlands from \$1,000 to \$19,655,000 (1930, \$15,944,000); Japan from \$27,000 to \$13,803,000 (1930, \$30,476,000); Belgium from \$41,000 to \$12,538,000 (1930, \$21,693,000); Australia from \$471,000 to \$12,139,000 (1930, \$16,323,000); France from \$278,000 to \$11,907,000 (1930, \$16,507,000); Germany from \$461,000 to \$10,588,000 (1930, \$25,344,000); British Africa from \$23,000 to \$8,554,000 (1930, \$13,803,000); British West Indies, including Bermuda, from \$1,461,000 to \$8,186,000 (1930, \$17,316,000); Newfoundland from \$982,000 to \$6,131,000 (1930, \$12,178,000); China from \$32,000 to \$5,396,000 (1930, \$16,528,000); British East Indies from \$9,000 to \$4,536,000 (1930, \$10,717,000); New Zealand from \$20,000 to \$4,480,000 (1930, \$19,166,000); Norway and Sweden from \$381,000 to \$4,353,000 (1930, \$8,353,000); St. Pierre and Miquelon from \$161,000 to \$4,347,000 (1930, \$5,859,000); Italy from \$81,000 to \$3,543,000 (1930, \$11,387,000); Irish Free State from nil to \$3,515,000 (1930, \$2,712,000); and Argentina from \$763,000 to \$2,794,000 (1930, \$19,227,000).

By reference to Tables Nos. 3 and 4 which show the trend of Canada's imports and exports of commodities since 1890, it will be noted that there has been a marked change in the character of the Dominion's imports and exports, as well as in the importance of the various commodities which comprise the import and export trade. In the imports and exports of leading commodities from 1890 to 1934, it will be observed that commodities that occupied an important position in Canada's import and export trade in 1890 have, due to economic changes in the industrial life of the country, been materially changed in their importance in relation to other commodities in 1934.

# CONDENSED PRELIMINARY TRADE REPORT

## PREFACE

All features of previous issues of the Condensed Preliminary Trade Report are continued in the present number. It consists, as before, of two main sections—A Review of Canada's Foreign Trade during the fiscal year just closed (1934-35), and a series of statistical tables ("Condensed Statistical Record of Canadian Trade"), partly summary and historical, but mainly a presentation of the main items of the trade of Canada with the more important countries of the world.

In the first section, the external trade of Canada is examined from several angles and the outstanding features of the year explained in both text and tabular form. This section also contains historical summary of Canada's import and export trade by decades fiscal years 1889-90 to 1929-30 and the fiscal year 1934-35, distinguishing imports and exports for principal countries and commodities.

All the tables have been revised and expanded to meet altered conditions of trade. Commercial exchange with ninety-eight different countries is dealt with in leading commodities.

Throughout the report, figures for the fiscal year ended March 31, 1934-35, are unrevised; those for earlier years are final.

The "Review of Canada's Foreign Trade for 1934-35," was written by Mr. W. A. Warne, B.A., Chief of the External Trade Branch of the Dominion Bureau of Statistics, while the "Condensed Statistical Record" was compiled by Mr. A. L. Neal, B.A., B.Sc. (econ.), Statistician of the Branch.

R. H. COATS,  
Dominion Statistician

## REVIEW OF CANADA'S FOREIGN TRADE, 1934-35

An encouraging development in 1934 was the marked and widespread improvement in world trade, as thirty-one (31) out of thirty-five chief trading countries of the world in 1934 compared with 1933, had increases in imports, and thirty-two (32) had increases in exports. Canada, in percentage of increase in her trade amongst the thirty-five (35) leading countries occupied eleventh position in both imports and exports, but in 1933 compared with 1932 she occupied only thirtieth position in imports, and twenty-third position in exports. In percentage of exports over imports Canada in 1933 occupied seventh place, and in 1934 ninth place.

The steady but marked increase in Canada's foreign trade for the year ended March 31, 1935, had its inception in the early months of 1933-34. Total trade during the fiscal year, 1934-35, amounted to \$1,189,990,000; imports accounting for \$522,431,000 of this amount; domestic exports for \$659,900,000; and foreign exports for \$7,659,000; the increase in the total trade 1934-35 compared with 1933-34 amounting to \$170,537,000 or 16.7 per cent; imports to \$88,632,000 or 20.4 per cent; domestic exports to \$80,557,000 or 13.9 per cent; and foreign exports to \$1,348,000 or 21.4 per cent. Empire countries accounted for 46.5 per cent of the increase in Canada's total trade from 1933-34 to 1934-35 and foreign countries for 53.5 per cent; the increase in imports from Empire countries accounted for 17.8 per cent of the total, and from foreign countries for 82.2 per cent; while the Empire's share in the increase in domestic exports was 78.8 per cent, and foreign countries 21.2 per cent.

Canada's trade for the past eleven fiscal years may be divided into three periods: (1) 1924-25 to 1929-30, expanding trade; (2) 1929-30 to 1932-33, general trade depression; and (3) 1932-33 to 1934-35, trade recovery. During the depression period the slump in imports was greater than in exports, while during the recovery period the increase in imports was not as great as in exports. The statistics in the following table give the percentages of increase or decrease in Canada's total trade, imports and exports on a value and volume basis, for the fiscal years 1929-30 to 1934-35. It will be observed that Canada's total trade for the fiscal year 1934-35 compared with 1933-34 shows an increase of 16.7 per cent on a value basis and 11.1 per cent on a volume basis; imports an increase of 20.4 per cent on a value basis, and 13.9 per cent on a volume basis, while the Dominion's domestic exports show an increase of 13.9 per cent on a value basis, and 8.9 per cent on a volume basis.

## UPWARD TREND IN CANADA'S TRADE WITH THE WORLD, 1934-35

The upward trend in Canada's imports, which began in August, 1933 continued during each month to the end of March, 1935. The increase in each month during the fiscal year 1934-35, was greater than for the corresponding months in the fiscal years 1932-33 or 1933-34, but only greater in three of the months during the fiscal year 1931-32, though the decrease for the fiscal year 1934-35 compared with 1931-32 was only 9.7 per cent. For the period April-March 1934-35, Canada's total imports were valued at \$522,431,000, compared with \$578,504,000 during the same period in 1931-32; \$406,384,000 in 1932-33; and \$433,799,000 in 1933-34. The decrease in the fiscal year 1934-35 compared with the fiscal year 1931-32 was \$56,073,000 or 9.7 per cent; but compared with the fiscal year 1932-33 the increase was \$116,047,000 or 28.6 per cent, and with the fiscal year 1933-34 the increase was \$88,632,000 or 20.4 per cent. Canada's domestic exports show an upward trend in each month from May, 1933 to the end of March, 1935, except for the month of January 1935 compared with January of the previous year. Canada's exports for each month in the fiscal year 1934-35 were greater than for any corresponding month in the

fiscal years 1931-32, 1932-33 or 1933-34, except for the months of April and May, 1931, and January, 1934. Canada's domestic exports for the fiscal year 1934-35 amounted to \$659,900,000, compared with \$576,344,000 in the fiscal year 1931-32; \$473,800,000 in the fiscal year 1932-33, and \$579,343,000 in the fiscal year 1933-34. The increase for the fiscal year 1934-35 over the fiscal year 1931-32 was \$83,556,000 or 14.5 per cent; over the fiscal year 1932-33, \$186,100,000 or 39.3 per cent; and over the fiscal year 1933-34, \$80,557,000 or 13.9 per cent.

## UPWARD TREND IN CANADA'S TRADE WITH EMPIRE COUNTRIES, 1934-35

The upward trend in Canada's imports from Empire countries, which began in June, 1933, continued to show increases in each month over the corresponding month in the previous fiscal years down to the end of January 1935, the imports for February and March 1935, being less than for the corresponding months of 1934. Canada's imports in each month in the fiscal year 1934-35 were greater than for any month in the fiscal year 1931-32, except for the months of April and May, 1931, and March, 1932, and they were also greater than for any corresponding month in the fiscal years 1932-33, and 1933-34, except for the months of February and March, 1934. Canada's total imports from Empire countries in the fiscal year 1934-35 were valued at \$156,186,000, compared with a similar import in the fiscal year 1931-32, valued at \$147,812,000; in the fiscal year 1932-33, at \$120,384,000; and in the fiscal year 1933-34, at \$140,404,000; the increase in the imports in the fiscal year 1934-35 over similar imports in 1931-32 amounting to \$8,374,000 or 5.7 per cent; over the fiscal year 1932-33 to \$35,802,000 or 29.7 per cent, and over the fiscal year 1933-34 to \$15,782,000 or 11.2 per cent. Canada's imports from all countries from 1931-32 to 1934-35 decreased \$56,073,000; imports from Empire countries during this interval increased \$8,374,000, while those from foreign countries decreased \$64,447,000. The upward trend in Canada's domestic exports to Empire countries, which began in May, 1933,

continued during each month compared with the corresponding month in the previous fiscal year, down to the end of March 1935, except for the months of January and March, the exports for these months in 1935 being less than for the year 1934. The domestic exports to Empire countries in the fiscal year 1934-35 were greater in each month than for the corresponding month in the fiscal years 1931-32, 1932-33, and 1933-34, except in the months of January and March, the decreases in January and March, 1935, compared with similar months in 1934 being 5.9 and 2.0 per cent respectively. Canada's total domestic exports to Empire countries in the fiscal year 1934-35 amounted to \$341,497,000 compared with a domestic export in the fiscal year 1931-32 of \$218,956,000; in 1932-33 of \$222,119,000; and in 1933-34 of \$278,025,000; the increase in the fiscal year 1934-35 over the fiscal year 1931-32 amounting to \$122,541,000 or 56.0 per cent; over 1932-33 to \$119,378,000 or 53.7 per cent; and over 1933-34 to \$63,472,000 or 22.8 per cent. Canada's domestic exports to all countries from 1931-32 to 1934-35 increased \$83,556,000; exports to Empire countries during this period increased \$122,541,000, while exports to foreign countries decreased \$38,985,000.

### UPWARD TREND IN CANADA'S TRADE WITH FOREIGN COUNTRIES, 1934-35

There has been an upward trend in Canada's trade with foreign countries as with Empire countries during the past three years, but it has not been so marked, except in the case of imports in the fiscal year 1934-35 compared with 1933-34. Canada's imports from Empire countries in the fiscal year 1934-35 compared with 1931-32 increased 5.7 per cent, while imports from foreign countries decreased 15.0 per cent; compared with 1932-33 imports from Empire countries increased 29.7 per cent, and from foreign countries 28.1 per cent; but compared with 1933-34 imports from Empire countries increased 11.2 per cent, as against an increase from foreign countries of 24.8 per cent. Canada's exports, however, to Empire countries in the fiscal year

1934-35 compared with 1931-32 increased 56.0 per cent as against a decrease to foreign countries of 10.9 per cent; compared with 1932-33 exports to Empire countries increased 53.7 per cent, and to foreign countries 26.5 per cent; but compared with 1933-34 exports to Empire countries increased 22.8 per cent, as against an increase to foreign countries of 5.7 per cent.

Canada's upward trend in imports to foreign countries, which began in September 1933, continued during each month down to the end of March, 1935. Imports from foreign countries in the fiscal year 1934-35 show increases in each month over corresponding months in the fiscal years 1932-33 and 1933-34, but compared with 1931-32, the only months to show increases were January and February, 1935, over similar months in 1932. In the fiscal year 1934-35 imports from foreign countries amounted to \$366,245,000, compared with \$430,692,000 in 1931-32; \$285,999,000 in 1932-33, and \$293,395,000 in 1933-34; the decrease in the imports in 1934-35 compared with 1931-32 amounting to \$64,447,000 or 15.0 per cent, but compared with 1932-33 the increase was \$80,246,000 or 28.1 per cent, and with 1933-34, \$72,850,000 or 24.8 per cent. The upward trend in Canada's exports to foreign countries which began in July, 1933, continued down to March 1935, except for the months of August, September and October, 1934, compared with similar months in 1933, and the month of January 1935 compared with January 1934. Canada's exports to foreign countries in the fiscal year 1934-35 compared with 1933-34 show increases in eight months out of the twelve; compared with eleven months in 1932-33; and compared with only two months in 1931-32. Canada's domestic exports to foreign countries in the fiscal year 1934-35 were valued at \$318,403,000; in 1931-32 at \$357,388,000; in 1932-33 at \$251,681,000; and in 1933-34 at \$301,318,000; the decrease in 1934-35 compared with 1931-32 amounting to \$38,985,000 or 10.9 per cent, but compared with 1932-33 the increase amounted to \$66,722,000 or 26.5 per cent, and with 1933-34 to \$17,085,000 or 5.7 per cent.

## CANADA'S POSITION IN WORLD TRADE, 1934

Canada, during the calendar year 1934, maintained a relatively high place amongst the leading commercial nations of the world in international trade. The Dominion occupied eighth place in total trade during last year, against ninth place in 1933. In imports the standing was ninth place, compared with eleventh in 1933; while in exports Canada occupied fifth place against sixth position in 1933. In the calendar year 1934 there were some notable changes in the relative position of certain chief trading countries of the world. The United Kingdom in 1933 and 1934 occupied second position in the value of exports, while Canada moved from sixth position in 1933 up to fifth position in 1934, displacing Belgium. In import trade Canada moved from eleventh place in 1933 up to ninth place in 1934, displacing Switzerland and British India, while in total trade the Dominion moved from ninth place in 1933 up to eighth place in 1934, displacing Italy.

The following table gives further details respecting the relative position of the leading commercial countries of the world.

TRADE OF TWELVE LEADING COMMERCIAL COUNTRIES OF THE WORLD  
IN CANADIAN CURRENCY

(Calendar Year, 1934)

## UPWARD TREND IN WORLD TRADE, 1934

The statistics in the following table showing "Net Imports and Domestic Exports of Thirty-Five Leading Countries of the World, Calendar year 1934 Compared with 1933" indicate a marked recovery in world trade. Thirty-one of the countries listed show increases in imports, and thirty-two in exports; the countries to show decreases in imports being Argentina, China, France and Russia (U.S.S.R.), and in exports, Argentina, Australia, and Union of South Africa. Canada, amongst the thirty-five chief trading countries of the world in imports occupied eleventh place in 1933, and ninth in 1934, and in exports, sixth place in 1933, and fifth place in 1934; the countries in 1934 to have a larger import trade than Canada being: Belgium-Luxemburg, France, Germany, Italy, Japan, the Netherlands, the United Kingdom, and the United States; and a larger export trade, France, Germany, the United Kingdom, and the United States. In percentage of increase amongst the thirty-five countries Canada occupied eleventh place in both imports and exports; the countries to have a larger percentage of increase in imports being: Australia, British Malaya, Chile, Finland, Hungary, New Zealand, Peru, Sweden, Union of South Africa, and Yugoslavia; and in exports, British Malaya, Chile, Czechoslovakia, Finland, Hungary, Japan, New Zealand, Peru, Sweden and Yugoslavia. Canada, in trade recovery, calendar year 1934 compared with 1933, and 1933 compared with 1932, improved her position amongst the thirty-five (35) principal commercial countries of the world, moving up in imports from 30th to 11th place, and in exports from 23rd to 11th place. In percentage relation of exports to imports, Canada in 1933 occupied seventh place, and in 1934 ninth place; the six countries to have a higher percentage relation of exports to imports than Canada in 1933 being: Australia, Chile, New Zealand, Peru, Russia (U.S.S.R.), and Union of South Africa, and in 1934 the eight countries being: Argentina, Brazil, British Malaya, Chile, Finland, New Zealand, Peru, and Russia (U.S.S.R.).

## COMPARISON OF VALUE AND VOLUME OF CANADA'S TRADE, 1934-35

In comparing trade for different periods, it is important to bear in mind that values are not necessarily a true measure of the quantity or volume of merchandise involved. Changes in the nominal values of imports and exports over a given period may be caused by variations in quantity, fluctuations in price, or by a combination of these factors. A preliminary compilation has been made comparing the value and volume of Canada's trade for the fiscal year 1934-35 with that for 1933-34. The results are set forth in the following table. The declared values by main groups are shown for 1933-34 and 1934-35, together with the values obtained by re-valuing the quantities of 1934-35 at the average import and export prices prevailing in 1933-34. This eliminates the element of price fluctuation and permits a comparison of the volume of trade in the two years. It will be noted that the declared value of imports increased from \$433,799,000 in 1933-34 to \$532,431,000 in 1934-35. If prices had not risen from the 1933-34 level, the value of imports would have increased nevertheless, to \$494,247,000, an increase of \$60,448,000, indicating an expansion in the volume of imports of 13.9 per cent.

Exports also increased substantially both in value and volume, rising from \$579,343,000 to \$659,900,000 in declared value, and to \$630,836,000 after allowance for the element of rising prices, representing increases of 13.9 per cent in value, and 8.9 per cent in volume.

Of the nine main groups shown in imports, three (Agricultural and Vegetable Products, Non-Metallic Minerals and Products; and Miscellaneous Commodities) show increases in both

unit values (i.e. prices), and volume; one (Fibres, Textiles and Textile Products) shows an increase in unit values, and a decrease in volume; five (Animals and Animal Products; Wood, Wood Products and Paper; Iron and Its Products; Non-Ferrous Metals and Products; and Chemicals and Allied Products) show increases in volume and declines in unit values. No group registered declines in both unit values and volume.

In exports, four of the nine main groups (Animals and Animal Products; Wood, Wood Products and Paper; Chemicals and Allied Products; and Miscellaneous Commodities) show increases in both unit prices and volume; one (Agricultural and Vegetable Products) shows increases in unit values, and declines in volume; three (Iron and Its Products; Non-Ferrous Metals and Their Products; and Non-Metallic Minerals and Their Products) show increases in volume, and declines in unit prices; one (Fibres, Textiles and Textile Products) shows a decline in both unit values and volume.

With reference to declared value, which is a product of unit value and volume, all main groups in imports; show increases in 1934-35; and in exports all groups show increases except Fibres, Textiles and Textile Products, which shows a slight decline.

COMPARISON OF VALUE AND VOLUME OF CANADA'S TRADE  
(Fiscal Year 1934-35 compared with 1933-34)

Chemicals and Allied Products.....	13,844	15,270	14,811	(+)	1,426	(+)	967
Miscellaneous Commodities.....	10,358	12,083	11,678	(+)	1,725	(+)	1,320
Total Domestic Exports.....	579,343	659,900	630,836	(+)	80,557	(+)	51,493

The statistics in the following table show the percentage increase or decrease in Canada's trade by main groups for each of the fiscal years 1932-33, 1933-34 and 1934-35, compared with 1931-32, 1932-33 and 1933-34, respectively.

It will be noted that the reversal of the downward trend in 1933-34 is confirmed in 1934-35. It is noteworthy that the improvement in 1934-35 over 1933-34 is the result of both higher prices and greater volume, while the improvement of 1933-34 over 1932-33 was due almost entirely to greater volume.

## PERCENTAGE INCREASE OR DECREASE IN CANADA'S IMPORTS AND EXPORTS BY MAIN GROUPS ON A VALUE AND VOLUME BASIS

(Fiscal Year 1931-32 compared with 1930-31; 1932-33 with 1931-32; 1933-34 with 1932-33; and 1934-35 with 1933-34)

## CANADA'S TRADE WITH THE WORLD, 1934-35

(a) **Analysis of Canada's Total Trade with the World, 1934-35:**—The foreign commodity trade of Canada during the year ended March 31, 1934-35 was valued at \$1,189,990,000, compared with a similar trade in 1931-32 valued at \$1,166,069,000; in 1932-33 at \$887,098,000; and in 1933-34 at \$1,019,453,000; the increase in total commodity trade in 1934-35 compared with 1931-32 amounting to \$23,921,000 or 2.1 per cent; with 1932-33 to \$302,892,000 or 34.1 per cent; and with 1933-34 to \$170,537,000 or 16.7 per cent. Imports in 1934-35 show a decrease compared with 1931-32, but an increase over the years 1932-33, and 1933-34; while the exports in 1934-35 show increases over the years 1931-32, 1932-33, and 1933-34. During the fiscal year 1934-35 Canada's imports amounted to \$522,431,000, compared with an import trade in the fiscal year 1931-32 valued at \$578,504,000; in 1932-33 at \$406,384,000; and in 1933-34 at \$433,799,000; the decrease in the imports in 1934-35 compared with 1931-32 amounting to \$56,073,000 or 9.7 per cent, but compared with the fiscal year 1932-33 the increase amounted to \$116,047,000 or 28.6 per cent, and with 1933-34 to \$88,632,000 or 20.4 per cent; while the exports (domestic and foreign combined), during the fiscal year 1934-35 were valued at \$667,559,000 compared with a similar trade in 1931-32 valued at \$587,565,000; in 1932-33 at \$480,714,000; and in 1933-34 at \$585,654,000; the increase in 1934-35 compared with 1931-32 amounting to \$79,994,000 or 13.6 per cent; with 1932-33 to \$186,845,000 or 38.9 per cent; and with 1933-34 to \$81,903,000, or 14.0 per cent. During the fiscal year 1934-35 Canada's domestic exports were valued at \$659,900,000; in 1931-32 at \$576,344,000; in 1932-33 at \$473,800,000; and in 1933-34 at \$579,343,000; the increase in 1934-35 over 1931-32 amounting to \$83,556,000 or 14.5 per cent; over 1932-33 to \$186,100,000 or 39.3 per cent; and over 1933-34 to \$80,557,000 or 13.9 per cent.

For the fiscal year ended March 31, 1934-35 Canada's visible merchandise trade balance was favourable to the extent of \$145,128,000, compared with a favourable balance in 1931-32 of \$9,061,000; in 1932-33 of \$74,330,000; and in 1933-34 of \$151,855,000. The improvement in

## DOMINION BUREAU OF STATISTICS

Canada's visible merchandise trade balance in 1934-35 compared with 1931-32 amounted to \$136,067,000; with 1932-33 to \$70,798,000; but compared with the same period in 1933-34 the trade balance was less favourable, amounting to \$6,727,000. If the trade in merchandise and coin and bullion are combined, the visible trade balance with the world in the fiscal year 1934-35 was favourable to the extent of \$241,971,000, compared with a favourable balance in 1931-32 of \$79,085,000; in 1932-33 of \$138,301,000; and in 1933-34 of \$252,820,000.

For further details respecting Canada's trade with the world, in merchandise and coin and bullion, fiscal years 1931-32, 1932-33, 1933-34 and 1934-35, see statistics in the following table:—

SUMMARY OF CANADA'S TRADE WITH THE WORLD

(b) **Canada's Principal Imports from the World, 1934-35:**—Canada's total imports of merchandise for the fiscal year 1934-35, amounting to \$522,431,000, were \$56,073,000 or 9.7 per cent less than for the fiscal year 1931-32, but \$116,047,000 or 28.6 per cent greater than for the fiscal year 1932-33. The increase in Canada's imports, 1934-35 compared with 1932-33, occurred in eight out of the nine main groups, the increase in the eight main groups amounting to \$116,652,000, while the decrease in the single main group, viz.: Miscellaneous Commodities, amounting to only \$605,000.

From 1932-33 to 1934-35 the imports under the Agricultural and Vegetable Products group increased from \$88,289,000 to \$109,419,000, or \$21,130,000. Under this group the following chief commodities show increases:—Cocoa and chocolate, from \$1,308,000 to \$1,594,000; corn, from \$2,910,000 to \$4,988,000; fruits, green, from \$11,307,000 to \$12,586,000; fruits, dried, from \$4,913,000 to \$5,518,000; fruits, canned, from \$582,000 to \$859,000; gums and resins, from \$1,195,000 to \$1,692,000; molasses, from \$1,650,000 to \$2,334,000; nuts (except cocoanuts), from \$2,308,000 to \$2,625,000; rice, from \$990,000 to \$1,188,000; rubber, crude, from \$1,693,000

to \$7,958,000; rubber, manufactured, from \$1,281,000 to \$1,913,000; seeds, from \$1,177,000 to \$2,286,000; spirits, alcoholic, from \$12,227,000 to \$13,058,000; sugar for refining, from \$14,069,000 to \$14,479,000; tea, from \$4,720,000 to \$7,107,000 (the quantity decreased from 38,417,000 pounds to 30,370,000 pounds); vegetable oil, from \$4,832,000 to \$7,426,000; while the following commodities show decreases:—Coffee, green, from \$3,640,000 to \$3,510,000; tobacco, raw, from \$2,887,000 to \$2,617,000; vegetables, fresh, from \$4,054,000 to \$3,517,000; and wines, from \$1,189,000 to \$1,092,000.

Under the main group of Animals and Animal Products from 1932-33 to 1934-35 the imports increased from \$15,439,000 to \$19,957,000 or \$4,518,000. The principal commodities to show increases under this group were:—Fish, from \$1,267,000 to \$1,671,000; furs, chiefly, raw, from \$3,167,000 to \$4,134,000; hides, raw, from \$1,608,000 to \$3,086,000; leather, unmanufactured, from \$1,951,000 to \$2,467,000; leather, manufactured, from \$1,652,000 to \$1,851,000; meats, from \$679,000 to \$1,018,000; and sausage casings, from \$380,000 to \$1,101,000; while the following commodities show decreases:—Animals, living, from \$1,439,000 to \$932,000; and grease for soap and leather, from \$1,784,000 to \$550,000. The imports under the Fibres, Textiles and Textile Products group increased from \$61,215,000 to \$81,798,000 or \$20,583,000. The main items under this group to show increases were:—Artificial silk yarns, from \$540,000 to \$663,000; cotton, raw, from \$7,449,000 to \$18,111,000; cotton yarns, from \$2,342,000 to \$2,430,000; cotton fabrics, bleached and unbleached, from \$1,830,000 to \$2,592,000; cotton fabrics, printed, dyed or coloured, from \$3,669,000 to \$4,461,000; cotton wearing apparel, from \$1,041,000 to \$1,122,000; fishing lines, from \$917,000 to \$1,369,000; jute fabrics, from \$2,114,000 to \$3,256,000; linen handkerchiefs, from \$401,000 to \$515,000; wool, raw, from \$1,553,000 to \$2,766,000; wool noils and tops, from \$2,859,000 to \$4,124,000; woollen yarns, from \$2,194,000 to \$2,369,000; wool carpets, from \$287,000 to \$575,000; woollen dress goods to be dyed, from \$786,000 to \$1,402,000; woollen tweeds, from \$477,000 to \$1,215,000; worsteds and serges, from \$2,896,000 to \$3,060,000; and woollen wearing apparel, from \$1,238,000 to \$1,317,000; while the following items show decreases:—Artificial silk products, from \$1,907,000 to \$1,479,000; binder twine, from \$1,446,000 to \$1,245,000; cotton handkerchiefs, from \$569,000 to \$513,000; hats and caps, from \$781,000 to \$594,000; manila, sisal, etc., fibre, from \$2,152,000 to \$1,438,000; silk, raw, from \$4,783,000 to \$3,837,000; and silk wearing apparel, from \$855,000 to \$811,000.

The total imports under the main group of Wood, Wood Products and Paper, from 1932-33 to 1934-35, increased from \$20,506,000 to \$21,200,000, or \$694,000. Under this group the imports of books and printed matter decreased from \$9,168,000 to \$9,034,000; and paper, from \$6,180,000 to \$5,600,000. Imports of unmanufactured wood during this period increased from \$2,441,000 to \$3,829,000 (under this sub-group imports of logs increased from \$66,000 to \$389,000; lumber and timber, from \$1,452,000 to \$2,407,000; and veneers, from \$250,000 to \$324,000). The imports under the sub-group of manufactured wood increased from \$2,717,000 to \$2,736,000 (under this sub-group imports of furniture increased from \$388,000 to \$488,000; while imports of cork manufactures decreased from \$500,000 to \$468,000; and wood pulp from \$418,000 to \$362,000. Under the main group of Iron and Its Products the imports increased from \$58,918,000 to \$100,056,000, or \$41,138,000. Under this group the imports of the following commodities show increases:—Automobiles, from \$914,000 to \$2,306,000; automobile parts, from \$10,023,000 to \$22,178,000; band and hoop iron from \$879,000 to \$1,712,000; bars, including rails, from \$1,195,000 to \$2,319,000; castings and forgings, from \$1,386,000 to \$2,258,000; engines and boilers, from \$5,297,000 to \$7,782,000 (automobile engines under this sub-group increased from \$3,851,000 to \$5,401,000); farm implements increased from \$2,208,000 to \$3,716,000; hardware and cutlery, from \$1,791,000 to \$2,272,000; iron ore, from \$181,000 to \$1,976,000; machinery (except farm) from \$13,998,000 to \$19,128,000; pigs, ingots and blooms, from \$304,000 to \$857,000; plates and sheets, from \$9,354,000 to \$15,963,000; structural iron and steel, from \$885,000 to \$1,379,000; tools, hand or machine, from \$709,000 to \$1,422,000; tubes, pipes and fittings, from \$891,000 to \$1,276,000; and wire and manufactures, from \$696,000 to \$1,381,000; while imports of stamped and coated products during the same interval decreased from \$1,105,000 to \$1,091,000.

Imports into Canada under the main group of Non-Ferrous Metals and Their Products, from 1932-33 to 1934-35, increased from \$18,095,000 to \$28,497,000 or \$10,402,000. The principal commodities under this group to show increases were:—Aluminum and products, from \$2,620,000 to \$3,655,000; brass and products, from \$1,837,000 to \$2,083,000; clocks and watches,

from \$918,000 to \$1,391,000; electrical apparatus, from \$6,049,000 to \$7,944,000; nickel and products, from \$1,046,000 to \$1,180,000; precious metals and products, from \$1,025,000 to \$4,200,000 (under this sub-group unmanufactured silver increased from \$786,000 to \$3,426,000); printing materials, from \$643,000 to \$756,000; and tin in blocks, from \$749,000 to \$2,154,000; while imports of copper and its products decreased from \$584,000 to \$576,000. Under the main group of Non-Metallic Minerals and Their Products the imports, during the same interval increased from \$87,658,000 to \$102,428,000, or \$14,770,000. Under this group the leading commodities to show increases were:—Asbestos products, from \$428,000 to \$695,000; clay and products, from \$5,072,000 to \$6,095,000; coal, from \$28,990,000 to \$35,618,000; coke for fuel, from \$2,741,000 to \$3,487,000; diamonds, unset, from \$327,000 to \$649,000; glass and glassware, from \$4,069,000 to \$5,342,000; kerosene oil, from \$134,000 to \$154,000; petroleum oil, crude, from \$26,878,000 to \$32,501,000; salt, from \$586,000 to \$596,000; stone and products, from \$1,902,000 to \$3,732,000, and sulphur, from \$2,055,000 to \$2,501,000; while the following items show decreases:—Gasoline, from \$7,984,000 to \$4,064,000; and lubricating oils, from \$2,915,000 to \$2,376,000.

Canada's imports under the main group of Chemicals and Allied Products from 1932-33 to 1934-35 increased from \$25,455,000 to \$28,872,000 or \$3,417,000. The principal imports under this group to show increases were:—Acids, from \$807,000 to \$1,097,000; drugs and medicines, from \$2,577,000 to \$2,716,000; dyeing and tanning materials, from \$3,511,000 to \$4,854,000; fertilizers, from \$1,943,000 to \$2,485,000; paints and varnishes, from \$2,412,000 to \$3,485,000; potash and compounds, from \$318,000 to \$373,000; and soda and compounds, from \$2,337,000 to \$2,410,000; while the following items show decreases:—Cellulose products, from \$2,174,000 to \$1,871,000; compounds of tetraethyl lead, from \$1,682,000 to \$1,062,000; perfumery, from \$612,000 to \$430,000; and soap, from \$870,000 to \$438,000. Under the main group of Miscellaneous Commodities, the imports during the same period decreased from \$30,809,000 to \$30,204,000, or \$605,000. The leading items to show decreases were:—Articles for exhibition \$3,026,000 to \$2,308,000; containers (outside coverings), from \$2,409,000 to \$2,392,000; films, from \$905,000 to \$903,000; jewellery, from \$671,000 to \$636,000; pocket books, purses, etc., from \$500,000 to \$489,000; settlers' effects, from \$6,716,000 to \$2,916,000; toys and dolls, from \$1,209,000 to \$1,164,000; while the following items show increases:—Articles re-imported, from \$1,312,000 to \$3,406,000; express parcels, from \$1,076,000 to \$1,186,000; musical instruments, from \$316,000 to \$447,000; scientific and educational equipment, from \$2,559,000 to \$2,845,000; and works of art, from \$388,000 to \$674,000.

For further details respecting Canada's principal imports, fiscal years 1931-32, 1932-33, 1933-34 and 1934-35, see statistics in the following table:—

## CANADA'S PRINCIPAL IMPORTS FROM THE WORLD

(Fiscal Years ended March 31, 1931-32, 1932-33, 1933-34 and 1934-35)

(c) **Canada's Principal Domestic Exports to the World, 1934-35:**—During the fiscal year 1934-35 Canada's total domestic exports of merchandise amounting to \$659,900,000, were \$83,556,000 or 14.5 per cent greater than for the fiscal year 1931-32, and \$186,100,000 or 39.3 per cent greater than for 1932-33. The increase in Canada's domestic exports, 1934-35 compared with 1932-33, occurred in each of the nine main groups.

The domestic exports under the Agricultural and Vegetable Products group from 1932-33 to 1934-35, increased from \$203,370,000 to \$226,233,000 or \$22,863,000. The following commodities to show increases under this group were:—Alcoholic beverages, \$9,973,000 to \$13,548,000 (whiskey under this sub-group increased from \$9,921,000 to \$13,407,000); fodder, n.o.p., from \$511,000 to \$859,000; fruits, from \$8,676,000 to \$10,496,000 (under this sub-group apples, fresh, increased from \$7,353,000 to \$8,219,000, and canned fruits, from \$559,000 to \$1,460,000); grains, from \$143,696,000 to \$146,467,000 (under this sub-group barley increased from \$4,293,000 to \$8,210,000; oats, from \$4,301,000 to \$4,915,000; and wheat, from \$130,546,000 to \$132,442,000; while exports of rye decreased from \$4,030,000 to \$463,000); grain products increased from \$24,355,000 to \$31,463,000 (under this sub-group bran and shorts increased from \$1,532,000 to \$3,260,000; cereal foods from \$2,400,000 to \$3,274,000; malt, from \$1,062,000 to \$2,935,000; oatmeal, from \$2,001,000 to \$2,331,000; and wheat flour, from \$16,987,000 to \$18,386,000); hay, from \$213,000 to \$1,138,000; rubber and products, from \$6,646,000 to \$12,425,000 (under this sub-group footwear of rubber increased from \$2,314,000 to \$3,681,000; and pneumatic tire casings from \$3,023,000 to \$6,325,000); sugar and products, from \$1,223,000 to \$1,324,000; vegetables and products, from \$2,687,000 to \$3,592,000 (under this sub-group potatoes increased from \$770,000 to \$848,000; turnips, from \$362,000 to \$405,000; pickles and sauces, from \$1,081,000 to \$1,179,000; and vegetables, canned, from \$281,000 to \$1,013,000); while the following items show decreases:—Seeds, from \$682,000 to \$657,000; and raw tobacco, from \$3,902,000 to \$2,773,000).

Under the main group of Animals and Animal Products, the domestic exports, 1934-35 compared with 1932-33, increased from \$54,333,000 to \$86,848,000, or \$32,515,000. The principal exports under this group to show increases were:—Animals, living, from \$2,830,000 to \$5,710,000 (cattle under this sub-group increased from \$2,375,000 to \$4,979,000; and horses, from \$215,000 to \$455,000); eggs, from \$66,000 to \$456,000; fish, from \$16,640,000 to \$22,411,000 (under this sub-group fresh fish increased from \$6,731,000 to \$8,355,000; dried and salted fish, from \$3,216,000 to \$4,751,000; and canned or preserved fish, from \$6,693,000 to \$9,305,000); furs, undressed, from \$10,634,000 to \$14,898,000 (under this sub-group fox skins increased from \$6,082,000 to \$8,559,000; and mink skins, from \$1,198,000 to \$1,896,000); hides, raw, from \$533,000 to \$1,805,000; leather, unmanufactured, from \$2,429,000 to \$3,515,000; leather, manufactured, from \$222,000 to \$685,000; meats, from \$6,683,000 to \$24,115,000 (under this sub-group bacon and hams increased from \$4,024,000 to \$19,999,000); sausage casings, from \$524,000 to \$1,221,000; while milk and its products decreased from \$11,706,000 to \$8,863,000 (under this sub-group the exports of butter decreased from \$590,000 to \$105,000; and cheese from \$8,758,000 to \$6,481,000). The domestic exports under the main group of Fibres, Textiles and Textile Products during the same period increased from \$4,731,000 to \$7,523,000, or \$2,792,000. The principal items under this group to show increases were:—Cotton goods, from \$1,096,000 to \$1,819,000; rags, from \$165,000 to \$419,000; socks and stockings, from \$1,005,000 to \$1,852,000; wool, raw, from \$375,000 to \$689,000; while the following items show decreases:—Binder twine, from \$855,000 to \$711,000; and felt manufactures, from \$397,000 to \$387,000.

Under the main group of Wood, Wood Products and Paper, the exports from 1932-33 to 1934-35 increased from \$120,887,000 to \$160,933,000, or \$40,046,000. The principal exports to show increases were:—Books and printed matter, from \$569,000 to \$669,000; paper, from \$77,188,000 to \$87,569,000, (under this sub-group paper board increased from \$1,630,000 to \$3,372,000; and newsprint paper, from \$74,137,000 to \$82,148,000); wood and products, from \$43,130,000 to \$72,694,000 (under this sub-group the principal exports were: doors, sashes and blinds, from \$22,000 to \$834,000; logs, from \$1,977,000 to \$2,884,000; planks and boards, from \$11,099,000 to \$24,901,000; pulp wood, from \$4,287,000 to \$7,131,000; shingles, from \$2,400,000 to \$3,505,000; timber, square, from \$1,269,000 to \$1,707,000; and wood pulp, from \$17,786,000 to \$25,869,000). The domestic exports under the main group of Iron and Its Products during the same interval increased from \$17,277,000 to \$40,736,000, or \$23,459,000. The principal items to show increases under this group were:—Automobiles, from \$5,796,000 to \$19,192,000; automobile parts, from \$2,017,000 to \$2,642,000; farm implements, from \$1,325,000 to \$3,567,000; hardware and cutlery, from \$897,000 to \$1,824,000; machinery, from \$3,938,000 to \$5,369,000; pigs, ingots and billets, from \$608,000 to \$1,767,000; rolling mill products, from \$235,000 to \$1,967,000; tools, hand and machine, from \$358,000 to \$811,000; tubes, pipes and fittings, from \$614,000 to \$886,000; and wire and manufactures, from \$65,000 to \$851,000.

From 1932-33 to 1934-35 Canada's domestic exports under the main group of Non-Ferrous Metals and Their Products, increased from \$42,642,000 to \$94,620,000, or \$51,978,000. The principal commodities to show increases under this group were:—Aluminium products, from \$3,865,000 to \$8,556,000; brass and products, from \$676,000 to \$921,000; copper and products, from \$12,268,000 to \$24,540,000 (under this sub-group exports of copper ore increased from \$936,000 to \$1,454,000; copper blister, from \$840,000 to \$3,500,000; and copper in forms, from \$10,118,000 to \$18,751,000); electrical apparatus from \$1,348,000 to \$3,306,000; lead in pigs, from \$3,164,000 to \$5,089,000; nickel, from \$7,465,000 to \$28,423,000; platinum in concentrates or other forms, from \$684,000 to \$5,522,000; silver bullion, from \$3,450,000 to \$4,730,000; and zinc spelter, from \$3,468,000 to \$6,900,000; while the exports under this main group to show decreases were:—Gold-bearing quartz, dust, nuggets, etc., from \$3,797,000 to \$3,725,000; and silver in ore, from \$967,000 to \$628,000. The domestic exports under the main group of Non-Metallic Minerals and Their Products during this period increased from \$9,216,000 to \$15,654,000 or \$6,438,000. The principal items under this group to show increases were:—Asbestos, raw, from \$2,971,000 to \$5,154,000; coal, from \$1,384,000 to \$1,527,000; coke, from \$239,000 to \$571,000; stone and products, from \$1,891,000 to \$4,745,000, (under this sub-group abrasives, artificial, crude, increased from \$967,000 to \$3,781,000); and tar and pitch from \$202,000 to \$587,000; while exports under petroleum and its products decreased from \$1,326,000 to \$1,001,000.

Under the main group of Chemicals and Allied Products, Canada's domestic exports from 1932-33 to 1934-35 increased from \$11,100,000 to \$15,270,000, or \$4,170,000. The principal exports under this group to show increases were:—Acids, \$1,807,000 to \$3,063,000; fertilizers, from \$3,069,000 to \$4,179,000; paints and varnishes, from \$377,000 to \$634,000; soap, from \$506,000 to \$1,116,000; and soda and compounds, from \$2,698,000 to \$3,376,000; while the following items show decreases:—Cobalt oxide and salt, from \$428,000 to \$366,000; and drugs, medicinal, from \$977,000 to \$775,000. Under the main group of Miscellaneous Commodities during the same interval the domestic exports increased from \$10,244,000 to \$12,083,000, or \$1,839,000. The principal items under this main group to show increases were:—Containers (empty), from \$226,000 to \$440,000; electrical energy, from \$1,658,000 to \$3,019,000; musical instruments, from \$53,000 to \$72,000; settlers' effects, from \$3,067,000 to \$3,238,000; and, stationery, from \$488,000 to \$619,000; while the following items show decreases:—Brushes from \$103,000 to \$67,000; films, from \$3,500,000 to \$3,026,000; and ships, from \$323,000 to \$270,000.

For further details respecting Canada's principal domestic exports, fiscal years 1931-32, 1932-33, 1933-34, and 1934-35, see statistics in the following table:—

## CANADA'S TRADE WITH THE UNITED KINGDOM, 1934-35

(a) **Analysis of Canada's Total Trade with the United Kingdom, 1934-35:**—The total trade of Canada with the United Kingdom during the fiscal year 1934-35 amounted to \$386,691,000; in 1931-32 to \$281,335,000; in 1932-33 to \$271,599,000; and in 1933-34 to \$333,403,000; the increase in 1934-35 over the year 1931-32 amounting to \$105,356,000 or 37.4 per cent; over 1932-33 to \$115,092,000 or 42.4 per cent; and over 1933-34 to \$53,288,000 or 16.0 per cent. Imports as well as exports in 1934-35 show increases over the fiscal years 1931-32, 1932-33, and 1933-34. The imports into Canada from the United Kingdom in 1934-35 were valued at \$111,685,000; in 1931-32 at \$106,372,000; in 1932-33 at \$86,466,000; and in 1933-34 at \$105,101,000; the increase in 1934-35 over 1931-32 amounting to \$5,313,000 or 5.0 per cent; over 1932-33 to \$25,219,000 or 29.2 per cent; and over 1933-34 to \$6,584,000 or 6.3 per cent; while the Dominion's total exports to the United Kingdom in 1934-35 amounted to \$275,006,000; in 1931-32 to \$174,963,000; in 1932-33 to \$185,133,000; and in 1933-34 to \$228,302,000; the increase in the fiscal year 1934-35 over 1931-32 amounting to \$100,043,000 or 57.2 per cent; over 1932-33 to \$89,873,000 or 48.5 per cent; and over 1933-34 to \$46,704,000 or 20.5 per cent. Canada's domestic exports to the United Kingdom in the fiscal year 1934-35 totalled \$274,183,000; in 1931-32, \$174,044,000; in 1932-33, \$184,361,000; and in 1933-34, \$227,601,000; the increase in 1934-35 over 1931-32 amounting to \$100,139,000 or 57.5 per cent; over 1932-33 to \$89,822,000 or 48.7 per cent; and over 1933-34 to \$46,582,000 or 20.5 per cent.

For the year ended March 31, 1934-35, Canada's visible merchandise trade balance with the United Kingdom was favourable to the extent of \$163,321,000, compared with \$68,591,000 in 1931-32; with \$98,667,000 in 1932-33; and with \$123,201,000 in 1933-34. The improvement in Canada's visible merchandise trade balance with the United Kingdom in 1934-35 compared with 1931-32 amounted to \$94,730,000; with 1932-33 to \$64,654,000; and with 1933-34 to \$40,120,000. If the trade in merchandise and coin and bullion are combined, the visible favourable trade balance with the United Kingdom in 1934-35 would amount to \$180,103,000; in 1931-32 to \$68,578,000; in 1932-33 to \$98,648,000; and in 1933-34 to \$199,036,000.

For further details relative to Canada's trade with the United Kingdom in merchandise and coin and bullion, for the fiscal years 1931-32, 1932-33, 1933-34, and 1934-35. see statistics in the following table:—

(b) **Canada's Monthly Trade Trends with the United Kingdom, 1934-35:**—The Dominion's monthly trade figures with the United Kingdom during the fiscal year 1934-35, compared with similar monthly figures in the fiscal years 1931-32, 1932-33, and 1933-34, show upward trends, except for the months of November and December, 1934, compared with similar months in 1933, and the months of January and March, 1935, compared with similar months in 1934. The imports from the United Kingdom in each month for the fiscal year 1934-35 exceeded similar imports in eight months in the fiscal year 1931-32; in every month in the year 1932-33; and in six months in the year 1933-34, the percentage of decrease for each of the six months in 1934-35 compared with 1933-34 being:—In August, 2.3 per cent; in September, 1.2 per cent; December, 12.1 per cent; January, 1.9 per cent; February, 9.5 per cent; and in March, 8.3 per cent. Canada's domestic exports to the United Kingdom in each month of the fiscal year 1934-35 exceeded similar monthly exports in the years 1931-32, 1932-33, and in nine months of the year 1933-34, the percentage of decrease for each of the three months in 1934-35 compared with 1933-34, being:—In December, 0.9 per cent; January, 5.8 per cent; and in March, 6.7 per cent.

(c) **Discrepancy in Canada-United Kingdom Trade 1934:**—Imports into Canada from the United Kingdom should ordinarily agree fairly well with the corresponding export figures from the United Kingdom to Canada, the value of merchandise imported into Canada from the United Kingdom being the fair market value or price thereof at the time when the same is exported directly to Canada, while the value of merchandise exported from the United Kingdom to Canada is the f.o.b. value. There is, however, a considerable discrepancy between the two sets of figures (the discrepancy being in favour of Canada) chiefly in the trade in distilled spirits. The Canadian value of distilled spirits imported from the United Kingdom is in excess of the United Kingdom export value to Canada, due to the fact that since about 1920 the Canadian value not only includes the United Kingdom declared export value but the British excise tax as well. From 1921 to 1934 (calendar years) the Canadian imports of distilled spirits from the United Kingdom and the exports from the United Kingdom to Canada, year by year, vary somewhat in the quantity and materially in the value. The variation in the quantity is probably due to the fact that the distilled spirits may not be taken out of the Customs warehouse by the importer for some time subsequent to importation. From 1920 to 1934 Canada's imports of distilled spirits from the United Kingdom amounted to 17,751,360 proof gallons, valued at \$339,059,852, while the United Kingdom exports to Canada totalled 17,900,804 proof gallons, valued at \$112,351,403, a slight discrepancy in the quantity but a very considerable discrepancy in the value over a period of years. For the year 1920 the total imports into Canada from the United Kingdom, as well as the imports of distilled spirits, agree fairly well with the total exports and imports of distilled spirits from the United Kingdom to Canada. The statistics in the following table illustrate this feature.

UNITED KINGDOM'S TOTAL EXPORTS AND EXPORTS OF DISTILLED SPIRITS TO CANADA CONTRASTED WITH CANADA'S TOTAL IMPORTS AND IMPORTS OF DISTILLED SPIRITS FROM THE UNITED KINGDOM

(Calendar Years, 1920 to 1934)

Calendar Years	Total Exports from United Kingdom to Canada	Total Imports into Canada from United Kingdom	Exports of Distilled Spirits from United Kingdom to Canada		Imports of Distilled Spirits into Canada from United Kingdom

(a) Domestic exports only.

NOTE.—Value of Exports from the United Kingdom to Canada converted into Canadian currency at par of exchange (\$4-8666).

There is a very marked discrepancy, however, between Canada's exports to the United Kingdom and the United Kingdom imports from Canada, though the discrepancies for 1931 to 1934 were not so pronounced as in former years, due no doubt to a much smaller quantity of products, especially wheat, being shipped to the United Kingdom via the United States in these years. (For the fiscal year 1934-35 these shipments amounted to \$43,284,102, compared with \$217,590,205 in 1928-29.)

EXPORTS FROM CANADA TO THE UNITED KINGDOM CONTRASTED WITH UNITED KINGDOM IMPORTS FROM CANADA

	Years ended December 31—					
	1929	1930	1931	1932	1933	1934
	\$	\$	\$	\$	\$	\$
Exports from Canada to United Kingdom...	291,831,471	236,527,017	172,597,542	179,094,627	211,308,610	271,369,655
Imports into United Kingdom from Canada..	224,353,697	185,644,236	153,976,090	170,973,643	210,849,402	251,590,160

Canada's declared exports to the United Kingdom do not represent the actual amount of Canadian products received by the United Kingdom from Canada, the British imports being much less than the Canadian exports. The discrepancy is due in large measure to diversion of Canadian grain, especially wheat, from its original destination, the United Kingdom, to other destinations, chiefly continental Europe. This diversion takes place, principally in the movement of Canadian products to the United Kingdom via the United States. If an adjustment is made for this diversion, the revised exports to the United Kingdom would be less and those to continental Europe greater than the declared exports.

(d) **Canada's Principal Imports from the United Kingdom, 1934-35:**—Canada's total imports from the United Kingdom during the fiscal year 1934-35, amounting to \$111,685,000, were \$5,313,000 or 5.0 per cent greater than for the fiscal year 1931-32, and \$25,219,000 or 29.2 per cent greater than for 1932-33. Eight of the nine main groups of imports from the United Kingdom, 1934-35 compared with 1932-33, had increases amounting to \$25,365,000, and one main group, viz.: Wood, Wood Products and Paper, had a decrease amounting to \$146,000.

The imports from the United Kingdom under the main group of Agricultural and Vegetable Products from 1932-33 to 1934-35 increased from \$17,388,000 to \$20,104,000, or \$2,716,000. The main items under this group to show increases were:—Cocoa and chocolate, from \$75,000

to \$92,000; confectionery, from \$429,000 to \$493,000; fruits, dried, from \$175,000 to \$287,000; gums and resins, from \$48,000 to \$62,000; pickles and sauces, from \$141,000 to \$148,000; rubber goods, from \$319,000 to \$334,000; seeds, from \$179,000 to \$269,000; spirits, alcoholic, from \$10,755,000 to \$12,106,000; tea, from \$1,784,000 to \$2,490,000; vegetable oils, from \$1,001,000 to \$1,190,000; wheat flour, from \$20,000 to \$400,000; and wines, from \$133,000 to \$165,000; while the following items show decreases:—Biscuits, from \$172,000 to \$156,000; coffee, green, from \$415,000 to \$201,000; fruits, green, from \$132,000 to \$21,000; fruits, preserved, from \$62,000 to \$59,000; nuts (except coconuts), from \$91,000 to \$88,000; rubber, crude, from \$50,000 to \$7,000; spices, from \$365,000 to \$338,000; sugar, refined, from \$58,000 to \$228; and vegetables, fresh, from \$18,000 to \$3,000.

Under the main group of Animals and Animal Products the imports from the United Kingdom from 1932-33 to 1934-35 increased from \$2,406,000 to \$3,039,000, or \$633,000. The chief commodities to show increases under this group were:—Animals, living, from \$52,000 to \$85,000; butter, from \$7,000 to \$84,000; furs, chiefly raw, from \$377,000 to \$663,000; gelatine, edible, from \$111,000 to \$194,000; leather, unmanufactured, from \$603,000 to \$918,000; and sausage casings, from \$53,000 to \$61,000; while the following imports show decreases:—Fish, from \$148,000 to \$89,000; hides, raw, from \$60,000 to \$45,000; leather, manufactured, from \$481,000 to \$473,000; and meats, from \$120,000 to \$88,000. The imports under the Fibres, Textiles and Textile Products group during this period increased from \$25,580,000 to \$36,538,000, or \$10,958,000. The chief commodities under this group to show increases were:—Artificial silk yarns, from \$84,000 to \$318,000; binder twine, from \$240,000 to \$534,000; blankets (wool), from \$79,000 to \$185,000; cotton, raw, from \$9,000 to \$69,000; cotton yarns, from \$1,250,000 to \$2,236,000; cotton fabrics, bleached and unbleached, from \$808,000 to \$1,607,000; cotton fabrics, coloured, from \$2,170,000 to \$3,158,000; cotton handkerchiefs, from \$356,000 to \$407,000; cotton lace and embroidery, from \$312,000 to \$487,000; fishing lines, from \$636,000 to \$962,000; flax and hemp fabrics, from \$818,000 to \$911,000; flax, hemp and jute yarns, from \$270,000 to \$388,000; jute fabrics, from \$371,000 to \$451,000; linen handkerchiefs, from \$318,000 to \$436,000; linen thread, from \$185,000 to \$231,000; manila, istle, sisal, etc., fibre, from \$3,000 to \$49,000; silk fabrics and velvets, from \$76,000 to \$102,000; silk wearing apparel, from \$86,000 to \$109,000; velveteens and corduroys, from \$279,000 to \$412,000; wool, raw, from \$923,000 to \$1,140,000; wool noils and tops, from \$2,429,000 to \$3,434,000; woollen yarns, from \$2,077,000 to \$2,318,000; wool carpets, from \$91,000 to \$184,000; woollen dress goods to be dyed, from \$636,000 to \$1,376,000; woollen tweeds, from \$463,000 to \$1,195,000; worsteds and serges, from \$2,550,000 to \$2,986,000; and woollen wearing apparel, from \$1,050,000 to \$1,132,000; while imports of artificial silk goods decreased from \$1,271,000 to \$887,000.

Imports from the United Kingdom under the main group of Wood, Wood Products and Paper, from 1932-33 to 1934-35, decreased from \$3,398,000 to \$3,252,000, or \$146,000. The items to show decreases under this group were:—Paper, from \$1,153,000 to \$1,010,000; wood unmanufactured, from \$12,000 to \$10,000; and wood, manufactured, from \$254,000 to \$235,000; while imports of books and printed matter increased from \$1,980,000 to \$1,996,000. The imports under the main group of Iron and Its Products during the same interval increased from \$11,997,000 to \$18,601,000, or \$6,604,000. The chief items to show increases under this group were:—Automobiles, from \$153,000 to \$227,000; band and hoop iron, from \$85,000 to \$209,000; bars, including rails, from \$402,000 to \$529,000; castings and forgings, from \$294,000 to \$422,000; engines and boilers, from \$335,000 to \$501,000; farm implements, from \$94,000 to \$149,000; hardware and cutlery, from \$744,000 to \$812,000; machinery, from \$1,896,000 to \$2,572,000; pigs, ingots and blooms, from \$87,000 to \$152,000; plates and sheets, from \$5,498,000 to \$9,852,000; structural iron and steel, from \$259,000 to \$310,000; tools, hand or machine, from \$160,000 to \$299,000; and wire and manufactures, from \$400,000 to \$983,000; while the following items show decreases:—Stamped and coated products, from \$178,000 to \$161,000; and tubes, pipes and fittings, from \$345,000 to \$310,000.

Under the main group of Non-Ferrous Metals and Their Products, the imports from the United Kingdom from 1932-33 to 1934-35 increased from \$3,315,000 to \$4,581,000, or \$1,266,000. Under this main group the chief commodities to show increases were:—Aluminium and products, from \$858,000 to \$1,222,000; clocks and watches, from \$27,000 to \$46,000; copper and products, from \$114,000 to \$127,000; precious metals and products, from \$428,000 to \$899,000; and tin in blocks, from \$157,000 to \$612,000; while the following items show decreases:—Brass and

products, from \$338,000 to \$295,000; electrical apparatus, from \$854,000 to \$700,000; and nickel and products, from \$138,000 to \$104,000. During the same period imports under the Non-Metallic Minerals and Their Products group increased from \$12,582,000 to \$13,165,000, or \$583,000. The leading items to show increases under this group were:—Asbestos products, from \$100,000 to \$220,000; coal, from \$8,134,000 to \$8,272,000; glass and glassware, from \$503,000 to \$948,000; and petroleum oil, crude, from \$2,000 to \$5,000; while the following items show decreases:—Clay and products, from \$2,873,000 to \$2,847,000; coke, from \$153,000 to \$115,000; diamonds, unset, from \$114,000 to \$98,000; lubricating oil, from \$67,000 to \$37,000; salt, from \$261,000 to \$204,000; and stone and products, from \$238,000 to \$212,000.

The imports from the United Kingdom under the main group of Chemicals and Allied Products, from 1932-33 to 1934-35, increased from \$4,583,000 to \$6,210,000, or \$1,627,000. The principal imports to show increases were:—Acids, from \$228,000 to \$326,000; cellulose products, from \$83,000 to \$122,000; drugs and medicines, from \$816,000 to \$861,000; dyeing and tanning materials, from \$440,000 to \$603,000; paints and varnishes, from \$752,000 to \$1,196,000; potash and compounds, from \$92,000 to \$129,000; and soda and compounds, from \$660,000 to \$837,000; while the following imports show decreases:—Perfumery, from \$169,000 to \$102,000; and soap, from \$116,000 to \$70,000. Under the main group of Miscellaneous Commodities the imports during the same interval increased from \$5,217,000 to \$6,195,000, or \$978,000. The leading items under this group to show increases were:—Articles for exhibition, from \$219,000 to \$269,000; articles re-imported, from \$277,000 to \$1,461,000; scientific and educational equipment, from \$363,000 to \$440,000; and works of art, from \$159,000 to \$178,000; while the following items show decreases: Containers (outside coverings), from \$1,322,000 to \$1,151,000; films, from \$110,000 to \$81,000; jewellery, from \$62,000 to \$33,000; pocket books, purses, etc., from \$173,000 to \$144,000; and toys and dolls, from \$165,000 to \$158,000.

For further details relative to Canada's imports from the United Kingdom, fiscal years 1931-32, 1932-33, 1933-34, and 1934-35, see statistics in the following table:—

(e) **Canada's Principal Domestic Exports to the United Kingdom, 1934-35:**—Canada's total domestic exports to the United Kingdom in the fiscal year 1934-35, amounting to 274,183,000, were \$100,139,000 or 57.5 per cent greater than for the fiscal year 1931-32, and 89,822,000 or 48.7 per cent greater than for 1932-33. Eight out of the nine main groups of domestic exports to the United Kingdom, 1934-35 compared with 1932-33, had increases amounting to \$90,347,000, and one main group, viz.: Miscellaneous Commodities, had a decrease amounting to \$525,000.

Under the main group of Agricultural and Vegetable Products, Canada's domestic exports to the United Kingdom from 1932-33 to 1934-35 increased from \$114,201,000 to \$127,658,000, or \$13,457,000. Under this main group the principal commodities to show increases were:—Alcoholic beverages, from \$69,000 to \$84,000; fruits, from \$7,958,000 to \$8,909,000 (under this sub-group, apples, fresh, increased from \$6,878,000 to \$7,201,000, and canned fruits, from \$529,000 to \$1,392,000); grains, from \$85,327,000 to \$95,197,000 (under this sub-group oats increased from \$2,605,000 to \$2,985,000; and wheat, from \$79,636,000 to \$90,191,000; while barley decreased from \$2,426,000 to \$1,815,000; and rye, from \$484,000 to \$65,000); grain products increased from \$13,147,000 to \$14,414,000 (under this sub-group the exports of cereal foods

increased from \$2,260,000 to \$3,107,000; oatmeal and rolled oats, from \$1,728,000 to \$2,009,000; and wheat flour, from \$7,823,000 to \$8,724,000; while exports of bran and shorts decreased from \$1,227,000 to \$387,000; hay, from \$65,000 to \$283,000; hops, from \$11,000 to \$124,000; rubber products, from \$1,895,000 to \$3,316,000 (footwear of rubber under this sub-group increased from \$1,280,000 to \$2,377,000); sugar and products, from \$61,000 to \$87,000; and vegetables, from \$1,223,000 to \$1,830,000 (under this sub-group, pickles and sauces increased from \$1,044,000 to \$1,071,000; and canned vegetables, from \$179,000 to \$759,000); while the following exports show decreases:—Fodders, n.o.p., from \$178,000 to \$111,000; and seeds, from \$224,000 to \$180,000.

The domestic exports to the United Kingdom under the Animals and Animal Products group, from 1932-33 to 1934-35 increased from \$29,953,000 to \$54,568,000, or \$24,615,000. Under this group the principal items to show increases were:—Cattle, from \$1,722,000 to \$3,085,000; eggs, from \$4,000 to \$393,000; fish, from \$3,786,000 to \$5,402,000 (under this sub-group fresh fish increased from \$413,000 to \$832,000; dried and salted fish, from \$23,000 to \$69,000; and canned or preserved fish, from \$3,351,000 to \$4,500,000); furs, undressed, from \$6,721,000 to \$10,005,000; hides, raw, from \$62,000 to \$172,000; lard and compounds, from \$8,000 to \$261,000; leather, unmanufactured, from \$1,884,000 to \$2,825,000; leather, manufactured, from \$129,000 to \$560,000; meats, from \$4,905,000 to \$22,747,000 (under this sub-group bacon and hams increased from \$3,430,000 to \$19,834,000); and sausage casings, from \$121,000 to \$662,000; while the exports of the following items show decreases:—Honey, from \$270,600 to \$206,000; and milk and products, from \$9,914,000 to \$7,446,000 (under this sub-group, butter decreased from \$346,000 to \$89; and cheese, from \$8,344,000 to \$6,066,000; while exports of processed milk increased from \$1,222,000 to \$1,379,000). The domestic exports under the main group of Fibres, Textiles and Textile Products increased from \$1,293,000 to \$2,219,000, or \$926,000. Under this group the principal exports to show increases were:—Binder twine, from \$261,000 to \$377,000; cotton goods, from \$208,000 to \$377,000; felt manufactures, from \$131,000 to \$151,000; rags, from \$42,000 to \$56,000; socks and stockings, from \$195,000 to \$259,000; and raw wool, from \$310,000 to \$466,000.

Under the main group of Wood, Wood Products and Paper, Canada's domestic exports to the United Kingdom from 1932-33 to 1934-35 increased from \$11,302,000 to \$25,452,000, or \$14,150,000. Under this group the increases in the leading commodities were:—Books and printed matter, from \$129,000 to \$186,000; paper, from \$4,255,000 to \$5,402,000 (under this sub-group, paper board increased from \$968,000 to \$2,442,000; book paper, from \$32,000 to \$88,000; while exports of newsprint paper decreased from \$2,950,000 to \$2,374,000); exports of wood and products increased from \$6,918,000 to \$19,863,000 (under this sub-group the increases in the principal exports were:—Doors, sashes and blinds, from \$13,000 to \$826,000; logs, from \$137,000 to \$306,000; match splints, from \$364,000 to \$378,000; planks and boards, from \$3,796,000 to \$14,522,000; railway ties, from \$1,000 to \$36,000; timber (square), from \$445,000 to \$451,000; and wood pulp, from \$1,192,000 to \$1,702,000; while the following exports show decreases:—Shooks, from \$152,000 to \$150,000; and spoolwood, from \$364,000 to \$293,000). The domestic exports to the United Kingdom during the same interval under the main group of Iron and Its Products increased from \$5,575,000 to \$10,074,000, or \$4,499,000. Under this group the increases in the principal exports were:—Automobiles, from \$1,065,000 to \$3,533,000 farm implements, from \$217,000 to \$594,000; hardware and cutlery, from \$529,000 to \$1,113,000 pigs, ingots and blooms, from nil to \$636,000; rolling mill products, from \$24,000 to \$1,254,000 scrap iron and steel, from \$1,000 to \$21,000; tools, hand and machine, from \$161,000 to \$268,000 tubes, pipes and fittings, from \$14,000 to \$25,000; and wire and manufactures, from \$13,000 to \$316,000; while the following exports show decreases:—Automobile parts, from \$361,000 to \$20,000; and machinery, from \$2,921,000 to \$2,062,000.

Under the main group of Non-Ferrous Metals and Their Products, from 1932-33 to 1934-35 the domestic exports to the United Kingdom increased from \$14,599,000 to \$46,398,000 or \$31,799,000. The chief commodities under this group to show increases were:—Aluminium products, from \$1,261,000 to \$4,890,000; copper and products, from \$6,193,000 to \$14,741,000 (under this sub-group copper in forms increased from \$5,828,000 to \$14,398,000; while export of copper in ore decreased from \$321,000 to \$137,000); electrical apparatus, from \$456,000 to \$563,000; lead in pigs, from \$1,813,000 to \$3,186,000; nickel, from \$1,155,000 to \$9,698,000 platinum in concentrates or other forms, from \$617,000 to \$5,403,000; silver bullion, from \$13,000

to \$1,139,000; and zinc spelter, from \$1,898,000 to \$5,264,000; while exports of brass and products decreased from \$550,000 to \$464,000. Domestic exports under the main group of Non-Metallic Minerals and Their Products during this period increased from \$1,290,000 to \$2,054,000, or \$764,000. Under this group the chief commodities to show increases were:—Asbestos, raw, from \$113,000 to \$356,000; coal, from \$65,000 to \$133,000; and abrasives, artificial, crude, from \$419,000 to \$709,000; while the following items show decreases:—Petroleum and products, from \$23,000 to \$22,000; and tar and pitch, from \$73,000 to \$10.

The domestic exports to the United Kingdom under the main group of Chemicals and Allied Products from 1932-33 to 1934-35 increased from \$2,894,000 to \$3,031,000, or \$137,000. Under this group the principal exports to show increases were:—Acids, from \$824,000 to \$868,000; paints and varnishes, from \$139,000 to \$294,000; soap, from \$374,000 to \$534,000; and soda and compounds, from nil to \$51,000; while the following exports show decreases:—Cobalt oxide and salt, from \$315,000 to \$283,000; and drugs, medicinal, from \$534,000 to \$445,000. Under the main group of Miscellaneous Commodities, the exports during this period decreased from \$3,254,000 to \$2,729,000, or \$525,000. Under this group the chief items to show decreases were:—Brushes, from \$64,000 to \$11,000; films, from \$2,159,000 to \$1,383,000; while the following commodities show increases:—Settlers' effects, from \$420,000 to \$487,000; and stationery, from \$362,000 to \$475,000.

For further details respecting Canada's domestic exports to the United Kingdom, fiscal years 1931-32, 1932-33, 1933-34, and 1934-35, see statistics in the following table:—

## CANADA'S TRADE WITH THE UNITED STATES, 1934-35

(a) **Analysis of Canada's Total Trade with the United States, 1934-35:**—The total trade of Canada with the United States during the fiscal year 1934-35 was valued at \$534,522,000, compared with a similar trade in the fiscal year 1931-32 valued at \$596,038,000; in 1932-33 at \$381,077,000; and in 1933-34 at \$437,539,000; the decrease in the fiscal year 1934-35 over the year 1931-32 amounting to \$61,516,000 or 10.3 per cent; but compared with the fiscal year 1932-33 the increase amounted to \$153,445,000 or 40.3 per cent; and with 1933-34 to \$96,983,000 or 22.2 per cent. Both imports and exports during the fiscal year 1934-35 were less than for the year 1931-32, but greater than for the years 1932-33 or 1933-34. The imports from the United States in the fiscal year 1934-35 amounted to \$303,640,000; in 1931-32 to \$351,687,000; in 1932-33 to \$232,548,000; and in 1933-34 to \$238,188,000; the decrease in the imports in 1934-35 compared with 1931-32 amounting to \$48,047,000 or 13.7 per cent; but compared with the fiscal year 1932-33 the increase amounted to \$71,092,000 or 30.6 per cent; and with 1933-34 to \$65,452,000 or 27.5 per cent; while the total exports from Canada to the United States in the fiscal year 1934-35 amounted to \$230,882,000, compared with \$244,351,000 in the fiscal year 1931-32; \$148,529,000 in 1932-33, and \$199,351,000 in 1933-34; the decrease in the fiscal year 1934-35 compared with 1931-32 amounting to \$13,469,000 or 5.5 per cent; but compared with the fiscal year 1932-33 the increase amounted to \$82,353,000 or 55.4 per cent; and with 1933-34 to \$31,531,000 or 15.8 per cent. Canada's domestic exports to the United States in the fiscal year 1934-35 were valued at \$224,698,000, compared with a similar export trade in 1931-32 valued at \$235,189,000; in 1932-33 at \$143,160,000; and in 1933-34 at \$194,443,000; the decrease in Canada's domestic exports to the United States in 1934-35 compared with 1931-32 amounting to \$10,489,000 or 4.5 per cent; but compared with the fiscal year 1932-33 the increase amounted to \$81,538,000 or 57.0 per cent; and with 1933-34 to \$30,255,000 or 15.6 per cent.

For the fiscal year ended March 31, 1934-35, Canada's visible merchandise trade balance with the United States was unfavourable to the extent of \$72,758,000; in 1931-32 to the extent of \$107,336,000; in 1932-33 of \$84,019,000; and in 1933-34 of \$38,837,000. The improvement in Canada's visible merchandise trade balance with the United States in 1934-35 compared with 1931-32 amounted to \$34,578,000; with 1932-33 to \$11,261,000; but compared with 1933-34 the trade balance was less favourable, amounting to \$33,921,000. If the trade in merchandise and coin and bullion are combined, the trade balance with the United States in the fiscal year 1934-35 was favourable to the extent of \$7,344,000; but in the fiscal year 1931-32 it was unfavourable to the extent of \$39,497,000; in 1932-33 of \$20,026,000; and in 1933-34 of \$13,700,000.

For further information relative to the trade of Canada with the United States in merchandise and coin and bullion, fiscal years 1931-32, 1932-33, 1933-34, and 1934-35, see statistics in the following table:—

(b) **Canada's Monthly Trade Trends with the United States, 1934-35:**—Canada's total trade with the United States for each month during the fiscal year 1934-35 was greater than for any corresponding month from November, 1931, to March, 1934. The imports, however, in each month in the year 1934-35 exceeded similar imports in the corresponding months in the years 1932-33 and 1933-34, but only for two months, viz.:—January and February in the year 1931-32. Canada's domestic exports to the United States during each month in the fiscal year 1934-35 exceeded similar export trade in five corresponding months during the year 1931-32, viz.:—November, December, January, February and March; in each month in the year 1932-33, and for nine months in the year 1933-34. The percentage of decrease in the exports in the three months of 1934-35 compared with 1933-34 was not large, amounting to 0.5 per cent in July, 2.8 per cent in August, and 4.3 per cent in January.

## CANADA'S MONTHLY TRADE TRENDS WITH THE UNITED STATES, APRIL-MARCH, 1931-32, 1932-33, 1933-34 AND 1934-35

(c) **Discrepancy in Canada-United States Trade, 1934:**—In considering the discrepancy between Canada's trade with the United States and the United States trade with Canada, many factors must be noted in arriving at a satisfactory explanation. In the United States, Alaska, Hawaii and Puerto Rico are considered as United States territory for trade and other purposes, while in Canada they are considered as separate entities, and consequently, adjustments must be made in the trade statistics of the two countries to bring them to a common basis. In the United States, also, raw gold, silver over and silver bullion are not included in the general trade figures, whereas in Canada these non-ferrous metals are included, consequently an adjustment must be made in respect to these metals. When these adjustments are made in the exports from Canada to the United States, there is still a discrepancy in the movement of products from Canada to the United States, as recorded in the trade figures of the two countries amounting to less than 2 per cent in 1928 and 1929, about 3.7 per cent in 1930, and 6 per cent in 1931, 1932, 1933, and 2 per cent in 1934 as indicated in the following table:—

## MOVEMENT OF GOODS FROM CANADA TO THE UNITED STATES

(Calendar Years, 1928 to 1934)

Calendar Years	Imports into United States from Canada	Exports from Canada to United States (c)	Discrepancy: In favour of Canada (a) In favour of United States (b)
1928.....	\$ 489,300,000	\$ 497,200,000	(a) 7,900,000
1929.....	504,300,000	512,100,000	(a) 7,800,000
1930.....	402,300,000	386,600,000	(b) 15,700,000
1931.....	266,300,000	248,500,000	(b) 17,800,000
1932.....	174,100,000	164,000,000	(b) 10,100,000
1933.....	185,400,000	171,300,000	(b) 14,100,000
1934.....	226,900,000	222,100,000	(b) 4,800,000

(c) Canadian figures adjusted by adding to the exports to United States, exports to Alaska, Hawaii and Puerto Rico and deducting exports of raw gold, silver ore and silver bullion.

With reference to the above discrepancy, it may be of interest to point out (1) that in the years 1928 to 1930 Canada exported large quantities of alcoholic beverages to the United States, while the United States in these years recorded no imports of alcoholic beverages from Canada; and (2) that from 1928 to 1934 the United States wheat imports from Canada were much in excess of Canada's wheat exports to the United States, due to the fact that large quantities of wheat shipped to overseas countries via the United States were diverted to the United States, this diverted wheat being credited to Canada in United States trade statistics, though Canada had no export record of such diversions. If these differences, 1930 to 1934, are taken into account, it will be found that the discrepancy in the foregoing table in favour of the United States in 1930 would be reduced by about \$4,000,000; in 1931 by \$7,000,000; in 1932 by about \$5,000,000; in 1933 by about \$5,700,000; and in 1934 by about \$3,800,000.

There is, however, a considerable discrepancy between the Canadian imports from the United States and United States exports to Canada, even when adjustments are made in Canada's imports. This is largely due to United States recording in their exports to Canada, grains, mainly wheat, which are only in transit via Canada to overseas countries. The United States Department of Commerce is aware that a large percentage of the exports shown as shipped to Canada are really only in transit to overseas countries via Canada. On pages 31 and 32 of Trade Information Bulletin No. 602 re "Foreign Trade of the United States, 1928" the Bulletin states that "the figures of trade by continents as originally published are somewhat misleading in the case of exports to North America and to Europe. This is due to the fact that especially during recent years, large quantities of grain have been shipped through Canada to foreign countries almost exclusively to Europe, which, because the exporter at the time of shipment does not know the final destination, are credited to Canada." Such shipments do not appear in the import or export trade of Canada, being considered as in transit trade. The amount of these grain shipments to Canada has varied in recent years, in 1928 amounting to \$82,800,000 and in 1934 to \$2,400,000. It will appear from the statistics in the following table that when these grain shipments are eliminated from the United States exports to Canada, the revised United States exports to Canada and Canada's adjusted imports from the United States agree fairly well, except for the year 1932. In fact, the discrepancy between the two sets of figures is less than 4 per cent, except for the year 1932.

## MOVEMENT OF GOODS FROM THE UNITED STATES TO CANADA

(Calendar Years, 1928 to 1934)

Calendar Years	Total Unrevised Exports from United States to Canada	Less United States Exports of Grains to Canada	Total Revised Exports from United States to Canada	Canada's Adjusted Imports from United States (c)	Discrepancy: In favour of Canada (a) In favour of United States (b)
	\$	\$	\$	\$	\$
1928.....	914,700,000	82,800,000	831,900,000	825,100,000	(b) 6,800,000
1929.....	948,500,000	49,400,000	899,100,000	893,200,000	(b) 5,900,000
1930.....	659,100,000	15,100,000	644,000,000	653,500,000	(a) 9,500,000
1931.....	396,300,000	10,600,000	385,700,000	393,700,000	(a) 8,000,000

1933.....	210,600,000	2,300,000	208,300,000	216,600,000	(a) 8,500,000
1934.....	302,400,000	2,400,000	300,000,000	291,800,000	(a) 8,200,000

(c) Canadian figures adjusted by adding to the imports from United States, imports from Alaska, Hawaii and Puerto Rico and deducting imports of silver bullion.

(d) **Canada's Principal Imports from the United States, 1934-35:**—Canada's total imports from the United States for the year ended March 31, 1934-35, amounting to \$303,640,000, were \$48,047,000 or 13.7 per cent less than for the year 1931-32, but \$71,092,000 or 30.5 per cent greater than for the year 1932-33. Eight out of the nine main groups of imports in 1934-35 had increases over similar groups in 1932-33 amounting to \$73,116,000, while one main group, viz.:—Miscellaneous Commodities, had a decrease amounting to \$2,024,000.

Under the main group of Agricultural and Vegetable Products the imports from the United States, from 1932-33 to 1934-35, increased from \$30,212,000 to \$35,602,000, or \$5,390,000. The principal commodities under this group to show increases were:—Broom corn, from \$162,000 to \$380,000; cocoa and chocolate, from \$299,000 to \$309,000; corn, from \$1,182,000 to \$2,209,000.

fruits, green, from \$9,311,000 to \$9,415,000; fruits, dried, from \$1,470,000 to \$1,689,000; fruits, canned, from \$63,000 to \$72,000; gums and resins, from \$1,042,000 to \$1,367,000; rubber, crude, from \$1,600,000 to \$6,144,000; rubber goods, from \$832,000 to \$1,173,000; seeds, from \$485,000 to \$645,000; sugar, refined, from \$58,000 to \$185,000; and turpentine, spirits of, from \$385,000 to \$451,000; while the following leading commodities show decreases:—Coffee, roasted, from \$223,000 to \$195,000; molasses, from \$146,000 to \$80,000; nuts (except cocoanuts), from \$514,000 to \$366,000; rice, from \$267,000 to \$178,000; tobacco, raw, from \$2,531,000 to \$2,153,000; vegetable oils, from \$2,919,000 to \$2,168,000; vegetables, fresh, from \$2,769,000 to \$2,747,000; vegetables, canned, from \$148,000 to \$52,000; and yeast, from \$269,000 to \$234,000.

The imports from the United States under the main group of Animals and Animal Products, from 1932-33 to 1934-35; increased from \$8,575,000 to \$9,828,000, or \$1,253,000. The chief imports under this group to show increases were:—Fish, from \$434,000 to \$540,000; furs, chiefly raw, from \$2,179,000 to \$2,334,000; hair and bristles, from \$162,000 to \$333,000; hides, raw, from \$951,000 to \$1,613,000; leather, unmanufactured, from \$1,144,000 to \$1,486,000; leather, manufactured, from \$453,000 to \$537,000; meats, from \$228,000 to \$408,000; and sausage casings, from \$120,000 to \$278,000; while the following items show decreases:—Animals, living, from \$1,306,000 to \$796,000; bone and ivory products, from \$169,000 to \$137,000; and grease for soap and leather, from \$700,000 to \$487,000. Under the main group of Fibres, Textiles and Textile Products, the imports during this period increased from \$22,479,000 to \$30,562,000, or \$8,083,000. The principal imports to show increases were:—Artificial silk yarns, from \$26,000 to \$109,000; artificial silk products, from \$192,000 to \$311,000; cotton, raw, from \$7,171,000 to \$17,097,000; fishing lines, from \$233,000 to \$274,000; flax, hemp and jute products, from \$455,000 to \$517,000; hats and caps, from \$192,000 to \$212,000; silk fabrics and velvets, from \$421,000 to \$731,000; silk wearing apparel, from \$517,000 to \$522,000; and waste and rags, from \$596,000 to \$1,134,000; while the following imports show decreases:—Binder twine, from \$383,000 to \$3,000; cotton yarns, from \$1,087,000 to \$175,000; cotton, bleached and unbleached, from \$976,000 to \$890,000; cotton, coloured, from \$1,029,000 to \$855,000; cotton lace and embroidery, from \$63,000 to \$27,000; cotton wearing apparel, from \$205,000 to \$199,000; manila, istle, sisal, etc., fibre, from \$2,028,000 to \$706,000; silk, raw, from \$4,036,000 to \$3,655,000; and wool and products, from \$266,000 to \$261,000.

Under the main group of Wood, Wood Products and Paper, the imports from the United States, 1932-33 to 1934-35, increased from \$15,105,000 to \$16,046,000, or \$941,000. The leading items under this group to show increases were:—Wood, unmanufactured, from \$2,376,000 to \$3,702,000 (under this sub-group imports of logs increased from \$66,000 to \$386,000; lumber and timber, from \$1,430,000 to \$2,376,000; and veneers, from \$232,000 to \$282,000); and wood, manufactured, from \$2,009,000 to \$2,051,000 (under this sub-group furniture increased from \$235,000 to \$300,000; staves, from \$158,000 to \$201,000; while cork manufactures decreased from \$189,000 to \$168,000; and wood pulp from \$409,000 to \$360,000); while the imports of books and printed matter decreased from \$6,717,000 to \$6,594,000; and paper, from \$4,002,000 to \$3,700,000. The imports under the main group of Iron and Its Products during this interval increased from \$43,934,000 to \$77,478,000, or \$33,544,000. The chief commodities under this group to show increases were:—Automobiles, from \$759,000 to \$2,076,000; automobile parts, from \$9,890,000 to \$22,100,000; band and hoop iron, from \$695,000 to \$1,397,000; bars, including rails, from \$635,000 to \$1,579,000; castings and forgings, from \$1,091,000 to \$1,824,000; engines, and boilers, from \$4,879,000 to \$7,105,000; farm implements, from \$1,997,000 to \$3,341,000; hardware and cutlery, from \$727,000 to \$1,117,000; iron ore, from \$143,000 to \$1,261,000; machinery, from \$11,519,000 to \$15,808,000; pigs, ingots and blooms, from \$131,000 to \$675,000; plates and sheets, from \$3,410,000 to \$5,903,000; stamped and coated products, from \$845,000 to \$888,000; structural iron and steel, from \$495,000 to \$1,004,000; tools, hand and machine, from \$368,000 to \$836,000; tubes, pipes and fittings, from \$513,000 to \$940,000; and wire and manufactures, from \$136,000 to \$367,000.

From 1932-33 to 1934-35 imports from the United States under the main group of Non-Ferrous Metals and Their Products increased from \$12,941,000 to \$20,858,000, or \$7,917,000. The leading items under this group to show increases were:—Aluminium and products, from \$1,454,000 to \$2,032,000; brass and products, from \$1,345,000 to \$1,641,000; clocks and watches, from \$257,000 to \$396,000; electrical apparatus, from \$5,029,000 to \$7,077,000; metallic articles for agricultural implements, from \$361,000 to \$1,045,000; nickel and products, from \$739,000

to \$897,000; precious metals, chiefly unmanufactured silver, from \$540,000 to \$3,252,000; printing materials, from \$607,000 to \$730,000; tin in blocks, from \$544,000 to \$1,211,000; and zinc, from \$314,000 to \$373,000; while imports of copper and products decreased from \$462,000 to \$432,000. Under the main group of Non-Metallic Minerals and Their Products, the imports during this period increased from \$62,922,000 to \$77,257,000 or \$14,335,000. Under this group the principal imports to show increases were:—Asbestos products, from \$313,000 to \$465,000; electric carbons, from \$253,000 to \$369,000; clay and products, from \$1,441,000 to \$2,532,000; coal, from \$20,686,000 to \$27,068,000; coke for fuel, from \$2,587,000 to \$3,371,000; glass and glassware, from \$2,241,000 to \$2,968,000; kerosene oil, from \$133,000 to \$153,000; petroleum oil, crude, from \$19,054,000 to \$24,970,000; stone and products, from \$1,387,000 to \$3,196,000; and sulphur, from \$2,044,000 to \$2,497,000; while imports of gasoline decreased from \$6,809,000 to \$3,434,000; and lubricating oils from \$2,842,000 to \$2,333,000.

Imports under the main group of Chemicals and Allied Products from 1932-33 to 1934-35 increased from \$15,465,000 to \$17,118,000, or \$1,653,000. The principal imports to show increases under this group were:—Acids, from \$358,000 to \$553,000; drugs and medicines, from \$1,132,000 to \$1,186,000; dyeing and tanning materials, from \$1,768,000 to \$2,141,000; fertilizers, from \$664,000 to \$1,549,000; paints and varnishes, from \$1,232,000 to \$1,955,000; while the following commodities show decreases:—Cellulose products, from \$1,684,000 to \$1,590,000; compounds of tetraethyl lead, from \$1,682,000 to \$1,062,000; perfumery, from \$285,000 to \$234,000; potash and compounds, from \$52,000 to \$47,000; soap, from \$666,000 to \$294,000; and soda and compounds, from \$1,484,000 to \$1,429,000. Under the main group of Miscellaneous Commodities the imports decreased from \$20,915,000 to \$18,891,000 or \$2,024,000. Under this group the principal imports to show decreases were:—Articles for exhibition, from \$2,801,000 to \$2,008,000; films, from \$687,000 to \$670,000; and settlers' effects, from \$6,351,000 to \$2,536,000; while the leading imports to show increases were:—Articles re-imported, from \$864,000 to \$1,478,000; containers (outside coverings), from \$407,000 to \$570,000; express parcels, from \$1,035,000 to \$1,169,000; jewellery, from \$232,000 to \$397,000; musical instruments, from \$194,000 to \$249,000; pocket books, purses, etc., from \$138,000 to \$207,000; scientific and educational equipment, from \$1,830,000 to \$2,001,000; toys and dolls, from \$336,000 to \$451,000; and works of art, from \$111,000 to \$276,000.

For more detailed information relative to Canada's imports from the United States, fiscal years 1931-32, 1932-33, 1933-34, and 1934-35, see statistics in the following table:—

## CANADA'S PRINCIPAL IMPORTS FROM THE UNITED STATES

(Fiscal Years ended March 31, 1931-32, 1932-33, 1933-34 and 1934-35)

(c) **Canada's Principal Domestic Exports to the United States, 1934-35:**—During the fiscal year 1934-35 Canada's domestic exports to the United States, amounting to \$224,698,000, were \$10,489,000 or 4·5 per cent less than for the fiscal year 1931-32, but \$81,538,000 or 57·0 per cent greater than for the year 1932-33. Eight of the nine main groups of domestic exports to the United States in 1934-35 compared with 1932-33, had increases amounting to \$81,551,000, and one main group, viz.:—Fibres, Textiles and Textile Products, had a decrease amounting to \$13,000. Under the main group of Agricultural and Vegetable Products, the domestic exports to the United States from 1932-33 to 1934-35 increased from \$3,906,000 to \$43,148,000, or \$39,242,000. Under this main group the chief exports to show increases were:—Alcoholic beverages, from nil to \$13,188,000; fodders, n.o.p., from \$223,000 to \$611,000; fruits, from \$272,000 to \$380,000; grains, from \$135,000 to \$18,984,000 (under this sub-group exports of barley increased from \$83 to \$6,003,000; oats, from \$7,000 to \$1,335,000; rye, from \$50 to \$387,000; and wheat, from \$27,000 to \$11,197,000); grain products increased from \$1,237,000 to \$6,664,000 (under this sub-group bran and shorts increased from \$232,000 to \$2,799,000; malt, from \$864,000 to \$2,790,000; screenings (grain), from \$63,000 to \$763,000; and wheat flour, from \$4,000 to \$201,000); hay, from \$55,000 to \$674,000; seeds, from \$285,000 to \$399,000; sugar and products, from \$601,000 to \$642,000; vegetables and products, from \$658,000 to \$894,000 (under this sub-group exports of potatoes increased from \$219,000 to \$337,000; turnips, from \$359,000 to \$396,000; pickles and sauces, from \$1,000 to \$45,000; and canned vegetables, from \$2,000 to \$69,000); while the exports of rubber and products decreased from \$186,000 to \$129,000.

Canada's domestic exports to the United States under the main group of Animals and Animal Products from 1932-33 to 1934-35 increased from \$13,949,000 to \$19,923,000, or \$5,974,000. The principal items under this main group to show increases were:—Animals, living, from \$929,000 to \$2,358,000 (under this sub-group the exports of cattle increased from \$532,000 to \$1,757,000; and horses, from \$202,000 to \$406,000); fish, from \$7,812,000 to \$9,307,000 (under this sub-group fresh fish increased from \$6,186,000 to \$7,368,000; dried and salted fish, from \$814,000 to \$1,267,000; while canned or preserved fish decreased from \$812,000 to \$672,000); furs, undressed, increased from \$2,460,000 to \$4,098,000; hair, from \$61,000 to \$215,000; hides, raw, from \$366,000 to \$1,348,000; sausage casings, from \$200,000 to \$318,000; tankage, from \$175,000 to \$266,000; and whale oil, from nil to \$143,000; while the following items show decreases:—Leather, unmanufactured, from \$306,000 to \$244,000; leather, manufactured, from \$53,000 to \$41,000; meats, from \$738,000 to \$568,000; and milk and products, from \$326,000 to \$250,000. Under the main group of Fibres, Textiles and Textile Products, the exports during the same interval decreased from \$868,000 to \$855,000, or \$13,000. The principal items under this main group to show decreases were:—Binder twine, from \$500,000 to \$181,000; cotton goods, from \$13,000 to \$7,000; while the following items show increases:—Rags, from \$98,000 to \$310,000; and raw wool, from \$54,000 to \$150,000.

Under the main group of Wood, Wood Products and Paper, the domestic exports to the United States from 1932-33 to 1934-35 increased from \$93,914,000 to \$108,725,000, or \$14,811,000. Under this group the chief exports to show increases were:—Paper, from \$64,998,000 to \$68,649,000 (under this sub-group paper board increased from \$359,000 to \$363,000; newsprint paper, from \$64,489,000 to \$68,106,000; and wrapping paper, from \$2,000 to \$28,000); wood and products, from \$28,620,000 to \$39,786,000 (under this sub-group planks and boards increased from \$4,875,000 to \$5,912,000; pulpwood, from \$4,287,000 to \$7,055,000; railway ties, from \$210,000 to \$242,000; shingles, from \$2,350,000 to \$3,427,000; and wood pulp from \$14,044,000 to \$20,424,000; while the exports of laths under this sub-group decreased from \$429,000 to \$393,000; logs, from \$886,000 to \$469,000; poles, telegraph and telephone, from \$538,000 to \$529,000; and timber, square, from \$32,000 to \$23,000); while exports of books and printed matter decreased from \$297,000 to \$289,000. The domestic exports under the main group of Iron and Its Products during this period increased from \$1,958,000 to \$2,739,000, or \$781,000. The principal commodities to show increases under this group were:—Automobile parts, from \$33,000 to \$51,000; farm implements, from \$221,000 to \$603,000; hardware and cutlery, from \$32,000 to \$55,000; machinery, from \$151,000 to \$213,000; pigs, ingots and blooms, from \$873,000 to \$1,085,000; and scrap iron or steel, from \$76,000 to \$372,000; while the exports of the following commodities show decreases:—Automobiles, from \$86,000 to \$82,000; rolling mill products, from \$199,000 to \$43,000; and tubes, pipes and fittings, from \$169,000 to \$83,000.

Canada's domestic exports to the United States under the main group of Non-Ferrous Metals and Their Products, from 1932-33 to 1934-35, increased from \$13,808,000 to \$25,213,000, or \$11,405,000. Under this group the chief items to show increases were:—Aluminium products, from \$336,000 to \$620,000; brass products, from \$42,000 to \$57,000; copper and products, from \$3,664,000 to \$4,509,000 (under this sub-group copper in ore increased from \$537,000 to \$974,000; copper blister, from \$840,000 to \$3,500,000; while copper in forms decreased from \$2,232,000 to \$405); nickel and products increased from \$3,669,000 to \$12,382,000; and silver bullion, from \$776,000 to \$2,636,000; while the following exports show decreases:—Electrical apparatus, from \$35,000 to \$28,000; gold-bearing quartz, dust, nuggets, etc., from \$3,797,000 to \$3,718,000; and silver in ore, from \$967,000 to \$549,000. Under the main group of Non-Metallic Minerals and Their Products the domestic exports during this interval increased from \$4,937,000 to \$9,215,000, or \$4,278,000. The chief exports to show increases under this group were:—Asbestos, raw, from \$2,005,000 to \$3,039,000; coke, from \$234,000 to \$549,000; stone and products, from \$1,336,000 to \$3,737,000 (exports of artificial abrasives, crude, under this sub-group increased from \$542,000 to \$2,971,000; while exports of crude gypsum decreased from \$389,000 to \$372,000); and tar and pitch, from \$34,000 to \$362,000; while the following exports show decreases:—Coal, from \$467,000 to \$445,000; and petroleum and products, from \$507,000 to \$317,000.

Under the main group of Chemicals and Allied Products, Canada's domestic exports to the United States from 1932-33 to 1934-35 increased from \$4,668,000 to \$7,334,000, or \$2,666,000. Under this group the leading commodities to show increases were:—Acids, from \$952,000 to

\$2,144,000; fertilizers, from \$2,460,000 to \$3,228,000; soap, from \$231 to \$420,000; and soda and compounds, from \$992,000 to \$1,151,000; while the exports of cobalt oxide and salt decreased from \$84,000 to nil; and paints and varnishes, from \$38,000 to \$29,000. The exports under the main group of Miscellaneous Commodities during this interval increased from \$5,152,000 to \$7,546,000, or \$2,394,000. Under this group the exports of containers (empty) to the United States increased from \$45,000 to \$233,000; electrical energy, from \$1,654,000 to \$3,016,000; films, from \$632,000 to \$1,111,000; musical instruments, from \$26,000 to \$35,000; settlers' effects, from \$2,446,000 to \$2,460,000; and ships, from \$6,000 to \$110,000; while the exports of stationery decreased from \$27,000 to \$15,000.

For further details relative to Canada's domestic exports to the United States, fiscal years 1931-32, 1932-33, 1933-34, and 1934-35, see statistics in the following table:—

(f) **Decrease in Canada-United States Trade, 1934-35:**—Imports from the United States in the fiscal year 1921-22 were less than for the year 1920-21, but from then on there was an upward trend (except for the year 1924-25) until by the year 1928-29 imports amounted to \$868,000,000, which in 1929-30 declined to \$847,000,000, this figure being only \$9,000,000 less than for the year 1920-21. In 1929-30 and subsequent years the duties on imports under the General Tariff were raised, and from 1929-30 to 1934-35 the imports from the United States decreased from \$847,000,000 to only \$303,640,000. Of course the decrease in the purchasing power of Canada, due to the depression, which was world-wide, as well as the fall in prices, also had a marked effect on the drop in imports. Canada's imports from the United States for the fiscal years ended March 31, 1920-21 to 1934-35, were as under:—

Fiscal Years	\$	Fiscal Years	\$	Fiscal Years	\$
1920-21.....	856,177,000	1925-26.....	608,619,000	1930-31.....	584,407,000
1921-22.....	515,958,000	1926-27.....	687,023,000	1931-32.....	351,687,000
1922-23.....	540,990,000	1927-28.....	718,896,000	1932-33.....	232,548,000
1923-24.....	601,256,000	1928-29.....	868,012,000	1933-34.....	238,188,000
1924-25.....	509,780,000	1929-30.....	847,442,000	1934-35.....	303,640,000

The exports to the United States for the fiscal year 1921-22 show a marked decline compared with 1920-21, but from then on they show an upward trend, until by the year 1929-30 they amounted to \$515,000,000, this figure being only \$27,000,000 less than for the year 1920-21.

## DOMINION BUREAU OF STATISTICS

Total domestic exports to the United States for the fiscal years 1920-21 to 1934-35 were as under:—

Fiscal Years	\$	Fiscal Years	\$	Fiscal Years	\$
1920-21.....	542,323,000	1925-26.....	474,987,000	1930-31.....	349,661,000
1921-22.....	292,589,000	1926-27.....	466,423,000	1931-32.....	235,187,000
1922-23.....	369,080,000	1927-28.....	478,145,000	1932-33.....	143,160,000
1923-24.....	430,708,000	1928-29.....	499,612,000	1933-34.....	194,443,000
1924-25.....	417,417,000	1929-30.....	515,050,000	1934-35.....	224,698,000

An analysis of Canada's exports of wood products (chiefly raw and semi-manufactured), paper (largely newsprint), and non-ferrous metals (principally raw and semi-manufactured) to the United States, indicates that the increase in the exports of these products from 1920-21 to 1929-30 offsets the decrease in farm products to the United States during this period. From 1920-21 to 1929-30 the decrease in the exports of farm products amounted to \$98,000,000, while the exports of wood products, paper, and non-ferrous metals increased \$93,000,000. From 1920-21 to 1934-35 the exports of domestic wood products, paper, and non-ferrous metals, and farm products to the United States, were as follows:—

Fiscal Years	(1) Wood Products	(2) Paper	(3) Non-Ferrous Metals	Totals 1, 2 and 3	(4) Farm Products
	\$	\$	\$	\$	\$
1920-21.....	143,283,000	72,170,000	30,030,000	245,483,000	190,790,000

Canada, under the Underwood Tariff which was in force in the United States from October 3, 1913 to May 27, 1921, increased her domestic exports to the United States from 1912-13 to 1920-21 from \$139,725,000 to \$542,323,000; while the exports of farm products in 1920-21 totalled \$190,790,000. Under the Underwood Tariff 88.4 per cent of Canada's exports to the United States in 1920 was allowed free entry. Under the Emergency Tariff, which was in force from May 27, 1921, to September 21, 1922, and the Fordney-McCumber Tariff, from September 21, 1922, to June 18, 1930, Canada's exports of farm products (chiefly raw materials) from 1920-21 to 1929-30, decreased from \$190,790,000 to \$92,134,000; and under the Hawley-Smoot Tariff, which came into force on June 18, 1930, and which was practically a prohibitive tariff in respect to farm products, Canada's exports of farm products to the United States from 1929-30 to 1930-33 declined from \$92,134,000 to \$6,948,000, but in 1933-34 the exports of farm products to the United States amounted to \$28,655,000, and in 1934-35 to \$49,294,000. The United States under the Fordney-McCumber and the Hawley-Smoot Tariffs placed a heavy duty on fish which seriously affected the market in the United States for Canadian fish, and in June, 1932, a heavy duty was placed on softwood lumber and copper. The exports of lumber and copper from Canada to the United States, fiscal year 1931-32 to the fiscal year 1934-35, decreased as follows:—Lumber from 597,712 M ft. to 235,434 M ft.; and copper from 178,641,700 pounds to 67,781,100 pounds.

The statistics in the following table showing Canada's exports of certain farm, fish, copper and lumber products, to the United States, fiscal years 1920-21 to 1934-35, indicate the extent to which the exports of these products to the United States were affected by changes in the United States Tariff Acts of 1921, 1922, 1930 and 1932.

# CONDENSED PRELIMINARY TRADE REPORT

53

CANADA'S EXPORTS OF CERTAIN FARM, FISH, LUMBER AND COPPER PRODUCTS TO THE UNITED STATES, 1920-21 TO 1934-35, AFFECTED BY UNITED STATES TARIFF ACTS OF 1921, 1922, 1930 AND 1932

## CANADA'S TRADE WITH AUSTRALIA, 1934-35

The trade of Canada with Australia during the fiscal year ended March 31, 1934-35, shows a marked improvement compared with the fiscal years 1931-32, 1932-33, and 1933-34. Imports from Australia in the fiscal year 1934-35 were 11.0 per cent greater than in 1931-32; 7.2 per cent greater than for 1932-33; and 17.9 per cent greater than in 1933-34; while domestic exports to Australia in 1934-35 exceeded similar exports in 1931-32 by 235.6 per cent; in 1932-33 by 147.3 per cent; and in 1933-34 by 49.0 per cent. In the fiscal year 1934-35 Canada's imports from Australia were valued at \$6,327,000; in 1933-34 at \$5,363,000; in 1932-33 at \$5,903,000; and in 1931-32 at \$5,697,000; while her domestic exports to Australia in 1934-35 amounted to \$18,082,000; in 1933-34 to \$12,139,000; in 1932-33 to \$7,313,000; and in 1931-32 to \$5,388,000. In the fiscal year 1931-32 Australia occupied seventh place in Canada's import trade, fifth place in 1932-33, and sixth place in the years 1933-34 and 1934-35; while in the Dominion's export trade Australia occupied twelfth place in 1931-32, tenth place in 1932-33, sixth place in 1933-34, and third place in 1934-35. Canada's imports from Australia in the fiscal year 1934-35 were the highest on record; while her domestic exports to Australia in 1934-35 were only exceeded in five previous fiscal years, when export prices were much higher, viz.:—1920-21 (\$18,113,000); 1922-23 (\$18,784,000); 1923-24 (\$19,924,000); 1926-27 (\$18,966,000); and 1928-29 (\$19,470,000).

There were some marked increases as well as decreases in the imports from Australia in the fiscal year 1934-35 compared with 1931-32. Imports of fruits from 1931-32 to 1934-35 increased from \$2,797,000 to \$3,269,000 (under this sub-group imports of fresh fruits, chiefly oranges, decreased from \$84,000 to \$38,000; preserved fruits, chiefly canned peaches, decreased from \$561,000 to \$330,000; while dried fruits, mainly raisins, increased from \$2,153,000 to \$2,901,000); grain and products increased from \$102,000 to \$191,000 (under this sub-group wheat flour increased from \$24,000 to \$191,000; while imports of rice decreased from \$77,000 to \$41); onions increased from \$3,000 to \$29,000; rags and waste, from \$2,000 to \$45,000; tin in blocks, from nil to \$34,000; wines, non-sparkling, from \$68,000 to \$137,000; wood and products, chiefly veneers, from \$11,000 to \$49,000; and wool and its products, chiefly raw wool, from \$797,000 to \$1,195,000; while the imports of the following commodities show decreases from 1931-32 to 1934-35, viz.:—Gelatine, from \$99,000 to \$92,000; hides and skins, from \$77,000 to \$22,000; meats, chiefly fresh mutton and lamb, from \$155,000 to \$7,000; and sugar, from \$1,150,000 to \$1,058,000.

Canada's domestic exports to Australia from 1931-32 to 1934-35 show marked increases in practically every important item of trade:—Aluminium increased from \$3,000 to \$140,000; asbestos, raw, from \$27,000 to \$58,000; automobiles, from \$500 to \$4,788,000; automobile parts, from \$65,000 to \$476,000; brass and products, from \$1,000 to \$148,000; clocks and watches, from \$34,000 to \$164,000; copper and products, from \$1,000 to \$47,000; cotton fabrics, from \$125,000 to \$916,000; electrical apparatus, from \$34,000 to \$149,000; farm implements, from \$95,000 to \$118,000; films, from \$231,000 to \$293,000; fish, chiefly canned salmon, from \$1,196,000 to \$1,615,000; hardware and cutlery, from \$42,000 to \$114,000; machinery, from \$52,000 to \$563,000; oilcloth, from \$50 to \$46,000; paper, largely newsprint paper, from \$2,005,000 to \$4,129,000; pipes and fittings, from \$62,000 to \$170,000; silk goods, from \$1,000 to \$40,000; soda and compounds, from \$55,000 to \$104,000; tools, hand or machine, from \$9,000 to \$357,000; wire, from \$8,000 to \$110,000; wood, unmanufactured, from \$991,000 to \$2,647,000; under this sub-group exports of Douglas fir logs increased from \$34,000 to \$1,008,000; planks and boards, from \$741,000 to \$1,218,000; and square timber, from \$116,000 to \$306,000; and wood manufactured, chiefly handles, from \$43,000 to \$113,000.

For more detailed information respecting Canada's imports from and exports to Australia, fiscal years 1931-32 to 1934-35, see statistics in the following table:—

# **CANADA'S TRADE WITH BRITISH SOUTH AFRICA, 1934-35** (INCLUDES SOUTHERN RHODESIA)

Canada's trade with British South Africa for the fiscal year 1934-35 exceeded similar trade in the years 1931-32, 1932-33, and 1933-34. Imports from British South Africa in 1934-35 show a decrease of 20.0 per cent, compared with 1931-32, with 1932-33 a decrease of 29.5 per cent; and with 1933-34, a decrease of 5.0 per cent; while the domestic exports to British South Africa in 1934-35 exceeded similar export trade in 1931-32 by 50.6 per cent; in 1932-33 by 216.2 per cent; and in 1933-34 by 64.8 per cent. Canada's imports from British South Africa in 1934-35 were valued at \$3,460,000; in 1933-34 at \$3,642,000; in 1932-33 at \$4,907,000; and in 1931-32 at \$4,323,000; while the Dominion's domestic exports to British South Africa in 1934-35 were valued at \$12,656,000; in 1933-34 at \$7,680,000; in 1932-33 at \$4,002,000; and in 1931-32 at \$8,401,000. In Canada's import trade in 1931-32, British South Africa occupied thirteenth position; in 1932-33 sixth position; in 1933-34 seventh position; and in 1934-35 thirteenth position, as in 1931-32; while in the Dominion's export trade British South Africa occupied ninth position in 1931-32; thirteenth position in 1932-33; ninth position in 1933-34; and fifth position in 1934-35. During the fiscal year 1934-35 Canada's imports from British South Africa were greater than for any year on record, except for the years 1931-32 (\$4,323,000); 1932-33 (\$4,907,000); and 1933-34 (\$3,642,000); while her domestic exports to British South Africa in 1934-35 were only exceeded in one fiscal year, viz.:—1920-21 (\$14,649,000), a year of extremely high export prices.

The decrease in the imports in 1934-35 compared with 1931-32 occurred largely in one item of trade, viz.: sugar, which decreased from \$2,368,000 to \$958,000. This decrease, however, was offset in a measure by increases in the imports of alcoholic beverages, which, from 1931-32 to 1934-35, increased from \$8,000 to \$53,000; corn, from \$1,634,000 to \$1,948,000; fresh fruits, chiefly oranges, from \$137,000 to \$274,000; dried fruits, chiefly dried apricots and raisins, from \$23,000 to \$100,000; and raw wool, from \$73,000 to \$80,000; while prepared fruits decreased from \$16,000 to \$10,000.

The increase in the domestic exports to British South Africa from 1931-32 to 1934-35 amounting to \$4,255,000, occurred in nearly every important item of trade, though slight decreases were recorded in the exports of binder twine, from \$67,000 to \$63,000; cotton goods, from \$48,000 to \$29,000; and pipes, tubes and fittings, from \$121,000 to \$104,000; while the exports of the following commodities show marked decreases:—Candy, from \$71,000 to \$25,000; grains and products, chiefly wheat, from \$2,682,000 to \$1,596,000; and paper, largely newsprint and wrapping paper, from \$1,177,000 to \$473,000. The following items during this period show increases:—Artificial silk, from \$45,000 to \$80,000; automobiles, from \$1,032,000 to \$2,741,000; automobile parts, from \$150,000 to \$938,000; chains of iron and steel, from \$19,000 to \$63,000; electrical apparatus, from \$391,000 to \$647,000; farm implements from \$414,000 to \$1,053,000; fish, largely canned fish, from \$148,000; to \$361,000 hardware and cutlery, from \$7,000 to \$77,000; machinery, from \$43,000 to \$216,000; paints and varnishes, from \$8,000 to \$63,000; porcelain insulators, from \$36,000 to \$51,000; rails of iron and steel, from \$231,000 to \$620,000; rubber products, chiefly footwear of rubber and pneumatic tire casings, from \$947,000 to \$1,309,000; socks and stockings, from \$266,000 to \$1,032,000; tools, hand or machine, from \$9,000 to \$52,000; canned vegetables, from \$20,000 to \$54,000; wire (iron), from \$108 to \$98,000; wood, unmanufactured, mainly planks and boards, from \$140,000 to \$389,000; and wood, manufactured, from \$35,000 to \$49,000.

For further information relative to Canada's imports from and exports to British South Africa, fiscal years 1931-32 to 1934-35, see statistics in the following table:—

## CANADA'S TRADE WITH NEW ZEALAND, 1934-35

Canada's total trade with New Zealand in the fiscal year ended March 31, 1934-35, was greater than for the fiscal years 1931-32, 1932-33, and 1933-34. Imports from New Zealand in 1934-35 were 134.7 per cent higher than in 1931-32; 161.3 per cent higher than in 1932-33; but 3.2 per cent lower than in 1933-34; while the domestic exports to New Zealand in 1934-35 exceeded similar export trade in 1931-32 by 97.2 per cent; in 1932-33 by 103.6 per cent; and in 1933-34 by 64.0 per cent. Canada's imports from New Zealand in 1934-35 were valued at \$2,535,000, compared with \$1,080,000 in 1931-32; with \$970,000 in 1932-33; and with \$2,619,000 in 1933-34; while the Dominion's domestic exports to New Zealand in the fiscal year 1934-35 were valued at \$7,345,000; in 1931-32 at \$3,724,000; in 1932-33 at \$3,608,000; and in 1933-34 at \$4,480,000. New Zealand in 1931-32 in Canada's import trade occupied twenty-ninth place; in 1932-33 twenty-sixth place; in 1933-34 seventeenth place; and in 1934-35, eighteenth place; while in Canada's export trade New Zealand in 1931-32 occupied sixteenth position; in 1932-33 fifteenth position; in 1933-34 twelfth position; and in 1934-35, ninth position.

From 1931-32 to 1934-35 practically every important import from New Zealand shows an increase, some being very pronounced, the only imports to show decreases being: gums, from \$23,000 to \$13,000; hemp, from \$3,000 to nil; meats, from \$12,000 to \$11,000; and seeds, from \$44,000 to \$25,000. During this interval the imports of apples increased from \$42,000 to \$61,000; butter, from \$17,000 to \$50,000; gelatine, from nil to \$10,000; hides, raw, from \$141,000 to \$634,000; onions, from \$2,000 to \$20,000; sausage casings, from \$456,000 to \$755,000; and wool, raw, from \$305,000 to \$910,000.

During the period 1931-32 to 1934-35 every principal export to New Zealand shows an increase, except clover seed, which decreased from \$6,000 to \$5,000; corsets and brassieres, from \$19,000 to \$7,000; salt, from \$20,000 to \$14,000; and socks and stockings, from \$284,000 to \$234,000. The following commodities during this interval show increases:—Automobiles, from \$34,000 to \$1,609,000; automobile parts, from \$61,000 to \$108,000; clocks and watches, from \$14 to \$36,000; copper and products, from \$9,000 to \$50,000; cotton goods, from \$47,000 to \$51,000; electrical apparatus, from \$238,000 to \$266,000; farm implements, from \$40,000 to \$126,000; films, from \$1,000 to \$6,000; fish, chiefly canned salmon, from \$199,000 to \$290,000; furs, chiefly raw, from \$5,000 to \$27,000; grains and products, from \$379,000 to \$462,000 (under this sub-group the exports of cornstarch increased from \$12,000 to \$51,000; and wheat flour, from \$242,000 to \$344,000; while the exports of wheat decreased from \$115,000 to \$48,000); hardware and cutlery, from \$23,000 to \$86,000; leather, unmanufactured, from \$16,000 to \$18,000; leather, manufactured, from \$3,000 to \$28,000; machinery, from \$72,000 to \$96,000; oilcloth, from \$4,000 to \$12,000; paper, from \$1,029,000 to \$1,386,000 (under this sub-group paper board

increased from \$63,000 to \$144,000; book paper, from \$38,000 to \$79,000; newsprint paper, from \$768,000 to \$950,000; and wrapping paper, from \$109,000 to \$124,000; pipes, tubes and fittings, from \$16,000 to \$148,000; rubber products, largely footwear and pneumatic tire casings, from \$691,000 to \$1,298,000; tools, hand or machine, from \$15,000 to \$72,000; vegetables, mainly onions and canned vegetables, from \$21,000 to \$48,000; wood, unmanufactured, chiefly planks and boards, from \$64,000 to \$91,000; and wood, manufactured, from \$32,000 to \$40,000.

For more detailed information relative to Canada's imports from and exports to New Zealand, fiscal years 1931-32 to 1934-35, see statistics in the following table:—

## CANADA'S TRADE WITH OTHER EMPIRE AND FOREIGN COUNTRIES, 1934-35

The British Preferential Tariff enacted in 1897, which granted a trade preference to the products and manufactures of the United Kingdom and reciprocating Dominions and Possessions of 12½ per cent from April 23, 1897, which was increased to 25 per cent from June 30, 1898, and to 33½ per cent from June 30, 1900, and the New Customs Tariff Act, 1907, which continued the preferential policy; as well as trade treaties and agreements, negotiated with British and Foreign Countries, have had the effect of stimulating Canada's external trade. When the British preference became effective in 1896-97 Canada's total imports from the United Kingdom in that year amounted to only \$29,401,000, compared with an import in 1886-87 valued at \$44,741,000 and in 1872-73 at \$67,997,000, the decrease in 1896-97 compared with 1886-87, amounting to \$15,340,000 and with 1872-73 to \$38,596,000. From 1872-73 to 1896-97 imports from the United Kingdom decreased \$38,596,000 or 56·7 per cent, while from 1896-97 to 1929-30 they increased \$159,779,000 or 543·4 per cent; since 1929-30 imports from Britain declined materially, until for the year 1934-35 they show an increase over the year 1896-97 of \$82,284,000 or 279·8 per cent. The British Preferential Tariff was no doubt largely responsible for the increase in imports from the United Kingdom as well as from other parts of the Empire. By reference to the statistics in the following table giving "Trade of Canada with the British Empire and Foreign Countries" it will be noted that in the fiscal year 1895-96, imports from "Other British Empire", i.e., British Empire, except the United Kingdom, amounted to \$2,389,000, in 1905-06 to \$14,606,000, in 1915-16 to \$27,826,000, in 1925-26 to \$45,089,000, and in 1929-30 to \$63,495,000, but by 1934-35 they had decreased to \$44,502,000; while domestic exports to the "Other British Empire" in 1895-96 were valued at \$4,048,000, in 1905-06 at \$10,965,000, in 1915-16 at \$30,677,000, in 1925-26 at \$90,330,000, and in 1929-30 at \$97,825,000, but by 1934-35 they were valued at \$62,605,000. During the same years the imports from "Other Foreign Countries", i.e., Foreign Countries, except the United States, were: in 1895-96, \$16,619,000, in 1905-06, \$30,694,000, in 1915-16, \$32,091,000, in 1925-26, \$109,890,000, and in 1929-30, \$148,175,000, but in 1934-35 they were \$67,314,000; while domestic exports to "Other Foreign Countries" were: in 1895-96,

\$5,152,000, in 1905-06, \$13,516,000, in 1915-16, \$57,974,000, in 1925-26, \$241,800,000, and in 1929-30, \$225,637,000, but in 1934-35 they were \$93,705,000.

From 1910-11 to 1929-30 imports from "Other British Empire" increased from \$19,533,000 to \$63,495,000 or 225.1 per cent, and from "Other Foreign Countries" from \$47,433,000 to \$148,157,000 or 212.4 per cent; while domestic exports to "Other British Empire" increased from \$16,811,000 to \$97,825,000 or 481.9 per cent, and to "Other Foreign Countries" from \$21,233,000 to \$225,637,000 or 962.7 per cent. Imports from "Other British Empire" in 1934-35 totalled \$44,502,000, and from "Other Foreign Countries" \$67,314,000; while domestic exports to "Other British Empire" amounted to \$62,605,000, and to "Other Foreign Countries" to \$93,705,000; the increase over 1910-11 being:—Imports "Other British Empire" 127.8 per cent; "Other Foreign Countries" 32.0 per cent; Domestic Exports:—"Other British Empire" 300.4 per cent; "Other Foreign Countries" 341.3 per cent. The decrease in the value of imports and exports in 1934-35 compared with the fiscal year 1929-30 was practically due to a serious decline in commodity prices, which was world-wide. On a quantity basis, the decrease was not so marked, indicating that it was largely a price and not a quantity decline.

The tendency of Canada's trade during the past three or four years has been towards a greater exchange of commodities with Empire countries. The statistics in the following table giving percentages of Canada's trade with Empire and foreign countries for a series of years indicate that the proportion of Canada's imports from Empire countries from 1929-30 to 1934-35 increased from 20.3 to 29.9 per cent, and exports to from 34.0 to 51.7 per cent; while the proportion of imports from foreign countries decreased from 79.7 to 70.1 per cent, and exports to from 66.0 to 48.3 per cent. During the same period the proportion of Canada's imports from the United Kingdom increased from 15.2 to 21.4 per cent, and exports to from 25.2 to 41.5 per cent; while imports from the United States decreased from 67.9 to 58.1 per cent, and exports to from 46.0 to 34.1 per cent.

## EFFECT OF CANADIAN PREFERENCE ON UNITED KINGDOM IMPORTS, 1934-35

Since the inauguration of the British preference in 1897, statistics giving the average ad valorem rate of duty on dutiable imports into Canada from the United Kingdom and the United States, respectively, have been frequently in use, the average rate of duty being lower as a rule on dutiable imports from the United States than from the United Kingdom. It must be remembered in this connection, however, that the dutiable imports from the United Kingdom consist very largely of highly manufactured commodities, and necessarily are subject to high rates of duty, whereas the dutiable imports from the United States consist, in a large measure, of semi-manufactured commodities for further processing in Canadian industries, and consequently are admitted at reasonably low rates of duty.

Another factor in Canada's imports from the United Kingdom, compared with those from the United States, which affects the rates of duty for the two countries and which is frequently ignored, is the trade of alcoholic liquors, which are imported in large volume from the United Kingdom, but in very small volume from the United States. Imports of tobacco should also be added, as in almost all countries alcoholic liquors and tobacco are subject to extraordinary high rates of duty, the principle of tariff makers in dealing with these commodities being not so much protection as the raising of revenue or the discouraging of consumption. In recent years the Canadian Government has considerably expanded the list of commodities which are admitted free under the preferential tariff, but which are dutiable under the intermediate and general tariffs. In the fiscal year 1934-35, the imports from the United Kingdom free under the preferential tariff were valued at \$41,186,800. The statistics in the following tables present (1) Imports without the adjustments of these items, and (2) Imports with the adjustments. It will be noted from statement No. 2 that the ad valorem rates of duty on dutiable imports from the United Kingdom, after adjustments have been made for the years 1921-22 to 1934-35,

are lower than those for the United States, and that the average ad valorem rates of duty for the United Kingdom were: 1930-31, 15.65 per cent; 1931-32, 18.62 per cent; 1932-33, 14.52 per cent; 1933-34, 11.97 per cent; and 1934-35, 12.06 per cent; and for the United States: 1930-31, 24.73 per cent; 1931-32, 27.45 per cent; 1932-33, 28.06 per cent; 1933-34, 28.54 per cent; and 1934-35, 27.25 per cent; indicating an advantage to the United Kingdom under the preference of 9.08 per cent in 1930-31; 8.83 per cent in 1931-32; 13.54 per cent in 1932-33; 16.43 per cent in 1933-34; and 15.19 per cent in 1934-35.

1.—CANADA'S DUTIABLE IMPORTS FROM THE UNITED KINGDOM AND THE UNITED STATES; WITH AMOUNT OF DUTY COLLECTED THEREON, AND AVERAGE AD VALOREM RATE OF DUTY.

The statistics in the following table re "Imports into Canada from the United Kingdom for the years 1924-25 to 1934-35," indicate a very marked increase in the imports of goods from the United Kingdom free under the Preferential Tariff. The proportion of imports subject to duty on total imports from the United Kingdom in 1924-25 was 82.5 per cent, and free goods 17.5 per cent; imports free, under the Preferential Tariff amounting to 0.6 per cent, and under the General

Tariff to 16.9 per cent; in 1929-30 the proportion of dutiable imports of total imports was 78.6 per cent, and free goods 21.4 per cent, imports free under the Preferential Tariff amounting to 5.6 per cent, and under the General Tariff to 15.8 per cent; whereas in the year 1934-35 the proportion of dutiable imports of total imports from the United Kingdom was 52.7 per cent, and free imports 47.3 per cent, imports free under the Preferential Tariff amounting to 36.9 per cent, and under the General Tariff to 10.4 per cent.

### RELATION BETWEEN TRADE IN RAW AND MANUFACTURED PRODUCTS, 1934-35

Canada was not engaged to any great extent in manufacturing processes for some years after Confederation, and consequently her imports consisted very largely of manufactured goods and her exports of raw and semi-manufactured products. Since the opening of the twentieth century, a conspicuous change in the character of Canada's imports and exports has developed, a large percentage of the imports consisting of raw and semi-manufactured products for use in Canadian manufacturing industries, and the exports consisting to a considerable degree of products which have undergone some process of manufacture. Canada, during this period, has passed through much the same stages of development in her economic life as did the United States from 1870 to 1900. From 1870 to 1900 the imports of raw materials into the United States increased from 25.2 to 44.0 per cent of the total imports; and fully manufactured products decreased from 62.1 to 40.2 per cent; while exports of raw materials from the United States during the same interval decreased from 67.7 to 40.2 per cent of the total exports, and fully manufactured products increased from 28.6 to 48.6 per cent. No statistics available for 1934 but for 1933 they show a further improvement, though the percentage of imports of raw materials is less than for any year since 1921 and of manufactured products more than for any year since 1921. Compared with 1900, the 1933 statistics show that imports of raw materials into the United States increased from 44.0 to 44.1 per cent of the total imports, and exports decreased from 40.2 to 38.1 per cent of the total exports, whereas imports of fully manufactured product decreased from 40.2 to 39.1 per cent and exports increased from 48.6 to 48.7 per cent. Compared with 1930 the United States statistics for 1933 indicate a decline in the percentage of raw materials imported, but an increase in the percentage exported, a decrease in the percentage of semi-manufactured products imported and exported, while the imports of manufactured product in 1933 show an increase over 1930, and the exports a decrease.

Canada, industrially, has not made as great progress as the United States, and, consequently she has not increased imports of raw materials for manufacturing purposes, expanded exports of manufactured and processed goods and curtailed imports of manufactured goods to the same extent as the United States, though she has made considerable progress in this respect. From 1914 to 1935 (fiscal years) the percentage of imports into Canada of raw materials of the total imports increased from 21.8 to 30.4 per cent, while exports of raw materials of the total domestic exports decreased from 63.2 to 36.1 per cent. In 1935 the percentage of imports of raw materials of the total imports was more than for the years 1900 to 1934, while the percentage of exports of raw materials of the total domestic exports was less than for any year from 1900 to 1934, except for the year 1920. Canada's imports of fully manufactured products from 1914 to 1934 decreased

# CONDENSED PRELIMINARY TRADE REPORT

67

from \$426,300,000 to \$315,500,000, or 26.0 per cent, while the domestic exports of fully manufactured products during the same interval increased from \$115,300,000 to \$285,500,000 or 147.6 per cent. The percentage of imports of fully manufactured products from 1914 to 1935 decreased from 68.9 to 60.4 per cent, while the percentage of exports of fully manufactured products increased from 26.7 to 43.2 per cent. In 1935 the percentage of imports of fully manufactured products of the total imports was less than for any year from 1920 to 1934, except for the year 1924; while the percentage of exports of fully manufactured products of total domestic exports was greater than for the years 1920 to 1934, except for the years 1931 and 1932. The decrease in the percentage of exports of raw materials and of fully manufactured goods in recent years was attributable to the drastic decline in commodity prices; prices of raw materials falling much more rapidly than those for manufactured goods.

STATEMENT SHOWING VALUE AND PROPORTION OF RAW MATERIALS AND PARTLY AND FULLY MANUFACTURED GOODS IMPORTED INTO AND EXPORTED FROM CANADA 1899-1900 TO 1934-35 AND THE UNITED STATES, 1899-1900 TO 1933-34

## DOMINION BUREAU OF STATISTICS

In Canada, grains (chiefly wheat) and in the United States, raw cotton, grains (principally wheat) and raw tobacco are the leading commodities which comprise the bulk of the exports of raw materials. It is of interest to note the results in Canada and the United States when certain staple raw materials, of farm origin, which are reproducible annually, are eliminated, such as grains, fresh fruits and vegetables, seeds and raw tobacco, for both countries, as also raw cotton for the United States. The results, for the years 1899-1900 to 1934-35, are set forth in the following table:—

RAW MATERIALS EXPORTED FROM CANADA 1899-1900 TO 1934-35 AND THE UNITED STATES, 1899-1900 TO 1933-34

(Values in Millions of Dollars)

Fiscal Years	Canada's Exports of Raw Materials (Years ended March 31)				United States Exports of Raw Materials (Years ended June 30)					
	Grains, fresh fruits and vegetables, seeds and raw tobacco		Other raw materials		Grains, fresh fruits and vegetables, seeds and raw tobacco		Raw cotton		Other raw materials

1929-30.....	255.9	22.8	173.5	15.5	370.2	10.0	424.6	14.0	154.6	5.1
1930-31.....	199.6	25.0	113.7	13.1	304.3	10.7	339.3	17.8	118.1	6.2
1931-32.....	147.5	25.6	78.7	13.7	203.7	8.7	324.3	22.6	91.1	6.5
1932-33.....	157.4	33.2	47.0	11.9	123.3	(No statistics available)				
1933-34.....	143.0	24.6	68.5	11.9		(" " " " " ")				
1934-35.....	159.9	24.2	77.9	11.8						

According to the statistics in the above table Canadian and the United States exports of "Other raw materials", from 1900 to 1933 (i.e., total exports of raw materials less certain raw materials which are reproducible annually), increased or decreased as follows: Canada decreased from \$48,500,000 to \$47,000,000, or 3.1 per cent, while the United States increased from \$82,700,000 to \$91,100,000, or 10.1 per cent. In the case of Canada the percentage of the exports of "Other raw materials" of the total domestic exports, from 1900 to 1933, decreased from 28.8 to 9.9 per cent, and in the case of the United States increased from 6.0 to 6.5 per cent. No statistics are available relative to the United States exports of raw materials in 1934 or 1935, but in the case of Canada the exports of "Other raw materials" from 1933 to 1935 increased from \$47,000,000 to \$77,900,000.

It will be observed from the statistics in the following table, showing "Canada's Imports and Exports by Leading Countries, according to Degree of Manufacture", fiscal year 1935, that Canada's imports from those countries with highly developed manufacturing industries consist of manufactured products, and her exports to those countries are made up largely of raw and semi-manufactured products; while on the other hand Canada's trade with countries whose industries are not so highly developed consist chiefly, in the case of imports, of raw and semi-manufactured products and in the case of exports, of manufactured products.

A further analysis of the statistics in the foregoing table relative to Canada's imports and exports classified according to degree of manufacture indicates (1) that 81.4 per cent of Canada's imports from Europe in the year ended March 31, 1935, consisted of fully manufactured goods, 11.3 per cent of raw materials, and 7.3 per cent of semi-manufactured products; while 50.2 per cent of her exports to Europe was made up of raw materials, 29.4 per cent of fully manufactured goods, and 20.4 per cent of semi-manufactured products; the proportion of trade with the United Kingdom being—imports: fully manufactured goods, 82.2 per cent; raw materials, 11.4 per cent, and semi-manufactured products, 6.4 per cent; and exports: raw materials, 48.2 per cent, fully manufactured goods, 31.2 per cent, and semi-manufactured products, 20.6 per cent; (2) that 54.7 per cent of the imports from North America consisted of fully manufactured goods, 36.9 per cent raw materials, and 8.4 per cent of semi-manufactured products; while 52.5 per cent of the exports to North America comprised fully manufactured goods, 25.5 per cent raw materials, and 22.0 per cent semi-manufactured products; the proportion of trade with the United States being:—imports: fully manufactured goods, 56.7 per cent, raw materials, 37.1 per cent, and semi-manufactured products, 6.2 per cent; and exports: fully manufactured goods, 49.8 per cent, raw materials, 26.6 per cent, and semi-manufactured products, 23.6 per cent; (3) that 74.6 per cent of the imports from South America was made up of raw materials, 15.5 per cent of semi-manufactured products, and 9.9 per cent of fully manufactured goods; while 89.1 per cent of the exports to that continent consisted of fully manufactured goods, 5.7 per cent of raw materials, and 5.2 per cent of semi-manufactured products; (4) that 64.8 per cent of the imports from Asia were fully manufactured goods, 26.7 per cent raw materials, and 8.5 per cent semi-manufactured products; while 45.7 per cent of the exports to Asia consisted of fully manufactured goods, 38.3 per cent of semi-manufactured products, and 16.0 per cent of raw materials; (5) that the proportion of the trade with Oceania was—imports: semi-manufactured products, 42.0 per cent, fully manufactured goods, 35.9 per cent, and raw materials, 22.1 per cent; and exports: fully manufactured goods, 87.1 per cent, semi-manufactured products, 7.5 per cent, and raw materials, 5.4 per cent; and (6) that the proportion of the imports from Africa was: raw materials, 73.8 per cent, semi-manufactured products, 22.6 per cent; and fully manufactured goods, 3.6 per cent; while the proportion of the exports to Africa was: fully manufactured goods, 83.0 per cent, raw materials, 12.8 per cent, and semi-manufactured products, 4.2 per cent.

The following table shows how Canada's imports and exports, analyzed into three categories of raw materials, semi-manufactured products, and fully manufactured goods, are distributed amongst (a) the United Kingdom; (b) other Empire countries; (c) the United States; and (d) other foreign countries, for the fiscal years ended March 31, 1928-29 to 1934-35.

## CANADA'S VISIBLE MERCHANDISE TRADE BALANCE, 1934-35

There have been marked changes in recent years in Canada's visible merchandise trade balances with the principal trading countries of the world. In the fiscal year 1913-14, Canada had a favourable trade balance with the continents of Europe, Oceania and Africa, but an unfavourable trade balance with the continents of North and South America and Asia, but in the fiscal year 1934-35 she had a favourable trade balance with the continents of Europe, Asia Oceania and Africa, and an unfavourable trade balance with the continents of North and South America. Canada had a favourable trade balance with the continent of Europe in 1913-14 of \$65,032,000, which had increased to \$523,225,000 in 1919-20, but which had declined to \$426,719,000 in 1925-26, and to \$183,458,000 in 1934-35. This decline in Canada's favourable trade balance with the continent of Europe was largely due to a falling-off in her exports of grain, principally wheat, and also to lower average export prices. From 1913-14 to 1934-35 the number of countries in Europe with which Canada had a favourable trade balance had increased from seven to twelve. The only European countries of importance in 1934-35 with which Canada's trade balance was unfavourable were Czechoslovakia, Germany and Switzerland.

From 1913-14 to 1934-35 the Dominion's annual credit trade balance with Belgium increased from \$330,000 to \$8,177,000; with Denmark, from \$525,000 to \$1,888,000; with France, from a debit balance of \$10,466,000 to a credit balance of \$3,436,000; with Germany, a debit balance of \$10,152,000 was reduced to \$5,448,000; with the Netherlands, a credit balance of \$2,494,000 was increased to \$5,747,000; with Norway, from \$359,000 to \$4,075,000; with Spain, a debit balance of \$1,228,000 was changed to a credit balance of \$1,052,000; with Switzerland, a debit balance of \$4,268,000 was reduced to \$1,697,000; while the credit balance with the United Kingdom was increased from \$90,252,000 to \$163,321,000. These visible merchandise trade balances with European countries do not represent the true situation, as a very large quantity of grain, especially wheat, shown in Canadian export trade as destined for the United Kingdom via the United States, is diverted from its original destination, the United Kingdom, to other destinations, chiefly to continental European countries. As a result of this diversion, the credit trade balance with the United Kingdom would be materially reduced, and the trade balances with other European countries increased by a corresponding amount.

Canada's visible merchandise trade balance with the continent of North America has been unfavourable since 1882, the debit balance with the United States being responsible for this situation. If the trade of the United States is eliminated from the continent of North America, the trade balance with other North America increased from a debit balance in 1913-14 of \$2,385,000 to a credit balance of \$4,034,000 in 1934-35. In 1913-14 the debit balance with the continent of North America amounted to \$221,739,000, but for the fiscal year 1934-35 it amounted to \$68,724,000; while the number of countries in North America with which Canada had a debit balance was reduced from eight to five. The Dominion's credit balance with Bermuda from 1913-14 to 1934-35 was increased from \$397,000 to \$999,000; the debit balance with British Honduras of \$146,000 was converted to a credit balance of \$168,000; the credit balance of \$143,000 with the British West Indies was changed to a debit balance of \$4,215,000; while the debit balance with Cuba of \$2,124,000 was converted into a credit balance of \$275,000. The debit balance with Mexico, amounting to \$1,419,000 in 1913-14 was converted into a credit balance in 1934-35 of \$1,394,000; the credit balance with Newfoundland during this period was increased from \$2,900,000 to \$5,077,000; the debit balance with San Domingo was reduced from \$2,882,000 in 1913-14 to \$1,054,000 in 1934-35; while during the same interval the debit balance with the United States was reduced from \$219,354,000 to \$72,758,000.

The Dominion's debit balance with South America in 1913-14, amounting to \$4,994,000 was reduced to \$4,150,000 in 1934-35. The debit balance with Argentina in 1913-14, amounting to \$468,000 was converted to a credit balance of \$1,253,000 in 1934-35; the debit balance of \$396,000 with Brazil during the same period was changed to a credit balance of \$1,944,000; the debit balance with British Guiana of \$2,526,000 was reduced to \$1,501,000; while the debit balance of \$633,000 with Chile was changed to a credit balance of \$489,000. From 1913-14 to 1934-35 the debit balance of \$125,000 with Colombia was increased to \$3,764,000, and with Peru from \$737,000 to \$2,681,000.

The most notable change in Canada's trade balance with any continent from 1913-14 to 1934-35 occurred with the continent of Asia, the debit balance of \$8,118,000 being converted into a credit balance of \$9,789,000. The principal countries in Asia responsible for this change

## DOMINION BUREAU OF STATISTICS

were China and Japan, the trade balance of the former increasing from a debit balance of \$440,000 to a credit balance of \$2,126,000; and of the latter from a debit balance of \$1,015,000 to a credit balance of \$12,520,000. During this interval the debit balance with British India was reduced from \$4,589,000 to \$2,294,000; while the debit balance with the British Straits Settlements was increased from \$335,000 to \$1,476,000.

The credit balance with the continent of Oceania from 1913-14 to 1934-35 increased from \$2,603,000 to \$15,566,000, and with the continent of Africa from \$3,459,000 to \$9,189,000. From 1913-14 to 1934-35 the credit balance with Australia increased from \$3,993,000 to \$11,776,000; with British South Africa from \$3,358,000 to \$9,212,000; while the debit balance with New Zealand, amounting to \$1,256,000 was converted during this period into a credit balance of \$4,820,000.

## CANADA'S TRADE BY CONTINENTS, 1934-35

Canada, during the fiscal year 1934-35, sold more goods to the continent of Europe than to any other continent, her sales amounting to \$331,100,000, compared with \$245,500,000 to the continent of North America; while her purchases from the North American continent amounted to \$320,700,000, contrasted with purchases from the continent of Europe valued at \$148,700,000. During 1934-35 the continents of Europe and North America combined took 87.3 per cent of the Dominion's total domestic exports, compared with 86.5 per cent in 1929-30. The proportion of the products exported to the continent of Europe in 1934-35 was 50.1 per cent, compared with 36.4 per cent in 1929-30; while the proportion sent to the continent of North America in 1934-35 was 37.2 per cent, compared with 50.1 per cent in 1929-30. From the fiscal year 1929-30 to 1934-35 the proportion of Canada's domestic exports to the United Kingdom increased from 25.2 to 41.5 per cent, and to other Europe decreased from 11.2 to 8.6 per cent; while the proportion exported to the United States during the same period decreased from 46.0 to 34.1 per cent, and to other North America, from 4.1 to 3.1 per cent.

The continents of Europe and North America in the fiscal year 1934-35 furnished Canada with 89.9 per cent of her imports, compared with 92.6 per cent in 1929-30. The proportion of goods received from the continent of Europe in 1934-35 was 28.5 per cent, compared with 22.8 per cent in 1929-30; while the proportion received from the continent of North America was 61.4 per cent in 1934-35, and 69.8 per cent, in 1929-30. From 1929-30 to 1934-35 the proportion of Canada's imports furnished by the United Kingdom increased from 15.2 to 21.4 per cent, and from other Europe decreased from 7.6 to 7.1 per cent; while the proportion furnished by the United States during the same interval decreased from 67.9 to 58.1 per cent, and from other North America increased from 1.9 to 3.3 per cent.

Canada's sales to every continent in the fiscal year 1934-35 were greater than for the years 1931-32, 1932-33, and 1933-34, except to the continent of North America in 1931-32, though less than for the years 1929-30 and 1930-31, except to Europe, Oceania and Africa in 1930-31; while her purchases from every continent in 1934-35 were greater than for the years 1932-33, and 1933-34, but less than for the years 1929-30, 1930-31 and 1931-32, except from Asia and

Oceania in 1931-32, and Africa in 1929-30. From 1929-30 to 1934-35 Canada's imports from South America decreased from \$31,900,000 to \$15,200,000; from Asia, from \$31,100,000 to \$20,600,000; from Oceania, from \$24,500,000 to \$10,800,000, while from Africa the imports increased from \$4,500,000 to \$6,400,000; whereas domestic exports to South America decreased from \$34,700,000 to \$18,000,000; to Asia, from \$63,100,000 to \$30,400,000; to Oceania, from \$36,100,000 to \$26,300,000; and to Africa, from \$17,600,000 to \$15,600,000.

For further details respecting Canada's trade by Continents from 1929-30 to 1934-35, see statistics in the following table:—

CANADA'S SEASONAL TRADE FLUCTUATIONS, 1934-35

The seasonal movement of Canada's external trade during the fiscal year 1934-35, presents no abnormal tendencies except a general decrease in the Dominion's imports and exports in each month compared with corresponding months in the fiscal years 1929-30 and 1930-31; but a general upward trend since 1931-32, the imports for 1934-35 compared with 1931-32 being down 9.7 per cent, exports up 14.5 per cent, and total trade up 2.1 per cent. The table of "Canada's Monthly Imports and Exports, Fiscal years 1929-30 to 1934-35" indicates that the imports for the summer and early fall months are usually greater than for the other months of the year, except for the month of March. In 1934-35 the imports showed the usual seasonal trend, reaching the highest peak during the spring, summer and fall months, declining slightly in December, with a downward trend during the months of January and February. Exports, however, as a result of the influence of agricultural products, especially wheat, reach a low point during the summer months, rise to a peak during the autumn, gradually decline during the winter months and with the opening of navigation on the river St. Lawrence in the spring, show an upward tendency. The very large increase in recent years of the exports of pulp and paper and other manufactured products, the export of which is not seasonal but almost constant, has had the

effect of reducing the proportionate seasonal fluctuations of Canada's total exports. The trade figures for March in each year are usually greater for imports than for any other month, while in the case of exports, they are not as a rule as large as those for the spring and fall months, when large quantities of grain, especially, wheat, are being exported. The totals for March are always greater than for April, March figures must include all entries at all Customs port in the Dominion to the close of the fiscal year (March 31). In all other months the import and export records are closed at Ottawa on the last day of the month. Late import and export entries (which in the case of the great, but distant, port of Vancouver, may cover a week's or ten days' business at the end of each month) are regularly included in totals for the succeeding month. April totals include nothing for March, while they are short some amounts carried forward into May.

## CANADA'S IMPORTS FROM FORTY LEADING COUNTRIES, 1934-35

Statistics in the following table re Imports from Forty Leading Countries indicate that Canada's imports show increases in seventeen out of the forty countries listed, in the fiscal year ended March 31, 1934-35, compared with the fiscal year 1931-32; in thirty-one countries compared with 1932-33; and in thirty-two countries compared with 1933-34. The forty countries listed are representative countries, as the imports from these countries comprised about ninety-nine per cent of Canada's total imports. The imports in the fiscal year 1934-35 compared with 1931-32 decreased 9.7 per cent, but from Empire countries the increase was 5.7 per cent, while from foreign countries the decrease was 15.0 per cent; compared with 1932-33 the increase in total imports was 28.6 per cent; from Empire countries, 29.7 per cent, and from foreign countries, 28.1 per cent; and compared with 1933-34 the increase was 20.4 per cent, whereas it was 11.2 per cent from Empire countries, compared with 24.8 per cent from foreign countries. In the fiscal year 1931-32, Empire countries furnished Canada with 25.6 per cent of her imports, and foreign countries with 74.4 per cent; but in 1934-35 the Empire's share in Canada's imports was 29.9 per cent (last year 32.4 per cent), and foreign countries 70.1 per cent. Of the total increase in Canada's imports from 1932-33 to 1934-35, amounting to \$116,047,000, or 28.6 per cent, Empire countries accounted for \$35,802,000 or 30.9 per cent of the total, and foreign countries for \$80,245,000, or 69.1 per cent.

The principal countries from 1932-33 to 1934-35 to show increases in Canada's imports, were:—United States, \$73,092,000, or 30.6 per cent; United Kingdom, \$25,219,000, or 29.2 per cent; British Straits Settlements, \$2,584,000, or 669.4 per cent; British India, \$2,319,000, or 56.6 per cent; Barbados, \$2,004,000, or 70.1 per cent; Argentina, \$1,896,000, or 211.8 per cent; New Zealand, \$1,565,000, or 161.3 per cent; San Domingo, \$1,214,000, or 1,202.0 per cent; Colombia, \$1,198,000, or 35.6 per cent; Jamaica, \$1,111,000, or 34.8 per cent; Newfoundland, \$1,044,000, or 191.6 per cent; Ceylon, \$1,012,000, or 93.6 per cent; Sweden, \$1,001,000, or 142.2 per cent; Germany, \$925,000, or 10.2 per cent; Peru, \$856,000, or 33.3 per cent; China,

\$733,000, or 45.7 per cent; the Netherlands, \$628,000, or 16.9 per cent; British East Africa, \$605,000, or 83.4 per cent; Japan, \$563,000, or 14.6 per cent; Egypt, \$548,000, or 134.3 per cent; Czechoslovakia, \$541,000, or 30.6 per cent; Australia, \$424,000, or 7.2 per cent; and British West Africa, \$418,000, or 247.3 per cent; while the imports from the following leading countries during the same interval to show decreases were:—British South Africa, \$1,447,000, or 29.5 per cent; France, \$1,269,000, or 16.5 per cent; Trinidad and Tobago, \$1,071,000, or 44.1 per cent; Fiji, \$418,000, or 18.8 per cent; Mexico, \$387,000, or 43.9 per cent; Italy, \$91,000, or 3.2 per cent; Switzerland, \$65,000, or 2.7 per cent; and Belgium, \$29,000, or 0.8 per cent.

The statistics in the following table also show that the United States and the United Kingdom furnished Canada in the fiscal year 1934-35 with 79.5 per cent of her total imports. The United States, year by year, since 1882, has supplied the Dominion with the largest proportion of its imports, amounting to 58.1 per cent in 1934-35, compared with 60.8 per cent in 1931-32; 57.2 per cent in 1932-33; and 54.9 per cent in 1933-34. The United Kingdom ranks next in order of importance by a very wide margin, supplying Canada with 21.4 per cent of her total imports in 1934-35; 18.4 per cent in 1931-32; 21.3 per cent in 1932-33; and with 24.2 per cent in 1933-34. The proportion of the imports from the United Kingdom in the fiscal year 1933-34 amounting to 24.2 per cent, was greater than for any year since 1911, while the proportion for the year 1934-35, amounting to 21.4 per cent, was somewhat less than for the year 1933-34; but greater than for any year from 1911-12 to 1933-34. With reference to supplies from other countries, Germany occupied third position in the years 1932-33, 1933-34 and 1934-35, being in fourth position in 1931-32; while France occupied fourth position in 1932-33, 1933-34 and 1934-35, being in third position in 1931-32. British India and Australia in Canada's import trade in 1933-34 and 1934-35 occupied fifth and sixth positions respectively, while in 1931-32 they occupied eighth and seventh positions; and in 1932-33, seventh and fifth positions, respectively. In 1931-32 to 1934-35 Barbados moved from twentieth up to seventh position; and Colombia from tenth to eighth position; while Japan moved from fifth down to ninth position, and the Netherlands from sixth to tenth position. During this period, Jamaica moved from twelfth up to eleventh position; Belgium from ninth down to twelfth; while British South Africa occupied the same position (thirteenth) in 1934-35 as in 1931-32. Peru during the same interval moved from seventeenth up to fourteenth position; British Straits Settlements from thirty-fifth to fifteenth; Argentina, from twenty-first to sixteenth; and New Zealand from twenty-ninth to eighteenth; while Italy moved from fourteenth position down to seventeenth; British Guiana, from eleventh to nineteenth; China, from fifteenth to twentieth; Switzerland, from sixteenth to twenty-first; and Czechoslovakia, from nineteenth to twenty-second.

In the fiscal year 1867-68, 89.9 per cent of Canada's imports was obtained from the United Kingdom and United States, proportions being:—United Kingdom 56.1 per cent; United States 33.8 per cent. In 1899-1900, 84.9 per cent of the Dominion's imports was furnished by the same two countries, the proportions being: United Kingdom 25.7 per cent; United States 59.2 per cent; whereas in 1934-35, 79.5 per cent of Canada's total imports came from the United Kingdom and the United States, the proportion for each being: United Kingdom 21.4 per cent; United States 58.1 per cent. From 1867-68 to 1934-35 the proportion of the imports into Canada from the United Kingdom fell from 56.1 to 21.4 per cent of the total, while the proportion from the United States rose from 33.8 to 58.1 per cent. The proportionate loss in imports from the United Kingdom, 1867-68 to 1934-35, amounted to 34.7 per cent of the total, the United States absorbing 24.3 per cent and Other Countries 10.4 per cent of this amount. If the United Kingdom, from 1867-68 to 1934-35 had been able to hold her proportion of Canada's import trade, imports from the United Kingdom in 1934-35 would have been valued at \$293,084,000, compared with an import from the United States valued at \$176,582,000, and Other Countries at \$52,765,000. As Canada developed industrially she had to go afield for certain raw materials, such as cotton, rubber, fibres, etc., and semi-manufactured products, for her expanding manufacturing industries, which could not be obtained directly from the United Kingdom, and consequently, it was largely due to her industrial expansion that the proportion of Canada's imports from the United Kingdom fell off.

The proportions of imports from Other Countries in 1867-68 amounted to 10.1 per cent; in 1899-1900 to 15.1 per cent; 1932-33 to 21.5 per cent, in 1933-34 to 20.9 per cent, and in 1934-35 to 20.5 per cent. The imports into Canada from the United Kingdom, the United States and

Other Countries with proportions received from each during the fiscal years 1867-68, 1899-1900, 1932-33, 1933-34 and 1934-35, were:—

## CANADA'S DOMESTIC EXPORTS TO FORTY LEADING COUNTRIES, 1934-35

Statistics in the following table re Domestic Exports to Forty Leading Countries indicate that Canada's exports show increases in twenty-five out of the forty countries listed, in the fiscal year ended March 31, 1934-35, compared with fiscal year 1931-32; in twenty-nine countries compared with 1932-33 and 1933-34. The forty countries listed are representative countries, as the exports to these countries comprise about 97 per cent of Canada's total domestic exports. The domestic exports in the fiscal year 1934-35 compared with 1931-32 increased 14.5 per cent, the increase in the exports to the Empire amounting to 56.0 per cent; while the exports to foreign countries decreased 10.9 per cent; compared with 1932-33 the increase in the domestic exports amounted to 39.3 per cent, to Empire countries the increase was 53.7 per cent, and to foreign countries, 26.5 per cent; and compared with 1933-34, the increase was 13.9 per cent, to Empire countries, 22.8 per cent, and to foreign countries, 5.7 per cent. In the fiscal year 1931-32 Canada's domestic exports to Empire countries amounted to 38.0 per cent of her total domestic exports, and to foreign countries, 62.0 per cent; but in 1934-35 the exports to the Empire had increased to 51.7 per cent of the total, while exports to foreign countries had decreased to 48.3 per cent. Of the total increase in Canada's domestic exports from 1932-33 to 1934-35, amounting to \$186,100,000, or 39.3 per cent, Empire countries accounted for \$119,378,000, or 64.1 per cent, and foreign countries for \$66,722,000, or 35.9 per cent.

The principal countries from 1932-33 to 1934-35 to show increases in Canada's domestic exports were:—United Kingdom, \$89,822,000, or 48.7 per cent; United States, \$81,538,000, or 57.0 per cent; Australia, \$10,769,000, or 147.3 per cent; British South Africa, \$8,654,000, or 216.2 per cent; Japan, \$6,609,000, or 63.0 per cent; New Zealand, \$3,737,000, or 103.6 per cent; Irish Free State, \$1,874,000, or 83.4 per cent; British India, \$1,703,000, or 70.5 per cent; Argentina, \$1,505,000, or 59.9 per cent; Brazil, \$1,376,000, or 98.7 per cent; British Straits Settlements, \$1,106,000, or 285.1 per cent; Norway, \$1,094,000, or 29.6 per cent; Newfoundland, \$825,000, or 14.6 per cent; Jamaica, \$658,000, or 27.1 per cent; Mexico, \$574,000, or 43.8 per cent; Portuguese Africa, \$531,000, or 63.1 per cent; Philippines, \$487,000, or 140.3 per cent; and Trinidad and Tobago, \$434,000, or 24.5 per cent; while the exports to the following leading countries during the same interval to show decreases were:—The Netherlands, \$6,386,000, or 38.8 per cent; Germany, \$3,583,000, or 44.5 per cent; China, \$3,208,000, or 41.8 per cent; France, \$2,888,000, or 22.7 per cent; Belgium, \$2,711,000, or 18.7 per cent; Sweden, \$999,000, or 37.9 per cent; Denmark, \$682,000, or 25.3 per cent; and Italy, \$495,000, or 12.0 per cent.

The statistics in the following table also show that the United Kingdom and the United States in the fiscal year 1934-35 took 75.6 per cent of the Dominion's total domestic exports, the proportions for each being: the United Kingdom, 41.5 per cent; and the United States, 34.1 per cent. The United States occupied first place in Canadian export trade during the years 1926-27 to 1931-32, and the United Kingdom second place; though the United Kingdom was in first place in the fiscal years 1925-26, 1932-33, 1933-34, and 1934-35. In the fiscal year 1931-32 the United Kingdom took 30.2 per cent of Canada's exports; in 1932-33, 38.9 per cent; and in 1933-34, 39.3 per cent; while the United States in 1931-32 took 40.8 per cent; in 1932-33, 30.2 per cent; and in 1933-34, 33.5 per cent. Of the other leading markets for Canadian products, Australia in 1934-35 occupied third position, being in twelfth position in 1931-32, tenth in 1932-33, and sixth in 1933-34; while Japan occupied fourth position in 1931-32, 1933-34 and 1934-35, but sixth in 1932-33. British South Africa from 1931-32 to 1934-35 moved from ninth position up to fifth; while Belgium moved from fifth down to sixth position; the Netherlands, from sixth down to seventh; and France from third down to eighth position. During the same interval New Zealand moved from sixteenth position up to ninth; Norway from seventeenth to eleventh; while Germany moved from seventh down to twelfth; and China from eleventh down to thirteenth position. Also, during this interval, the Irish Free State moved from nineteenth up to fourteenth position; and British India from eighteenth up to fifteenth; while the Argentine moved from thirteenth down to sixteenth; and Italy from fourteenth down to seventeenth position. Jamaica during the same period moved from twentieth up to eighteenth position; Brazil from thirty-second to nineteenth; Spain from thirty-seventh to twentieth; and Trinidad and Tobago from twenty-fourth to twenty-first position; while Denmark moved from fifteenth down to twenty-second position.

In the fiscal year 1867-68 the exports to the United Kingdom and the United States combined represented 89.2 per cent of the total domestic exports, the proportions being: United Kingdom 36.9 per cent; United States 52.3 per cent. In 1899-1900 similar exports to the United Kingdom

## DOMINION BUREAU OF STATISTICS

and the United States were 91·3 per cent of the total domestic exports, the proportions being: United Kingdom 57·1 per cent; United States 34·2 per cent; while for the year 1934-35 the domestic exports from Canada to the same two countries represented 75·6 per cent, the proportions for each being: United Kingdom 41·5 per cent compared with 38·9 in 1932-33; and the United States 34·1 per cent compared with 30·2 per cent in 1932-33. From 1867-68 to 1899-1900 Canada's domestic exports to the United Kingdom increased from 36·9 to 57·1 per cent of the total exports, while those to the United States decreased from 52·3 to 34·2 per cent; whereas from 1899-1900 to 1934-35 domestic exports to the United Kingdom decreased from 57·1 to 41·5 per cent of the total exports and those to the United States decreased from 34·2 to 34·1 per cent. The proportions of the exports to "Other Countries," were as follows: 1867-68, 10·8 per cent; 1899-1900, 8·7 per cent; 1932-33, 30·9 per cent; and 1933-34, 27·2 per cent; and 1934-35, 24·4 per cent. The domestic exports to the United Kingdom, the United States and Other Countries with proportions for each during the fiscal years 1867-68, 1899-1900, 1932-33, 1933-34, and 1934-35, were:—

## CANADA'S IMPORTS OF ONE HUNDRED LEADING COMMODITIES, 1934-35

The statistics in the following table showing "Canada's Imports of One Hundred Leading Commodities, 1934-35", indicate that the total declared value of these commodities amounted to \$426,605,000, or 81.6 per cent of Canada's total imports. Last year similar imports were valued at \$355,769,000, so that the increase in the value of the one hundred leading commodities amounted to \$70,836,000. Of the one hundred commodities listed in 1934-35, eighty show increases in the value, and twenty decreases, compared with similar imports in 1933-34. Of the fifty-one commodities for which there were quantity statistics in 1934-35, thirty-two show increases in both the quantity and the value; four show increases in the quantity, but decreases in the value; ten show decreases in both the quantity and the value; and five show decreases in the quantity but increases in the value. Of the forty-nine commodities for which there were no quantity statistics, being entered at value only, forty-three show increases, and six decreases. In the case of the fifty-one commodities for which there were quantity statistics, thirty-five of these were imported at a higher average price per unit in 1934-35 than in 1933-34, and sixteen at a lower average import price. Those commodities imported at a higher average price per unit were valued at \$191,702,000, while those imported at a lower average price per unit were valued at \$50,464,000. The total value of the forty-nine commodities for which there were no quantity statistics amounted to \$184,439,000. Forty-three of these valued at \$174,261,000, show increases, in 1934-35 compared with 1933-34, and six valued at \$10,178,000, show decreases. The thirty-five commodities imported in 1934-35 at a higher average price per unit than in 1933-34, were:—Artificial silk yarn, automobiles, band and hoop iron, binder twine, coal, cocoa and chocolate, coffee (raw), coke, corn, cotton (raw), cotton yarns, cotton fabrics, unbleached, dress goods (wool) to be dyed, dyeing and tanning materials, fruits (dried), fruits (canned), jute fabrics, manila, istle, sisal, etc., fibre, molasses and syrups, petroleum oil (crude), plates and sheets (iron), resin or rosin, rice, rubber (crude), soda and compounds, spices, structural iron and steel, tea, tin in blocks, tobacco (raw), vegetable oils, wool (raw), wool noils, tops and waste, woollen yarns, and worsteds and serges. The sixteen commodities imported at a lower average import price per unit were:—Alumina, bauxite and cryolite, bars, including rails, carpets (wool), cotton fabrics, bleached, cotton fabrics, coloured, fertilizers, gasoline, hides (raw), iron ore, lumber and timber, nuts (except cocoanuts), pigs, ingots and blooms, silk (raw), sugar for refining, sulphur, and tweeds (wool).

## CANADA'S IMPORTS FOR CANADIAN INDUSTRIES, 1934-35

An analysis of the statistics in the following table giving "Imports of Sixty-Seven Leading Commodities for Canadian Industries, 1934-35", indicates that more than forty-per cent of Canada's total imports comprise commodities for use of the various industries of the Dominion. The total value of the sixty-seven commodities for Canadian industries in the fiscal year 1934-35 amounted to \$201,985,000, compared with a similar import in 1933-34 valued at \$163,757,000, the increase in 1934-35 over 1933-34 amounting to \$38,228,000, or 23·3 per cent. If you eliminate from the total value of Canada's imports in 1933-34, and 1934-35, the total value of commodities imported for Canadian industries in these years, the total value of the imports of commodities not for Canadian industries in 1933-34 amounted to \$270,042,000, and in 1934-35 to \$320,446,000, the increase in the imports of commodities not for Canadian industries, 1934-35 compared with 1933-34, amounting to \$50,404,000, or 18·7 per cent. The value of imports of commodities not for Canadian industries, 1934-35 compared with 1933-34 increased 18·7 per cent, while the value of the imports of commodities for Canadian industries increased 23·3 per cent.

In 1934-35, 53·0 per cent of the sixty-seven commodities listed in the table for Canadian industries, comprised raw materials; 18·3 per cent, semi-manufactured products; and 28·7 per cent, fully manufactured products; while the total value of Canada's imports for Canadian industries, 1934-35, classified according to degree of manufacture, with increase over the year 1933-34, was:—Raw materials, imports, \$107,043,000, increase \$21,270,000, or 24·8 per cent; semi-manufactured products, imports, \$36,928,000, increase \$5,255,000, or 16·6 per cent; and fully manufactured products, imports \$38,014,000, increase \$11,703,000, or 25·3 per cent.

A further analysis of the statistics in the table shows that fifty-one of the sixty-seven commodities listed had increases in 1934-35, compared with 1933-34, and sixteen had decreases. Of the fifty-three commodities for which there were quantity statistics in 1934-35, thirty-three had increases in both the quantity and value; four had increases in the quantity, but decreases in the value; eleven had decreases in both the quantity and the value; while five had decreases in the quantity but increases in the value. Of the fourteen commodities entered at value only, thirteen had increases, and one a decrease.

An analysis also shows that thirty-one of the fifty-three commodities imported for Canadian industries, for which there were quantity statistics, valued at \$126,228,000, were imported at a higher average price per unit in 1934-35 than in 1933-34; and twenty-two, valued at \$39,227,000, at a lower average price per unit; while thirteen of the fourteen commodities which were entered at value only, of a value of \$33,835,000, show increases, and one, of a value of \$2,695,000, a decrease. The thirty-one commodities which entered Canada for Canadian industries at a higher average import price per unit in 1934-35 than in 1933-34, were:—Artificial silk yarns, automobile engines, bituminous coal, bristles, cocoa (raw), coffee (raw), cotton linters, cotton seed oil, cotton (raw), cotton yarns, dress goods (wool), to be dyed, dyeing and tanning materials, glycerine for explosives, grease for soap and leather, gums and resins, hops, kapok, manila, istle, sisal, etc., fibre, petroleum oil (crude), rubber (raw), rubber (hard), silica sand, skelp iron for pipe, sulphate of alumina, tin in blocks, tin plate, tobacco (raw), wire rods, wool (raw), wool tops, noils and waste, and woollen yarns. The twenty-two commodities which entered Canada at a lower average export price per unit in 1934-35 than in 1933-34, were:—Alumina, bauxite and cryolite, boiler plate, compounds of tetraethyl lead, copper bars and rods, hemp, hides (raw), iron ore, locomotive tires, logs, lumber and timber, malt, manganese oxide, oil for soap industry, ores of metals, peanut oil (crude), pigs, ingots and blooms, silk (raw), silk cloth to be dyed, sulphur, sugar for refining, wire for rope, and zinc plates and sheets.

# CANADA'S DOMESTIC EXPORTS OF EIGHTY-FIVE LEADING COMMODITIES, 1934-35

The statistics in the following table giving "Canada's Domestic Exports of Eighty-Five Leading Commodities, 1934-35", show that the total value of these commodities was \$623,525,000, or 94.5 per cent of the Dominion's total domestic exports. Last year similar exports were valued at \$546,925,000, so that the increase in the value of these commodities in 1934-35 compared with 1933-34 totalled \$76,600,000. Fifty-nine of the eighty-five commodities listed show increases, 1934-35 compared with 1933-34, and twenty-six decreases. Of the fifty-eight commodities for which there were quantity statistics, thirty-one had increases in both the quantity and the value; three had increases in the quantity but decreases in the value; nineteen had decreases in both the quantity and the value; while five had decreases in the quantity but increases in the value. Of the twenty-seven commodities for which there were no quantity statistics, being entered at value only, twenty-three had increases, and four decreases. An analysis also shows that of the fifty-eight commodities listed for which there were quantity statistics, thirty-one of these were exported at a higher average price per unit in 1934-35 than in 1933-34, and twenty-seven at a lower average export price. The total value of the thirty-one commodities exported for which the average export price was higher in 1934-35 than in 1933-34, amounted to \$305,847,000, while the total value of the twenty-seven commodities for which the average export price was lower, amounted to \$230,459,000. The value of the twenty-seven commodities for which there were no quantity statistics, was \$87,219,000, twenty-three of which of a value of \$84,247,000 had increases, 1934-35 compared with 1933-34, and four of a value of \$2,972,000, decreases.

The thirty-one commodities exported from Canada at a higher average export price in 1934-35 than in 1933-34 were:—Apples (fresh), barley, binder twine, bran and shorts, butter, coal, copper (ore and blister), fertilizers, fish, fruits (canned), hay, malt, milk (processed), oats, oatmeal and rolled oats, planks and boards, pulpwood, rolling mill products, rubber tires, rye, scrap iron, screenings (grain), shingles (wood), silver (ore and bullion), soda and compounds, timber (square), tobacco (raw), vegetables (canned), wheat, wheat flour and wood pulp. The twenty-seven commodities exported at a lower average export price were:—Abrasives (artificial, crude), acids, aluminium in bars, asbestos (raw), automobiles, cattle, cheese, copper in bars, rods, etc., electrical energy, ferro-manganese and ferro-silicon, gasoline and naphtha, hides (raw), lead, logs, newsprint paper, nickel, platinum in concentrates or other forms, poles (telegraph and telephone), potatoes, rubber footwear, socks and stockings, soap, sugar (refined), turnips, whiskey, wool (raw), and zinc.

## CANADA'S TRADE VIA THE UNITED STATES, 1934-35

Canada's imports from overseas countries via the United States have steadily declined in recent years, especially those from the British Empire. This decrease has resulted from:— (1) general propaganda to utilize Canada sea and river ports; (2) additional concessions to goods imported under the British Preferential tariff if imported direct; and (3) provision in trade treaties and agreements negotiated with foreign countries that goods must be imported direct in order to obtain the full benefits of special rates of duty.

There was a decrease in imports from overseas countries via the United States during the fiscal year 1934-35 compared with similar imports in 1930-31, of \$3,598,056; the decrease in the imports from the British Empire amounting to \$283,387, and from foreign countries to \$3,314,669. The statistics in the following table provide an analysis of this feature of Canada's import trade for the last five fiscal years:—

## IMPORTS INTO CANADA VIA THE UNITED STATES

Imports from—	Fiscal Years ended March 31—				
	1930-31	1931-32	1932-33	1933-34	1934-35
United Kingdom via United States.....\$	169,820	202,454	222,373	94,226	73,048
Per cent of Total Imports from United Kingdom.....	0.12	0.19	0.26	0.09	0.07
Other British Empire via United States.....\$	807,078	659,924	133,282	186,149	620,463
Per cent of Total Imports from Other British Empire.....	1.45	1.59	0.39	0.53	1.39
Foreign Countries via United States.....\$	7,981,306	4,097,946	2,709,502	3,346,348	4,666,637
Per cent of Total Imports from Foreign Countries.....	6.81	5.19	5.07	6.06	7.45
Total Imports via United States.....\$	8,958,204	4,960,324	3,065,157	3,626,717	5,360,148
Per cent of Total Imports from Overseas Countries.....	2.78	2.19	1.76	1.85	2.45

The exports from Canada to overseas countries via the United States show a decided decrease during recent years, although there was an upward trend in the fiscal year 1934-35. The proportions of Canada's exports via the United States for the fiscal year 1930-31 amounted to 27.49 per cent; 1931-32, 18.72 per cent; 1932-33, 14.18 per cent; 1933-34, 14.41 per cent; and 1934-35, 17.28 per cent. From 1930-31 to 1934-35 the proportion of the Dominion's exports to the United Kingdom via the United States decreased from 36.43 per cent to 15.79 per cent; while the exports to other Empire countries via the United States increased during this period from 17.31 to 18.64 per cent; and to foreign countries, from 19.78 per cent to 20.70 per cent. When adjustments are made for the re-routing of Canadian barley, oats, rye and wheat from United States lake ports, via the St. Lawrence route for ocean shipment at Canadian sea or river ports, chiefly Montreal, it will be found that the proportions of Canada's exports to overseas countries via the United States will be considerably decreased and those via Canadian sea or river ports increased by a similar amount. The total value of commodities exported to overseas countries via the United States in 1934-35 was \$48,510,821 less than for the fiscal year 1930-31. Comparisons for the past five years were as follows:—

## EXPORTS FROM CANADA VIA THE UNITED STATES

Exports to—	Fiscal Years ended March 31—				
	1930-31	1931-32	1932-33	1933-34	1934-35
United Kingdom via United States.....\$	79,880,087	44,683,160	29,611,608	30,674,215	43,284,102
Per cent of Total Exports to United Kingdom.....	36.43	25.53	15.99	13.48	15.79
Other British Empire via United States.....\$	12,746,171	4,593,668	4,093,682	7,340,575	12,545,389
Per cent of Total Exports to Other British Empire.....	17.31	10.09	10.74	14.56	18.64
Foreign Countries via United States.....\$	31,108,810	14,963,964	13,382,820	17,456,208	19,394,756
Per cent of Total Exports to Foreign Countries.....	19.78	12.19	12.29	16.32	20.70
Total Exports via United States.....\$	123,735,068	64,240,792	47,088,110	55,470,998	75,224,247
Per cent of Total Exports to Overseas Countries.....	27.49	18.72	14.18	14.41	17.28

The statistics in the following table giving "Principal Commodities Exported from Canada to Overseas Countries via the United States and via Canadian Sea or River Ports, 1934-35," illustrate the details of this movement. The 43 commodities listed are representative of the Dominion's exports to overseas countries, as they comprise 82.1 per cent of the total exports to overseas countries; and they also represent 93.1 per cent of all goods shipped to overseas countries via the United States, and 79.6 per cent of those going via Canadian sea or river ports. During the past few years a considerable amount of Canadian grain exported from Fort William and Port Arthur to overseas countries via the United States has been re-routed from United States lake ports for shipment, chiefly at Montreal. The amount of Canadian grain re-routed for export at Montreal or other Canadian ports during the calendar years 1927 to 1934 was:—

Grains	1927	1928	1929	1930	1931	1932	1933	1934
	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels
Barley.....	2,533,000	3,085,000	1,035,000	1,114,000	1,593,000	1,594,000	21,000	—
Oats.....	597,000	394,000	213,000	65,000	153,000	19,000	—	—
Rye.....	2,052,000	2,589,000	193,000	399,000	1,575,000	1,178,000	715,000	—
Wheat.....	34,025,000	51,172,000	15,186,000	15,293,000	5,668,000	11,899,000	6,146,000	2,031,000
Total.....	39,207,000	57,240,000	16,627,000	16,876,000	8,989,000	14,690,000	6,882,000	2,031,000

This re-routed Canadian grain was not recorded as an export at Montreal or other Canadian ports because it had already been recorded as an export at Fort William or Port Arthur. It was recorded, however, as "intransit" grain from the United States via the Port of Montreal or other Canadian ports. In order to obtain the actual amount of barley, oats, rye and wheat shipped via Canadian sea or river ports, this re-routed Canadian grain should be added to the quantity already thus recorded and deducted from the quantity shown as exported via United States channels. When adjustments are made the actual quantities of barley, oats, rye and wheat exported to overseas countries via the United States (indirect) and via Canadian sea or river ports (direct) during the fiscal years 1930-31 to 1934-35 were:—

Grains	Fiscal Years ended March 31—					Percentage of Total				
	1930-31	1931-32	1932-33	1933-34	1934-35	1930-1	1931-2	1932-3	1933-4	1934-5

## CANADA'S POSITION IN INTERNATIONAL TRADE, 1934

Canada during the calendar year 1934 has maintained a relatively high place amongst the principal trading countries of the world. The statistics in the following table giving "Comparison of the Trade of Twenty Principal Countries of the World", indicate that from 1913 to 1934, only eight countries had increases in imports, viz.: Denmark, Japan, New Zealand, Norway, Sweden, Switzerland, Union of South Africa, and the United Kingdom; nine in exports, viz.: Australia, Canada, Denmark, Japan, New Zealand, Norway, Sweden, Switzerland, and Union of South Africa; and eight in aggregate trade, viz.: Canada, Denmark, Japan, New Zealand, Norway, Sweden, Switzerland, and Union of South Africa.

Canada, in export trade, moved from sixth place last year up to fifth place this year (1934), displacing Belgium, and, consequently was exceeded in value of exports, in order of importance, by the United States, the United Kingdom, Germany, and France; in import trade Canada moved up to ninth place from eleventh last year, displacing British India, and Switzerland, and thus, in 1934 she was exceeded in value of imports, in order of importance, by the United Kingdom, Germany, the United States, France, the Netherlands, Japan, Italy, and Belgium; while in aggregate or total trade she occupied eighth place, as compared with ninth place last year, displacing Italy, and, consequently, Canada, in value of aggregate or total trade, in order of importance, was exceeded by the United Kingdom, the United States, Germany, France, Japan, Belgium, and the Netherlands. In export trade Canada, in 1913, occupied tenth place amongst the leading commercial countries of the world, but in 1934 she had moved up to fifth place; in import trade in 1913, Canada occupied eighth position, but in 1934 she had moved down to ninth position; while in aggregate or total trade, Canada, in 1913, occupied ninth place, but in 1934 she occupied eighth place. During the past twenty-two years Canada has occupied the following positions amongst the leading commercial countries of the world in respect of her foreign trade.

Calendar Years	Total Trade	Import Trade	Export Trade	Calendar Years	Total Trade	Import Trade	Export Trade

	5	6	6				

In trade per capita Canada has made a very creditable showing since 1913. In that year she occupied seventh place in exports per capita, but in 1934 she occupied fifth place, being exceeded in exports per capita by New Zealand, Belgium, Denmark, and Switzerland. In 1928 Canada occupied second position in exports per capita, New Zealand being in first position. In imports per capita in 1913 Canada occupied fifth place, but in 1934 she moved into tenth place, being exceeded in imports per capita by Switzerland, the Netherlands, New Zealand, Denmark, Belgium, the United Kingdom, Norway, Sweden, and Australia. In 1928 the Dominion occupied fifth place in imports per capita. In aggregate or total trade per capita Canada, in 1934, occupied tenth position amongst the chief trading countries of the world, compared with sixth position in 1913, being exceeded in aggregate or total trade per capita by New Zealand, Switzerland, Belgium, Denmark, the Netherlands, the United Kingdom, Norway, Australia, and Sweden. In 1928 Canada was in second position in total trade per capita, New Zealand occupying first place. In 1934 the trade per capita of the ten leading countries, arranged in order of importance of total trade per capita were: New Zealand: Total trade, \$202.22; Imports, \$81.02, Exports, \$121.20; Switzerland: Total trade, \$177.00, Imports, \$111.42, Exports, \$65.58; Belgium: Total trade, \$152.43, Imports, \$76.94, Exports, \$75.49; Denmark: Total trade, \$151.29, Imports, \$79.59, Exports, \$71.70; the Netherlands: Total trade, \$142.64, Imports, \$84.62, Exports, \$58.02; the United Kingdom: Total trade, \$115.16, Imports, \$72.81; Exports, \$42.35; Norway: Total trade, \$113.80, Imports, \$63.75, Exports, \$50.05; Australia: Total trade, \$108.17, Imports, \$49.53, Exports, \$58.64; Sweden: Total trade, \$107.53; Imports, \$53.89, Exports, \$53.64; and Canada: Total Trade, \$107.00, Imports, \$46.74, Exports, \$60.26.

With reference to visible merchandise trade balance Canada, in 1913, occupied seventeenth position amongst the leading commercial countries of the world, it being unfavourable in that year to the extent of \$222,900,000, or \$29.61 per capita, but in 1928 she was in third position, with a favourable trade balance of \$151,900,000, or \$15.72 per capita. In 1929 the Dominion's trade balance was unfavourable to the extent of \$90,600,000; 1930, \$103,000,000; 1931, \$10,800,000; but in 1932 it was favourable to the extent of \$49,200,000; in 1933 to the extent of \$136,600,000; and in 1934 to the extent of \$146,400,000, or \$13.52 per capita. In 1929 Canada occupied fourth place in amount of favourable trade balance, being exceeded by the United States, Germany, and Australia. In 1934, as in 1913, the United States was in first place in amount of favourable trade balance. On December 31, 1934, Canada stood in second place (in 1933 fourth) amongst the principal commercial countries of the world with respect to the amount of her favourable trade balance, as also second (in 1933 third) as respects her favourable trade balance per capita.

During the calendar year 1934 the favourable trade balance per capita of the British Dominions, viz.: New Zealand (\$40.18), Canada (\$13.52), Australia (\$9.11), and Union of South Africa (\$7.81), exceeded the trade balances per capita of any of the twenty principal trading countries of the world (except Argentina) by a very wide margin; the next country in order of importance being Argentina, with a favourable trade balance of \$7.22. The United States comes next with a favourable trade balance of \$3.62, Brazil with \$1.88, while British India followed with a favourable trade balance of \$0.25.

For more detailed information relative to Canada's position in international trade in recent years, see statistics in the following tables indicating (a) Comparison of the Trade of Twenty Principal Countries of the World, 1913 and 1934; (b) Trade of Twenty Principal Trading Countries of the World, 1924 to 1934; (c) Per Capita Trade of Twenty Principal Countries of the World, 1924 to 1934; (d) Trade Balances of Twenty Principal Countries of the World, 1913, 1933 and 1934; and (e) Trade Balances per Capita of Twenty Principal Countries, 1913, and 1929 to 1934.

## CANADA'S SHARE IN WORLD TRADE, 1933

Canada, since 1913 has made remarkable progress in the expansion of her trade in the world's principal markets. It will be noted from the statistics in the following tables, Nos. 1 and 2, showing "Canada's Share in the Imports and Exports of Principal Countries" that in 1913 the total trade of these countries (forty leading countries) amounted to \$34,868,143,000, imports amounting to \$18,257,000,000, and exports to \$16,611,143,000; but in 1933 the total trade of the identical countries was \$26,406,225,000, imports totalling \$13,993,535,000, and exports \$12,412,690,000, the decrease from 1913 to 1933 being: in total trade, \$8,461,918,000 or 24.2 per cent; in imports, \$4,263,465,000 or 23.4 per cent, and in exports, \$4,198,453,000 or 25.3 per cent. During the same years, viz.: 1913 and 1933, the trade of these same countries with Canada was: 1913, total trade,

\$918,208,000; imports, \$355,222,000; and exports, \$562,986,000; in 1933, total trade, \$953,807,000; imports, \$564,694,000; and exports, \$389,113,000; the increase in the trade with Canada, 1913 to 1933, being: in total trade, \$35,599,000 or 3·9 per cent; in imports the increase was \$209,472,000 or 59·0 per cent; and in exports the decrease was \$173,873,000 or 30·9 per cent. From 1913 to 1933 the total trade of the forty leading countries listed in Tables Nos. 1 and 2, decreased 24·2 per cent, but with Canada the increase was 3·9 per cent; imports into the identical countries decreased 23·4 per cent, but from Canada the increase was 59·0 per cent; while the exports from the same countries decreased 25·3 per cent, but to Canada the decrease was 30·9 per cent. Canada's share in the trade of these countries was: imports, in 1913, 1·95 per cent; in 1933, 4·05 per cent; in exports, in 1913, 3·39 per cent; in 1933, 3·13 per cent.

In 1933 Canada's stated imports from the forty countries listed amounted to \$394,518,000, but the recorded exports from these countries to Canada were valued at \$389,113,000, a discrepancy in favour of Canada of \$5,405,000. The discrepancy, however, between Canada's imports from European countries, and the recorded exports from European countries to Canada, amounting to \$20,837,000, was in favour of Canada. The Canadian import figures include both the domestic and foreign exports from the European countries, whereas the European exports recorded as to Canada consist of domestic produce only. The discrepancy between Canadian imports from the continent of North America, and the recorded exports from the continent of North America to Canada, is in favour of the continent of North America, and amounted to \$12,903,000. This discrepancy was chiefly due to the fact that the United States exports large quantities of goods to overseas countries via Canada, which are shown in United States trade returns as exported to Canada, whereas they are treated in Canada as intransit, not being included in the Canadian import or export figures. The discrepancy, however, between imports into Canada from South America, Asia, Oceania and Africa, and the recorded exports from these continents to Canada, amounting to \$2,529,000, occurred chiefly in the movement of products from South America to Canada.

With reference to the movement of goods from Canada in the calendar year 1933 to the various markets of the world, the declared exports to the forty leading countries amounted to \$516,779,000; while the recorded imports into the forty countries from Canada totalled \$564,694,000, a discrepancy between the two sets of figures of \$47,915,000 in favour of the forty countries. The discrepancy between the exports from Canada to the specified European countries in 1933 and their imports from Canada amounting to \$13,208,000, was no doubt due to the fact that the specified European countries credit products of United States origin, intransit via Canada, to Canada, while such intransit products do not appear in Canada's exports to the specified European countries.

The discrepancy of \$32,396,000 between Canada's exports to specified North American countries, and their imports from Canada, is largely accounted for by the fact that the Canadian figure includes domestic exports only to the specified North American countries, while the imports into these North American countries include foreign as well as domestic produce exported from Canada; and also due to the fact that goods intransit from other countries via Canada are credited to Canada in these North American countries, and not to the countries of origin.

The particulars are set out in the following table, calendar year 1933:

Principal Countries of	Canada's Imports from	Recorded Exports to Canada	Canada's Exports to	Recorded Imports from Canada
	\$	\$	\$	\$
Europe.....	128,429,000	107,592,000	278,671,000	291,879,000
North America.....	228,488,000	241,391,000	186,669,000	219,065,000

### CANADA'S EXPORTS COMPARED WITH THE EXPORTS OF OTHER COUNTRIES, 1934

Canada, in the production and exportation of many staple products, ranks high amongst the leading nations of the world. In the production of asbestos, nickel, and newsprint paper in 1934 she led the world; in production of copper, gold, and zinc, she occupied third place; fourth place in the production of lead; fifth place in the production of automobiles; and sixth place in the production of wheat. In the production of wheat Canada, in 1934, was in sixth position with 275,849,000 bushels, being exceeded by Russia with 1,117,358,000 bushels; China (production not available for 1934); the United States with 496,469,000 bushels; British India with 349,365,000 bushels; and France with 330,688,000 bushels. Argentina, however, occupied seventh position with a production of 238,316,000 bushels; and Italy eighth with a production of 232,686,000 bushels. In export trade the Dominion led the world in 1934 in the exports of asbestos, nickel, and newsprint paper; occupied second place in the exports of wheat and wheat flour, Argentina being in first position in the exports of wheat, and Australia first place in the exports of wheat flour, and the United States in third place. Canada occupied third place in the exports of automobiles, being exceeded by the United States and the United Kingdom, and fourth place in the exports of rubber tires and wood pulp, being exceeded in exports of rubber tires by the United Kingdom, the United States, and France, and in exports of wood pulp by Sweden, Finland, and Norway. The exports of these staple products from Canada make up about 50 per cent of the Dominion's total domestic exports. Canada also ranks high in the world's exports of many other staple products such as lumber and timber, fish, copper, barley, cheese, raw furs, whiskey, meats, farm implements, cattle, raw gold, silver, rye, oats, rubber footwear, leather and hides.

**Automobile Statistics, 1934:**—The growth of the automobile industry is one of the most remarkable industrial developments of the twentieth century. Thirty years ago the automobile was emerging from the experimental stage, and the world production consisted of a few thousand cars. In 1929 the estimated world output was 6,277,451 cars, although in 1934 the output has declined to 3,728,968 cars (in 1933 the total output was 2,675,619 cars). Canada has made great progress in recent years in the production and exportation of automobiles. In production Canada, in 1934, occupied fifth place, with 116,852 cars, made up of 92,647 passenger cars and 24,205 motor trucks and buses; while in 1929 her production was 262,625 cars. The United States occupied first place in 1934 with an output of 2,753,111 cars, of which 2,177,919 were passenger cars, and 575,192 were motor trucks and buses. The United Kingdom occupied second place with an output of 347,856 cars; France third place, with 201,644 cars; and Germany fourth place, with 173,014 cars. In 1917 Canada's production was 93,810 automobiles, although from 1904 to 1916 the total production was only 135,000 cars. Canada's exports of automobiles for the fiscal year 1905-06, the first year for which export statistics of automobiles are available, were only 67 cars, valued at \$63,329. In the fiscal year 1910-11 the exports were 627 cars valued at \$595,746. Ten years later (fiscal year 1920-21) the exports had increased to 19,910 cars, valued at \$13,979,121, made up of passenger cars, 15,620, of a value of \$11,376,268, and motor trucks, 4,290, of a value of \$2,602,853; while for the fiscal year 1934-35 the exports were 48,820 cars, valued at \$19,192,170, consisting of 36,083 passenger cars, valued at \$14,516,269, and 12,737 motor trucks, valued at \$4,675,901. Five years ago (fiscal year 1928-29) Canada's exports of automobiles consisted of 103,566 cars, valued at \$43,059,733, the passenger cars amounting to 72,108, of a value of \$31,264,999, and the motor trucks to 31,458, of a value of \$11,794,734.

From the statistics in the following table re "Exports of Automobiles from Principal Automobile Producing Countries of the World", it will be noted that Canada occupied third place in exports of automobiles for the calendar year 1934, with 43,368 cars, the United States being in first place by a considerable margin, with 237,880 cars; the United Kingdom in second place with 58,679 cars; and France in fourth place with 22,907 cars; Germany in fifth place with 13,423 cars; and Italy in sixth place with 9,434 cars.

## EXPORTS OF AUTOMOBILES FROM PRINCIPAL AUTOMOBILE-PRODUCING COUNTRIES OF THE WORLD

NOTE.—Countries arranged in order of importance of export, 1934

Rank					Countries	Years ended December 31—							
						1931		1932		1933		1934	
						Passenger Cars	Motor Trucks	Passenger Cars	Motor Trucks	Passenger Cars	Motor Trucks	Passenger Cars	Motor Trucks

NOTE.—In 1913, the total exports of motor cars were: United States 23,889 cars; United Kingdom 9,814 cars; and Canada 6,306 cars. No statistics available in 1913 as to number of motor cars exported from France, Germany and Italy.

**Newsprint Paper Production, 1934:**—Canada, according to statistics issued by the Canadian Pulp and Paper Association and from other sources, led the world as a producer of newsprint paper during the calendar year 1934, as also for the years 1926 to 1933. The statistics in the following table showing "Production of Newsprint Paper for Principal Paper-Producing Countries of the World" indicate that for 1934 Canada's production of newsprint paper amounted to 5,198,000,000 pounds; the United States being second with 1,914,000,000 pounds; the United Kingdom, third with 1,880,000,000 pounds; and Germany, fourth with 892,000,000 pounds. The total production of newsprint paper for the world in 1934 was estimated at about 14,684,000,000 pounds, of which Canada, Newfoundland and the United States supplied 52.7 per cent, and Canada alone about 35.4 per cent. The estimated production of newsprint paper for eighteen of the leading paper-producing countries of the world was: 1926, 12,092,000,000 pounds; 1927, 12,706,000,000 pounds; 1928, 13,235,000,000 pounds; 1929, 14,641,000,000 pounds; in 1930, 14,230,000,000 pounds; in 1931, 13,244,000,000 pounds; in 1932, 12,550,000,000 pounds; in 1933, 12,728,000,000 pounds; and in 1934, 14,534,000,000 pounds.

## ESTIMATED PRODUCTION OF NEWSPRINT PAPER FOR PRINCIPAL PAPER-PRODUCING COUNTRIES OF THE WORLD

**Newsprint Paper Exports, 1934:**—Canada, during the calendar year 1934, occupied first place by a very wide margin among the world's chief exporters of newsprint paper, her exports being over eight times as great as those for Finland, her next competitor. From the statistics in the following table giving "Exports of Newsprint Paper from Principal Paper-Producing Countries of the World", it will be observed, that even in 1913 Canada led the world as an exporter of newsprint paper, Norway being in second place, the United Kingdom in third, and Finland in fourth place. In 1934 the total quantity of newsprint paper exported by the thirteen leading paper-exporting countries was 7,152,404,000 pounds, compared with 6,220,947,000 pounds in 1927, 6,896,475,000 pounds in 1928, 7,811,572,000 pounds in 1929, 7,378,458,000 pounds in 1930, 6,568,577,000 pounds in 1931, 6,052,077,000 pounds in 1932 and 5,950,764,000 pounds in 1933; of which amount Canada in 1927 contributed 3,763,731,000 pounds or 60·5 per cent; in 1928, 4,413,175,000 pounds or 63·9 per cent; in 1929, 5,030,990,000 pounds or 64·4 per cent; in 1930, 4,665,019,000 pounds or 63·2 per cent; in 1931, 4,016,482,000 pounds or 61·3 per cent; in 1932, 3,553,528,000 pounds or 58·7 per cent; in 1933, 3,676,210,000 pounds or 61·7 per cent; and in 1934, 4,828,547,000 pounds or 67·5 per cent. Canada's exports of newsprint paper, therefore, exceeded the exports of the other twelve leading countries combined by 1,306,515,000 pounds in 1927; 1,929,875,000 pounds in 1928; 2,250,408,000 pounds in 1929; 1,951,580,000 pounds in 1930; 1,464,387,000 pounds in 1931; 1,054,979,000 pounds in 1932; 1,401,656,000 pounds in 1933 and 2,504,690,000 pounds in 1934. Canada's exports of newsprint paper are greater than those of the rest of the world combined.

**Rubber Tire Exports, 1934:**—Canada's rapid advance as a rubber tire producer and exporter since the war has been based on the great development of the automobile industry. In the fiscal year 1916-17, the first year for which there are export statistics of rubber tires, the exports of rubber tires from Canada were valued at \$726,768; ten years later (fiscal year 1926-27) the exports had increased to \$18,565,909; in 1929-30 the exports were valued at \$18,153,225, but in 1930-31 they had dropped to \$11,764,948; in 1931-32 to \$5,147,205; in 1932-33 to \$3,205,138; in 1933-34 to \$4,307,374; and in 1934-35 to \$6,816,708. Export figures show that when there is a marked increase or decrease in the exports of automobiles, there is also a marked increase or decrease in the exports of rubber tires, thus indicating the close relation existing between the two industries. Thus, from 1916-17 to 1926-27 the increase in the exports of automobiles was \$27,146,353, and rubber tires \$17,839,141, but from 1929-30 to 1934-35 automobiles show a decrease of \$16,115,475, and rubber tires a decrease of \$11,336,517.

It will be observed by reference to the statistics in the following table re "Exports of Rubber tires from the Principal Rubber Tire-Producing Countries of the World" that Canada occupied fourth position in the calendar year 1934 with an export valued at \$6,537,844, but in the years 1932 and 1933 she was in sixth position. The United Kingdom in 1934 occupied first place with an export valued at \$16,004,355; United States second place with an export valued at \$11,912,545; France third position with an export valued at \$8,152,040; Belgium in fifth place with an export valued at \$5,476,058 and Italy in sixth place with an export valued at \$4,286,940.

**Wheat Exports, 1934:**—The rapid increase in the production of wheat in the Prairie Provinces during the past decade and a half or so, and the practical elimination of Russia, Roumania and other wheat producing countries of Europe as leading factors in the grain trade up to four years ago, have had the effect of establishing Canada, up to that time, in second place as a wheat producing country, the first place being held by the United States. During the past five years, however, Russia has enormously increased her production of wheat, so that in 1928 and 1929 (according to latest information) she occupied second position in wheat production, while Canada during 1929, with the falling off in her wheat yield, moved down to fifth position in the world's wheat production. In 1934 Canada was in sixth position with 275,849,000 bushels; being exceeded by Russia, China, the United States, British India and France.

With reference to exports of wheat for the calendar year 1934, Argentina occupied first place, with an export of 176,090,000 bushels; Canada second position with 167,919,000 bushels; Australia third place with 65,542,000 bushels; Algeria in fourth place with 19,680,000 bushels; United States in fifth place with 16,969,000 bushels and Hungary in sixth place with 16,747,000 bushels. Canada's exports of wheat for the past ten years, as also for the year 1913, have exceeded those of the United States. The Dominion's exports of wheat for the fiscal year 1899-1900 amounted to only 16,845,000 bushels; in 1909-10 they totalled 49,741,000 bushels; in 1919-20, 77,978,000 bushels; in 1930-31, 217,243,000 bushels; in 1931-32, 191,316,000 bushels; in 1932-33 they amounted to 239,373,000 bushels; in 1933-34 to 175,534,000 bushels and in 1934-35 to 165,702,000 bushels. It will be noted by reference to the statistics in the following table showing "Exports of Wheat from Principal Wheat-Producing Countries of the World" that in 1913 Canada occupied first place as a wheat-exporting country, with an export of 129,950,000 bushels; Russia being in second place with an export of 121,953,000 bushels; Argentina in third place with 103,300,000 bushels; and the United States in fourth place with 99,509,000 bushels. In 1934 the order had been changed considerably, Argentina being in first place, Canada in second, Australia in third place, Algeria in fourth place, United States in fifth place and Hungary in sixth place. Canada having occupied first place in wheat exports for some years yielded first place to Argentina in 1929 and in 1934. Wheat occupies first place among Canada's exports.

(a) Statistics for 1912, no statistics available for 1913.

**Wheat Flour Exports, 1934:**—Canada, since the opening of the twentieth century, has made remarkable progress in the flour-milling industry. This expansion in her flour production is reflected in the increase in the Dominion's flour exports. Today Canada ranks second amongst the countries of the world as a wheat-flour exporting country, the first being occupied by Australia, and third place by the United States. Canada's exports of wheat flour for the fiscal year 1899-1900 amounted to 768,000 barrels, ten years later they totalled 3,064,000 barrels; in 1919-20 they amounted to 8,863,000 barrels; in 1931-32 to 5,414,000 barrels; in 1932-33 to 5,268,000 barrels; in 1933-34 to 5,620,000 barrels; and in 1934-35 to 4,936,827 barrels, compared with 11,267,000 barrels in the fiscal year 1928-29.

It will be noted from the statistics in the following table showing "Exports of Wheat Flour from Principal Flour-Producing Countries of the World" that in 1934 Canada was in second place with an export of 5,054,000 barrels; Australia being in first place with an export of 6,349,000 barrels; the United States in third place with 4,163,000 barrels; Japan in fourth place with 2,988,000 barrels; France in fifth place with 2,233,000 barrels; Italy in sixth place with 2,061,000 barrels and the United Kingdom in seventh place with 1,653,000 barrels. The exports of wheat flour from the United States in 1934 were 8,115,000 barrels less than in 1913; from Canada 160,000 barrels greater, and from Australia 4,087,000 barrels greater. From 1930 to 1934 the wheat flour exports of the United States decreased from 13,060,000 to 4,163,000 barrels; from Canada, from 7,515,000 to 5,054,000 barrels; while the wheat flour exports from Australia during the same period increased from 4,892,000 to 6,349,000 barrels.

**Wood Pulp Exports, 1934:**—Canada's great advance as a newsprint paper producer and exporter since the opening of the present century, has been based on the great expansion of her wood pulp industry. Canada's exports of wood pulp during the fiscal year 1889-90 were valued at only \$168,000, and in 1899-1900 at \$1,816,000. In the year 1909-10 the Dominion's exports of wood pulp amounted to 590,346,000 pounds, value \$5,205,000; in 1919-20, or ten years later, they amounted to 1,538,958,000 pounds, value \$41,383,000; and in 1934-35 to 1,224,954,000 pounds, value \$25,869,000. The decrease in the exports of wood pulp from Canada from 1919-20

to 1934-35, is chiefly due to the fact that year by year larger quantities of wood pulp are used in the Canadian paper industry in the manufacture of newsprint and other forms of paper, and consequently the product is being exported in a manufactured form (paper) rather than in a semi-manufactured form (wood pulp). According to statistics in the following table giving "Exports of Wood Pulp from Principal Wood Pulp-Producing Countries of the World", Canada, during the calendar year 1934, occupied fourth position among the world's exporters of wood pulp, with an export of 1,211,282,000 pounds; the first place being held by Sweden, with an export of 5,133,339,000 pounds; Finland was in second place with an export of 3,105,193,000 pounds; while Norway was in third place with an export of 2,098,743,000 pounds. In exports of chemical pulp in 1934 Canada occupied third position, with an export of 962,324,000 pounds, the first place being held by Sweden, by a wide margin, with an export of 3,814,080,000 pounds; and second place by Finland with an export of 2,133,526,000 pounds. With regard to exports of mechanical pulp, Canada occupied fourth place in 1934 with an export of 248,958,000 pounds; the first, second and third places being held by Norway with 1,534,537,000 pounds; Sweden, 1,319,259,000 pounds; and Finland, 971,667,000 pounds. In 1913 Sweden occupied first place as an exporter of wood pulp, Norway second place, and Canada third.

## HISTORICAL SUMMARY OF CANADA'S TRADE, BY DECADES, FISCAL YEARS, 1889-90 TO 1929-30 AND 1934-35

Canada's import and export trade has changed very materially since 1889-90, both as to its origin and destination as well as in its character. The statistics in the following Tables Nos. 1 and 2, relative to Canada's imports and exports, by countries, indicate that the Dominion's trade, both import and export, and especially export, with "Other Countries", i.e., countries, except the United Kingdom and the United States, made very little progress from 1889-90 to 1899-1900, or even 1909-10, but that from 1909-10 on, there was a marked improvement in this trade. This betterment in Canada's trade with "Other Countries" was no doubt due to the provision in the Customs Tariff Act, 1907, for the extension of benefits of the British Preferential Tariff, in whole or in part, to any British Country and the benefits of the Intermediate Tariff, in whole or in part, to any British or foreign country that grants trade benefits to Canada satis-

factory to the Governor in Council. Prior to 1907 Canada had no bargaining machinery of this kind. In 1889-90 Canada's imports from "Other Countries" amounted to \$17,040,000; in 1899-1900 they totalled \$26,147,000; in 1909-10 they had increased to \$56,977,000; in 1919-20 to \$137,068,000 and in 1929-30 to \$211,652,000; but due to the world-wide depression and the fall in commodity prices the imports from "Other Countries" in 1934-35 had declined to \$107,106,000. The Dominion's domestic exports to "Other Countries" in 1889-90 were valued at \$7,546,000; in 1899-1900 at \$14,413,000; in 1909-10 they were valued at only \$35,566,000; in 1919-20 at \$286,311,000; and by 1929-30 they amounted to \$323,463,000; but in 1934-35, owing to unstable trade conditions and decline in commodity prices, the exports to "Other Countries" had declined to \$161,019,000. Compared with 1929-30, Canada's imports in 1934-35 from "Other Countries" show a decrease of \$104,546,000, and exports to, a decrease of \$162,443,000, the decline in the trade, both import and export, being due to decreases in both the value and the volume. The decrease in the value was more pronounced than in the volume, due to drastic decline in commodity prices.

Further, from these Tables Nos. 1 and 2, it will be noted that the imports from the United States from 1889-90 to 1934-35 increased from \$51,366,000 to \$303,640,000 (1929-30, \$847,442,000); United Kingdom, from \$43,277,000 to \$111,685,000 (1929-30, \$189,180,000); British West Indies, including Bermuda, from \$1,182,000 to \$12,053,000 (1929-30, \$13,755,000); British East Indies, from \$183,000 to \$11,499,000 (1929-30, \$13,170,000); Germany, from \$3,779,000 to \$10,014,000 (1929-30, \$21,505,000); France, from \$2,616,000 to \$6,444,000 (1929-30, \$25,158,000); Australia, from \$205,000 to \$6,327,000 (1929-30, \$4,211,000); British Africa, from \$113,000 to \$5,377,000 (1929-30, \$4,132,000); Colombia, from \$2,000 to \$4,564,000 (1929-30, \$7,253,000); Japan, from \$1,258,000 to \$4,425,000 (1929-30, \$12,537,000); the Netherlands, from \$422,000 to \$4,344,000 (1929-30, \$9,433,000); Belgium, from \$721,000 to \$3,614,000 (1929-30, \$13,019,000); Peru, from nil to \$3,430,000 (1929-30, \$7,492,000); Argentina, from \$25 to \$2,791,000 (1929-30, \$10,232,000); Italy, from \$163,000 to \$2,715,000 (1929-30, \$4,964,000); New Zealand, from \$12 to \$2,535,000 (1929-30, \$16,283,000); British Guiana, from \$212,000 to \$2,449,000 (1929-30, \$3,982,000); China, from \$842,000 to \$2,338,000 (1929-30, \$2,977,000); Switzerland, from \$317,000 to \$2,335,000 (1929-30, \$7,315,000); and Fiji, from nil to \$1,800,000 (1929-30, \$3,677,000).

During the same interval, 1889-90 to 1934-35, Canada's domestic exports to the United Kingdom increased from \$41,499,000 to \$274,183,000 (1929-30, \$281,746,000); United States, from \$36,213,000 to \$224,698,000 (1929-30, \$515,050,000); Australia, from \$471,000 to \$18,082,000 (1929-30, \$16,323,000); Japan, from \$27,000 to \$16,936,000 (1929-30, \$30,476,000); British Africa, from \$23,000 to \$13,640,000 (1929-30, \$13,803,000); Belgium, from \$41,000 to \$11,780,000 (1929-30, \$21,693,000); the Netherlands, from \$1,000 to \$10,072,000 (1929-30, \$15,944,000); France, from \$278,000 to \$9,842,000 (1929-30, \$16,507,000); British West Indies, including Bermuda, from \$1,461,000 to \$8,756,000 (1929-30, \$17,316,000); Norway and Sweden, from \$381,000 to \$6,427,000 (1929-30, \$8,353,000); New Zealand, from \$20,000 to \$7,345,000 (1929-30, \$19,166,000); Newfoundland, from \$982,000 to \$6,469,000 (1929-30, \$12,178,000); British East Indies, from \$9,000 to \$5,851,000 (1929-30, \$10,717,000); Germany, from \$461,000 to \$4,474,000 (1929-30, \$25,344,000); China, from \$32,000 to \$4,461,000 (1929-30, \$16,528,000); Irish Free State, from nil to \$4,121,000 (1929-30, \$2,712,000); Argentina, from \$763,000 to \$4,015,000 (1929-30, \$19,207,000); Italy, from \$81,000 to \$3,631,000 (1929-30, \$11,387,000); Brazil, from \$352,000 to \$2,770,000 (1929-30, \$4,292,000) and Spain, from \$70,000 to \$2,627,000 (1929-30, \$4,503,000).

By reference to Tables Nos. 3 and 4 which show the trend of Canada's imports and exports of commodities since 1889-90, it will be noted that there has been a marked change in the character of the Dominion's imports and exports, as well as in the importance of the various commodities which comprise the import and export trade. In the imports and exports of leading commodities from 1889-90 to 1934-35, it will be observed that commodities that occupied an important position in Canada's import and export trade in 1889-90 have, due to economic changes in the industrial life of the country, been materially changed in their importance in relation to other commodities in 1934-35.

## SUMMARY OF CANADA'S TRADE, JULY-JUNE, 1932-33, 1933-34 AND 1934-35

**Canada's Total Trade:**—The Dominion's total trade for June, 1935, amounted to \$99,502,000, compared with \$80,092,000 in June, 1933, and with \$104,829,000 in June, 1934; the increase for the month of June, 1935 over the same month in 1933 amounting to \$19,410,000 or 24.3 per cent, but compared with June, 1934, the decrease amounted to \$5,327,000 or 5.1 per cent. For the twelve months, July-June, 1934-35, the total trade of Canada amounted to \$1,198,799,000, compared with \$861,795,000 for the same period in 1932-33, and to \$1,102,677,000 for similar period in 1933-34; the increase for the twelve months of 1934-35 compared with 1932-33 amounting to \$337,004,000 or 39.1 per cent, and compared with 1933-34 to \$96,122,000 or 8.7 per cent.

**Canada's Total Imports:**—For the month of June, 1935, Canada's imports amounted to \$46,739,000, as compared with \$33,619,000 in June, 1933, and with \$46,186,000 in June, 1934; the increase in June, 1935 over June 1933 amounting to \$13,120,000 or 39.0 per cent, and over June, 1934 to \$553,000 or 1.2 per cent. For the period July-June, 1934-35, the Dominion's imports amounted to \$526,467,000 compared with a similar import trade in 1932-33 valued at \$378,488,000, and in 1933-34 at \$480,683,000; the increase for the period July-June, 1934-35, compared with similar period in 1932-33, amounting to \$147,979,000 or 39.1 per cent, and compared with 1933-34 to \$45,784,000 or 9.5 per cent.

**Canada's Total Domestic Exports:**—Canada's total domestic exports for the month of June, 1935, amounted to \$51,869,000, compared with a similar export trade in June, 1933, valued at \$45,968,000, and with the same month in 1934 at \$58,046,000; the increase for the month of June, 1935, over June, 1933, amounting to \$5,901,000, or 12.9 per cent; but compared with the same month in 1934, the decrease amounted to \$6,177,000, or 10.6 per cent. During the twelve months period, July-June, 1934-35, Canada's domestic exports amounted to \$663,918,000, compared with a similar export trade during the twelve months period in 1932-33, valued at \$477,099,000, and in 1933-34 at \$615,314,000; the increase for the period July-June, 1934-35, over the same period in 1932-33 amounting to \$186,819,000, or 39.2 per cent, and over 1933-34 to \$48,604,000, or 7.9 per cent.

## PREFACE

All features of previous issues of the Condensed Preliminary Trade Report are continued in the present number. It consists of two main sections—a Review of Canada's Foreign Trade during the fiscal year just closed (1935-36), and a series of statistical tables ("Condensed Statistical Record of Canadian Trade"), partly summary and historical, but mainly a presentation of the main items of the trade of Canada with the more important countries of the world.

In the first section, the external trade of Canada is examined from several angles and the outstanding features of the year are set out in both text and tabular form. This section also contains an historical summary of Canada's import and export trade by decades for 1889-90 to 1929-30 and for the fiscal year 1935-36, distinguishing imports and exports for principal countries and commodities.

All tables have been revised and expanded to meet altered conditions of trade. Canada's trade with ninety-eight different countries is dealt with.

Throughout the report, figures for the fiscal year ended March 31, 1935-36, are unrevised; those for earlier years are final.

The "Review of Canada's Foreign Trade for 1935-36," was written by Mr. W. A. Warne, B.A., Chief of the External Trade Branch of the Dominion Bureau of Statistics, while the "Condensed Statistical Record" was compiled by Mr. A. L. Neal, B.A., B.Sc. (econ.), Statistician of the Branch.

R. H. COATS;

Dominion Statistician

DOMINION BUREAU OF STATISTICS,  
OTTAWA, June 10, 1936.

## NOTE:

### MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has recently experienced difficulty in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada, in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations, to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and to be recorded under the "Coin and Bullion" section.

The Bureau in conference with the Bank of Canada and the Department of National Revenue has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. In consequence of this arrangement Canada's exports and total trade have been revised from 1926 to date.

## REVIEW OF CANADA'S FOREIGN TRADE, 1935-36

World trade during the calendar year 1935 shows an upward trend compared with 1934. Canada's trade also showed a substantial recovery. In 1935 the trade of thirty-five (35) leading trading countries of the world, comprising about 82 per cent of total world trade, increased 4.6 per cent; imports increased 4.1 per cent, and exports, 5.0 per cent. Prominent factors operating to expand world trade were: (1) the general economic recovery; (2) the narrowing of fluctuations in the exchange rates of various national currencies; (3) the opening up of channels of trade by reciprocal trade agreements. Canada has recently negotiated trade treaties or agreements with a number of countries, the most comprehensive being that with the United States, effective from January 1, 1936.

Total Canadian trade in each month of the fiscal year 1935-36 shows an increase over the corresponding months of 1932-33, 1933-34, and 1934-35, except for the month of June, 1934; while imports and exports also show an increase in each month in the fiscal year 1935-36 over the corresponding months in 1932-33, 1933-34, and 1934-35, except for the month of December, 1934, in imports, and the months of May, June, and July, 1934, in exports.

The total trade of Canada in the fiscal year 1935-36 was valued at \$1,425,191,000, imports accounting for \$562,719,000 of this amount, domestic exports for \$849,030,000, and foreign exports for \$13,442,000; the increase in total trade in the fiscal year 1935-36 over the fiscal year 1934-35 amounting to \$138,475,000, or 10.8 per cent; in imports it was \$40,288,000, or 7.7 per cent, in domestic exports, \$92,404,000, or 12.2 per cent; and in foreign exports, \$5,783,000, or 75.5 per cent. Empire countries accounted for 45.3 per cent of the increase in Canada's total trade from 1934-35 to 1935-36, and foreign countries for 54.7 per cent; imports from Empire countries accounting for 53.5 per cent of the total increase in imports, and foreign countries for 46.5 per cent; while the Empire's share in the increase in domestic exports from 1934-35 to 1935-36, was 44.5 per cent, and foreign countries, 55.5 per cent.

### GENERAL NOTE

It is pointed out with reference to the statistics in the above table, and particularly regarding Canada's imports in 1935-36 throughout this report, that if the excise duty, which has been included in the value of distilled spirits, chiefly whiskey, imported into Canada from countries entitled to the British Preferential Tariff since the fiscal year 1920-21, had not been excluded as from April 1, 1935, the imports into Canada in 1935-36 from (a) All Countries, (b) the British Empire, and (c) the United Kingdom, would have been valued at about \$10,000,000 more than recorded.

Canada's trade for the past twelve fiscal years may be divided into three periods: (1) 1924-25 to 1929-30, a period of expansion; (2) 1929-30 to 1933-34, characterized by general trade depression; and (3) 1933-34 to 1935-36, a time of recovery. The decline in Canada's imports was much greater than in exports. The statistics in the following table give the percentages of increase or decrease in Canada's imports and exports on a value and volume basis, for the fiscal years 1929-30 to 1935-36. It will be observed that Canada's total trade for the fiscal year 1935-36, compared with 1934-35, shows an increase of 10·8 per cent on a value basis, and 10·4 per cent on a volume basis; imports an increase of 7·7 per cent on a value basis, and 10·2 per cent on a volume basis; while the Dominion's domestic exports show an increase of 12·2 per cent on a value basis, and 10·4 per cent on a volume basis.

In comparison with the trade of the United Kingdom and the United States, Canada's trade on a percentage basis has made a greater recovery than that of the United Kingdom, though not so great as that of the United States. During 1935 Canada's imports increased 7·2 per cent, compared with 1·8 per cent for the United Kingdom, and 26·6 per cent for the United States; her exports increased 8·8 per cent, as against 6·2 per cent for the United Kingdom, and 8·4 per cent for the United States; while her total trade increased 8·1 per cent, contrasted with an increase of 3·4 per cent for the United Kingdom, and 16·4 per cent for the United States.

## CANADA'S POSITION IN WORLD TRADE, 1935

During the calendar year 1935, Canada maintained a relatively high position amongst the leading commercial nations of the world in international trade, occupying sixth place in 1935, as last year, being exceeded in value of total trade in 1935 only by the United Kingdom, the United States, Germany, France and Japan. In import trade, Canada in 1935 was in ninth place, as last year, being exceeded in value of imports by the United Kingdom, the United States, Germany, France, Japan, the Netherlands, Italy, and Belgium; while in export trade she occupied fifth position in 1935, as in 1934, being exceeded in value of exports by the United States, the United Kingdom, Germany, and France.

The following table gives further details respecting the relative position of the leading commercial countries of the world.

## UPWARD TREND IN WORLD TRADE, 1935

The statistics in the following table showing "Net Imports and Domestic Exports of Thirty-Five Leading Trading Countries of the World, Calendar Year 1935 Compared with 1934", indicate an upward movement in world trade in 1935, as the total trade of these thirty-five (35) countries, which comprise about 82 per cent of total world trade, from 1934 to 1935 increased from \$32,294,637,000 to \$33,768,379,000, or 4.6 per cent; imports from \$16,929,877,000 to \$17,632,419,000, or 4.1 per cent; and domestic exports from \$15,364,760,000 to \$16,135,960,000, or 5.0 per cent. In 1935 compared with 1934, twenty-three of the thirty-five countries show increases in imports, and twelve decreases; in exports, twenty-three show increases, and twelve decreases; while seventeen out of the thirty-five countries had a favourable trade balance in 1934, and twenty in 1935.

It will be noted from the table that Canada in value of total trade occupied sixth position in 1935 as in 1934, while in imports she occupied ninth position in 1934 and 1935, and fifth position in domestic exports in 1934 and 1935. It will also be noted that Canada in percentage of increase in her trade amongst the thirty-five trading countries occupied fifteenth place in imports, and twelfth place in exports. The countries which show a larger percentage of increase in imports were: Argentina, Australia, Brazil, Egypt, Finland, Greece, Hungary, New Zealand, Norway, Peru, Portugal, Sweden, Union of South Africa, and the United States; and in exports, Algeria, Argentina, Australia, Brazil, China, Egypt, Greece, Hungary, Irish Free State, Japan, and the Union of South Africa. In percentage relation of exports to imports amongst the thirty-five countries, Canada occupied fifth place in 1934, being exceeded by Chile, New Zealand, Peru, and Russia; and third place in 1935, Peru being in first place, and Chile in second place.

TABLE SHOWING NET IMPORTS AND DOMESTIC EXPORTS OF THIRTY-FIVE LEADING TRADING COUNTRIES OF THE WORLD, CALENDAR YEAR 1935 COMPARED WITH 1934, WITH PERCENTAGE OF INCREASE OR DECREASE, 1935 COMPARED WITH 1934, AND PERCENTAGE RELATION OF EXPORTS TO IMPORTS, 1934 AND 1935

### COMPARISON OF VALUE AND VOLUME OF CANADA'S TRADE, 1935-36

In comparing trade for different periods, it is important to bear in mind that because of changing prices, values do not necessarily represent exactly changes in the quantity or volume of merchandise involved. Changes in the nominal values of imports and exports over a given period may be caused by variations in quantity, by fluctuations in price, or by a combination of these factors. A preliminary compilation has been made comparing the value and volume of Canada's trade for the fiscal year 1935-36 with that for 1934-35. The results are set forth in the following table. The declared values by main groups are shown for 1934-35 and 1935-36, together with the values obtained by re-valuing the quantities of 1935-36 at the average import and export prices prevailing in 1934-35. This eliminates the element of price fluctuation and permits a comparison of the volume of trade in the two years. It will be noted that the declared value of imports increased from \$522,431,000 in 1934-35 to \$562,719,000 in 1935-36. If prices had remained at the 1934-35 level, the value of imports would have increased to \$575,959,000, an increase of \$53,528,000, indicating an expansion in the volume of imports of 10.2 per cent.

Exports also increased substantially both in value and volume, rising from \$756,626,000 to \$849,030,000 in declared value, and to \$835,750,000 after allowance for the element of rising prices, representing increases of 12.2 per cent in value, and 10.4 per cent in volume.

The increase in 1935-36 over 1934-35 was general, and all main groups in both imports and exports showed gains in value and volume. Unit values indicated slight declines in imports under five of the nine main groups (Agricultural and Vegetable Products; Fibres, Textiles and Textile Products; Non-Ferrous Metals and Their Products; Non-Metallic Minerals and Their Products; and Miscellaneous Commodities), and in exports of Iron and its Products. In each group, however, the slight declines in prices were more than offset by the expansion in volume.

## COMPARISON OF VALUE AND VOLUME OF CANADA'S TRADE

NOTE.—The large increase in volume as compared with the small increase in value of imports of Agricultural and Vegetable Products is accounted for, in part, by the change in the valuation of distilled spirits (see general note page 7). Imports of distilled spirits increased in quantity from 713,346 proof gallons in 1934-35 to 976,563 proof gallons in 1935-36, while under the new system of valuation the value declined from \$13,058,393 to \$7,209,119. Imports of distilled spirits in 1935-36 valued at the prices prevailing in 1934-35 would have amounted to about \$17,682,000, being about \$10,000,000 greater than recorded.

CANADA'S MONTHLY TRADE TRENDS WITH THE WORLD, APRIL-MARCH,  
1935-36

Canada's imports in each month during the fiscal year 1935-36 were greater than for the corresponding months in the fiscal years 1932-33, 1933-34, or 1934-35, except for the month of December, 1934, when the decrease was only 1.4 per cent. For the period April-March, 1935-36, Canada's total imports were valued at \$562,719,000, compared with \$406,384,000 in the fiscal year 1932-33; at \$433,799,000 in 1933-34; and at \$522,431,000 in 1934-35. The increase in the fiscal year 1935-36 compared with the fiscal year 1932-33 was \$156,335,000, or 38.5 per cent; with the fiscal year 1933-34 the increase was \$128,920,000, or 29.7 per cent; and with the fiscal year 1934-35 the increase was \$40,288,000, or 7.7 per cent.

Canada's domestic exports showed an upward trend in each month during the fiscal year 1935-36 compared with each month in the fiscal years 1932-33, 1933-34, and 1934-35, except for

the months of May, June and July, 1934. The decrease in May, 1935, compared with May, 1934, was 2.0 per cent; in June, 9.7 per cent; and in July, 1.7 per cent. Canada's domestic exports for the fiscal year 1935-36 amounted to \$849,030,000, compared with \$528,064,000 in 1932-33; with \$665,954,000 in the fiscal year 1933-34; and with \$756,626,000 in the fiscal year 1934-35. The increase for the fiscal year 1935-36 compared with 1932-33 was \$320,966,000 or 60.8 per cent; with 1933-34 the increase was \$183,076,000 or 27.5 per cent; and with 1934-35 the increase was \$92,404,000, or 12.2 per cent.

CANADA'S MONTHLY TRADE TRENDS WITH EMPIRE COUNTRIES,  
APRIL-MARCH, 1935-36

Canada's imports from Empire countries during each month of the fiscal year 1935-36 show an upward trend compared with the corresponding months of the fiscal years 1932-33, 1933-34, and 1934-35. During 1935-36 Canada's imports from the Empire were valued at \$177,721,000, compared with imports in 1932-33 valued at \$120,384,000; in 1933-34 at \$140,404,000, and in 1934-35 at \$156,186,000; the increase in the fiscal year 1935-36 over 1932-33 amounting to \$57,337,000, or 47.6 per cent, over 1933-34 to \$37,317,000, or 26.6 per cent, and over 1934-35 to \$21,535,000, or 13.8 per cent.

Canada's domestic exports to Empire countries during the fiscal year 1935-36 were greater than for the corresponding months in 1932-33, 1933-34, or 1934-35, except for the months of June, July, September, and January of the fiscal year 1933-34, and for the months of May, June, July, and September of the fiscal year 1934-35. The Dominion's domestic exports to the Empire in 1935-36 amounted to \$399,311,000, compared with \$222,119,000 in the fiscal year

1932-33; with \$339,006,000 in 1933-34, and with \$358,199,000 in 1934-35; the increase in the fiscal year 1935-36 compared with 1932-33 amounting to \$177,192,000, or 79.8 per cent; with 1933-34 to \$60,305,000, or 17.8 per cent; and compared with 1934-35 to \$41,112,000, or 11.5 per cent.

CANADA'S MONTHLY TRADE TRENDS WITH FOREIGN COUNTRIES,  
APRIL-MARCH, 1935-36

Canada's imports from foreign countries during each month of the fiscal year 1935-36 were greater than for the corresponding months in the fiscal years 1932-33, 1933-34, or 1934-35, except for the month of June in 1932-33, and the months of May, June, and December in 1934-35. The Dominion's imports from foreign countries in 1935-36 were valued at \$384,998,000, compared with \$285,999,000 in 1932-33, with \$293,395,000 in 1933-34, and with \$366,245,000 in 1934-35; the increase in 1935-36 over the fiscal year 1932-33 amounting to \$98,999,000, or 34.6 per cent, over 1933-34 to \$91,603,000, or 31.2 per cent, and over 1934-35 to \$18,753,000, or 5.1 per cent.

During the fiscal year 1935-36 Canada's domestic exports to foreign countries in each month exceeded similar exports in the corresponding months in 1932-33, 1933-34 and 1934-35, except during the months of February and March in 1933-34, and the month of May in 1934-35. Canada's domestic exports to foreign countries in the fiscal year 1935-36 totalled \$449,719,000, in 1932-33 the domestic exports totalled \$305,945,000, in 1933-34, \$326,948,000, and in 1934-35, \$398,426,000; the increase in 1935-36 over similar export trade in 1932-33 amounting to \$143,774,000, or 47.0 per cent, over 1933-34 to \$122,771,000, or 37.5 per cent, and over 1934-35 to \$51,293,000, or 12.9 per cent.

## CANADA'S TRADE WITH THE WORLD, 1935-36

(a) **Analysis of Canada's Total Trade with the World, 1935-36:**—The foreign commodity trade of Canada during the fiscal year ended March 31, 1935-36, was valued at \$1,425,191,000, compared with a similar trade in 1932-33 valued at \$941,362,000, in 1933-34 at \$1,106,064,000, and in 1934-35 at \$1,286,716,000; the increase in total commodity trade in 1935-36 compared with 1932-33 amounting to \$483,829,000, or 51.4 per cent, with 1933-34 to \$319,127,000, or 28.8 per cent; and with 1934-35 to \$138,475,000, or 10.8 per cent. Imports and exports in 1935-36 exceed imports and exports in 1932-33, 1933-34 and 1934-35. During the fiscal year 1935-36 Canada's imports amounted to \$562,719,000, compared with an import trade in the fiscal year 1932-33 valued at \$406,384,000, in 1933-34 at \$433,799,000, and in 1934-35 at \$522,431,000; the increase in the imports in 1935-36 compared with 1932-33 amounting to \$156,335,000, or 38.5 per cent, with 1933-34 to \$128,920,000, or 29.7 per cent, and with 1934-35 to \$40,288,000, or 7.7 per cent; while the exports (domestic and foreign combined) during the fiscal year 1935-36 were valued at \$862,472,000, compared with a similar trade in 1932-33 valued at \$534,978,000, in 1933-34 at \$672,265,000, and in 1934-35 at \$764,285,000; the increase in 1935-36 compared with 1932-33 amounting to \$327,494,000, or 61.2 per cent, with 1933-34 to \$190,207,000, or 28.3 per cent, and with 1934-35 to \$98,187,000, or 12.8 per cent. During the fiscal year 1935-36 Canada's domestic exports were valued at \$849,030,000; in 1932-33 at \$528,064,000, in 1933-34 at \$665,954,000, and in 1934-35 at \$756,626,000; the increase in 1935-36 over 1932-33 amounting to \$320,966,000, or 60.8 per cent, over 1933-34 to \$183,076,000, or 27.5 per cent, and over 1934-35 to \$92,404,000, or 12.2 per cent.

For the fiscal year ended March 31, 1935-36, Canada's visible merchandise trade balance was favourable to the extent of \$299,753,000, compared with a favourable balance in 1932-33 of

\$128,594,000, in 1933-34 of \$238,466,000, and in 1934-35 of \$241,854,000. The improvement in Canada's visible merchandise trade balance in 1935-36 compared with 1932-33 amounted to \$171,159,000, with 1933-34 to \$61,287,000, and with 1934-35 to \$57,899,000. If the trade in Merchandise and Coin and Bullion are combined, the visible trade balance with the world in 1935-36 was favourable to the extent of \$313,022,000, compared with a favourable balance in 1932-33 of \$138,301,000, in 1933-34 of \$252,820,000, and in 1934-35 of \$241,955,000.

(b) **Canada's Principal Imports from the World, 1935-36:**—Canada's total imports of merchandise for the fiscal year 1935-36 amounting to \$562,719,000, were \$40,288,000 or 7.7 per cent greater than for the fiscal year 1934-35. The increase in Canada's imports in 1935-36 compared with 1934-35 occurred in each of the nine main groups. From 1934-35 to 1935-36 Canada's imports under the main group of Agricultural and Vegetable Products increased from \$109,419,000 to \$110,342,000, an increase of \$923,000, or 0.8 per cent; while the imports under the main group of Animals and Animal Products from 1934-35 to 1935-36 increased from \$19,957,000 to \$24,314,000, or \$4,357,000, an increase of 21.8 per cent. Under the Fibres, Textiles and Textile Products group Canada's imports increased from \$81,798,000 to \$89,814,000, an increase of \$8,016,000 or 9.8 per cent; while under the main group of Wood, Wood Products and Paper Canada's imports increased from \$21,200,000 to \$23,272,000, representing an increase of \$2,072,000 or 9.8 per cent. From 1934-35 to 1935-36 Canada's imports under the main group of Iron and Its Products increased from \$100,056,000 to \$114,254,000, an increase of \$14,198,000 or 14.2 per cent; while imports under the main group of Non-Ferrous Metals and Their Products increased from \$28,497,000 to \$33,686,000, an increase of \$5,189,000 or 18.2 per cent. Under the main group of Non-Metallic Minerals and Their Products Canada's imports from 1934-35

(c) **Canada's Principal Domestic Exports to the World, 1935-36:**—During the fiscal year 1935-36 Canada's total domestic exports of merchandise amounting to \$849,030,000, were \$92,404,000 or 12.2 per cent greater than for the fiscal year 1934-35. The increase in the Dominion's domestic exports, 1935-36 compared with 1934-35 occurred in each of the nine main groups. The domestic exports under the Agricultural and Vegetable Products group from 1934-35 to 1935-36 increased from \$226,233,000 to \$242,862,000, an increase of \$16,629,000, or 7.4 per cent; while during the same period the domestic exports under the Animals and Animal Products group increased from \$86,848,000 to \$100,932,000, or \$14,084,000, an increase of 16.2 per cent; Under the Fibres, Textiles and Textile Products group Canada's domestic exports from 1934-35 to 1935-36 increased from \$7,523,000 to \$10,274,000, an increase of \$2,751,000, or 36.6 per cent; while the domestic exports under the Wood, Wood Products and Paper group increased from \$160,933,000 to \$181,832,000, an increase of \$20,899,000 or 13.0 per cent. The domestic exports

under the Iron and Its Products group from 1934-35 to 1935-36 increased from \$40,736,000 to \$52,368,000, an increase of \$11,632,000 or 28.5 per cent; while the domestic exports under the Non-Ferrous Metals and Their Products group increased from \$191,346,000 to \$212,547,000, an increase of \$21,201,000 or 11.1 per cent. Under the Non-Metallic Minerals and Their Products group Canada's domestic exports increased from \$15,654,000 to \$19,084,000, or \$3,430,000, an increase of 21.9 per cent; under the Chemicals and Allied Products group the exports increased from \$15,270,000 to \$16,018,000, an increase of \$748,000 or 4.9 per cent; while the domestic exports under the Miscellaneous Commodities group increased from \$12,083,000 to \$13,113,000, an increase of \$1,030,000 or 8.5 per cent.

The increase in the Dominion's domestic exports from 1934-35 to 1935-36 amounting to \$92,404,000, occurred principally in the following commodities, or groups of commodities: Aluminium and products, from \$8,556,000 to \$10,078,000, or \$1,522,000; animals, living, chiefly cattle, from \$5,710,000 to \$9,577,000, or \$3,867,000; asbestos, raw, from \$5,154,000 to \$7,612,000, or \$2,458,000; automobiles, from \$19,192,000 to \$23,886,000, or \$4,694,000; butter, from \$105,000 to \$1,796,000, or \$1,691,000; copper and its products, chiefly in forms, from \$24,540,000 to \$31,031,000, or \$6,491,000; doors, sashes and blinds, chiefly doors, from \$834,000 to \$2,240,000, or \$1,406,000; farm implements and machinery, from \$3,567,000 to \$6,344,000, or \$2,777,000; films, from \$3,026,000 to \$3,768,000, or \$742,000; fish, from \$22,411,000 to \$24,435,000, or \$2,024,000; fruits, from \$10,496,000 to \$11,258,000, or \$762,000; furs, chiefly raw, from \$14,898,000 to \$15,738,000, or \$840,000; gold, raw, from \$3,725,000 to \$4,802,000, or \$1,077,000; hides and skins, raw, from \$1,805,000 to \$3,454,000, or \$1,649,000; lead in pigs, from \$5,089,000 to \$8,055,000, or \$2,966,000; nickel, from \$28,423,000 to \$41,644,000, or \$13,221,000; paper, chiefly newsprint, from \$87,569,000 to \$97,094,000, or \$9,525,000; planks and boards, from \$24,900,000 to \$27,605,000, or \$2,705,000; shingles, from \$3,505,000 to \$7,693,000, or \$4,188,000; silver bullion, from \$4,730,000 to \$11,421,000, or \$6,691,000; wheat, from \$132,442,000 to \$148,577,000, or \$16,135,000; wheat flour, from \$18,386,000 to \$19,383,000, or \$997,000; whiskey, from \$13,407,000 to \$16,289,000, or \$2,882,000; wood pulp, from \$25,869,000 to \$28,104,000, or \$2,235,000; wool, raw, from \$689,000 to \$1,646,000 to \$957,000; and zinc spelter, from \$6,900,000 to \$8,057,000, or \$1,157,000; while the exports of gold bullion, non-monetary, during the same period decreased from \$96,726,000 to \$83,415,000, or \$13,311,000.

## CANADA'S TRADE WITH THE UNITED KINGDOM, 1935-36

(a) **Analysis of Canada's Total Trade with the United Kingdom, 1935-36:**—The total trade of Canada with the United Kingdom during the fiscal year 1935-36 amounted to \$440,310,000; in 1932-33 to \$271,599,000; in 1933-34 to \$394,385,000; and in 1934-35 to \$403,390,000; the increase in 1935-36 over the fiscal year 1932-33 amounting to \$168,711,000 or 62.1 per cent; over 1933-34 to \$45,925,000 or 11.6 per cent; and over 1934-35 to \$36,920,000 or 9.2 per cent. Imports as well as exports in 1935-36 show increases over the years 1932-33, 1933-34 and 1934-35. Canada's imports from the United Kingdom in 1935-36 were valued at \$117,875,000; in 1932-33 at \$86,466,000; in 1933-34 at \$105,101,000; and in 1934-35 at \$111,682,000; the increase in 1935-36 over 1932-33 amounting to \$31,409,000 or 36.3 per cent; over 1933-34 to \$12,774,000, or 12.2 per cent; and over 1934-35 to \$6,193,000 or 5.5 per cent; while the Dominion's total exports to the United Kingdom in 1935-36 amounted to \$322,435,000; in 1932-33 to \$185,133,000; in 1933-34 to \$289,284,000; and in 1934-35 to \$291,708,000; the increase in the fiscal year 1935-36 over 1932-33 amounting to \$137,302,000 or 74.2 per cent; over 1933-34 to \$33,151,000 or 11.4 per cent; and over 1934-35 to \$30,727,000 or 10.5 per cent. The Dominion's domestic exports to the United Kingdom in 1935-36 totalled \$321,557,000; in 1932-33, \$184,361,000; in 1933-34 \$288,583,000; and in 1934-35, \$290,885,000; the increase in 1935-36 over 1932-33 amounting to \$137,196,000 or 74.4 per cent; over 1933-34 to \$32,974,000 or 11.4 per cent; and over 1934-35 to \$30,672,000, or 10.5 per cent.

For the year ended March 31, 1935-36, Canada's visible merchandise trade balance with the United Kingdom was favourable to the extent of \$204,560,000, compared with \$98,667,000 in 1932-33; \$184,183,000 in 1933-34; and \$180,026,000 in 1934-35. The improvement in Canada's visible merchandise trade balance with the United Kingdom in 1935-36 compared with 1932-33 amounted to \$105,893,000; with 1933-34 to \$20,377,000; and with 1934-35 to \$24,534,000. If the trade in merchandise and coin and bullion are combined, the visible favourable trade balance with the United Kingdom in 1935-36 would amount to \$215,734,000, compared with \$98,648,000 in 1932-33; with \$199,036,000 in 1933-34; and with \$180,106,000 in 1934-35.

## (b) Canada's Monthly Trade Trends with the United Kingdom, April-March, 1935-36:—

Canada's imports from the United Kingdom during each month of the fiscal year 1935-36, exceeded similar imports during the corresponding months in the fiscal years 1932-33, 1933-34, and 1934-35, except for the months of December, January, February, and March in the year 1933-34, and the month of December in 1934-35; while the Dominion's domestic exports to the United Kingdom in each month of the fiscal year 1935-36 were greater than for the corresponding months in 1932-33, 1933-34, and 1934-35, except for the months of June, July, September and January in the year 1933-34, and for the months of May, June, July and September in the year 1934-35.

(c) **Discrepancy in Canada-United Kingdom Trade Statistics, 1935:**—Imports into Canada from the United Kingdom should agree fairly well with the corresponding export figures from the United Kingdom to Canada, as the value of merchandise imported into Canada from the United Kingdom is the fair market value or price thereof at the time when the same is exported directly to Canada, while the value of merchandise exported from the United Kingdom to Canada is the f.o.b. value. There is, however, a considerable discrepancy between the two sets of figures (the discrepancy being in favour of Canada) chiefly in the trade in distilled spirits. The Canadian value of distilled spirits imported from the United Kingdom is in excess of the United Kingdom export value to Canada, due to the fact that since April 1, 1920, to March 31, 1935, the Canadian value not only included the United Kingdom declared export value but the British excise tax as well. Since April 1, 1935, the discrepancy is not so marked. From 1921 to 1935 (calendar years) the Canadian imports of distilled spirits from the United Kingdom and the exports from the United Kingdom to Canada, year by year, vary somewhat in the quantity, and materially in the value. The variation in the quantity is probably due to the fact that the distilled spirits may not be taken out of the Customs warehouse by the importer for some time subsequent to importation. From 1920 to 1935 Canada's imports of distilled spirits from the United Kingdom amounted to 18,489,881 proof gallons, valued at \$346,278,249, while the United Kingdom exports to Canada totalled 18,569,008 proof gallons, valued at \$115,889,772, a slight discrepancy in the quantity but a very considerable discrepancy in the value over a period of years. For the year 1920 the total imports into Canada from the United Kingdom, as well as the imports of distilled spirits, agree fairly well with the total exports, and exports of distilled spirits from the United Kingdom to Canada. The statistics in the following table illustrate this feature.

UNITED KINGDOM'S TOTAL EXPORTS AND EXPORTS OF DISTILLED SPIRITS TO CANADA CONTRASTED WITH CANADA'S TOTAL IMPORTS AND IMPORTS OF DISTILLED SPIRITS FROM THE UNITED KINGDOM  
(Calendar Years, 1920 to 1935)

(a) Domestic exports only.

NOTE.—Value of Exports from the United Kingdom to Canada converted into Canadian currency at par of exchange (\$4.8666).

There is a marked discrepancy, however, between Canada's statistics of exports to the United Kingdom, and the United Kingdom's statistics of imports from Canada. The discrepancy prior to 1931 was due largely to the diversion of grain, especially wheat, shipped via the United States, from the original destination, the United Kingdom, to other destinations. For the years 1931 and 1932, however, the discrepancies were not so pronounced, due to a much smaller quantity of wheat being shipped to the United Kingdom via the United States in these years. In the years 1933, 1934 and 1935, the discrepancies were due partly to diversion of wheat, as in former years, and to a change in policy in recording gold whereby exports of non-monetary gold bullion are included under "Merchandise" and not as formerly under "Coin and bullion". This non-monetary gold is recorded in United Kingdom import statistics under "Coin and Bullion", and not under "Merchandise".

EXPORTS FROM CANADA TO THE UNITED KINGDOM CONTRASTED WITH UNITED KINGDOM IMPORTS FROM CANADA

	Years ended December 31—					
	1930	1931	1932	1933	1934	1935
	\$	\$	\$	\$	\$	\$
Exports from Canada to United Kingdom...	236,527,017	172,597,542	179,094,627	258,834,168	298,132,352	307,714,364
Imports into United Kingdom from Canada...	185,644,236	153,976,090	170,973,643	210,849,402	251,590,160	275,855,532

Canada's declared exports to the United Kingdom do not represent the actual amount of Canadian products received by the United Kingdom from Canada, the British imports being much less than the Canadian exports. The discrepancy is due in large measure to diversion of Canadian grain, especially wheat, from its original destination, the United Kingdom, to other destinations, chiefly continental Europe. This diversion takes place, principally in the movement of Canadian products to the United Kingdom via the United States. If an adjustment is made for this diversion, the revised exports to the United Kingdom would be less, and those to continental Europe greater than the declared exports.

(d) **Canada's Principal Imports from the United Kingdom, 1935-36:**—Canada's total imports from the United Kingdom during the fiscal year 1935-36 amounting to \$117,875,000, were \$6,193,000 or 5.5 per cent greater than for the fiscal year 1934-35. Seven of the nine main groups show increases, and two decreases. The imports into Canada from the United Kingdom under the Agricultural and Vegetable Products group from 1934-35 to 1935-36 decreased from \$20,104,000 to \$18,007,000, or \$2,097,000, a decrease of 10.5 per cent; while imports under the Animals and Animal Products group during the same period increased from \$3,039,000 to \$3,793,000, an increase of \$754,000 or 24.8 per cent. Under the Fibres, Textiles and Textile Products group from 1934-35 to 1935-36 imports from the United Kingdom increased from \$36,538,000 to \$40,595,000, or \$4,057,000, an increase of 11.1 per cent; while imports during the same period from the United Kingdom under the Wood, Wood Products and Paper group increased from \$3,252,000 to \$3,514,000, an increase of \$262,000, or 8.1 per cent. From 1934-35 to 1935-36 imports under the Iron and Its Products group increased from \$18,601,000 to \$20,551,000, or \$1,950,000, an increase of 10.5 per cent; while imports during this period under the Non-Ferrous Metals and Their Products group increased from \$4,581,000 to \$5,829,000, an increase of \$1,248,000 or 27.2 per cent. Under the Non-Metallic Minerals and Their Products group from 1934-35 to 1935-36, imports from the United Kingdom decreased from \$13,163,000 to \$12,932,000, a decrease of \$231,000 or 1.8 per cent; under the Chemicals and Allied Products group during this period imports from the United Kingdom increased from \$6,210,000 to \$6,336,000 or \$126,000, an increase of 2.0 per cent; while under the Miscellaneous Commodities group imports increased from \$6,194,000 to \$6,318,000, an increase of \$124,000 or 2.0 per cent.

The increase in Canada's imports from the United Kingdom from 1934-35 to 1935-36 amounting to \$6,193,000, occurred in the following principal commodities, or groups of commodities:—Aluminium and products, from \$1,222,000 to \$1,389,000, or \$167,000; biscuits, from \$157,000 to \$322,000, or \$165,000; cotton piece goods, from \$5,744,000 to \$5,912,000, or \$168,000; electric apparatus, from \$700,000 to \$1,023,000, or \$323,000; engines and boilers, from \$501,000

CANADA'S PRINCIPAL IMPORTS FROM THE UNITED KINGDOM—Continued

(e) **Canada's Principal Domestic Exports to the United Kingdom, 1935-36:**—The domestic exports to the United Kingdom during the fiscal year 1935-36, amounting to \$321,557,000 were \$30,672,000 or 10·5 per cent greater than for the fiscal year 1934-35. Eight out of the nine main groups show increases, and one a decrease, namely: Non-Ferrous Metals and Their Products. The domestic exports from Canada to the United Kingdom under the Agricultural and Vegetable Products group from 1934-35 to 1935-36 increased from \$127,658,000 to \$154,262,000, or \$26,604,000, an increase of 20·8 per cent; while the domestic exports to the United Kingdom during the same period under the Animals and Animal Products group increased from \$54,567,000 to \$54,592,000, or \$25,000, an increase of only 0·04 per cent. Under the Fibres, Textiles and Textile Products group domestic exports to the United Kingdom from 1934-35 to 1935-36 increased from \$2,219,000 to \$2,331,000, or \$112,000, an increase of 5·0 per cent; while under the Wood, Wood Products and Paper group during this period exports to the United Kingdom increased from \$25,452,000 to \$28,773,000, or \$3,321,000, an increase of 13·0 per cent. From 1934-35 to 1935-36 Canada's domestic exports to the United Kingdom under the Iron and Its Products group increased from \$10,074,000 to \$11,160,000, an increase of \$1,086,000 or 10·8 per cent; while under the Non-Ferrous Metals and Their Products group the exports during this period decreased from \$63,101,000 to \$61,821,000, a decrease of \$1,280,000, or 2·0 per cent. Under the Non-Metallic Minerals and Their Products group domestic exports to the United Kingdom from 1934-35 to 1935-36 increased from \$2,054,000 to \$2,208,000, or \$154,000, an increase of 7·5 per cent; under the Chemicals and Allied Products group exports increased from \$3,031,000 to \$3,212,000, an increase of \$181,000, or 6·0 per cent; while under the Miscellaneous Commodities group domestic exports to the United Kingdom increased from \$2,729,000 to \$3,198,000, or \$469,000, an increase of 17·2 per cent.

The increase in Canada's domestic exports to the United Kingdom from 1934-35 to 1935-36, amounting to \$30,672,000, occurred in the following commodities or groups of commodities:—Aluminum and products, from \$4,890,000 to \$6,012,000, or \$1,122,000; barley, from \$1,815,000 to \$2,306,000, or \$491,000; copper and its products, chiefly in forms, from \$14,741,000 to \$16,381,000, or \$1,640,000; doors, sashes and blinds, chiefly doors, from \$826,000 to \$2,235,000,

or \$1,409,000; films, from \$1,383,000 to \$1,869,000, or \$486,000; fish, chiefly canned fish, from \$5,402,000 to \$6,424,000, or \$1,022,000; fruits, chiefly fresh apples, from \$8,909,000 to \$10,452,000, or \$1,543,000; lard and lard compounds, from \$261,000 to \$2,338,000, or \$2,077,000; lead in pigs, from \$3,186,000 to \$5,234,000, or \$2,048,000; leather, unmanufactured, from \$2,825,000 to \$3,426,000, or \$601,000; machinery, from \$2,062,000 to \$2,561,000, or \$499,000; nickel, from \$9,697,000 to \$16,367,000, or \$6,670,000; oats, from \$2,985,000, to \$3,492,000; or \$507,000; paper, chiefly newsprint, from \$5,402,000 to \$6,998,000, or \$1,596,000; pigs, ingots and blooms of iron or steel, from \$636,000 to \$1,354,000, or \$718,000; vegetables, chiefly canned, and pickles and sauces, from \$1,830,000 to \$2,803,000, or \$973,000; wheat, from \$90,191,000 to \$111,656,000, or \$21,465,000; wheat flour, from \$8,724,000 to \$9,577,000, or \$853,000; wood pulp, from \$1,702,000 to \$2,218,000, or \$516,000; and zinc spelter, from \$5,264,000 to \$6,690,000, or \$1,426,000; while the following commodities during the same period show decreases, namely: Animals, living, chiefly cattle, from \$3,117,000 to \$241,000 or \$2,876,000; automobiles, from \$3,533,000 to \$2,726,000, or \$807,000; furs, chiefly raw, from \$10,005,000 to \$9,260,000, or \$745,000; gold bullion, non-monetary, from \$16,703,000 to \$2,600,000, or \$14,103,000; meats, chiefly bacon and hams, from \$22,747,000 to \$21,162,000, or \$1,585,000; and planks and boards, from \$14,522,000 to \$13,926,000, or \$596,000.

## CANADA'S TRADE WITH THE UNITED STATES, 1935-36

(a) **Analysis of Canada's Total Trade with the United States, 1935-36:**—Canada's total trade with the United States during the fiscal year 1935-36 was valued at \$691,606,000 compared with a similar trade in the fiscal year 1932-33, valued at \$435,342,000; in 1933-34 at \$463,169,000, and in 1934-35 at \$614,546,000; the increase in the fiscal year 1935-36 over 1932-33 amounting to \$256,264,000 or 58.9 per cent; over the year 1933-34 to \$228,437,000 or 49.3 per cent; and over 1934-35 to \$77,060,000, or 12.5 per cent. Imports and exports in 1935-36 exceeded similar trade in 1932-33, 1933-34, and 1934-35. The imports from the United States in 1935-36 amounted to \$319,479,000; in 1932-33 to \$232,548,000; in 1933-34 to \$238,188,000; and in 1934-35 to \$303,640,000; the increase in the fiscal year 1935-36 over the year 1932-33 amounting to \$86,931,000 or 37.4 per cent; over the year 1933-34 to \$81,291,000 or 34.1 per cent; and over 1934-35 to \$15,839,000 or 5.2 per cent; while the total exports from Canada to the United States in the fiscal year 1935-36 amounted to \$372,127,000, compared with \$202,794,000 in the fiscal year 1932-33; \$224,981,000 in 1933-34; and \$310,906,000 in 1934-35; the increase in the fiscal year 1935-36 over 1932-33 amounting to \$169,333,000 or 83.5 per cent; over 1933-34 to \$147,146,000 or 65.4 per cent; and over 1934-35 to \$61,221,000 or 19.7 per cent. Canada's domestic exports to the United States in the fiscal year 1935-36 amounted to \$360,302,000; in 1932-33 to \$197,425,000; in 1933-34 to \$220,073,000; and in 1934-35 to \$304,722,000; the increase in 1935-36 over 1932-33 amounting to \$162,877,000 or 82.5 per cent; over 1933-34 to \$140,229,000 or 63.7 per cent; and over 1934-35 to \$55,580,000 or 18.2 per cent.

For the fiscal year 1935-36, Canada's visible merchandise trade balance with the United States was favourable to the extent of \$52,648,000; in 1932-33 it was unfavourable to the extent of \$29,754,000, and in 1933-34 of \$13,207,000; but in 1934-35 it was favourable, amounting to \$7,266,000. The improvement in Canada's visible merchandise trade balance with the United States in 1935-36 compared with 1932-33, amounted to \$82,402,000; in 1933-34 to \$65,855,000; and in 1934-35 to \$45,382,000. If the trade in merchandise and coin and bullion are combined, the visible trade balance with the United States in the fiscal year 1935-36 was favourable to the extent of \$55,119,000, but in the year 1932-33 it was unfavourable, amounting to \$20,025,000; in 1933-34, it was also unfavourable, amounting to \$13,700,000; but in 1934-35 it was favourable, amounting to \$7,328,000.

## (b) Canada's Monthly Trade Trends with the United States, April-March, 1935-36:

—The imports into Canada from the United States during each month in the fiscal year 1935-36 were greater than for any corresponding month in the fiscal years 1932-33, 1933-34, and 1934-35, except for the months of May, June and December in the fiscal year 1934-35; while Canada's domestic exports to the United States during each month of the year 1935-36 exceeded similar exports in each month of the fiscal years 1932-33, 1933-34, and 1934-35, except for the months of February and March in the year 1933-34, and for the months of May and February in 1934-35.

(c) **Discrepancy in Canada-United States Trade Statistics, 1935:**—In considering the discrepancy between Canada's statistics of trade with the United States, and the United States statistics of trade with Canada, many factors must be noted in arriving at a satisfactory explanation. In the United States, Alaska, Hawaii and Puerto Rico are considered as United States territory for trade and other purposes, while in Canada they are considered as separate entities. In the United States, also, raw gold, gold bullion, non-monetary, silver ore and silver bullion are not included in the general trade figures, whereas in Canada these non-ferrous metals are included. When these adjustments are made in the exports from Canada to the United States there is still a discrepancy in the movement of products from Canada to the United States, as recorded in the trade figures of the two countries amounting to less than 2 per cent in 1928 and 1929, about 3.7 per cent in 1930, 6 per cent in 1931, 1932, 1933, 2 per cent in 1934, and about 7.4 per cent in 1935, as indicated in the following table:—

## MOVEMENT OF GOODS FROM CANADA TO THE UNITED STATES

(Calendar Years, 1928 to 1935)

Calendar Years	Imports into United States from Canada	Exports from Canada to United States (c)	Discrepancy: In favour of Canada (a) In favour of United States (b)
	\$	\$	\$
1928.....	489,300,000	497,200,000	(a) 7,900,000
1929.....	504,300,000	512,100,000	(a) 7,800,000
1930.....	402,300,000	389,600,000	(b) 15,700,000
1931.....	266,300,000	248,500,000	(b) 17,800,000
1932.....	174,100,000	164,000,000	(b) 10,100,000
1933.....	185,400,000	171,300,000	(b) 14,100,000
1934.....	227,300,000	222,100,000	(b) 5,200,000
1935.....	285,100,000	264,100,000	(b) 21,000,000

(c) Canadian figures adjusted by adding to the exports to United States, exports to Alaska, Hawaii and Puerto Rico, and deducting exports of raw gold, gold bullion, non-monetary, silver ore and silver bullion.

With reference to the above discrepancy, it may be of interest to point out (1) that in the years 1928 to 1930 Canada exported large quantities of alcoholic beverages to the United States, while the United States in these years recorded no imports of alcoholic beverages from Canada; and (2) that from 1928 to 1935 the United States wheat imports from Canada were much in excess of Canada's wheat exports to the United States, due to the fact that large quantities of wheat shipped to overseas countries via the United States were diverted to the United States, this diverted wheat being credited to Canada in United States trade statistics, though Canada had no export record of such diversions. If these differences, 1930 to 1935, are taken into account, it will be found that the discrepancy in the foregoing table in favour of the United States in 1930 would be reduced by about \$4,000,000; in 1931 by \$7,000,000; in 1932 by about \$5,000,000; in 1933 by about \$5,700,000; in 1934 by about \$3,800,000; and in 1935 by about \$13,800,000.

There is, however, a considerable discrepancy between the Canadian imports from the United States and United States exports to Canada, even when adjustments are made in Canada's imports. This is largely due to United States recording in their exports to Canada, especially grains, mainly wheat, which are only in transit via Canada to overseas countries. The United States Department of Commerce is aware that a large percentage of the exports shown as shipped to Canada are really only in transit to overseas countries via Canada. On pages 31 and 32 of Trade Information Bulletin No. 602 re "Foreign Trade of the United States, 1928", the Bulletin states that "the figures of trade by continents as originally published are somewhat misleading in the case of exports to North America and to Europe. This is due to the fact that especially during recent years, large quantities of grain have been shipped through Canada to foreign countries almost exclusively to Europe, which, because the exporter at the time of shipment does not know the final destination, are credited to Canada". Such shipments do not appear in the import or export trade of Canada, being considered as intransit trade. The amount of these grain shipments to Canada has varied in recent years, in 1928 amounting to \$2,800,000, and in 1935 to \$1,100,000. It will appear from the statistics in the following table that when these grain shipments are eliminated from the United States exports to Canada, the revised United States exports to Canada, and Canada's adjusted imports from the United States agree fairly well, except for the year 1932 and 1935. In fact, the discrepancy between the two sets of figures is less than 4 per cent, except for the years 1932 and 1935.

## MOVEMENT OF GOODS FROM THE UNITED STATES TO CANADA

(Calendar Years, 1928 to 1935)

Calendar Years	Total Unrevised Exports from United States to Canada	Less United States Exports of Grains to Canada	Total Revised Exports from United States to Canada	Canada's Adjusted Imports from United States (c)	Discrepancy: In favour of Canada (a) In favour of United States (b)
	\$	\$	\$	\$	\$
1928.....	914,700,000	82,800,000	831,900,000	825,100,000	(b) 6,800,000
1929.....	948,500,000	49,400,000	899,100,000	893,200,000	(b) 5,900,000

(c) Canadian figures adjusted by adding to the imports from United States, imports from Alaska, Hawaii and Puerto Rico and deducting imports of gold, unmanufactured, for commercial purposes, and silver bullion.

(d) **Canada's Principal Imports from the United States, 1935-36:**—The imports into Canada from the United States during the fiscal year 1935-36, amounting to \$319,479,000, were \$15,839,000, or 5.2 per cent greater than for the fiscal year 1934-35. Eight of the nine main groups show increases, and one a decrease, namely, Agricultural and Vegetable Products. Canada's imports from the United States under the Agricultural and Vegetable Products group from 1934-35 to 1935-36 decreased from \$35,602,000 to \$30,960,000, a decrease of \$4,642,000, or 13.0 per cent; while imports under the Animals and Animal Products group increased from \$9,828,000 to \$10,973,000, or \$1,145,000, an increase of 11.7 per cent. Under the main group of Fibres,

Textiles and Textile Products from 1934-35 to 1935-36 imports from the United States increased from \$30,562,000 to \$32,094,000, an increase of \$1,532,000, or 5.0 per cent; while imports under the Wood, Wood Products and Paper group increased from \$16,046,000 to \$17,863,000, an increase of \$1,817,000, or 11.3 per cent. Canada's imports from the United States under the Iron and Its Products group from 1934-35 to 1935-36 increased from \$77,478,000 to \$88,429,000, or \$10,951,000, an increase of 14.1 per cent; while imports under the Non-Ferrous Metals and Their Products group increased from \$20,858,000 to \$23,305,000, an increase of \$2,447,000 or 11.7 per cent. Under the Non-Metallic Minerals and Their Products group from 1934-35 to 1935-36 imports from the United States increased from \$77,257,000 to \$78,089,000, an increase of \$832,000, or 1.1 per cent; under the Chemicals and Allied Products group imports during the same period increased from \$17,118,000 to \$17,500,000, or \$382,000, an increase of 2.2 per cent; while imports under the Miscellaneous Commodities group increased from \$18,891,000 to \$20,266,000, an increase of \$1,375,000, or 7.3 per cent.

The increase in Canada's imports from the United States from 1934-35 to 1935-36, amounting to \$15,839,000, occurred in the following principal commodities, or groups of commodities: Aluminium and products, from \$2,032,000 to \$2,647,000, or \$615,000; automobiles, from \$2,076,000 to \$2,943,000, or \$867,000; automobile parts, from \$22,100,000 to \$22,581,000, or \$481,000; books and printed matter from \$6,594,000 to \$7,285,000, or \$691,000; electrical apparatus, from \$7,077,000 to \$7,598,000, or \$521,000; farm implements and machinery, from \$3,341,000 to \$5,713,000, or \$2,372,000; fruits, green, from \$9,415,000 to \$10,612,000, or \$1,206,000; furs, chiefly raw, from \$2,334,000 to \$3,675,000, or \$1,341,000; glass and glassware, from \$2,968,000 to \$3,319,000, or \$351,000; iron ore, from \$1,261,000 to \$1,573,000, or \$312,000; leather, unmanufactured, from \$1,486,000 to \$1,702,000, or \$216,000; lubricating oils, from \$2,333,000 to \$2,644,000, or \$311,000; machinery, from \$15,808,000 to \$18,562,000, or \$2,754,000; nuts, except coconuts, from \$366,000 to \$532,000, or \$166,000; paper, from \$3,700,000 to \$4,015,000, or \$315,000; petroleum oil, crude, from \$24,970,000 to \$27,409,000, or \$2,439,000; plates and sheets, of iron or steel, from \$5,903,000 to \$7,353,000, or \$1,450,000; precious metals, chiefly silver bullion, from \$3,252,000 to \$3,949,000, or \$697,000; silk, raw, from \$3,655,000 to \$4,905,000, or \$1,250,000; stone and products, from \$3,196,000 to \$3,654,000, or \$458,000; vegetable oils, from \$2,168,000 to \$2,562,000, or \$394,000; vegetables, fresh, from \$2,747,000 to \$3,155,000, or \$408,000; and wood, unmanufactured, from \$3,702,000 to \$4,169,000, or \$467,000; while the following principal commodities, or groups of commodities show decreases: Coal, from \$27,068,000 to \$25,044,000, or \$2,024,000; cotton, raw, from \$17,097,000 to \$16,402,000, or \$695,000; rubber, crude, from \$6,144,000 to \$1,559,000, or \$4,585,000; tin in blocks, from \$1,211,000 to \$419,000, or \$792,000; and tobacco, raw, from \$2,153,000 to \$1,556,000, or \$597,000.

(c) **Canada's Principal Domestic Exports to the United States, 1935-36:**—Canada's domestic exports to the United States in the fiscal year 1935-36, amounting to \$360,302,000, were \$55,580,000 or 18.2 per cent greater than for the fiscal year 1934-35. Eight of the nine main groups show increases, and one a decrease, namely, Miscellaneous Commodities. Canada's domestic exports to the United States under the main group of Agricultural and Vegetable Products from 1934-35 to 1935-36 increased from \$43,148,000 to \$44,663,000, an increase of \$1,515,000 or 3.5 per cent; while the domestic exports under the Animals and Animal Products group during the same period increased from \$19,923,000 to \$34,058,000, or \$14,135,000, an increase of 70.9 per cent. Under the Fibres, Textiles and Textile Products group Canada's domestic exports to the United States from 1934-35 to 1935-36 increased from \$855,000 to

\$2,612,000, an increase of \$1,757,000 or 205.5 per cent; while the exports during the same period under the main group of Wood, Wood Products and Paper increased from \$108,725,000 to \$125,248,000 or \$16,523,000, an increase of 15.2 per cent. Under the Iron and Its Products group Canada's domestic exports to the United States from 1934-35 to 1935-36 increased from \$2,739,000 to \$5,412,000, an increase of \$2,673,000 or 97.6 per cent; while under the Non-Ferrous Metals and Their Products group the exports during the same period increased from \$105,237,000 to \$121,784,000, an increase of \$16,547,000, or 15.7 per cent. Canada's domestic exports to the United States under the Non-Metallic Minerals and Their Products group from 1934-35 to 1935-36 increased from \$9,215,000 to \$11,566,000, or \$2,351,000, an increase of 25.5 per cent; under the Chemicals and Allied Products group exports during the same period increased from \$7,334,000 to \$7,458,000, an increase of \$124,000, or 1.7 per cent; while exports under the Miscellaneous Commodities group decreased from \$7,546,000 to \$7,501,000, a decrease of \$45,000, or 0.6 per cent.

The increase in Canada's domestic exports to the United States from 1934-35 to 1935-36 amounting to \$55,580,000, occurred in the following principal commodities, or groups of commodities: Abrasives, artificial, crude, from \$2,971,000 to \$3,295,000, or \$324,000; alcoholic beverages, chiefly whiskey, from \$13,188,000 to \$15,944,000, or \$2,756,000; animals, living, chiefly cattle and horses, from \$2,358,000 to \$9,079,000, or \$6,721,000; asbestos, raw, from \$3,039,000 to \$4,911,000 or \$1,872,000; binder twine, from \$181,000 to \$623,000, or \$442,000; copper and its products, from \$4,509,000 to \$5,634,000, or \$1,125,000; farm implements and machinery, from \$603,000 to \$2,467,000, or \$1,864,000; films, from \$1,111,000 to \$1,415,000, or \$304,000; fish, from \$9,307,000 to \$10,836,000, or \$1,529,000; furs, undressed, from \$4,098,000 to \$5,623,000, or \$1,525,000; gold, raw, from \$3,718,000 to \$4,768,000, or \$1,050,000; gold bullion, non-monetary, from \$80,023,000 to \$80,815,000 or \$792,000; hides, raw, from \$1,348,000 to \$3,078,000, or \$1,730,000; leather, unmanufactured, from \$244,000 to \$464,000, or \$220,000; maple sugar, from \$468,000 to \$641,000, or \$173,000; meats, from \$568,000 to \$1,831,000, or \$1,263,000; milk and products, from \$250,000 to \$627,000, or \$377,000; nickel, from \$12,382,000 to \$17,374,000, or \$4,992,000; paper, chiefly newsprint, from \$68,649,000 to \$73,684,000, or \$5,035,000; pigs, ingots and blooms of iron or steel, from \$1,085,000 to \$1,325,000, or \$240,000; pneumatic tire casings, from \$10,000 to \$299,000, or \$289,000; scrap iron and steel, from \$372,000 to \$816,000, or \$444,000; silver bullion, from \$2,636,000 to \$10,362,000, or \$7,726,000; soda and compounds, from \$1,151,000 to \$1,484,000, or \$333,000; tar and pitch, from \$362,000 to \$523,000, or \$161,000; vegetables and products, chiefly turnips, from \$894,000 to \$1,043,000, or \$149,000; wheat, from \$11,197,000 to \$16,660,000, or \$5,463,000; wood and products, chiefly planks and boards, shingles, and wood pulp, from \$39,786,000 to \$51,187,000, or \$11,401,000; and wool, raw, from \$150,000 to \$982,000, or \$832,000; while the following exports to the United States show decreases: Acids, from \$2,144,000 to \$1,807,000, or \$337,000; barley, from \$6,003,000 to \$1,222,000, or \$4,781,000; bran, shorts and middlings, from \$2,799,000 to \$2,398,000, or \$401,000; hay, from \$674,000 to \$230,000, or \$444,000; and oats, from \$1,335,000 to \$213,000, or \$1,122,000.

(f) **Decrease in Canada-United States Trade, 1935-36:**—Canada's imports from the United States in the fiscal year 1920-21, amounting to \$856,177,000, declined to \$515,958,000 in 1921-22, but from then on there was an upward trend (except for the year 1924-25) until they reached the high total of \$868,012,000 in 1928-29, but in 1929-30 imports had declined to \$847,442,000, being only \$8,735,000 less than for the year 1920-21. Subsequent to 1929-30, the duties under the General Tariff were increased on a large number of items, resulting in a decrease in the imports from the United States from 1929-30 to 1933-34 of \$609,254,000. The depression as well as the fall in commodity prices also had a marked effect on the decline in imports from the United States. In 1934-35 there was an upward trend in Canada's imports from the United States, and also in the year 1935-36, the increase from 1933-34 to 1934-35 amounting to \$65,452,000, and from 1934-35 to 1935-36 to \$15,840,000.

Canada's imports from the United States for the fiscal years 1920-21, to 1935-36 were as under:—

Fiscal Years	\$	Fiscal Years	\$	Fiscal Years	\$
1920-21.....	856,177,000	1925-26.....	608,619,000	1931-32.....	351,687,000
1921-22.....	515,958,000	1926-27.....	687,023,000	1932-33.....	232,548,000
1922-23.....	540,960,000	1927-28.....	718,896,000	1933-34.....	238,188,000

		1930-31.....	584,407,000		

Canada's domestic exports to the United States in the fiscal year 1920-21, amounting to \$542,323,000, the highest on record, declined to \$292,589,000 in 1921-22, but from then on there was an upward trend (except for the years 1924-25 and 1926-27), until they totalled \$515,050,000 in 1929-30, being \$27,273,000 less than for the record year 1920-21. From 1929-30 to 1933-34 domestic exports to the United States decreased \$294,977,000, but from 1933-34 on there was an upward trend, the increase in the domestic exports to the United States from 1933-34 to 1934-35 amounting to \$84,648,000, and from 1934-35 to 1935-36 to \$55,581,000.

Canada's domestic exports to the United States for the fiscal years 1920-21 to 1935-36, were as under:—

Fiscal Years	\$	Fiscal Years	\$	Fiscal Years	\$
1920-21.....	542,323,000	1925-26.....	480,200,000	1931-32.....	257,770,000

1923-24.....	430,708,000	1928-29.....	504,162,000	1934-35.....	304,721,000
1924-25.....	417,417,000	1929-30.....	515,050,000	1935-36.....	360,302,000
		1930-31.....	349,661,000		

Under the Underwood Tariff which was in force in the United States from October 3, 1913, to May 27, 1921, Canada increased her domestic exports to the United States from \$139,725,000 to \$542,323,000 from 1912-13 to 1920-21, while the exports of farm products in 1920-21 totalled \$190,790,000. Under this Tariff 88.4 per cent of Canada's exports to the United States in 1920 was admitted duty free. Under the Emergency Tariff, which was in force from May 27, 1921, to September 21, 1922, and the Fordney-McCumber Tariff, from September 21, 1922, to June 18, 1930, Canada's exports of farm products (chiefly raw materials) from 1920-21 to 1929-30, decreased from \$190,790,000 to \$92,134,000, while under the Hawley-Smoot Tariff, which came into force on June 18, 1930, Canada's exports of farm products to the United States show a further decline, the exports amounting to \$6,048,000 in 1932-33. In 1933-34 they had increased to \$28,655,000, in 1934-35 to \$49,294,000, and in 1935-36 to \$61,897,000, being \$30,237,000 less than in 1929-30. A heavy duty was imposed on fish under the Fordney-McCumber and Hawley-Smoot Tariffs, which seriously affected the market in the United States for Canadian fish, while in June, 1932, the United States placed a heavy duty on softwood lumber and copper, which

also seriously affected Canada's exports of lumber and copper to the United States. It is expected, however, that the Canada-United States Trade Agreement, effective from January 1, 1936, will increase the exchange of commodities between the two countries, and will, to a certain extent, offset the prejudicial effects of the United States Tariff Acts of 1921, 1922, 1930, and 1932.

The statistics in the following table showing Canada's exports of certain farm, fish, copper and lumber products to the United States, years 1920-21 to 1935-36, reflect the extent to which the exports of these products were affected by changes in the United States Tariff Acts of 1921, 1922, 1930, and 1932.

CANADA'S EXPORTS OF CERTAIN FARM, FISH, LUMBER AND COPPER PRODUCTS TO THE UNITED STATES, 1920-21 TO 1935-36, AFFECTED BY UNITED STATES TARIFF ACTS OF 1921, 1922, 1930 AND 1932

CANADA'S TRADE WITH AUSTRALIA, 1935-36

Canada's trade with Australia during the fiscal year 1935-36 shows a marked improvement compared with the years 1931-32, 1932-33, 1933-34, and 1934-35. Imports from Australia in the fiscal year 1935-36 were 27.7 per cent greater than in 1931-32; 23.1 per cent greater than in 1932-33; 35.7 per cent greater than in 1933-34; and 15.0 per cent greater than in 1934-35 while domestic exports to Australia in 1935-36 exceeded similar exports in 1931-32 by 344.8 per cent; in 1932-33 by 227.8 per cent; in 1933-34 by 97.5 per cent; and in 1934-35 by 32.9 per cent. In the fiscal year 1935-36, Canada's imports from Australia were valued at \$7,277,000 compared with \$5,697,000 in 1931-32, with \$5,903,000 in 1932-33, with \$5,363,000 in 1933-34, and with \$6,327,000 in 1934-35; while her domestic exports to Australia in 1935-36 amounted to \$23,974,000, compared with an export trade amounting to \$5,387,000 in 1931-32, to \$7,313,000 in 1932-33, to \$12,139,000 in 1933-34, and to \$18,082,000 in 1934-35. In the fiscal year 1931-32 Australia occupied seventh place in Canada's imports, fifth place in 1932-33, sixth place in the years 1933-34 and 1934-35, and fifth place in 1935-36; while in the Dominion's export trade Australia occupied twelfth place in 1931-32, tenth place in 1932-33, sixth place in 1933-34, and third place in 1934-35 and 1935-36. Canada's imports from Australia in the fiscal year 1935-36 (\$7,277,000) were the highest on record for a fiscal year period, the previous high record (\$6,327,000) was for the fiscal year 1934-35; while the domestic exports to Australia during the fiscal year 1935-36 (\$23,974,000) were also the highest on record, the previous high record (\$19,924,000) was for the fiscal year 1923-24.

## CANADA'S PRINCIPAL IMPORTS FROM AND DOMESTIC EXPORTS TO AUSTRALIA

# TRADE OF CANADA WITH BRITISH SOUTH AFRICA, 1935-36 (Including Southern Rhodesia)

The trade of Canada with British South Africa for the fiscal year 1935-36 was greater than for the years 1931-32, 1932-33, 1933-34, 1934-35. Imports from British South Africa in 1935-36 show an increase compared with the year 1931-32 of 10.3 per cent, with the year 1932-33 a decrease of 2.7 per cent, but compared with the year 1933-34 the increase was 30.9 per cent, and with 1934-35, 37.8 per cent; while the domestic exports to British South Africa in 1935-36 exceeded similar exports in 1931-32 by 70.1 per cent, in 1932-33 by 257.1 per cent, in 1933-34 by 86.1 per cent, and in 1934-35 by 12.9 per cent. Canada's imports from British South Africa in 1935-36 were valued at \$4,769,000, compared with an import trade in 1931-32 valued at \$4,323,000, in 1932-33 at \$4,907,000, in 1933-34 at \$3,642,000, and in 1934-35 at \$3,460,000; while the Dominion's domestic exports to British South Africa in 1935-36 were valued at \$14,292,000, compared with \$8,401,000 in 1931-32, \$4,002,000 in 1932-33, \$7,680,000 in 1933-34, and \$12,656,000 in 1934-35. In Canada's import trade in 1931-32, British South Africa occupied thirteenth position, in 1932-33 sixth position, in 1933-34 seventh position, in 1934-35 thirteenth position, and in 1935-36 ninth position; while in the Dominion's export trade British South Africa occupied ninth position in 1931-32, thirteenth position in 1932-33, ninth position in 1933-34, and fifth position in 1934-35 and 1935-36. During the fiscal year 1935-36 Canada's imports from British South Africa were greater than for any fiscal year on record, except for the year 1932-33 (\$4,907,000); while her domestic exports to British South Africa in 1935-36 were only exceeded in one fiscal year, viz.:—1920-21 (\$14,649,000), a year of extremely high export prices.

## CANADA'S PRINCIPAL IMPORTS FROM AND DOMESTIC EXPORTS TO BRITISH SOUTH AFRICA (Fiscal Years ended March 31, 1931-32, 1932-33, 1933-34, 1934-35 and 1935-36)

NOTE—Includes trade with Southern Rhodesia.

## CANADA'S TRADE WITH NEW ZEALAND, 1935-36

The total trade of Canada with New Zealand in the fiscal year 1935-36 was greater than for the years 1931-32, 1932-33, 1933-34 and 1934-35. Imports from New Zealand in 1935-36 were 235.4 per cent higher than in 1931-32, 273.4 per cent higher than in 1932-33, 38.3 per cent higher than in 1933-34, and 42.9 per cent higher than in 1934-35; while the domestic exports to New Zealand in 1935-36 exceeded similar export trade in 1931-32 by 174.5 per cent, in 1932-33 by 183.2 per cent, in 1933-34 by 128.1 per cent, and in 1934-35 by 39.2 per cent. Canada's imports from New Zealand in 1935-36 were valued at \$3,622,000, compared with \$1,080,000 in 1931-32, with \$970,000 in 1932-33, with \$2,619,000 in 1933-34, and with \$2,535,000 in 1934-35; while her domestic exports to New Zealand in 1935-36 were valued at \$10,221,000, compared with \$3,724,000 in 1931-32, with \$3,609,000 in 1932-33, with \$4,480,000 in 1933-34, and with \$7,345,000 in 1934-35. New Zealand in Canada's import trade in 1931-32 occupied twenty-ninth place, in 1932-33 twenty-sixth place, in 1933-34, seventeenth place, in 1934-35 eighteenth place, and in 1935-36 seventeenth place; while in Canada's export trade, New Zealand in 1931-32 occupied sixteenth place, in 1932-33 fifteenth place, in 1933-34 twelfth place, in 1934-35 ninth place, and in 1935-36 seventh place.

CANADA'S TRADE WITH OTHER EMPIRE AND FOREIGN COUNTRIES, 1935-36

The British Preferential Tariff enacted in 1897, which granted a trade preference to the products and manufactures of the United Kingdom and reciprocating Dominions and Possessions of 12½ per cent from April 23, 1897, which was increased to 25 per cent from June 30, 1898, and to 33½ per cent from June 30, 1900, and the New Customs Tariff Act, 1907, which contained the preferential policy; as well as trade treaties and agreements, negotiated with British and Foreign Countries, have had the effect of stimulating Canada's external trade. When the British preference became effective in 1896-97, Canada's total imports from the United Kingdom in that year amounted to only \$29,401,000, compared with an import in 1886-87 valued at \$44,741,000, and in 1872-73 at \$67,997,000, the decrease in 1896-97 compared with 1886-87, amounting to \$15,340,000, and with 1872-73 to \$38,596,000. From 1872-73 to 1896-97 imports from the United Kingdom decreased \$38,596,000 or 56.7 per cent, while from 1896-97 to 1929-30 they increased \$159,779,000 or 543.4 per cent; since 1929-30 imports from Britain declined materially, until for the year 1935-36 they show an increase over the year 1896-97 of \$88,475,000 or 300.9 per cent. The British Preferential Tariff was no doubt largely responsible for the increase in imports from the United Kingdom as well as from other parts of the Empire. By reference to the statistics in the following table giving "Trade of Canada with the British Empire and Foreign Countries" it will be noted that in the fiscal year 1895-96, imports from "Other British Empire", i.e., British Empire, except the United Kingdom, amounted to \$2,389,000, in 1905-06 to \$14,606,000, in 1915-16 to \$27,826,000, in 1925-26 to \$45,089,000, and in 1929-30 to \$63,495,000, but by 1935-36 they had decreased to \$59,846,000, being only \$3,649,000 less than in 1929-30; while domestic exports to the "Other British Empire" in 1895-96 were valued at \$4,048,000, in 1905-06 at \$10,965,000, in 1915-16 at \$30,677,000, in 1925-26 at \$90,330,000, and in 1929-30 at \$97,825,000, but by 1935-36 they were valued at \$77,755,000. During the same years the imports from "Other Foreign Countries", i.e., Foreign Countries except the United States, were: in 1895-96, \$16,619,000, in 1905-06, \$30,694,000, in 1915-16, \$32,091,000, in 1925-26, \$109,890,000, and in 1929-30, \$148,157,000, but in 1935-36 they were \$65,518,000; while domestic exports to "Other Foreign Countries" were: In 1895-96, \$5,152,000, in 1905-06, \$13,516,000, in 1915-16, \$57,974,000, in 1925-26, \$241,800,000, and in 1929-30, \$225,637,000, but in 1935-36 they were \$89,417,000.

The tendency of Canada's trade during the past three or four years has been towards a greater exchange of commodities with Empire countries. The statistics in the following table giving percentages of Canada's trade with Empire and foreign countries for a series of years indicate that the proportion of Canada's imports from Empire countries from 1929-30 to 1935-36 increased from 20.3 to 31.6 per cent, and exports to, from 33.9 to 47.0 per cent; while the proportion of imports from foreign countries decreased from 79.7 per cent to 68.4, and exports to, from 66.1 to 53.0 per cent. During the same period the proportion of Canada's imports from the United Kingdom increased from 15.2 to 21.0 per cent, and exports to, from 25.2 to 37.9 per cent; while imports from the United States decreased from 67.9 to 56.8 per cent, and exports to, from 46.0 to 42.5 per cent.

# OPERATION OF CANADIAN PREFERENCE ON UNITED KINGDOM IMPORTS, 1935-36

Since the inauguration of the British preference in 1897, statistics giving the average ad valorem rate of duty on dutiable imports into Canada from the United Kingdom and the United States, respectively, have been called for. The average rate of duty is lower as a rule on dutiable imports from the United States than from the United Kingdom. It must be remembered in this connection, however, that the dutiable imports from the United Kingdom consist very largely of highly manufactured commodities subject to high rates of duty, whereas the dutiable imports from the United States consist, in large measure, of semi-manufactured commodities for further processing in Canadian industries, admitted at reasonably low rates of duty.

Another factor in Canada's imports from the United Kingdom, compared with those from the United States, which affects the average rates of duty for the two countries and which is frequently ignored, is the trade in alcoholic liquors, which are imported in large volume from the United Kingdom, but in small volume from the United States. Imports of tobacco should also be added, as in almost all countries alcoholic liquors and tobacco are subject to high rates of duty, the principle in dealing with these commodities being not so much protection as the raising of revenue or the discouraging of consumption. In recent years the Canadian Government has considerably expanded the list of commodities which are admitted free under the preferential tariff, but which are dutiable under the intermediate and general tariffs. In the fiscal year 1935-36 the imports from the United Kingdom free under the preferential tariff were valued at \$48,736,725. The statistics in the following tables present (1) Imports without the adjustments of these items, and (2) Imports with the adjustments. It will be noted from statement No. 2 that the ad valorem rates of duty on dutiable imports from the United Kingdom, after adjustments have been made for the years 1921-22, to 1935-36, are lower than those for the United States, and that the average ad valorem rates of duty for the United Kingdom were: 1930-31, 15.65 per cent; 1931-32, 18.62 per cent; 1932-33, 14.52 per cent; 1933-34, 11.97 per cent; 1934-35, 12.03 per cent; and 1935-36, 11.13 per cent; and for the United States: 1930-31, 24.73 per cent; 1931-32, 27.45 per cent; 1932-33, 28.06 per cent; 1933-34, 28.54 per cent; 1934-35, 27.37 per cent; and 1935-36, 26.26 per cent; indicating an advantage to the United Kingdom under the preference of 9.08 per cent in 1930-31; 8.83 per cent in 1931-32; 13.54 per cent in 1932-33; 16.57 per cent in 1933-34; 15.34 per cent in 1934-35; and 15.13 per cent in 1935-36.

## 1.—CANADA'S DUTIABLE IMPORTS FROM THE UNITED KINGDOM AND THE UNITED STATES; WITH AMOUNT OF DUTY COLLECTED THEREON, AND AVERAGE AD VALOREM RATE OF DUTY.

The statistics in the following table re "Imports into Canada from the United Kingdom, fiscal years 1924-25 to 1935-36", indicate a very marked increase in the imports of goods from the United Kingdom free under the Preferential Tariff. The proportion of imports subject to duty of total imports from the United Kingdom in 1924-25 was 82.5 per cent, and free goods 17.5 per cent; imports free under the Preferential Tariff amounting to 0.6 per cent, and under the General Tariff to 16.9 per cent; in 1929-30 the proportion of dutiable imports of total imports was 78.6 per cent, and free goods 21.4 per cent; imports free under the Preferential Tariff amounting to 5.6 per cent, and under the General Tariff to 15.8 per cent; whereas in the year 1935-36 the proportion of dutiable imports of total imports from the United Kingdom was 47.5 per cent, and free imports 52.5 per cent; imports free under the Preferential Tariff amounting to 41.3 per cent, and under the General Tariff to 11.2 per cent.

**RELATION BETWEEN TRADE IN RAW AND MANUFACTURED PRODUCTS, 1935-36**

Canada was not engaged to any great extent in manufacturing processes for some years after Confederation, and consequently her imports consisted very largely of manufactured goods, and her exports of raw and semi-manufactured products. Since the opening of the twentieth century, a conspicuous change has developed, a large percentage of Canada's imports consisting of raw and semi-manufactured products for use in Canadian manufacturing industries, and the exports consisting to a considerable degree of products which have undergone some process of manufacture. Canada, during this period, has passed through much the same stages of development in her economic life as did the United States from 1870 to 1900. From 1870 to 1900 the imports of raw materials into the United States increased from 25.2 to 44.0 per cent of the total imports; and fully manufactured products decreased from 62.1 to 40.2 per cent; while exports of raw materials from the United States during the same interval decreased from 67.7 to 40.2 per cent of the total exports, and fully manufactured products increased from 28.6 to 48.6 per cent. Compared with 1900, the 1935 statistics show that imports of raw materials into the United States increased from 44.0 to 44.4 per cent of the total imports, and exports decreased from 40.2 to 33.1 per cent of the total exports; whereas imports of fully manufactured products decreased from 40.2 to 35.5 per cent, and exports increased from 48.6 to 51.3 per cent. Compared with 1930 the United States statistics for 1935 indicate a decline in the percentage of raw materials imported, but an increase in the percentage exported, a decrease in the percentage of semi-manufactured products imported, but an increase in the percentage exported, while the imports of manufactured products in 1935 show an increase over 1930, and the exports a decrease.

From 1914 to 1936 (fiscal years) the percentage of imports into Canada of raw materials of the total imports increased from 21.8 to 29.4 per cent, while exports of raw materials of the total domestic exports decreased from 63.2 to 31.1 per cent. Canada's imports of fully manufactured products from 1914 to 1936 decreased from \$426,300,000 to \$336,400,000, or 21.1 per cent; while the domestic exports of fully manufactured products during the same interval increased from \$115,300,000 to \$324,200,000, or 181.1 per cent. The percentage of imports of fully manufactured products from 1914 to 1936 decreased from 68.9 to 59.8 per cent, while the percentage of exports of fully manufactured products increased from 26.7 to 38.2 per cent. The decrease in the percentage of exports of raw materials and of fully manufactured goods in recent years was attributable to the drastic decline in commodity prices; prices of raw materials falling much more rapidly than those for manufactured goods.

In Canada, grains (chiefly wheat) and in the United States, raw cotton, grains (principally wheat) and raw tobacco are the leading commodities which comprise the bulk of the exports of raw materials. It is of interest to note the results in Canada and the United States when certain staple raw materials, of farm origin, which are reproducible annually, are eliminated, such as grains, fresh fruits and vegetables, seeds and raw tobacco, for both countries, as also raw cotton for the United States. The results, for the years 1900 to 1935, are set forth in the following table:—

RAW MATERIALS EXPORTED FROM CANADA 1899-1900 TO 1935-36 AND THE UNITED STATES, 1899-1900 TO 1935

(Values in Millions of Dollars)

Fiscal Years	Canada's Exports of Raw Materials (Years ended June 30, 1900 and 1905, and March 31, 1910 to 1936)				United States Exports of Raw Materials (Years ended June 30, 1900 to 1933 and calendar years, 1933, 1934 and 1935)

It will be observed from the statistics in the following table, showing "Canada's Imports and Exports by Leading Countries, according to Degree of Manufacture", fiscal year 1935-36, that Canada's imports from those countries with highly developed manufacturing industries consist of manufactured products, and her exports to those countries are made up largely of raw and semi-manufactured products; while on the other hand Canada's trade with countries whose industries are not so highly developed consist chiefly, in the case of imports, of raw and semi-manufactured products, and in the case of exports, of manufactured products.

## CANADA'S IMPORTS AND EXPORTS BY LEADING COUNTRIES, ACCORDING TO DEGREE OF MANUFACTURE

(Fiscal Year ended March 31, 1935-36)

## CANADA'S VISIBLE MERCHANDISE TRADE BALANCE, 1935-36

There have been marked changes in recent years in Canada's visible merchandise trade balances with the principal trading countries of the world. In the fiscal year 1913-14 Canada had a favourable trade balance with the continents of Europe, Oceania and Africa, but an unfavourable trade balance with the continents of North and South America, and Asia; but in the fiscal year 1935-36 she had a favourable trade balance with the continents of Europe, North America, Oceania, and Africa, and an unfavourable trade balance with the continents of Asia and South America. Canada had a favourable trade balance with the continent of Europe in 1913-14 of \$65,032,000, which had increased to \$523,225,000 in 1919-20, but which had declined to \$426,719,000 in 1925-26, and to \$217,726,000 in 1935-36. This decline in Canada's favourable trade balance with the continent of Europe was largely due to a falling-off in her exports of grain, chiefly wheat, and also to lower average export prices. From 1913-14 to 1935-36 the number of countries in Europe with which Canada had a favourable trade balance increased from seven to thirteen. The only European countries of importance in 1935-36 with which Canada's trade balance was unfavourable were Czechoslovakia, Germany, and Switzerland. The visible merchandise trade balances with European countries do not represent the true situation, as a very large quantity of grain, especially wheat, shown in Canadian export trade statistics as destined for the United Kingdom via the United States, is diverted from its original destination, the United Kingdom, to other destinations, chiefly to continental European countries. As a result of this diversion, the credit trade balance with the United Kingdom would be materially reduced, and the trade balances with other European countries increased by a corresponding amount.

Canada's visible merchandise trade balance with the continent of North America which has been unfavourable from 1882 to 1933-34, the debit balance with the United States being responsible for this, was favourable in 1934-35 and in 1935-36. In 1913-14 the debit balance with the continent of North America amounted to \$221,739,000, but for the fiscal year 1935-36 it was favourable to the extent of \$58,013,000, while the number of countries in North America with which Canada had a debit balance was reduced from eight to four.

The Dominion's debit balance with South America in 1913-14 amounting to \$4,994,000, was increased to \$6,472,000 in 1935-36, while the debit balance in 1913-14 with the continent of Asia amounting to \$8,118,000, was reduced to \$311,000 in 1935-36; whereas the credit balance with the continent of Oceania from 1913-14 to 1935-36 increased from \$2,603,000 to \$22,456,000, and with the continent of Africa, from \$3,459,000 to \$8,341,000.

## CANADA'S TRADE BY CONTINENTS, 1935-36

Canada, during the fiscal year 1935-36, sold more goods to the continent of North America than to any other continent, her sales amounting to \$381,800,000, compared with \$372,700,000 to the continent of Europe; while her purchases from the North American continent amounted to \$335,900,000, contrasted with purchases from the continent of Europe valued at \$156,100,000. During 1935-36 the continents of Europe and North America combined took 88.9 per cent of the Dominion's total domestic exports, compared with 88.1 per cent in 1930-31. The proportion of the products exported to the continent of Europe in 1935-36 was 44.0 per cent, compared with 38.7 per cent in 1930-31; while the proportion sent to the continent of North America in 1935-36 was 44.9 per cent, compared with 49.4 per cent in 1930-31. From the fiscal year 1930-31 to 1935-36 the proportion of Canada's domestic exports to the United Kingdom increased from 27.4 to 37.9 per cent, and to other Europe decreased from 11.3 to 6.1 per cent; while the proportion exported to the United States during the same period decreased from 43.7 to 42.4 per cent, and to other North America from 5.7 to 2.5 per cent.

The continents of Europe and North America in the fiscal year 1935-36 furnished Canada with 87.4 per cent of her total imports, compared with 91.8 per cent in 1930-31. The proportion of goods received from the continent of Europe in 1935-36 was 27.7 per cent, compared with 24.7 per cent in 1930-31; while the proportion received from the continent of North America was 59.7 per cent in 1935-36, and 67.1 per cent in 1930-31. From 1930-31 to 1935-36 the proportion of Canada's imports furnished by the United Kingdom increased from 16.5 to 20.9 per cent, and from other Europe decreased from 8.2 to 6.8 per cent; while the proportion furnished by the United States during the same interval decreased from 64.5 to 56.8 per cent, and from other North America increased from 2.6 to 2.9 per cent.

## CANADA'S SEASONAL TRADE FLUCTUATIONS, 1935-36

The seasonal movement of Canada's external trade during the fiscal year 1935-36, presents no abnormal tendencies except a general decrease in the Dominion's imports and exports in each month compared with corresponding months in the fiscal years 1930-31 and 1931-32; but a general upward trend since 1931-32, the imports for 1935-36 compared with 1931-32 being down 2.7 per cent, exports up to 41.1 per cent, and total trade up 19.8 per cent. The table of "Canada's Monthly Imports and Exports, Fiscal Years 1930-31 to 1935-36" indicates that the imports for the summer and early fall months are usually greater than for the other months of the year, except for the month of March. In 1935-36 the imports showed the usual seasonal trend, reaching the highest peak during the spring, summer and fall months, declining slightly in December, with a slightly upward trend during the months of January and February. Exports, however, as a result of the influence of agricultural products, especially wheat, reach a low point during the summer months, rise to a peak during the autumn, gradually decline during the winter months, and with the opening of navigation on the river St. Lawrence in the spring, show an upward tendency. The very large increase in recent years of the exports of pulp and paper and other manufactured products, the export of which is not seasonal but almost constant, has had the effect of reducing the proportionate seasonal fluctuations of Canada's total exports. The trade figures for March in each year are usually greater for imports than for any other month, while in the case of exports, they are not as a rule as large as those for the spring and fall months, when large quantities of grain, especially wheat, are being exported. The totals for March are always greater than for April; March figures must include all entries at all Customs ports in the Dominion to the close of the fiscal year (March 31). In all other months the import and export records are closed at Ottawa on the last day of the month. Late import and export entries (which in the case of the great, but distant port of Vancouver, may cover a week's or

ten days' business at the end of each month) are regularly included in totals for the succeeding month. April totals include nothing for March, while they are short some amounts carried forward into May.

#### CANADA'S IMPORTS FROM FORTY LEADING COUNTRIES, 1935-36

Statistics in the following table re Imports from Forty Leading Countries, indicate that Canada's imports show increases in thirty-three out of the forty countries listed in the fiscal year ended March 31, 1935-36, compared with the fiscal year 1932-33; in thirty-four compared with 1933-34; and in twenty-nine compared with 1934-35. The forty countries listed are representative countries, as the imports from these countries comprise about ninety-nine per cent of Canada's total imports. The imports in the fiscal year 1935-36 compared with 1932-33 increased 38.5 per cent; from Empire countries the increase was 47.6 per cent, and from foreign countries, 34.6 per cent; compared with 1933-34 the increase in total imports was 29.7 per cent; from Empire countries, 26.6 per cent, and from foreign countries, 31.2 per cent; and compared with 1934-35 the increase was 7.7 per cent; the increase from Empire countries amounting to 13.8 per cent, compared with 5.1 per cent from foreign countries. In the fiscal year 1932-33 Empire countries furnished Canada with 29.6 per cent of her imports, and foreign countries with 70.4 per cent; but in 1935-36 the Empire's share in Canada's imports was 31.6 per cent, and foreign countries 68.4 per cent. Of the total increase in Canada's imports from 1934-35 to 1935-36, amounting to \$40,288,000 or 7.7 per cent, Empire countries accounted for \$21,535,000 or 53.5 per cent of the total increase, and foreign countries for \$18,753,000 or 46.5 per cent.

The statistics in the following table also show that the United States and the United Kingdom furnished Canada in the fiscal year 1935-36 with 77.7 per cent of her total imports. The United States each year since 1882 has supplied the Dominion with the largest proportion of its imports, amounting to 56.8 per cent in 1935-36, compared with 57.2 per cent in 1932-33; 54.9 per cent in 1933-34; and 58.1 per cent in 1934-35. The United Kingdom ranks next in order of importance by a very wide margin, supplying Canada with 20.9 per cent of her total imports in 1935-36, compared with 21.3 per cent in 1932-33; 24.2 per cent in 1933-34, and with 21.4 per cent in 1934-35. The proportion of the imports from the United Kingdom, amounting to 24.2 per cent in 1933-34, was greater than for any year since 1911. With reference to supplies from other countries, Germany occupied third position in the years 1932-33, 1933-34, 1934-35, and 1935-36, while France occupied fourth place in the years 1932-33, 1933-34, and 1934-35, but in 1935-36 moved down to seventh place. British India and Australia in Canada's import trade in 1933-34 and 1934-35 occupied fifth and sixth positions respectively; in 1932-33 seventh and fifth positions; and in 1935-36, fourth and fifth positions respectively. In 1935-36 the

British Straits Settlements occupied sixth place in the Dominion's import trade, being in thirty-ninth place in 1932-33; Belgium moved up to eighth position in 1935-36, being in tenth position in 1932-33; while from 1932-33 to 1935-36 British South Africa moved from sixth down to ninth place; and British Guiana moved from eighteenth up to tenth place.

In the fiscal year 1867-68, 89.9 per cent of Canada's imports was obtained from the United Kingdom and United States, the proportions being:—United Kingdom, 56.1 per cent; United States, 33.8 per cent. In 1899-1900, 84.9 per cent of the Dominion's imports was furnished by the same two countries, the proportions being:—United Kingdom, 25.7 per cent; United States, 59.2 per cent; whereas in 1935-36, 77.7 per cent of Canada's total imports came from the United Kingdom and the United States, the proportion for each being: United Kingdom 20.9 per cent, United States 56.8 per cent. From 1867-68 to 1935-36 the proportion of the imports into Canada from the United Kingdom fell from 56.1 to 20.9 per cent of the total, while the proportion from

the United States rose from 33.8 to 56.8 per cent. The proportionate loss in imports from the United Kingdom, 1867-68 to 1935-36, amounted to 35.2 per cent of the total, the United States absorbing 23.0 per cent, and Other Countries 12.2 per cent of this amount. If the United Kingdom from 1867-68 to 1935-36 had been able to hold her proportion of Canada's imports trade, imports from the United Kingdom in 1935-36 would have been valued at \$315,685,000, compared with an import from the United States valued at \$190,199,000, and Other Countries, \$56,835,000. As Canada developed industrially she had to go afield for certain raw materials, such as cotton, rubber, fibres, etc., and semi-manufactured products, for her expanding manufacturing industries, which could not be obtained directly from the United Kingdom, and consequently it was largely due to her industrial expansion that the proportion of Canada's imports from the United Kingdom fell off.

The imports into Canada from the United Kingdom, the United States, and Other Countries, with proportions imported from each during certain selected years, were:—

Fiscal Years	From United Kingdom		From United States		From Other Countries

### CANADA'S DOMESTIC EXPORTS TO FORTY LEADING COUNTRIES, 1935-36

Statistics in the following table re Domestic Exports to Forty Leading Countries indicate that Canada's exports show increases in twenty-eight out of the forty countries listed, in the fiscal year ended March 31, 1935-36, compared with the fiscal years 1932-33 and 1933-34; and in twenty-four countries in the fiscal year 1934-35. The forty countries listed are representative countries, as the exports to these countries comprise about ninety-eight per cent of Canada's total domestic exports. The domestic exports in the fiscal year 1935-36 compared with 1932-33 increased 60.8 per cent; the increase to Empire countries amounting to 79.8 per cent, and to foreign countries to 47.0 per cent; compared with 1933-34 the increase in the domestic exports amounted to 27.5 per cent; to Empire countries the increase was 17.8 per cent, and to foreign countries, 37.5 per cent; and compared with 1934-35 the increase was 12.2 per cent; to Empire countries, 11.5 per cent, and to foreign countries, 29.1 per cent. In the fiscal year 1932-33 Canada's domestic exports to Empire countries amounted to 42.1 per cent of her total domestic exports, and to foreign countries, 57.9 per cent; but in 1935-36 the exports to Empire countries had increased to 47.0 per cent; while exports to foreign countries had decreased to 53.0 per cent. Of the total increase in the domestic exports of Canada from 1934-35 to 1935-36, amounting to \$92,404,000, or 12.2 per cent, Empire countries accounted for \$41,111,000 or 44.5 per cent of the total increase, and foreign countries for \$51,293,000 or 55.5 per cent.

The statistics in the following table also show that the United Kingdom and the United States, in the fiscal year 1935-36, took 80·3 per cent of the Dominion's total domestic exports, the proportions for each being: the United Kingdom, 37·9 per cent, and the United States, 42·4 per cent. In the fiscal year 1932-33 the United Kingdom took 34·9 per cent of Canada's domestic exports; in 1933-34, 43·3 per cent; and in 1934-35, 38·4 per cent; while the United States in 1932-33 took 37·3 per cent; in 1933-34, 33·0 per cent; and in 1934-35, 40·3 per cent. Of the other leading markets for Canadian products, Australia in 1934-35 and 1935-36 occupied third position, being in tenth position in 1932-33, and sixth position in 1933-34; while Japan occupied fourth position in 1933-34, 1934-35, and 1935-36, but sixth position in 1932-33. British South Africa occupied fifth place in the years 1934-35 and 1935-36, being in thirteenth place in 1932-33, and ninth place in 1933-34; while Belgium occupied sixth position in 1934-35, and 1935-36, being in fourth position in 1932-33, and fifth in 1933-34. In 1935-36 New Zealand occupied seventh position, the Netherlands eighth, and France ninth place, but in 1932-33 New Zealand was in fifteenth place; in 1933-34 in twelfth position; and in 1934-35 in ninth position; while the Netherlands occupied third position in 1932-33 and in 1933-34, and seventh place in 1934-35; and France fifth place in 1932-33; seventh in 1933-34, and eighth in 1934-35.

In the fiscal year 1867-68 the exports to the United Kingdom and the United States combined represented 89·2 per cent of the total domestic exports, the proportions being: United Kingdom, 36·9 per cent; United States 52·3 per cent. In 1899-1900 similar exports to the United Kingdom and the United States were 91·3 per cent of the total domestic exports, the proportions being: United Kingdom, 57·1 per cent; the United States, 34·2 per cent; while for the year 1935-36 the domestic exports from Canada to the same two countries represented 80·3 per cent, the proportions for each being: United Kingdom, 37·9 per cent, compared with 38·4 in 1934-35; and the United States 42·4 per cent, compared with 40·3 per cent in 1934-35. From 1867-68 to 1899-1900 Canada's domestic exports to the United Kingdom increased from 36·9 to 57·1 per cent of the total exports, while those to the United States decreased from 52·3 to 34·2 per cent; whereas from 1899-1900 to 1935-36 domestic exports to the United Kingdom decreased from 57·1 to 37·9 per cent of the total exports, and those to the United States increased from 34·2 to 42·4 per cent.

The domestic exports from Canada to the United Kingdom, the United States, and Other Countries, with proportions exported to each, during certain selected years were:—

Fiscal Years	To United Kingdom		To United States		To Other Countries

## CANADA'S IMPORTS OF ONE HUNDRED LEADING COMMODITIES, 1935-36

The statistics in the following table showing "Canada's Imports of One Hundred Leading Commodities, 1935-36", indicate that the total declared value of these commodities amounted to \$456,422,000, or 81.1 per cent of Canada's total imports. Last year similar imports were valued at \$426,602,000, so that the increase in the value of the one hundred leading commodities amounted to \$29,820,000. Of the one hundred commodities listed in 1935-36, sixty-nine show increases in the value, and thirty-one decreases, compared with similar imports in 1934-35. Of the fifty-one commodities for which there were quantity statistics in 1935-36, thirty-one show increases in both the quantity and the value; seven show increases in the quantity, but decreases in the value; ten show decreases in both the quantity and the value; and three show decreases in the quantity but increases in the value. Of the forty-nine commodities for which there were no quantity statistics, being entered at value only, thirty-five show increases, and fourteen decreases. In the case of the fifty-one commodities for which there were quantity statistics, thirty-three of these were imported at a lower average price per unit in 1935-36 than in 1934-35, and eighteen at a higher average import price. Those commodities imported at a lower average price per unit were valued at \$192,948,000, while those imported at a higher average price per unit were valued at \$70,292,000. The total value of the forty-nine commodities for which there were no quantity statistics amounted to \$193,182,000. Thirty-five of these valued at \$167,296,000 show increases in 1935-36 compared with 1934-35, and fourteen valued at \$25,886,000 show decreases.

## CANADA'S IMPORTS FOR CANADIAN INDUSTRIES, 1935-36

An analysis of the statistics in the following table giving "Imports of Sixty-Seven Leading Commodities for Canadian Industries, 1935-36", indicates that more than forty per cent of Canada's total imports comprise commodities for use of the various industries of the Dominion. The total value of the sixty-seven commodities for Canadian industries in the fiscal year 1935-36 amounted to \$219,497,000, compared with a similar import in 1934-35 valued at \$202,053,000, the increase in 1935-36 over 1934-35 amounting to \$17,444,000, or 8.6 per cent. If you eliminate from the total value of Canada's imports in 1934-35 and 1935-36 the total value of commodities imported for Canadian industries in these years, the total value of the imports of commodities not for Canadian industries in 1934-35 amounted to \$320,378,000, and in 1935-36 to \$343,212,000, the increase in the imports of commodities not for Canadian industries, 1935-36 compared with 1934-35, amounting to \$22,834,000, or 7.4 per cent. The value of imports of commodities not for Canadian industries, 1935-36 compared with 1934-35 increased 7.4 per cent, while the value of the imports of commodities for Canadian industries increased 8.6 per cent.

In 1935-36, 51.4 per cent of the sixty-seven commodities listed in the table for Canadian industries, comprised raw materials; 20.4 per cent, semi-manufactured products; and 28.2 per cent, fully manufactured products; while the total value of Canada's imports for Canadian industries, 1935-36, classified according to degree of manufacture, with increase over the year 1934-35, was: Raw materials, imports, \$112,892,000, increase \$5,848,000, or 5.4 per cent; semi-manufactured products, imports, \$44,636,000, increase \$7,713,000, or 20.9 per cent; and fully manufactured products, imports \$61,969,000, increase \$3,883,000, or 6.7 per cent.

A further analysis of the statistics in the table shows that forty-nine of the sixty-seven commodities listed had increases in 1935-36, compared with 1934-35, and eighteen had decreases. Of the fifty-three commodities for which there were quantity statistics in 1935-36, thirty-three had increases in both the quantity and value; four had increases in the quantity but decreases in the value; twelve had decreases in both the quantity and the value; while four had decreases in the quantity but increases in the value. Of the fourteen commodities entered at value only, twelve had increases, and two decreases.

An analysis also shows that twenty-seven of the fifty-three commodities imported for Canadian industries, for which there were quantity statistics, valued at \$58,363,000, were imported at a higher average price per unit in 1935-36 than in 1934-35 and twenty-six, valued at \$120,116,000,

at a lower average price per unit; while twelve of the fourteen commodities which were entered at value only, of a value of \$39,415,000, show increases, and two, of a value of \$1,602,000, decreases.

CANADA'S IMPORTS OF SIXTY-SEVEN LEADING COMMODITIES FOR CANADIAN INDUSTRIES  
(Fiscal Year ended March 31, 1935-36 compared with 1934-35)

# CANADA'S DOMESTIC EXPORTS OF EIGHTY-SIX LEADING COMMODITIES, 1935-36

The statistics in the following table giving "Canada's Domestic Exports of Eighty-Six Leading Commodities, 1935-36", show that the total value of these commodities was \$801,618,000, or 94.4 per cent of the Dominion's total domestic exports. Last year similar exports were valued at \$719,927,000, so that the increase in the value of these commodities in 1935-36 compared with 1934-35 totalled \$81,691,000. Sixty-four of the eighty-six commodities listed show increases, 1935-36 compared with 1934-35, and twenty-two decreases. Of the fifty-eight commodities for which there were quantity statistics, thirty-three had increases in both the quantity and the value; one had an increase in the quantity but a decrease in the value; fifteen had decreases in both the quantity and the value; while nine had decreases in the quantity but increases in the value. Of the twenty-eight commodities for which there were no quantity statistics, being entered at value only, twenty-two had increases, and six decreases. An analysis also shows that of the fifty-eight commodities listed for which there were quantity statistics, thirty-four of these were exported at a higher average export price per unit in 1935-36 than in 1934-35, and twenty-four at a lower average export price. The total value of the thirty-four commodities exported for which the average export price was higher in 1935-36 than in 1934-35, amounted to \$478,681,000, while the total value of the twenty-four commodities for which the average export price was lower, amounted to \$219,047,000. The value of the twenty-eight commodities for which there were no quantity statistics, was \$103,890,000, twenty-two of which of a value of \$92,135,000 had increases, 1935-36 compared with 1934-35, and six of a value of \$11,755,000, decreases.

## CANADA'S TRADE VIA THE UNITED STATES, 1935-36

Canada's imports from overseas countries via the United States have steadily declined in recent years, especially those from the British Empire. This decrease has resulted from:— (1) general propaganda to utilize Canada sea and river ports; (2) additional concessions to goods imported under the British Preferential tariff if imported direct; and (3) provision in trade treaties and agreements negotiated with foreign countries that goods must be imported direct in order to obtain the full benefits of special rates of duty.

There was an increase in imports from overseas countries via the United States during the fiscal year 1935-36 compared with similar imports in 1931-32, of \$1,321,940; the decrease in the imports from the British Empire amounting to \$617,258, while from foreign countries the increase was \$1,939,198. The imports via the United States in 1935-36 were greater than for the past four fiscal years. The statistics in the following table provide an analysis of this feature of Canada's import trade for the last five fiscal years:—

## IMPORTS INTO CANADA VIA THE UNITED STATES

Imports from—	Fiscal Years ended March 31—				
	1931-32	1932-33	1933-34	1934-35	1935-36
United Kingdom via United States.....\$	202,454	222,373	94,220	73,048	97,126
Per cent of Total Imports from United Kingdom....	0.19	0.26	0.09	0.07	0.08
Other British Empire via United States.....\$	659,924	133,282	186,149	620,463	147,994
Per cent of Total Imports from Other British Empire....	1.59	0.39	0.53	1.59	0.25
Foreign Countries via United States.....\$	4,097,946	2,709,502	3,346,348	4,666,637	6,037,144
Per cent of Total Imports from Foreign Countries....	5.19	5.07	6.06	7.45	9.21
Total Imports via United States.....\$	4,960,324	3,065,157	3,626,717	5,360,148	6,282,264
Per cent of Total Imports from Overseas Countries	2.19	1.76	1.85	2.45	2.58

The exports from Canada to overseas countries via the United States show a decided decrease during recent years, although there was an upward trend in the fiscal year 1935-36 compared with the fiscal years 1931-32 to 1934-35. The proportions of Canada's exports via the United States for the fiscal year 1931-32 amounted to 18.72 per cent; 1932-33, 14.18 per cent; 1933-34, 14.41 per cent, 1934-35, 17.28 per cent and 1935-36, 18.43 per cent. From 1931-32 to 1935-36, the proportion of the Dominion's exports to the United Kingdom via the United States decreased from 25.53 to 16.55 per cent; while the exports to other Empire countries via the United States increased during this period from 10.09 to 19.27 per cent; and to foreign countries, from 12.19 to 24.45 per cent. When adjustments are made for the re-routing of Canadian barley, oats, rye and wheat from United States lake ports, via the St. Lawrence route for ocean shipment at Canadian sea or river ports, chiefly Montreal, it will be found that the proportions of Canada's exports to overseas countries via the United States will be considerably decreased and those via Canadian sea or river ports increased by a similar amount. The total value of commodities exported to overseas countries via the United States in 1935-36 was \$25,856,104 greater than for the fiscal year 1931-32. Comparisons for the past five years were as follows:—

## EXPORTS FROM CANADA VIA THE UNITED STATES

Exports to—	Fiscal Years ended March 31—				
	1931-32	1932-33	1933-34	1934-35	1935-36
United Kingdom via United States.....\$	44,683,160	29,611,608	30,674,215	43,284,102	53,238,852
Per cent of Total Exports to United Kingdom.....	25.53	15.99	13.48	15.79	16.55
Other British Empire via United States.....\$	4,593,668	4,093,682	7,340,575	12,545,389	14,990,333
Per cent of Total Exports to Other British Empire....	10.09	10.74	14.56	18.64	19.27
Foreign Countries via United States.....\$	14,963,964	13,382,820	17,456,208	19,394,756	21,867,711
Per cent of Total Exports to Foreign Countries.....	12.19	12.29	16.32	20.70	24.45
Total Exports via United States.....\$	64,240,792	47,088,110	55,470,998	75,224,247	90,096,896
Per cent of Total Exports to Overseas Countries..	18.72	14.18	14.41	17.28	18.43

The statistics in the following table giving "Principal Commodities Exported from Canada to Overseas Countries via the United States and via Canadian Sea or River Ports, 1935-36," illustrate the details of this movement. The 45 commodities listed are representative of the Dominion's exports to overseas countries, as they comprise 81.8 per cent of the total exports to overseas countries; and they also represent 89.5 per cent of all goods shipped to overseas countries via the United States, and 80.0 per cent of those going via Canadian sea or river ports. During the past few years a considerable amount of Canadian grain exported from Fort William and Port Arthur to overseas countries via the United States has been re-routed from United States lake ports for shipment via Canadian sea or river ports, chiefly at Montreal. The amount of Canadian grain re-routed for export at Montreal or other Canadian ports during the calendar years 1928 to 1935 was:—

Grains	1928	1929	1930	1931	1932	1933	1934	1935
	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels	Bushels
Barley.....	3,085,000	1,035,000	1,114,000	1,593,000	1,594,000	21,000	—	—
Oats.....	394,000	213,000	65,000	153,000	19,000	—	—	—
Rye.....	2,589,000	193,000	399,000	1,575,000	1,178,000	715,000	—	146,000
Wheat.....	51,172,000	15,186,000	15,298,000	5,668,000	11,899,000	6,146,000	2,031,000	7,686,000
Total.....	57,240,000	16,627,000	16,876,000	8,989,000	14,690,000	6,882,000	2,031,000	7,832,000

This re-routed Canadian grain was not recorded as an export at Montreal or other Canadian ports because it had already been recorded as an export at Fort William or Port Arthur. It was recorded, however, as "intransit" grain from the United States via the Port of Montreal or other Canadian ports. In order to obtain the actual amount of barley, oats, rye and wheat shipped via Canadian sea or river ports, this re-routed Canadian grain should be added to the quantity already thus recorded and deducted from the quantity shown as exported via United States channels. When adjustments are made the actual quantities of barley, oats, rye and wheat exported to overseas countries via the United States (indirect) and via Canadian sea or river ports (direct) during the fiscal years 1931-32 to 1935-36 were:—

Grains	Fiscal Years ended March 31—					Percentage of Total				
	1931-32	1932-33	1933-34	1934-35	1935-36	1931-2	1932-3	1933-4	1934-5	1935-6

### CANADA'S POSITION IN INTERNATIONAL TRADE, 1935

Canada, during the calendar year 1935, has maintained a relatively high place amongst the principal trading countries of the world. The statistics in the following table giving "Comparison of the Trade of Twenty Principal Countries of the World", indicate that from 1913 to 1935, ten countries had increases in imports, viz.: Australia, Denmark, Japan, New Zealand, Norway, Sweden, Switzerland, Union of South Africa, the United Kingdom, and the United States; eleven in exports, viz.: Argentina, Australia, Brazil, Canada, Denmark, Japan, New Zealand, Norway, Sweden, Switzerland, and Union of South Africa, and twelve in aggregate trade, viz.: Argentina, Australia, Brazil, Canada, Denmark, Japan, New Zealand, Norway, Sweden, Switzerland, Union of South Africa, and the United States.

Canada, in export trade, occupied fifth place this year (1935) as last year, and, consequently, was exceeded in value of exports, in order of importance, by the United States, the United Kingdom, Germany, and France; in import trade Canada occupied ninth place as last year, and thus in 1935 she was exceeded in value of imports, in order of importance, by the United Kingdom, the United States, Germany, France, Japan, the Netherlands, Italy, and Belgium; while in aggregate or total trade she occupied sixth place, as last year, and, consequently, Canada, in value of aggregate or total trade, in order of importance, was exceeded by the United Kingdom, the United States, Germany, France, and Japan. In export trade Canada, in 1913, occupied tenth place amongst the leading commercial countries of the world, but in 1935 she had moved up to fifth place; in import trade in 1913 Canada occupied eighth position, but in 1935 she had moved down to ninth position; while in aggregate or total trade Canada, in 1913, occupied ninth

place, but in 1935 she occupied sixth place. During the past twenty-three years Canada has occupied the following positions amongst the leading commercial countries of the world in respect of her foreign trade.

Calendar Years	Total Trade	Import Trade	Export Trade	Calendar Years	Total Trade	Import Trade	Export Trade

1922.....	5	7	5	1934.....	6	9	5
1923.....	5	6	6	1935.....	6	9	5
1924.....	6	10	6				

In trade per capita Canada has made a very creditable showing since 1913. In that year she occupied seventh place in exports per capita, but in 1935 she occupied second place, being exceeded in exports per capita by New Zealand. In imports per capita in 1913 Canada occupied fifth place, but in 1935 she moved into tenth place, being exceeded in imports per capita by Switzerland, New Zealand, Denmark, the Netherlands, the United Kingdom, Belgium, Norway, Sweden, and Australia. In aggregate or total trade per capita Canada in 1935 occupied sixth position amongst the chief trading countries of the world, as in 1913, being exceeded in aggregate or total trade per capita by New Zealand, Switzerland, Denmark, Belgium, and the Netherlands. In 1935 the trade per capita of the six leading countries, arranged in order of importance of total trade per capita was: New Zealand, total trade, \$208.54; imports, \$91.21; exports, \$117.33; Switzerland: total trade, \$165.94; imports, \$101.15; exports, \$64.79; Denmark: total trade, \$149.30; imports, \$76.70; exports, \$72.60; Belgium: total trade, \$141.37; imports, \$73.27; exports, \$68.10; the Netherlands: total trade, \$130.70; imports, \$75.93; exports, \$54.77; and Canada: total trade, \$124.45; imports, \$49.07; exports, \$75.38.

With reference to visible merchandise trade balance Canada, in 1913, occupied seventeenth position amongst the leading commercial countries of the world, it being unfavourable in that year to the extent of \$222,900,000, or \$29.61 per capita, but in 1935 she was in first position with a favourable trade balance of \$288,000,000, or \$26.31 per capita. In 1929 Canada occupied fourth place in amount of favourable trade balance, being exceeded by the United States, Germany, and Australia. In 1934, as in 1913, the United States was in first place in amount of favourable trade balance. On December 31, 1935, Canada stood in first place amongst the principal commercial countries of the world with respect to the amount of her favourable trade balance, as also with respect to her favourable trade balance per capita.

For more detailed information relative to Canada's position in international trade in recent years, see statistics in the following tables indicating (a) Comparison of the Trade of Twenty Principal Countries of the World, 1913 and 1935; (b) Trade of Twenty Principal Trading Countries of the World, 1925 to 1935; (c) Per Capita Trade of Twenty Principal Countries of the World, 1925 to 1935; (d) Trade Balances of Twenty Principal Countries of the World, 1913, 1934, and 1935; and (e) Trade Balances per Capita of Twenty Principal Countries, 1913, and 1930 to 1935.

## CANADA'S SHARE OF WORLD TRADE, 1934

Canada has made remarkable progress in the expansion of her trade in the world's principal markets. It will be noted from the statistics in the following tables, Nos. 1 and 2, showing "Canada's Share in the Imports and Exports of Principal Countries" that in 1913 the total trade of these countries (forty leading countries) amounted to \$34,868,143,000, imports amounting to \$18,257,000,000, and exports to \$16,611,143,000; but in 1934 the total trade of the identical countries was \$30,390,658,000, imports totalling \$15,740,467,000, and exports \$14,650,191,000, the decrease from 1913 to 1934 being: In total trade, \$4,477,485,000 or 12.7 per cent; in imports,

\$2,516,533,000 or 13·8 per cent; and in exports, \$1,960,952,000 or 12·8 per cent. During the same years, viz.: 1913 and 1934 the trade of these same countries with Canada was: 1913, total trade, \$918,208,000; imports from, \$355,222,000; and exports to, \$562,986,000; in 1934, total trade, \$1,124,163,000; imports from \$648,440,000; and exports to, \$475,723,000, the increase in the trade with Canada, 1913 to 1934 being: In total trade, \$205,955,000, or 22·4 per cent; in imports from, the increase was \$293,218,000, or 82·5 per cent; and in exports to, the decrease was \$87,263,000 or 15·5 per cent. From 1913 to 1934 the total trade of the forty leading countries listed in Tables Nos. 1 and 2, decreased 12·7 per cent, but with Canada the increase was 22·4 per cent; imports into the identical countries decreased 13·8 per cent, but from Canada the increase was 82·5 per cent; while the exports from the same countries decreased 12·8 per cent, but to Canada the decrease was 15·5 per cent. Canada's share in the trade of these countries was: Imports, in 1913, 1·95 per cent, in 1934, 4·12 per cent; in exports, in 1913, 3·39 per cent, in 1934, 3·25 per cent.

In 1934 Canada's stated imports from the forty countries listed amounted to \$504,484,000, but the recorded exports from these countries to Canada were valued at \$475,723,000, a discrepancy in favour of Canada of \$28,761,000. The discrepancy, however, between Canada's imports from European countries, and the recorded exports from European countries to Canada, amounting to \$18,861,000, was in favour of Canada. The discrepancy between Canadian imports from the continent of North America, and the recorded exports from the continent of North America to Canada was also in favour of Canada, and amounted to \$10,277,000, while the discrepancy between imports into Canada from South America, Asia, Oceania and Africa, and the recorded exports from these continents to Canada, amounted to only \$377,000.

With reference to the movement of goods from Canada in the calendar year 1934 to the various markets of the world, the declared exports to the forty leading countries amounted to \$640,696,000; while the recorded imports into the forty countries from Canada totalled \$648,440,000, a discrepancy between the two sets of figures of \$7,744,000 in favour of the forty countries. The discrepancy between the exports from Canada to the specified European countries in 1934 and their imports from Canada amounted to only \$1,592,000, while the discrepancy between Canada's exports to specified North American countries, and their imports from Canada amounted to only \$1,644,000. The discrepancy between the imports into the continents of South America, Asia, Oceania, and Africa, and Canada's exports to these continents in 1934 amounted to \$4,508,000, the discrepancy occurring chiefly in the exchange of commodities between Canada and South America, and Canada and Asia.

The particulars are set out in the following table, calendar year 1934:

Principal Countries of	Canada's Imports from	Recorded Exports to Canada	Canada's Exports to	Recorded Imports from Canada
	\$	\$	\$	\$
Europe.....	146,165,000	127,304,000	324,490,000	326,082,000
North America.....	308,576,000	298,299,000	241,575,000	243,219,000

### CANADA'S EXPORTS COMPARED WITH EXPORTS OF OTHER COUNTRIES, 1935

Canada, in the production and exportation of many staple products leads the world. In the production of asbestos, newsprint paper and nickel in 1935 she led the world; in the production of copper and zinc she occupied third place; fourth place in the production of gold and lead; fifth place in the production of automobiles; and seventh place in the production of wheat, with 277,339,000 bushels, being exceeded by Russia with 1,151,161,000 bushels; China (production not available for 1935); the United States with 603,199,000 bushels; British India with 363,029,000 bushels; Italy with 283,454,000 bushels; and France with 278,563,000 bushels. Argentina, however, occupied eighth place, with a production of 144,033,000 bushels. In export trade the Dominion led the world in 1935 in the exports of asbestos, newsprint paper, nickel and wheat; occupied second place in the exports of wheat flour, Australia being in first place and the United States in third place. Canada occupied third place in exports of automobiles, being exceeded by the United States and the United Kingdom, and fourth place in the exports of rubber tires and wood pulp, being exceeded in the exports of rubber tires by the United Kingdom, the United States and France, and in exports of wood pulp by Sweden, Finland, and Norway. The exports of these staple products from Canada make up about 50 per cent of the Dominion's total domestic exports. Canada also ranks high in the world's exports of many other staple products such as lumber and timber, fish, copper, barley, cheese, raw furs, whiskey, meats, farm implements, cattle, raw gold, silver, rye, oats, rubber footwear, leather and hides.

### AUTOMOBILE STATISTICS, 1935

The growth of the automobile industry is one of the most remarkable industrial developments of the twentieth century. Thirty years ago the automobile was emerging from the experimental stage, and the world production consisted of a few thousand cars. According to "Automobile Facts and Figures", issued by the Automobile Manufacturers Association at New York, the estimated world output in 1929 was 6,277,451 cars, although in 1935 the output had declined to 5,126,680 cars. (In 1933 the output was 2,675,619 cars, and in 1934, 3,728,968 cars.) Canada has made rapid progress in recent years in the production and exportation of automobiles. In production Canada in 1935 occupied fifth place, with 172,877 cars, made up of 135,562 passenger cars and 37,315 motor trucks and buses; while in 1929 her production was 262,625 cars. The United States occupied first place in 1935 with a production of 3,946,934 cars, of which 3,252,244 were passenger cars, and 694,690 motor trucks and buses. The United Kingdom occupied second place with an output of 416,915 cars; Germany third place with 242,934 cars; and France fourth place with 179,270 cars. In 1917 Canada's production was 93,810 automobiles, although from 1904 to 1916 the total production was only 135,000 cars. Canada's exports of automobiles for the fiscal year 1905-06 (the first year for which export statistics of automobiles are available) were only 67 cars, valued at \$63,329; in the fiscal year 1910-11 the exports were 627 cars, valued at \$595,746; ten years later, (fiscal year 1920-21), the exports had increased to 19,910 cars, valued at \$13,979,121, made up of passenger cars 15,620, of a value of \$11,376,268, and motor trucks 4,290, of a value of \$2,602,853; while for the fiscal year 1935-36 the exports were: 67,331 cars, valued at \$23,886,030, consisting of 49,911 passenger cars valued at \$17,727,901, and 17,420 motor trucks valued at \$6,158,129. Seven years ago (fiscal year 1928-29), Canada's exports of automobiles consisted of 103,566 cars valued at \$43,059,733, the passenger cars amounting to 72,108, of a value of \$31,264,999, and the motor trucks to 31,458, of a value of \$11,794,734.

From the statistics in the following table re "Exports of Automobiles from Principal Automobile-Producing Countries of the World", it will be noted that Canada occupied third place in exports of automobiles for the calendar year 1935 with 64,330 cars, the United States being in first place by a considerable margin with 272,761 cars; the United Kingdom in second place with 68,202 cars; Germany in fourth place with 24,950 cars; France in fifth place with 17,673 cars; and Italy in sixth place with 11,946 cars:—

NOTE.—In 1913, the total exports of motor cars were: United States, 26,889 cars; United Kingdom, 9,814 cars; and Canada, 6,306 cars. No statistics available in 1913 as to number of motor cars exported from France, Germany and Italy.

## NEWSPRINT PAPER PRODUCTION, 1935

Canada, according to statistics issued by the Newsprint Service Bureau, New York, led the world as a producer of newsprint paper during the calendar year 1935, as also for the years 1926 to 1934. The statistics in the following table showing "Production of Newsprint Paper for Principal Paper-Producing Countries of the World", indicate that for 1935 Canada's production of newsprint paper amounted to 5,506,000,000 pounds; the United Kingdom being second with 1,940,000,000 pounds; the United States third with 1,824,000,000 pounds; and Germany fourth with 928,000,000 pounds. The total production of newsprint paper for the world in 1935 was estimated at about 15,256,000,000 pounds, of which Canada, Newfoundland and the United States supplied 8,002,000,000 pounds, or 52.4 per cent, and Canada alone about 36.1 per cent. The estimated production of newsprint paper for eighteen of the leading paper-producing countries of the world was: 1926, 12,092,000,000 pounds; 1927, 12,706,000,000 pounds; 1928, 13,235,000,000 pounds; 1929, 14,641,000,000 pounds; in 1930, 14,230,000,000 pounds; in 1931, 13,244,000,000 pounds; in 1932, 12,550,000,000 pounds; in 1933, 12,728,000,000 pounds; in 1934, 14,534,000,000 pounds; and in 1935, 15,114,000,000 pounds.

## NEWSPRINT PAPER EXPORTS, 1935

Canada, during the calendar year 1935, occupied first place by a very wide margin among the world's chief exporters of newsprint paper, her exports being over eight times as great as those for Finland, her next competitor. From the statistics in the following table giving "Exports of Newsprint Paper from Principal Paper-Producing Countries of the World", it will be observed, that even in 1913 Canada led the world as an exporter of newsprint paper, Norway being in second place, the United Kingdom in third, and Finland in fourth place. In 1935 the total quantity of newsprint paper exported by the thirteen leading paper-exporting countries was 7,767,355,000 pounds, compared with 6,220,947,000 pounds in 1927; 6,896,475,000 pounds in 1928; 7,811,572,000 pounds in 1929; 7,378,458,000 pounds in 1930; 6,568,577,000 pounds in 1931; 6,052,077,000 pounds in 1932; 5,950,764,000 pounds in 1933; and 7,152,404,000 pounds in 1934; of which amount Canada in 1927 contributed 3,763,731,000 pounds or 60.5 per cent; in 1928, 4,413,175,000 pounds or 63.9 per cent; in 1929, 5,030,990,000 pounds or 64.4 per cent; in 1930, 4,665,019,000 pounds or 63.2 per cent; in 1931, 4,016,482,000 pounds or 61.3 per cent; in 1932, 3,553,528,000 pounds or 58.7 per cent; in 1933, 3,676,210,000 pounds or 61.7 per cent; in 1934, 4,828,547,000 pounds or 67.5 per cent; and in 1935, 5,149,974,000 or 66.3 per cent. Canada's exports of newsprint paper, therefore, exceeded the exports of the other twelve leading countries combined by 1,306,515,000 pounds in 1927; 1,929,875,000 pounds in 1928; 2,250,408,000 pounds in 1929; 1,951,580,000 pounds in 1930; 1,464,387,000 pounds in 1931; 1,054,979,000 pounds in 1932; 1,401,656,000 pounds in 1933; 2,504,690,000 pounds in 1934; and 2,532,593,000 pounds in 1935. Canada's exports of newsprint paper are greater than those of the rest of the world combined.

## RUBBER TIRE EXPORTS, 1935

Canada's rapid advance as a rubber tire producer and exporter since the war has been based on the great development of the automobile industry. In the fiscal year 1916-17, the first year for which there are export statistics of rubber tires, the exports of rubber tires from Canada were valued at \$726,768; ten years later (fiscal year 1926-27) the exports had increased to \$18,565,909; in 1929-30 the exports were valued at \$18,153,225, but in 1930-31 they had dropped to \$11,764,948; in 1931-32 to \$5,147,205; in 1932-33 to \$3,205,138; in 1933-34 to \$4,307,374; in 1934-35 to \$6,816,708; and in 1935-36 to \$7,218,730. Export figures show that when there is a marked increase or decrease in the exports of automobiles, there is also a marked increase or decrease in the exports of rubber tires, thus indicating the close relation existing between the two industries. Thus, from 1916-17 to 1926-27 the increase in the exports of automobiles was \$27,146,353, and rubber tires \$17,839,141, but from 1929-30 to 1935-36 automobiles show a decrease of \$11,421,615, and rubber tires a decrease of \$10,934,495.

It will be observed by reference to the statistics in the following table re "Exports of Rubber Tires from the Principal Rubber Tire-Producing Countries of the World", that Canada occupied

fourth position in the calendar year 1935 with an export valued at \$6,986,521, but in the years 1932 and 1933 she was in sixth position. The United Kingdom in 1935 occupied first place with an export valued at \$15,596,739; United States second place with an export valued at \$11,200,657; France third position with an export valued at \$7,581,405; Italy in fifth place with an export valued at \$3,510,173; and Germany in sixth place with an export valued at \$3,284,545.

### WHEAT EXPORTS, 1935

Canada occupied first place in the exports of wheat for the calendar year 1935, with an export of 165,673,000 bushels; Argentina second position with 141,830,000 bushels; Australia third place with 69,967,000 bushels; Russia in fourth place with 26,495,000 bushels; Hungary in fifth place with 12,155,000 bushels; and Algeria in sixth place with 9,344,000 bushels. Canada's exports of wheat for the past ten years, as also for the year 1913, have exceeded those of the United States. The Dominion's exports of wheat for the fiscal year 1899-1900 amounted to only 16,845,000 bushels; in 1909-10 they totalled 49,741,000 bushels; in 1919-20, 77,978,000 bushels; in 1930-31, 217,243,000 bushels; in 1931-32, 191,316,000 bushels; in 1932-33 to 239,373,000 bushels; in 1933-34, 175,534,000 bushels; in 1934-35, 165,702,000 bushels; and in 1935-36, 179,124,000 bushels. It will be noted by reference to the statistics in the following table showing "Exports of Wheat from Principal Wheat-Producing Countries of the World" that in 1913 Canada occupied first place as a wheat-exporting country with an export of 129,950,000 bushels; Russia being in second place with an export of 121,953,000 bushels; Argentina in third place with 103,300,000 bushels; and the United States in fourth place with 99,509,000 bushels. In 1935 the order had been changed considerably, Canada being in first place, Argentina in second, Australia in third place, Russia in fourth place, Hungary in fifth place and Algeria in sixth place. Canada having occupied first place in wheat exports for some years yielded first place to Argentina in 1929 and in 1934. Wheat occupies first place among Canada's exports.

## WHEAT FLOUR EXPORTS, 1935

Canada, since the opening of the twentieth century, has made remarkable progress in the flour-milling industry. This expansion in her flour production is reflected in the increase in the Dominion's flour exports. Today Canada ranks second amongst the countries of the world as a wheat-flour exporting country, the first being occupied by Australia, and third place by the United States. Canada's exports of wheat flour for the fiscal year 1899-1900 amounted to 768,000 barrels; ten years later they totalled 3,064,000 barrels; in 1919-20 they amounted to 8,863,000 barrels; in 1931-32 to 5,414,000 barrels; in 1932-33 to 5,268,000 barrels; in 1933-34 to 5,620,000 barrels; in 1934-35 to 4,937,000 barrels and in 1935-36 to 4,859,000 barrels, compared with 11,267,000 barrels in the fiscal year 1928-29.

It will be noted from the statistics in the following table showing "Exports of Wheat Flour from Principal Flour-Producing Countries of the World" that in 1935 Canada was in second place with an export of 4,881,000 barrels; Australia being in first place with an export of 6,987,000 barrels; the United States in third place with 3,357,000 barrels; Japan in fourth place with 3,253,000 barrels; Italy in fifth place with 2,111,000 barrels; France in sixth place with 1,724,000 barrels; and the United Kingdom in seventh place with 1,481,000 barrels. The exports of wheat flour from the United States in 1935 were 8,921,000 barrels less than in 1913; from Canada 13,000 barrels less; and from Australia 4,725,000 barrels greater. From 1930 to 1935 the wheat flour exports of the United States decreased from 13,060,000 to 3,357,000 barrels; from Canada, from 7,515,000 to 4,881,000 barrels; while the wheat flour exports from Australia during the same period increased from 4,892,000 to 6,987,000 barrels.

## WOOD PULP EXPORTS, 1935

Canada's great advance as a newsprint paper producer and exporter since the opening of the present century, has been based on the great expansion of her wood pulp industry. Canada's exports of wood pulp during the fiscal year 1889-90 were valued at only \$168,000, and in 1899-1900 at \$1,816,000. In the year 1909-10 the Dominion's exports of wood pulp amounted to 590,346,000 pounds, value \$5,205,000; in 1919-20, or ten years later, they amounted to 1,538,958,000 pounds, value \$41,383,000; and in 1935-36 to 1,372,288,000 pounds, value \$28,104,000. The decrease in the exports of wood pulp from Canada from 1919-20 to 1935-36 is chiefly due to the fact that year by year larger quantities of wood pulp are used in the Canadian paper industry in the manufacture of newsprint and other forms of paper, and consequently the product is being exported in a manufactured form (paper) rather than in a semi-manufactured form (wood pulp). According to statistics in the following table giving "Exports of Wood Pulp from Principal Wood Pulp-Producing Countries of the World", Canada, during the calendar year 1935, occupied fourth position among the world's exporters of wood pulp, with an export of 1,324,949,000 pounds; the first place being held by Sweden, with an export of 5,353,217,000 pounds; Finland was in second place with an export of 3,567,648,000 pounds; while Norway was in third place with an export of 1,674,590,000 pounds. In exports of chemical pulp in 1935 Canada occupied third position, with an export of 1,064,214,000 pounds, the first place being held by Sweden, by a wide margin, with an export of 4,075,538,000 pounds; and second place by Finland with an export of 2,407,328,000 pounds. With regard to exports of mechanical pulp, Canada occupied fourth place in 1935, with an export of 260,735,000 pounds, the first, second and third places being held by Sweden with 1,277,679,000 pounds; Finland 1,160,320,000 pounds and Norway 1,036,964,000 pounds. In 1913 Sweden occupied first place as an exporter of wood pulp, Norway second place, and Canada third.

### HISTORICAL SUMMARY OF CANADA'S TRADE BY DECADES, FISCAL YEARS, 1889-90 TO 1929-30 AND 1935-36

Canada's import and export trade has changed very materially since 1889-90, both as to its origin and destination as well as in its character. The statistics in the following Tables Nos. 1 and 2, relative to Canada's imports and exports, by countries, indicate that the Dominion's trade, both import and export, and especially export, with "Other Countries", i.e., countries, except the United Kingdom and the United States, made very little progress from 1889-90 to 1899-1900, or even 1909-10, but that from 1909-10 on, there was a marked improvement in this trade. This betterment in Canada's trade with "Other Countries" was no doubt due to the provision in the Customs Tariff Act, 1907, for the extension of benefits of the British Preferential Tariff, in whole or in part, to any British Country and the benefits of the Intermediate Tariff, in whole or in part, to any British or foreign country that grants trade benefits to Canada satisfactory to the Governor in Council. Prior to 1907 Canada had no bargaining machinery of this kind. In 1889-90 Canada's imports from "Other Countries" amounted to \$17,041,000; in 1899-1900 they totalled \$26,146,000; in 1909-10 they had increased to \$56,976,000; in 1919-20 to \$137,068,000 and in 1929-30 to \$211,652,000; but due to the world-wide depression and the fall in commodity prices the imports from "Other Countries" in 1935-36 had declined to \$125,365,000. The Dominion's domestic exports to "Other Countries" in 1889-90 were valued at \$7,546,000; in 1899-1900 at \$14,413,000; in 1909-10 they were valued at only \$35,565,000; in 1919-20 at \$286,311,000; and by 1929-30 they amounted to \$323,462,000; but in 1935-36, owing to unstable trade conditions and decline in commodity prices, the exports to "Other Countries" had declined to \$167,171,000. Compared with 1929-30, Canada's imports in 1935-36 from "Other Countries" show a decrease of \$86,287,000, and exports to, a decrease of \$156,291,000, the decline in the trade, both import and export, being due to decreases in both the value and the volume. The decrease in the value was more pronounced than in the volume, due to drastic decline in commodity prices.

By reference to Tables Nos. 3 and 4 which show the trend of Canada's imports and exports of commodities since 1889-90, it will be noted that there has been a marked change in the character of the Dominion's imports and exports, as well as in the importance of the various commodities which comprise the import and export trade. In the imports and exports of leading commodities from 1889-90 to 1935-36, it will be observed that commodities that occupied an important position in Canada's import and export trade in 1889-90 have, due to economic changes in the industrial life of the country, been materially changed in their importance in relation to other commodities in 1935-36.

# CONDENSED PRELIMINARY TRADE REPORT
